MEMBERSHIP REPORT

By K7MF

Here is the 1978 annual report on the RCT membership.

At the start of the year (1-1-78) there were 240 members and as of 12-10-78 there were 270 members. This is an increase of 12.5%.

A break-down of the 270 members, according to the December 1978 callbook, shows the following:

Members	%	Class of license
23	8.51	Novice
56	20.74	Technician
2	.74	Conditional
72	26.67	General
72	26.67	Advanced
24	8.89	Extra
21	7.78	No License

Congratulations to the 53 members who up-graded in 1978.

LETTER TO ALL

Lakebay, Wash.
December 10, 1978

Dear Members:

For myself and my family, please accept our sincere thanks for the many cards of sympathy, flowers, plants and memorial contributions in memory of my wife Sophia. Also thanks to those who sent personal notes of condolence. They brought much comfort in our sorrow. Again to the Radio Club of Tacoma and the Auxiliary, many thanks.

..Sincerely,
The family of Bob

ARTHUR W. GILMORE - EX W7MR

After some years of searching for news of one of Tacoma's radio hams, one of our club members (Rufus Parker N7AEQ) got us in touch with Art Gilmore.

After aletter of request was made we received a picture and a note of interest and we have printed both. Although the note if brief we can all be proud of his success.

Hopefully, in the near future, Art will find the time to revisit the club and see our museum and rekindle his interests in ham radio. Art was first mentioned November 11, 1930 in the history records.

ARTHUR W. GILMORE

Dear Cliff:

In the first place I do remember you - very much so as you took out one of my teeth! You are the only man I ever knew with the name SPIKE so I never forgot.

However, my memory is not so good on the Tacoma Radio Club. I must say that I don't ever remember belonging to that organization but I could be wrong.

I have the spring of 1929 in my memory as to when I got my ham license. Bill Deering and I took the steamer to Seattle and both got our license that day - he coming away with the call W7NA and I with W7MR. We were friends at that time with a Bill Reuter who was W7KT.

My memory is very good on the fact that I had no money for fancy gear so had a bread board rig - a Mesney circuit with a wine glass for a grid leak and 32 pickle jars for my rectifier. I worked 40 meter only - CW - and by 1934 I let it all go by the boards as I went away to school and after that went to work at KOL in Seattle in 1935 and on down here in 1936. I never cranked it up again although I have a number of good friends here who quietly badger me to get back at it. But with 10 or so years in boating and another 10 in flying my plane I just haven't felt the need for another hobby! I am a good friend of Don McBain - have known him for over 40 years and quite by coincidence one day I noted that his call is W6MR! That's a coincidence for sure because we have known each other since 1936.

(cont. next col.)

I remember Pete (ex W7ACS) of course althou it many years. I remember Al Lee well - was happy t Know that they're still around.

When I went to Seattle I was on the announcing staff at KOL for 11 months at which time I though I was ready for the big time so came down here where I thought the action was. I was the first announcer hired by CBS when they bought KNX here 1936. I was there 5 years after which I free-lanced in both acting and announcing. It was ver good to me and for over 44 years I have plied my profession. I announced the Red Skelton hour on TV for 16 years among other things and now am phasing out and playing golf more and working les The ham license was the only license in that fiel I ever held. Of course I have a pilot's license and the radio license that goes with that or boat I have taught announcing at USC and have written text book on announcing but that was 30 years ago Iwas on a carrier in WW II in the Pacific but oth than that I have just done the usual things that all do in our lives. I married Grace Weller from Tacoma and we have two grown daughters. I get to Tacoma at least once a year as we still have a ho on Lake Steilacoom (which we rent out).

That's about all you might care to know and I enclosing a picture in case you need it. I have others that might be of interest though. Was sur nice to hear from you and hope we can keep it up.

Cordially,
/s/

M-3272 (by AB1Z) *Requests the amateur emissions e be replaced by a bandwidth table.*

n December 6th., FCC released its Report and r in Docket 20271, the proposals for the 1979 d Administrative Radio Conference. The State rtment will now use this report to prepare the position for the ITU meeting in Geneva next ember. The purpose of this conference is to d the entire set of international radio regulations, including the Table of Frequency Allocations which covers the entire radio frequency spectrum. The Amateur Service fared quite well with only two bands losing out to other services. 160 meters would lose the bottom 60KHz if the proposed expansion of the AM broadcast band to 1860KHz is voted in at Geneva. New amateur bands at 10.1 - 10.2, 18.068 - 18)169 and 25.11 - 25.21MHz are back in the final proposal but the 220 - 225 band is slated for a worldwide Maritime mobile band with amateurs as secondary users (only in Region 2). 15 meters was expanded to 20.950 - 21.450 and 40 meters is shifted down 50KHz to 6.950 - 7.250MHz. No other changes in the Amateur Service have been proposed. It is likely that the U.D. delegation to Geneva will make little or no change in these recommendations. What action the 154 ITU nations will take in September on these proposals is pure speculation !

The ARRL Board of Directors will hold its first 1979 meeting in Miami, January 24/25. Members should be considering topics to pass along to Director Thurston for discussion at the meeting.

Amateurs who contacted the People's Temple in SanFrancisco or Jonestown, Guyana, amateur stations on November 17 or 18 are asked to contact the San Francisco District Attorney's Office. Callers can be anonymous.

INDUSTRY NEWS:

HY-GAIN *will introduce two new 2-meter antennas in January.*

STONER ENGINEERING *(Mercer Island, Wa.) has a new 10-meter only transceiver, the PRO-10, which features "amplitude compounded" speech.*

Club members who wish to build one of the IARU receivers similar to those in "Project Goodwill" can obtain a free circuit board from the United Radio Amateur Club in California. Send a S.A.S.E. with 28¢ postage to: URAC, ℅Ken Moore, 9 Lantana Place, Rolling Hills Estates, California 90274. Contact Jerry W7BUN for information on the other parts required. Also, the circuit boards for the matching transmitter, which was featured in December QST, will be available soon.

SLIVERS & SPLINTERS

Another two snow-birds are about to take off. Jim WA7DWG and Lucy Kelley are hookin up their new 35 foot Nomad trailer and heading for southern California and Arizona. They plan on spending time at the Slab at Niland on the Salton Sea, while in California and then move on toe Quartzsite, Arizona, to attend the BIG rockhound pwo-wow in February.

Believe a new record has been set in the RCT. Carol AE7X obtained her novice license and then upgraded to Extra in a very short time.

Note to all members who attend the meetings at the library, if you have a hand held transceiver and bring it to meetings, please do not transmit after

9pm. It seems the library has an alarm system that is energized at 9 and the transmitters, if keyed, set if off. Hold off on the QSOs by rf till outside of the building.

The club's installation of officers banquet has been set for March 3rd at the Elk's club in Puyallup. More details will follow in February issue.

Chip and Janet Margelli showed up for the meeting on the last meeting of the month. Plan to be in the Northwest till January 6th. Chip had some interesting stories to tell about the amateurs in Japan and their operations.

Dick w7rgd and Ralph W7COPout with the c-d bus on a three alarm fire. Temperatures down in the low teens inspite of one hot fire.

Bob K7IND finally has his receiver going and copied the weather satellite for the first time. Will be expecting weather pictures now Bob.

Don and Freya Hutt and family all settled down in their new QTH. Had open house on January 6th.

Doc W7OS down with a nasty cold. Has been missing from meetings and the other activities over the holiday season. We all miss you Doc. Hurry up and shake that bug!

Bob and Grace (WA7ZZA & WB7RYM) have a new antenna system and a hole in the ground. Got to get the two of them together.

Carol AE7X busy on the air lining up contacts for Dick over on 15 meters. You Loggers better get the low band gear tuned on around 21.150MHz Plus or minus a few..

The above picture is a little late getting to print but it was a happy occasion and worth running a little late. Along with Doc is Vivian Hyntley on the left and Irma Duncan on the right., and with that we will close off this monthhs Bark with a late,

CLUB AUCTION

The club has acquired the Harbor Heights Elementry School, Gig Harbor, for our annual auction set for Saturday, March 10th. The location is the same location the club used for Field Day. It is located just off highway 16 (Tacoma-Bremerton Highway) about 2½ miles north of the Gig Harbor side of the Narrows bridge.

The action will start near noon. The school's auditorium will be open and available at 9:30am so bring your gear early and get it on display.

Talk in frequency will be on the club's repeater (147.84/24) The station will be on the air starting at 9:30am. If you need further information, contact Jerry W7HJN or Scotty K7CYZ.

PROGRAM 2/24 /79

Jim, K7YLM will present a program of making printed circuit boards and homebrewing following the regular business meeting on February 24th.

MEMBER LETTER

(Due to the late mail deliveries in my area this letter was received between X-mas and New years. The post mark was December 9th..ED)

12-12-78

Dear Club Members,

We just got the Loggers Bark yesterday; as a result of our move.

We felt it a bit late to send the card to Jack's widow. We would appreciate it if you woul see to the correct disposition for us. *(DONE)*

Enclosed please find a check in the amount of $10.00 to continue my membership through 1979 and please note the change of address.

I'm also enclosing 2 of the QSL cards I used while on Johnston Island and would appreciate it if you would put them alongside my original on the board. I'll send you one of my new cards from here as soon as I get my new call.

Sincerely,
/s/
Cal & Beth Burt

leaving the invitation out of my issue of the Bark. Alex stayed off 2 meters so that no one could ask about the party on the air. He was so busy answering the phone he couldn't have hammed anyway. Don took the phone calls for the Masonic groups and relayed the changes that were constantly coming up as the plans were laid, Ethel tells me, now! It took up lots of time and considerable effort at home and at the party for both of them and I do appreciate it, fellows.

As those of you who were there know - the result was that I was flabbergasted - couldn't even say the names of my granchildren. It was the thrill of a lifetime. Thanks Emil for the poem that will also go in my memory book.......Roy W7AZI

WOMEN'S AUXILIARY

JoAnne Iversen

The January meeting was opened by President, Freya Hutt. New business discussed included updating the club's kitchen utensils, the possibility of a Snack Bar at the Auction and prizes to be awarded at the Instalation Banquet.

Marti Deatherage presented several craft projects that she would be willing to give or arrange for programs on. These included cone arrangements, flower making, T-shirt construction and Christmas decorations.

A flower making program is scheduled to follow the February Auxiliary meeting. Dogwood and carnation kits will be available for about $6.00. If you are interested in making one that evening, contact either Marti, Freya or Irma.

DOTS & DASHES.

It seems very appropiate at this time, as we are all looking toward the crucial International Telecommunication Union Conference scheduled to be held September, 1979 in Geneva. When all the large and small countries of the world will be seriously considering communication and many ither complicated ramifications of our art of communications.

We have all heard the rumblings about "Code Requirment" and the pressure to throw out or retain the cw code requirement to obtain our license.

To review how it all started, I was happy to receive from Bud Emmons, WB7QCW, a copy of Dots and Dashes. (A quarterly publication of the Morse Telegraph Club Inc of Chicag c Ill.) The copy was the summer 1978 issue and is quite lenghtly.

It starts in 1832 with Samuel F.B. Morse observing an electric current passing through a 100 of wire being almost instantaneous. He suggested that intelligence could be transmitted or passed via this current for any distance where upon he set up what has become to be known as Morse code. Morse joined with Alfred Vail. Through the next few years their efforts produced the dots and dashes system. The United States Navy adopted the Continental code over the American Morse code while still requiring navy personnel to us Telegraph communications and even in 1931 I experienced these operations while on duty at Bremerton. The International Telecommunication Union adopted the Continental Code in 1927 conference. The ITU changed some of the punctuation marks in 1937.

This interesting article was written by Lt. Robert W. Jones who was licensed in 1934 with calls W6EDG and K3RXO. This article will be incorporated in the RCT library.

Thanks to WB7QCW for the copy.

ROY DEVISH W7AZI

Roy enjoyed a once in a life time tribute on Januaryj6th at the Iron Horse when nearly 50 members of RCT joined the members of the Shrine, Ro Hounds, Elks, County/City Building workers and many other friends. There were around 250 frien attending.

ART JENNINGS W7EZJ

Art was scheduled to show pictures of his man trips to Africa, had to cancel because he was cal to work on a 90,000 ton tanker for four months as a radio operator.

NEWTON H GRIMES KA7CXU

Formerly W7DXU was reported in October to be studying to renew his license - which we are happ to report is KA7CXU.Newt has rejoined the RCT and as soon as he can get some gear together, will be on the Loggers certificate list. Congratulations Newt!

HOMECOMING.

Our fourth Homecoming is coming on April 25th. Urge all members and alumni to save that date and plan on attending!

K8TMK has filed a petition with FCC asking for a rules change to no longer require that an amateur station identify the station with which it has established contact if the communication lasts less than one minute. (RM-3281)

Starting with the March issue, QST will carry a microwave column conducted by W5KHT.

The National Radio Astronomy Observatory is requesting a 30-day extension of time to file comments in the "Quiet Zone" docket, 78-352, to allow more time to discuss the matter with the amateur community.

Ray Spence, W4QAW, will retire as FCC Chief Engineer at the end of April. Effective May 1, the Office of the Chief Engineer will be redesignated the Office of Science and Technology. Spence's replacement, Stephen J. Lukasik, will bear the title, "Chief Scientist." Also, FCC's Personal Radio Division will be abolished in the next few weeks. The Safety and Special Services Bureau will be arranged by functions rather than by the type of service as at present. The new divisions will be: Policy Development, Rules, Licensing and Compliance. An improvement in efficiency is expected and hopefullyspeed up license processing.

CB Magazine has petitioned FCC for 40 additional cb channels for ssb use only. Frequency range requested is 27.54 to 28.0MHz.

After 4 years of working out compromises between all the U.S. users of the H.F. spectrum, the board for International Broadcasting, (funded by Congress) operators of Radio Free Europe and Radio Liberty, has refused to accept FCC's final report and order for WARC. Great pressure is being put on WARC delegates by the Department of State for additional spectrum allocations for International Broadcasting. ARRL has sent telegrams to President Carter, Secretary of Defense Brown, Secretary of Commerce Kreps and all Senators and Representatives involved, in communications committees and affairs, urging the adoption of FCC's position as announced in December.

WWV's 20MHz transmitter is back on the air after an absence of several years. Improved propagation is cited as the reason for its return.

ARRL has submitted its petition to FCC asking for Novice privileges on the 220 to 225MHz band! CW and AM or FM phone with a power limit of 50 watts is requested.

ARRL has submitted comments in Docket 78-316 concerning a future fee schedule for license applications. The League recommends only reasonable fees for amateur license applicants to recover the direct cost of processing such licenses. Fees for spectrum use or based on value are strongly opposed in ARRL's response.

News from ARRL & HR Report (cont.)

FCC has proposed that Article 41 of the international regulations be changed to "recommend" rather "require" cw ability for the amateur service. The Commission feels this would permit governments to develop their own licensing requirements.

In the first 1979 ARRL board of Directors meeting held January 25th and 26th in Miami, the Board decided to raise ARRL membership dues from the present $12 to $18 effective April 1st, 1979.

All navy personnel, both active and reserve and civilian navy department employees must report all contacts with Russian or other Comunist country amateurs to the Naval Investigative Service immediately. A recent directive, OPNAV instruction 5510.1F, paragraph 4-202; "any radio contact or mail (QSL?) wheather for business or pleasure must be reported.

Rene Smith was temporarily stranded one day last month. Seems the key broke off in the trunk lid.

Jack WB7URT and son over visiting with Dick W7RGD and getting acquainted with Dick's TRS-80 micro computer system. After a short session of running his fingers over the keys, decided to get into the computer business. Yup! Went out and ordered a system.

Roy & Ethel (W7AZI & W7WLX) settling down after the big retirement dinner and starting to enjoy the leisure hours. Probably won't last long knowing them both. Look out all you Logger certificate hunters. Roy has been knocking off one logger every time one shows on the frequency.

Chris WA7MJK looking for some help with his RCA 2 meter rig. Not doing so good.

During the recent SET drill a few of the members had the right idea. Bob W7RXS, Max W7AEA and Cliff W7MFG were operating in a boat out on the sound (marine mobile) to take calls since some of the activities were right on the beach. They just happened to have some fish poles aboard. Managed to haul aboard some fish while taking care of the tasks assigned them by the net control.

Don K7QLC getting used to his new position as Radio Officer with the Tacoma Emergency Services during the SET exercise.

Ralph getting the travelers itch. Ralph W7COP and xyl Tykie out looking at trailers. Got their eyes set on a 24 foot model.

Jerry W7BUN busy preparing another issue of the Parasite for mailing.

Remember to get your reservations in for the Officers Banquet. Also contact Steve K7SSC if you can help out with the many Rallys coming up in the next few months. I'm sure their are enough events coming up that you could help out on one or more.

That's about it for this month. Since this is a short month we will have to start on the next month's edition before the ink is hardly dry on this one,

with the March of Dimes communication set-up during the Walk-a-thon.

Also during April Steve will be looking for men and equipment to supply communications for the annual Daffodil Parade on Saturday, the 7th. The Emergency Services bus will be the base station and there will be a need for operators as well as portable equipment.

If you have equipment or can be available to operate, be sure to let Steve know so that he can plan accordingly for these very active events.

HOMECOMMING!

The April 25th meeting night of the RCT has been set aside as Homecoming night. This is also refered to as 'Ole Timers Night'. This is the night that the younger and newer members get a chance to meet the charter members and members from the past history of the Club.

In past Homecomings we have had some of the first Officers elected to RCT and many of the original charter members present. This has been a real fun night. Doc W7OS has quite a program planned so don't miss it.

We will have more information on the program in the next issue of your Bark. .....ED

DUES

Dues are due! The grace period for dues is fast running out for quite a few members. Due were due in January but the Club's by-laws provide a 3 month grace period. If your funds are not in by March 31 you will droped from the roster. So come to a meeting and keep your membership up. If that isn't possible, get it in the mail to the Treasurer and keep active with an active Club.

In Remembrance

ROBERT F. GLEASON JR. W7IMB

Bob Gleason, a native of Tacoma, died Sunday January 28, 1979 at the age of 75. He lived in Tacoma until he moved to Huachuca City, Arizona 15 years ago. He followed in his father's footsteps as an electrician for the Electric Construction Company.

Bob joined the Radio Club of Tacoma June 13, 1941 and was a member of the Masonic Fraternity.

He is survived by his son Robert F. Gleason III of Tacoma, a step daughter Suzy Makua of Honolulu, a sister Carol M Waldo of Tacoma, a brother Donald W. Gleason of Issaquah and three grandchildren.

The Officers and members observed a 'Silent Key' memorial service during the February 14th meeting. .... Doc Spike W7OS

The old timers of the RCT were saddened to see the report of the passing of Bob Gleason late in January. While Bob had not been a resident of Tacoma for the past fifteen years, he had been one of the more active members of our Club in the forties, fifties and sixties. My first qso with Bob was on February 23, 1942 and had the notation in the log.."swell qso". The call W7IMB was a frequent entry until December 1942 when the war terminated all amateur activity. But starting with an entry on September 9, 1945 that familiar call showed up on the air and popped up often from then until Bob moved away from Tacoma.

Following the war, Bob offered the use of his farm at Jovita, for the Field Day outings of the Club for several years. Later, when the Club had its famous or possibly infamous orchestra, the Zero Beats, Bob would have the group at his home frequently for practice sessions and just good fun. Bob could always be counted on to help with any Club project or with any member's projects or problems.

Bob enjoyed ham radio, his friends and life in general. All of us and Ham Radio are a little bit better off for having the privilege of being one of Bob's friends.

Our sympathy is with his son, daughter, sister and brother. 73... Max Bice W7AEA

ALUMNI NEWS

W7OS

Elsie Hager, xyl of Ken W7KQ, died Sunday February 18th at the age of 66. Elsie was born, of pioneer Alaskan parents, in Juneau Alaska November 13, 1912. Until moving to Maury Island in early 1966 with her husband Ken following his retirement, she spent most of her life in Alaska. She was a Life Member of the Women's Auxiliary, Pioneers of Alaska, Anchorage Chapter; Past Noble Grand of the Rebeccas, Juneau Chapter; member of the Emblem Club, Anchorage Chapter and here, along withher husband, a dedicated member of the Vashon Island Golf and Country Club.

She thoroughly enjoyed her golfing and also bowling. Sometimes during her married life with Ken, she discovered that she liked fishing. After catching her first Silver salmon in the swift moving waters of the Kenae River in Alaska, it became more than merely liking fishing, it became almost an addiction. She was always ready to go.

Elsie is survived by her husband Ken; a daughter Mrs. Jo-Anne Cottle, Juneau Alaska; a brother Carl W. Jensen, Juneau Alaska; a sister Mrs. Jack Neu, San Carlos, California.

CHESTER LaMONT W7ALM *of Astoria has sent to the museum, a very interesting piece of gear "An Artificial Antenna" manufactured by Mackay Radio. We used to call these "dummy antennas". Thanks Chet very much.*

NOTES FOR NEW MEMBERS .

The RCT has several beautiful albums of piectures of its active members and alumni members. We urge all of you who have not had your picture taken to so soon. Contact WB7QCW the Club photographer and arrange to have it done. This is an important part of the RCT history records. If you haven't seen the albums, have a look. They are in the museum room at the club house.

there has been an on-going problem of inter-
ce between the 04/64 and the 84/24 machines.
heat and little intelligence was generated
he situation was rapidly assuming the propor-
s of a feud. A meeting between Dave SDB, Bob
Rube OSM and Denny ZTG was held in mid Febru-

(cont. next column)

ary in an effort to resolve the problem and it was decided that the Western Washington Amateur Relay Association (WWARA) might be the best impartial mediator. As a result, a technical session was conducted on Tuesday, February 20, with Jon Marcinko W7FHZ and Len Wickstrom W7ZZL and others from WWARA. At that time the two stations were inspected and measured. Both stations were found to be operating well within the technical standards for both ham and commercial service.

However, in order to operate the 04/64 machine at a level of performance beyond these standards, an additional amount of filtering was required in the 04/64 receiver. This was well proven in a blackboard session conducted by Len ZZL. A discussion followed regarding the responsibility for the extra filtering, with the Radio Club group feeling that they were operating in a clean manner and the 04/64 group claiming that since they were on the air first they should have been protected.

To shorten up a long tale, the Radio Club of Tacoma has loaned a cavity resonator to the 04/64 group and it is assumed that this will clear up the problem. This filter was in fact the same one used that night for testing the idea and did solve the problem. While the club's repeater committee does not in any way feel we are obligated to clean up the 04/64 machine, it was felt that the loan of the filter should contribute to peace and harmony in the local ham community and forestall any further ill feelings.

A special thanks is due those members of WWARA who contributed their time and expertise in this little drama. Without their help we might well have been faced with a California style donnybrook.

FURTHER WORDS FROM THE WONDERFUL WORLD OF REPEATERS.

There are a couple of things that we should address in the area of better operating practices. One has a tendency to overdo the loggers certificate bit, especially during peak traffic hours. During the morning and afternoon rush hours, the repeater is in almost constant use and therefore it might be wise to avoid working the loggers thing too much and to also allow perhaps a longer break than normal between transmissions, so that those who might be trying to report accidents and things, would have a better chance of getting through. On two recent incidents the person trying to break into the QSO was unsuccessful, as he had only a hand-held and could not bust in on the base stations and mobiles and no break time was available. It is particularily poor practice to break into an existing QSO for the purpose of making a loggers contact and could result in your being nominated for the first annual LID award.

Another practice that needs attention is in the reporting of emergencies. Some operators have been initiating calls to specific persons, such as a "Control Operator" or to "W7XYZ" in order to re-

(cont. next page)

port an emergency. In the interest of speeding up the handling of emergency traffic, a call to *ANYONE* capable of handling the message will suffice. ..Dave WB7SDB

INSPIRATION AWARD

The *"DOC SPIKE"* Inspiration Award is presented each year to the club member who has most exemplified the high standards of the Amateur Radio fraternity. Those who have been honored in past years and who have served as the committee to choose the outstanding individual for 1978 are: Doc Spike W7OS (1974); Jerry Seligman, W7BUN (1975); Marv Wheeler, WB7ONX (1976) and Jack Haworth, WB7AJR (1977).

The person chosen for 1978 was involved in practically every Club activity, yet he always had time to help others with their personal projects. He was a member of the Club's Board of Directors and he gave generously of his time to rebuild DK's linear amplifier and speech processor before they were placed in service. He was chairman of the fireworks sales and he headed the Club's booth at the Western Washington Fair which involved 102 members for 17 days. He was devoted to providing public service communications and as Pierce County Emergency Coordinator he spent a great deal of his time organizing the Amateur Radio Emergency Service, real and simulated searches and emergency tests and communications for parades, walkathons and bikeathons.

The Club's best interests were always foremost in his thoughts and actions; he was a friend and inspiration to all.

NEWS FROM ARRL & HR REPORT

W7 BUN

Some irresponsible amateur radio hournalists have been unnecessarily arousing fears about possible loss of amateur frequencies at WARC this fall. Jim Fisk, W1HR, editor of Ham Radio Magazine, sets forth some facts in the February issue of Ham Radio, which should give us all reason to be optimistic about our chances at Geneva.

ARRL membership shows a small decrease in the January 31 totals. Northwestern Division has 7741 members and over-all there are 165,163 with 139,500 full members. There are currently 2,064 affiliated clubs. The latest FCC licensing figures indicate a one year increase of 27,688. Totals: Novice 62,856; Technician 68,738; General 118,808; Advanced 83,436; Extra 22,498 for a total of 356,336.

The Washington State cb Radio Association has a petition with FCC (RM-3317) asking for a new co free class of Amateur Radio Service between 27.41 28.000MHz.

Amsat is celebrating the 10th anniversary of t OSCAR satellite program. All hams should be grat ful for the significant contributions AMSAT has m to the Amateur Radio Service.

The reason given for the ARRL dues increase to $18.00 annually is the heavy financial commitment to the WARC effort and a need for a solid financi base on which to build for the future of Amateur Radio. Members may pay up to 5 years in advance the present rates, if sent in before April 1st. Membership will go from $300.00 to $450.00.

K5CM has achieved the first 8 band WAS, with co tacts on 2 meters through 160 meters. Oddly enoug the last holes were on 10 and 40 meters. Truly an outstanding achievement!

A new 2 meter DX record was set February 16th when SV1AB worked ZS6DN, a distance of 7127 kilometers (about 4,455 miles).

The illegal chain letter is still circulating, mostly from overseas hams to DXers. U.S. amateurs are advised to ignore it.

Some FCC field engineers have reportedly warned Amateurs who used a "portable" designator after their callsign. The recent rules change only elim nated the *NECESSITY* but did not prohibit the practice of using "portable" or "mobile" designators. Any Amateur cited or warned should contact the FCC Washington.

Amateur license turnaround is now a month or les the best it's been in a long time.

The Kelleys (W7KKN & W7SKR) and the Churchwards (W7RXS & W7RXT) back from their vacation in Hawaii. Not any too soon either. Just missed the big rains that hit the Islands the week after they left.

Congratulations to Traci Hansel on getting her Novice license KA7DKX. Traci was the last hold out in the family. Welcome aboard Traci will be looking for you on the air.

Remember, ARRL dues are going up. If you were thinking of a Life membership, now is the time to act before April 1st.

Ralph W7COP has a new 23 foot trailer. Waiting for the snow and ice to break to get out with it?

Scotty K7CYZ has joined the ever growing membership of 'no gettups'. Will be expecting more trailering now?

A good turn-out for the Club's Banquet in Puyallup. We plan to have pictures in the next issue of the Bark.

With the weather warming up and the rains starting, the river watch activity is starting up again.

Overheard on the bands, that Rush's W7RM antenna farm was all but destroyed during the band wind storm that wiped out the floating bridge the same day. Will leave a noticeable gap in the DX bands during contest time.

Don K7QLC and Dick W7RGD out on another 3-11 fire on the c-d bus (W7BMG). Got caught on the down wind side of the fire and got caught in the smoke and amonia fumes from the ice plant that was burning.

Jack WB7URT having troubles getting to use the TRS 80 micro-computer that he recently purchased. Seems son, Mike, so involved with it, Jack can't get a chance at the keyboard.

Remember, if your dues are not in by the end of this month there will be no Loggers Bark in the mailbox, next month. We don't want to kose you so how about remembering to drop a line to the treasurer so that we can keep you on are list.

Running out of news so will put the ink to work on the press for this month's issue.

See you at the meetings.............

CLUB AUCTION

The Club's auction March 10th did not have the owd that had been anticipated. Consequently, ere was less gear to go up on sale. Dan Marlow, st member of the club, donated a truck of used ar including a large amount of RTTY parts. ese parts were a highlight of the auction.

Some of the higher priced gear was not sold. ll WA7SCN did a good job of auctioneering. esident, Doug did a good job also spelling off ll.

Plans for next year's auction are already be- g worked on with some changes planned.

TOUR De FORREST RALLY REPORT

K7SSC

About 35 cars entered the Shelton area Rally. There were Toyotos, Datsun 510s, Fiat 131, Dodge Colts, Saabs, Mazda RX2-s, Alfa Romeo GTV and a Gremlen entered. The cars ran 14 timed stages through the logging roads. We set-up communications at the start and finish of each stage, in addition to the two hill top control stations and the Shelton Motel. Additionally, there were hams in the pack car and two sweep cars. For emergency medical assistance, there were two ham-EMT teams traveling the Rally area.

The start was at 7pm and by 11pm 6 to 8 of the cars had broken down or went off the road and stuck. One went over the bank about 30 feet.

Things were going along fairly smooth until the finish of stage 6. A report of an injury on the course. Stage 6 was then closed to allow EMT personnel Gene Underwood, W7AKA, to get to the site. Gene then requested an ambulance to the scene. WA7ZZA made the call to dispatch the ambulance from Shelton. EMT member K7RSD met the ambulance and escourted it to the scene. The result was the injured party had medical help in 5 minutes and the ambulance in the middle of the forrest in 20 minutes. It was later reported that the cars tie-rod had broken causing the car to slam into a tree broadside, caving in the door. This was the first ambulance call that we handled since doing Rally communications.

The rest of the night went by without major incident. In addition to the safety communications, we kept the car crews informed on where to pick-up the disabled ones and relayed all the official times to Shelton. With this advance information, the scorers were able to post the official results within a few minutes after the last car finished.

ROSTER BOOK

As the Bark goes into the hands of the Post Of we are getting ready to print our new roster book. Time is running out and we are going to have a contest. So everyone sharpen your pencil or get out the camera and draw or capture that item on film for the front cover picture for the roster bo If you submit a drawing let it be in black or red. (not blue). If a picture is submitted, please let it be a black and white.

All entries have to be in by April 25th to meet out deadline. Anything goes!! Preferably with ham radio in mind.......................K7AMJ

COMING EVENTS

The first activity for April will be the Daffo Parade (April 7). This event will be over by the time you receive the Bark so we will forgo that event.

The next event will be the Olympus Rally, whic will be on the 14/15 of April. Steve will need a lot of help so please get your name on the list early if you can help out.

On Saturday, April 21st will be the March-of-Dimes walk-a-thon. This will be held in Tacoma and also needs a lot of helping hands. If you can help on this event get in touch with Steve.

Don't forget the club meeting April 25th. This will be "HOMECOMING" night. Come and have a eye ball with some of the charter members of the club and re-establish contact with members. Doc W7OS will be in charge and promises a interesting night.

The last activity in April will be the Bike-a-thon on Sunday the 29th. Again, contact Steve fo details if you can help out.

The following are coming events after April.
May 13 - MotherJs Day Breakfast at the club house
June 9/10 - Rally of the Dolls (Kent)
June 23/24 - FIELD DAY
June 28-July 3 - Fire cracker stand open for busi

Organize your shack with a CLUTTERFREE MODULAR CONSOLE $169.95

Being a ham operator is fun but not always easy. You work hard to save money to buy your equipment. You rearrange the house for set-up space. Before you know it, that converted desk on which your equipment is stacked looks pretty cluttered.

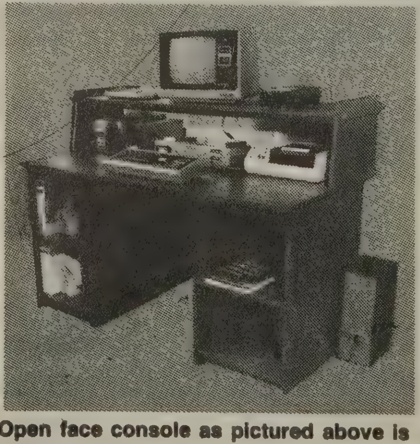
We're also ham operators, that's why we developed Clutterfree Modular Consoles to help organize your shack.

Each console has many extras that don't cost extra: Strong groove-construction to support your equipment, decorative Polycite® wood grain pecan finish that resists stains, abrasions and cigarette burns and four generous easy access storage compartments.

Ideal for ham or home computer equipment. Measuring 3'6" x 4'9" x 2'5", each Clutterfree Console weighs less than 200 lbs. and can be easily assembled in minutes. At $169.95 you can't find a better buy with as many features.

Another no cost feature is the optional face plate. We'll customize it to fit your equipment for a small charge or you can do it yourself and save. Dealer inquiries invited.

Don't put up with that cluttered desk any longer. Fill out and mail the coupon or call and we'll process your order immediately. Cash, check, money order, Bank America card, Visa or Master Charge accepted.



Open face console as pictured above is ideal for ham or home computer equipment.

ALUMNI NEWS

W7OS

Occasionally I wish I was a computer and could project myself into the future to display the image of our beloved Radio Club of Tacoma in say, the year 2000 or even what we would behold in the year 3000 A.D..

Ever since 1971, when we held our 1st real "Homecoming 1971", it was such a success that we held the 2nd Homecoming '73' and again in '76'. Now we are about to hold our fourth "Homecoming" on April 25th., 1979. There has been more progress and changes, which should excite our old timers and former members who I prefer to call Alumni.

We have mailed invitations to as many as we could locate and hopefully many will be able to come and re-new old friendships, swap tales and see our picture albums, of the previous home comings.

We hope all of our present active members will be there to welcome our aoumni and show them that our Radio Club is securely on course for year 2000. If you come in contact with any of the Club's alumni members, be sure to pass the word of this coming big event. The cameras will be a clicking. Group pictures of the years 1916-1930, 1930-1950 and 1965 to present date will be taken simular to the ones on the previous page of this month's Bark. Along with the pictures is the letter being mailed to all the know alumni members.

Remember, 8:00PM. April 25, 1979 at the Tenzlar Library. See you all there!

ART GILMORE, ex 7MR

In the Janyary issue of the Bark we published a news story on Art Gilmore. We now note that Art is working at KIRO radio, nightly, hosting the CBS Theatre at 9pm. An interesting series sponsored by Sears. He sure has a profesional voice and I can see how he hosted the Red Skelton show for 16 years.

KERRY WEBSTER WB7AKE

I'm sure most of you have read some of the jaunts Kerry has had in the past that he has written of. One of his feature articles, in October 76 "Puffing is Par for the Course" and in August 77 when he went on a bike ride from Montana down the roads in the Rocky Mountains to Boulder Dam. (A 15 day trip). Now, Kerry is on a 6 month trip in Ireland, including a story on St. Patrick's Day in Ireland. The story appeared March 18th.

I'm afraid Kerry won't be here to write up the Radio Club of Tacoma Homecoming story. We will miss him and the great job he has done publishing the story of the RCT these past years.

LOGGERS CERTIFICATE PROGRAM.

We were quite thrilled to see the RCT Loggers Certificate program go international, with the issuance of certificate # DX-1 being issued to Victor Bajnetow, UA0FCK zone 19 Russia. (see picture and qsl card elsewhere this issue)

While certificates and endorsements have been issued to many hams throughout the US and Canada, it is still a thrill to receive a request from DR. JOHN W. REASONER *125 Clearview Drive, Bowling Green, Kentucky 42101. (call unknown) John reported working a number of stations in Tacoma and Pierce County area and he believed he might be qualified for a Loggers Certificate. He wanted a list of members so a roster book to help him out. Some of you may hear him on and we hope you will give him a contact.. We are sorry that he did not include his call with the request.*

See you all at HomeComing 79.

Dear Peter,

I was very happy to work so many stations fro Tacoma.

A few words about myself. I am graduated fro the University 1 year ago and now I work as a teacher. I teach history. Nice to be the first DX-station to have the Tacoma club award. I got the WWDX club award a few months ago! Peter do you have any more awards in the State of Washington?

Peter, if you'll print my photo in your club paper, please send me one copy. (SEE PICTURE NEXT PAGE)

I am often on 10 meters around 28545 plus or minus qrm.

If you have some questions please call me. I' do my best to help you.

My friends UA0FDA, UA0FDS and UK0FAJ from Sakhalin Island would like to have your award to My best friend Jim /UA0FDA/ said - "It's impossib to work so many stations from Takoma for 20 minutes!" Please send me your award as soon as i is possible. I'll show it to my friends, hi!

Total 357,900. The number of licensees increased 8.42% in 1978.

ARRL is planning to file in opposition to the proposed hobby band adjacent to 28MHz. (RM-3317)

The 1979-1980 Repeater Directory will be on sale by the middle of April for $1.00. A new edition of the Part 97 Rules is available from the U.S. Government Printing Office, Washington, D.C. 20402. Stock number is 004-000-00357-8 and price is $1.40.

Canada's final WARC proposal slices 100KHz. off the top of 80 meters and asks for new bands at 10.1-10.3, 24.0-24.5 and 902-928MHz. Support for new amateur bands at 10, 18 or 24MHz. is building from all three ITU regions.

The first worked all continents (WAC) on 2-meters was achieved by GW4CQT in January. A new 6-meter record was established in March between LU8AHW (Argentina) and HL9TG (Korea) for a distance of 12,056 miles.

FCC has terminated the restructuring Docket (20282) without further action. The door was left open, however, for a future no-code entry level "Communicator Class" license and the proposed power limits based on output measurements is still high in Commission interest.

King, Juan Carlos of Spain is the latest VIP joining the amateur radio ranks. He will be on the air with an IO-701 and an Alpha linear.

you have crystals you no longer need? Maybe eed a set of crystals for a new repeater fre- y or possibly a simplex frequency? One ble solution to your needs is the "crystal .

n W7ZZl and Dave WB7SDB have agreed to set crystal exchange. The exchange of repeater encies between 147.96/36 and 147.84/24 's repeater) was the reason for setting up rystal bank. However there may be other encies that you may have in mind for swaping. you are interested in an exchange, call or ct Len W7ZZL or Dave WB7SDB and list what ave for trade and what you are looking for. ber they will need the make and model that crystals operate in.

UPCOMING FIELD DAY

e might be a wee bit early for articles on d Day but it is fast approaching. One month o! The club has decided to put a little more rt this year and see if we can go to the head he class. The club has been first in its s several times in past years and was a very e second to the Puyallup Radio Club in the on. It was decided that there should be no on why we can't get back into the top brackets n.

he club held a meeting at the field day site, ig Harbor, Saturday April 21. Station manage- and antennas were looked into and discussed. as decided the antenna were in need of re- ement or at least overhauled.

f you are planning on participating this year, se get in touch with Steve K7SSC (chairman) or WB7FHC (assistant chairman) so that they can

(cont. next col.)

Field Day (cont.)

work you into the overall picture.

The club's second meeting in May (23) has been set aside for Field Day Training night. If you plan on being in the F-D picture, you should attend this meeting for sure.

So far the plans call for stations on 80cw, 75 phone, 20 phone, 20 cw and 2, 6, 10 phone, 15 phone and cw. If more operators and equipment show up, some of the blank bands may be planned. It will take a lot of members to operate what is already planned so get your name in to the committee.

Remember May 23 for the F-D meeting...K7CYZ

ROSTER BOOK

The roster book for '79' is in the final stages of printing. Last month We requested drawings or pictures for the front cover, from club members. The response was zilch! No one seemed to care what appeared on the cover. Since time was running out, our co-editor of the Bark drew one up and it was decided his drawing won the honor, hands down. Thanks to Scotty K7CYZ for taking the time to come up with something to catch your eye each time you refer to the roster book.

Along this same line, there is a need for a design (picture or drawing) for the 'Hamfair' program cover. We would like to see some ideas submitted along these lines from the membership.

Please give it some thought members. Look through films you have around the shack. You must have something there that would be just the thing. Check with your harmonics. You may have a budding artist that can whip out the drawing we need.

NEWSLETTER ON REPEATER

(Eds note: The following newsletter received and reprinted for the memberships information concerning the recent change in the club's repeater frequency)

April 13, 1979

This Newsletter is being sent out to "Hams" known to have an interest in the continued use and support of the 147.36/96 Grass Mountain repeater.

In order to fully discuss and explain the major changes that have recently taken place with respect to utilization of this repeater we are shortly planning an evening dinner in the Fife area.

(cont. next col.)

Newsletter (cont.)

Final plans cannot be put together for this mail
ing and it is expected information will be given
the air, so continue listening to the repeater f
this new. It has been most gratifying to have h
the continued backing and interest for this Gras
Mountain repeater and I wish to thank those invo
ed very much.

ACTIVITY UPDATE

During the winter months 36/96 worked quite well
to approximately three weeks ago. At that time
both the 36/96 and 145.37 machines lost both re-
ceive and transmit capabilities because of heavy
snow conditions. No one has been able to visit
site as it is a three mile hike by snowshoes, on
way, at the present time. Because of these unus
conditions and coincidentally the Tacoma Radio C
'24/84 machine was experiencing a bad intermod
problem with 04 /64, I have determined, for bett
ment of ham radio, the 36/96 frequency should be
moved to Tacoma and the '24/84 eventually moved t
Grass Mountain.

At the present time a test is being conducted,
allowing the Tacoma Radio Club machine to operat
on 36/96. This procedure has apparently solved
the problem for the two Tacoma machines. As soo
as a four wheel drive rig can get to the Grass
Mountain site we will change the frequency to
147.24/84 and re-energize Grass Mountain. It is
planned we will install a new Sinclair duplexer
spare tube repeater on '24/84. The '220MHz repeat
is contemplated to be utilized with the '24/84 ma
ine. At that time it is hoped to also repair th
145.37 machine.

It should also be reported the Clemints Mountain
peater (near Yakima) operating on '24/84, went of
the air this winter due to icing and structural
failure of the tower. The tower is presently la
on the ground and there seems to be little inter
on the east side to assist with this repeater.
a result, all equipment will be removed from
Clemints. We are considering some possible opti
al sites to improve our coverage to the south an
will keep you advised in subsequent Newsletters.

CONTRIBUTIONS

This repeater has been financed mainly on a volu
tary basis to date. It is felt this procedure
should be continued as long as possible. Stereo

sure miss the meetings and the fellowship.

Recently we started a club here called Seoul International Radio Association, composed of many foreigners, operating in Korea.

I would like to get the Loggers Bark via first class mail since any other mail takes too long to receive. How much money should I send you to cover the cost of 1st class mail?

Could you please tell me when the HamFair will take place. My wife and I plan to take leave in August and I hope it coincides with HamFair.

Also could you please place an announcement in the Loggers Bark that I would like to buy a used 2 meter rig. Two frequencies have just opened up in Korea (145.0 & 145.5MHz.) I would like an old crystal rig or handi-talkie.

Sincerely,

LOGGERS CERTIFICATE

The Loggers Certificate Committee has added a new regulation to applicants for a certificate. The new regulation stipulates that applications for certificate or endorsement will not exceed a list of 20 at any one application.

The Loggers certifivate and endorsement program has grown to such proportions, that Barbara W7UYL is having a problem keeping up with the requests.

By limiting the lists to 20 as a maximum, it is hoped that Barbara can keep up with large demand for the Loggers Certificates and endorsements.

If you have a large list of Loggers to submit, you may submit 20 at a time untill the complete list has been turned in.

For the newer members applying for a certificate, a copy of the original Loggers Certificate is printed here. The number one certificate was issued back in April of 1957 to Dick Dundon, whose call then was W7LIA. Dick's present call is W7RG.

NEWS FROM ARRL & HR REPORT
W7BUN

Effective April 20th., FCC will issue code credit certificates to applicants who pass the FCC-administered code-test but fail the theory test. These code credit certificates will be accepted by any FCC office within one year of issuance. Formerly, the credit was only good at the FCC office which issued the certificate.

QSLers don't need an SASE anymore when using the ARRL OUTGOING bureau, because they have stopped sending out confirming slips. They also now charge a dollar a pound - figure about 150 average cards to a pound.

Louise Moreau, W3WRE, who has been editor of QST's "YL News and Views" column for 13 years, will be replaced by Jean Peacor, K1IJV, effective with the July issue. Mrs. Peacor conducted the YL column from July 1963 to October 1966.

ARRL's new Q & A manuals will be cut about June 2st. The first, a true pocket book size (about 4 1/4" X 7") will cover the Novice license only. Also, to be available soon will be a set of flash cards for Novice students and the Q & A book for General and higher.

Guests included Ken WA7BBT, Len Hamson, Frank Hodgdon WB5ERI, John Sim, Mon Webb W7LRP, Edith Smith and Chuck and Edna Gleysteen (KA7DCB & KA7DCC).

(cont. next page)

CERTIFICATES

New member certificates were given to Dan McConnell KA7ACB, Gail McConnell, Roy N7ARO and Louis Osborn KA7DHR.

Logger certificates and endorsements were given out by Doc W7OS with a request that no more than 20 names be submitted per meeting because of the tremendous work load.

COMMITTEES:

Coming progrms. Scotty K7CYZ announced Old Timers Night will be April 25. Mother's Day Breakfast will be at clubhouse May 13th.

Steve K7SSC had lots of help for the Daffodil Parade. Needs help for the March of Dimes Walk-a-thon and the Diabetes Bike-a-thon.

Repeater. Dave WB7SDB explained the reasons for the new frequency for the RCT repeater (moved from 147.84/24 to 147.96/36 to escape intermod problems with the 146.04/64 machine in Tacoma also).

Upgrades. Paul Butler WD5CPK, Bob Scott KA7BAW, Joy McCaw KA7AUL and Angela Korn KA7BBH to General. Dick KA7CVF to Technician.

NEW BUSINESS:

Organize your shack with a CLUTTERFREE MODULAR CONSOLE $169.95

Being a ham or home computer operator is fun but not always easy. You work hard to save money to buy your equipment. You rearrange the house for set-up space. Before you know it, that converted desk on which your equipment is stacked looks pretty cluttered.

We're also ham operators, that's why we developed Clutterfree Modular Consoles to help organize your shack.

Each console has many extras that don't cost extra: Strong groove-construction to support your equipment, decorative Polycite® wood grain pecan finish that resists stains, abrasions and cigarette burns and four generous easy access storage compartments.

Ideal for ham or home computer equipment. Measuring 3′6″ x 4′9″ x 2′5″, each Clutterfree Console weighs less than 200 lbs. and can be easily assembled in minutes. At $169.95 you can't find a better buy with as many features.

Another no cost feature is the optional face plate. We'll customize it to fit your equipment for a small charge or you can do it yourself and save. Dealer inquiries invited.

Don't put up with that cluttered desk any longer. Fill out and mail the coupon or call and we'll process your order immediately. Cash, check, money order, Bank America card, Visa or Master Charge accepted.

Closed face console as pictured above is ideal for ham or home computer equipment.

MOTHER'S DAY BREAKFAST

e mother's Day breakfast drew the largest
ever. 92 adults and 12 children. We heard
plaints on quality or quantity. The only
oo was that we forgot to make the second urn
ffee soon enough and there were a few of the
guests that had to wait for the coffee to
ete brewing.
y W7AZI did his usual bang-up job with the

LETTERS OF THANKS

(ED NOTE: The following two letters were received by Steve K7SSC regarding the club's activities. They are reprinted for the benefit of the many club members who contributed there time and effort)

Dear Sir:

On behalf of the Daffodil Festival Board, we would like to thank you and your group of workers for helping to make the 1979 Daffodil Parade go so well. We are very aware that without your help, the parade would not proceed so smoothly. We greatly appreciate your cooperation and look forward to the opportunity of working with you again in the future. Please pass on our thanks to the others who helped on Saturday.

Sincerely yours,

Dear Steve:

On behalf of the Pierce County Chapter, National Foundation-March of Dimes I wish to thank you and the Ham Radio Club for your untiring efforts to keep communications going on Walk day for the 1979 March of Dimes-KTAC Walk-A-Thon.

As always the efficiency and effectiveness of your group helped make Walk Day run very smoothly. We are very appreciative of your willingness to come out and perform this community service.

Please extend our heartfelt thanks to all your members who participated on Saturday.

*While reading over the notes submitted by me
bers during the 71 and 72 Home Comings, it was
noted that Chet listed his early call as 7CX, n
7CK. FCC hasn't been checked on this but after
about 80 years, we of RCT could care less as lo
as Chet keeps us posted on his activities and
still makes it home to homecoming.*

*Chet has donated a great many, very valuable

RECIPE CORNER

FIELD DAY STEW

1 elephant
2 rabbits
Choice of vegetables

Cut elephant into bite size pieces (takes about 2 months). Cook meat over kerosene flame at 465 degrees until almost tender.. Add desired vegetables. This serves 3,800 people so make it a big Field Day.

If you see you are going to run short, add the 2 rabbits, precooked. Be careful about this as many people are offended when they find a hare in the stew!

BOARD MEETING 4/4/79

The Board meeting was called to order at 8:20pm after a special repeater meeting.

TREASURER'S REPORT:

$673.22 regular checking, 122.90 special checking, 20.00 petty cash, 6036.04 savings of which 158.52 building fund, 354.32 repeater fund, 152.03 station fund, 178 in field day fund and 217.47 in the raffle fund.

COMMITTEE REPORTS:

Building. Don N7AEJ reported new roof not needed yet. About $25.00 for ridge shingles and mastic plus volunteer labor should do it. It was moved, seconded and passed that we set aside up to $50.00 for the project.

Scotty K7CYZ said we need mops -- a maximum of $35.00 to be set aside. Moved, seconded and passed.

Repeater change. The continuing intermod problems between our machine and the 146.04/64 machine led the repeater committee to ask for an open repeater meeting to discuss the only two choices for eliminating the problem. WA7ZPK called the special meeting for 7:30pm tonight. A discussion of choices 1 - move the station, 2 - change frequency plus a generous offer from Len Wickstrom W7ZZL to exchange frequencies with us led those present to opt for the frequency shift. (Ours to 147.96/36 and Grass Mt to 147.84/24. It was moved, seconded and unanimously agreed that the Board approve and endorse the decision of the repeater committee to accept Len's offer to switch frequencies. John WA7BZY will buy 5 sets of crystals for the changeover for **HARDSHIP** *cases.*

Activities. Scotty K7CYZ will head up a display July 7/8 in the Pioneer Park in Puyallup with the Meeker who will be sharing the use of one of our generators

Club generators. It was moved, seconded that we we get our generators in running order and store them where they will be run once a month to keep them in working order. (Don N7AEJ will store the field day generator and have his mechanic run it monthly) The motion was amended to keep the one on skids at the clubhouse, once it is repaired and build a building around it for protection. The motion was passed as amended. Don N7AEJ and Don W7ZMG will head the committee to see about the repairs, with routine purchases to be autonomous, but major expenditures to be ok'd.

Field day. F-D assistant to Steve K7SSC will be Budd Churchward WB7FHC.

Remember something about "thru rain, sleet gloom of night...etc.... the mail must go through.

A lot of new calls for RCT members during the last few weeks. We will have them all listed, with the old calls as soon as the new roster books have been circulated.

Max W7AEA volunteered to run down parts and repairs for the club's generator. Hope to make it by Field Day.

Heat seems to be getting to the club's repeater. The insulation and lack of air conditioning makes the upstairs at the club house quite warm. The repeater doesn't enjoy the warm weather like the members do! The transmitter section was acting up so it has been reduced in out put power to help remedy the situation.

ARES members out on another search up on the mountain. At least the weather is on our side for a change.

Laverne K7NKZ, long time member of RCT, is in Tacoma for a short visit. Left OM Beryl K7NPG home in Kennewick to watch the home front.

Organize your shack with a CLUTTERFREE MODULAR CONSOLE

$169.95

Being a ham operator is fun but not always easy. You work hard to save money to buy your equipment. You rearrange the house for set-up space. Before you know it, that converted desk on which your equipment is stacked looks pretty cluttered.

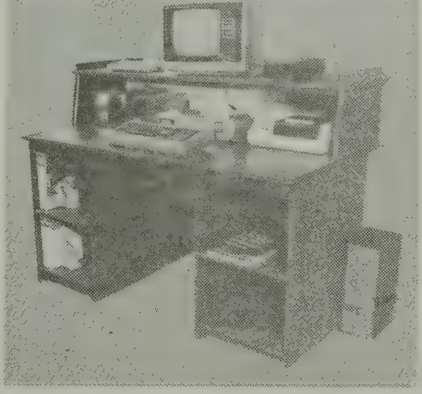
We're also ham operators, that's why we developed Clutterfree Modular Consoles to help organize your shack.

Each console has many extras that don't cost extra: Strong groove-construction to support your equipment, decorative Polycite® wood grain pecan finish that resists stains, abrasions and cigarette burns and four generous easy access storage compartments.

Ideal for ham or home computer equipment. Measuring 3′6″ x 4′9″ x 2′5″, each Clutterfree Console weighs less than 200 lbs. and can be easily assembled in minutes. At $169.95 you can't find a better buy with as many features.

Another no cost feature is the optional face plate. We'll customize it to fit your equipment for a small charge or you can do it yourself and save. Dealer inquiries invited.

Don't put up with that cluttered desk any longer. Fill out and mail the coupon or call and we'll process your order immediately. Cash, check, money order, Bank America card, Visa or Master Charge accepted.



Open face console as pictured above is ideal for ham or home computer equipment.

COMING PROGRAM

WA7FUS

The program for our July 25th meeting will be a Pacific Northwest Bell presentation called "Communications Revolution". The speaker will demonstrate optic fiber transmission systems and tell us about laser communications and some of the new communication hardware from Bell Laboratory.

This program is in response to a very recent suggestion made by Dick WB7CRR and Marv WB7ONX. I need to know your desires and interests in order to secure the programs that you really want. It seems, at times, from the lack of suggestions and requests that maybe the majority of these who attend the meetings don't care whether or not there is a program with each meeting. If this is the case, please notify your Board members. I really don't think that this is the case. Let's have some input from you. It would be fantastic if we had many more suggestions for programs than what we have time for. I know that you all have some special interest related to ham radio which you would either like to present to the club yourself or have someone else present something on.

I look forward to hearing your ideas and opinions. *....Peter*

RATS CONVENTION

K7CYZ

uly 14th and 15th is the weekend of the R.A.T.S. out and convention. Some of us will show up ay night (13th). If you want, come on out and d an evening around the camp fire with us.

(cont. next col.)

QCWA CONVENTION GROUP "79"

Rats (cont.)

The main picnic and activities will take place Saturday. Anyone not camping, is invited to come out Saturday and join in the pot-luck dinner and get your votes in for the new RAT Officers. Saturday is the convention time and elections.

Sunday morning is the big hot-cake contest between Roy W7AZI and Scotty K7CYZ. Be sure to join us for this contest and try some of each contestant's hot-cakes. You will be asked to vote to elect a winner. The last two years have ended up as a tie. This will be another tie-breaker run off.

There is water and electric hook-ups for 16 trailers and campers. (no sewer) We can hold about 8 more trailers with out hook-ups. There is still more room for tents. If you don't want to spend the night, come out anyway as there will be plenty to do both days.

Ralph W7COP will be there with his horseshoes and says he will take on all challengers.

The Saturday picnic and the Sunday dinner is strictly pot-luck. There is a big fire pit, so hamburghers and wieners are the food of the day.

For the newer members who may want to know what the RATS stands for...Radio Amateur Travelers Society. Don't miss this outing. It is strictly fun time and besides your dues are due..Big rat K7CYZ

XYL'S ATTENDING QCWA CONVENTION

COMMING EVENTS

The month of July is a breather for the club. Just two events are scheduled. The fireworks stand project will be completed by the time the Bark goes to press and the big RATS Convention at the Rats nest on Lake Lawrence. The latter will be on July 14 and 15 (Saturday & Sunday). There is an article and map elsewhere in this issue with the details. The talk-in frequency will be on the club's repeater (147.96/36).

Two events are scheduled for August. First will be the Radio Club's big HamFair. This will be held at Camp Murray in the Washington National Guard Building. Dave WB7SDB is the chairman and will be assisted by Don WB7BLQ and Dick K7CTW. They will be looking for lots of help. Don't turn them down if called upon.

The second event will be the Westport campout and fishing trip. The club meets at Greta Warburton El-Shako at Westport on August 25th/26th. The RCT has the boat "Tiger" chartered for Sunday. This is a 20 man boat. Price for the day's fishing is $27.83, which includes rod, hooks and bait. It is not necessary to have a fishing license but you do have to have a salmon punch card. See Rick W7LKG for more information on the fishing trip. We will have more on this event along with a map on how to get to Warburton's place in the next Loggers Bark.

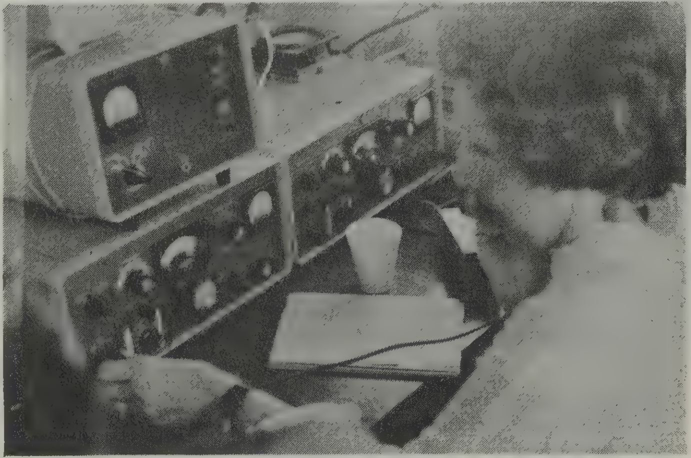
FIELD DAY NOTES

PRESIDENT DOUG — HARD AT IT!

NO! Jerry W7BUN didn't cut his trailer in thirds. That was a borrowed trailer he operated in during F-D. Operated 15 meters cw this year. Said he wasn't bothered by visitors talking in the shack like in past years when on phone.

Rick W7LKG also operated 15 cw. I wonder if hams had to use left handed ear phones to copy Rick's left handed bug? Maybe it comes out 9 by 5 by 5 HSAW TCES?



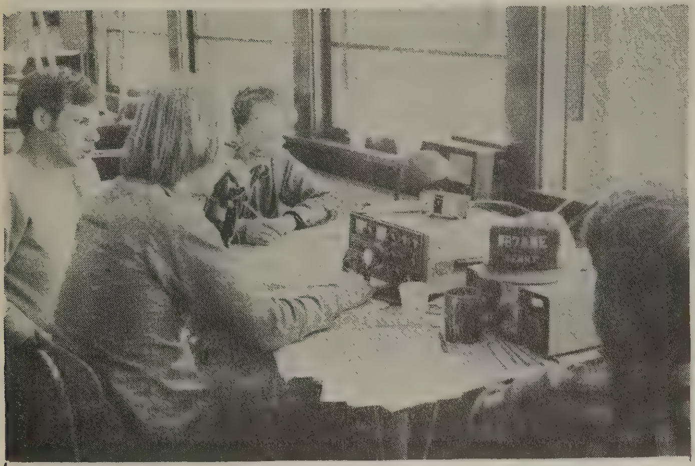
JEAN WA7OII

We missed Roy W7AZI field day. Glenn Smith (ex W7SMZ) took your place in the chow line. (#1)

The gang on 10 meters (WA7RWK Joe, Len WA7HHI, Don K7QLC and Jerry WB7CKHL have a lot of thrcat lonzenges for sale - 10 meters didn't open to the Northwest.

Scotty's K7CYZ red bicycle got a good work out field day. Next year there will be a lot more bikes on the site.

(cont. next page)



40 PHONE DIG'EM'OUT

Field day (cont.)

Long wire antennas work good on 40 phone. Ask Steve K7SSC how they do. His long wire was put up rather quickly when the fancy berticle beam went sout.

The two meter gang dumped the r-f amplifier in haste, when it was discovered that the antenna relay in it didn't do its job.

REALLY ROUGHING IT!

Dick WB7CRR should have had double side band instead of ssb on six meters. That way he might have made twice as many contacts. Six was like 10, dead to the Northwest.

'20 phone thought they had all the stations worked until Jean WA7OII started calling cq. You could hear the pile up- '20 did a yeoman's job. (Don WB7BLQ, Pill WA7SCN, Bryan WB7AIH, Marv WB7ONX and Jean WA7OII)

Don W7ZMG should get the gold star this year. The big 10kw Alternator purred like a kitten.

John W7KKN had some bets going, that the 40 meter phone antenna would bukle at the red paint mark on its way up. He missed by about '24 hrs.

(cont. next col.)

It gave way on the way down. Better in Reno Jo

Something was wrong with Max's W7AEA bug at start of field day. It would only go about 10 Finally the oil took hold and by Sunday it was running around '25wpm.

Rex W7NP couldn't find his station on site. Didn't recognize the station with a brand new antenna overhead.

Pardon the oversight if we missed anyone wor ing a station, the ole memory is running down this late at night ....Scotty

Word received from Don WA7PIN via amateur radio, that he is now on site of his project up in British Columbia for the next few months. Will be looking for contacts Tuesday, Thursdays and Saturdays 8PM. on 3.950 He will be out in 'no-mans' territory and amateur radio will be his only contact means while there.

Cliff and Barb (W7MFG & W7UYL) found puttering around the home qth gettings things in order for the big move to a new location. Cliff was hanging onto the working end of 'ye ole' paint brush. He advised was not planning on moving his two beams.. If some one is interested in a 3 element HyGain antenna (10-15-20m) or a 5 element 6 meter beam, they are available if the interested party will climb the tower and do the removal honors.

Jeff W7JEZ down visiting Dick's W7RGD ham shack. Took Dick's 14 typing reperg for use on the amateur bands. Will be expecting some of that 60wpm stuff on the bands now Jeff.

Max W7AEA overheard on the commercial broadcast radio giving the marine weather conditions! Just like the 'good ole days' huh Max?

Budd WB7FHC and his dad Bob W7RXS working out some details on 2m, on a new project. Seems they are involved in a hot water solar heating project. Sounded quite sizeable job they are trying out

Ray W7FNC following Doc W7OS home from the last meeting in June. Seems Doc's car was having some electrical problems. Doc made it home ok and he was in contact via his hand held transmitter.

Scotty K7CYZ and Vivian proved to be good monitors on the club's repeater while camping out in their trailer. Scotty was working the fireworks stand and staying on the site all the time during the period of openings. The club owes them a big pat on the back! Thanks to them and the many others who volunteered to work in the stand.

Del W7JG having troubles getting home in time to keep his schedules on the 15 meter band with his son.

Denty WB7PKM busy replacing the water pump on his pick-up. Conveniently waited till he was pulling into his back yard to develope the trouble. Talk about your perfect timing!

The next time you bump into Don K7QLC, take a look at his new hand held two meter rig. Don called upon one of his many talents and hand-made a leather carrying case for it complete with embossed call letters. Beautiful job Don. Are you taking orders?

Marv WB7ONX got home from Maryland for a couple of weeks. Got a chance to work F-D with the club. Do you suppose he planned it that way?

Will close it for this month and press..here we go..

EDITORIAL

ile sitting here reading about our activities
he summer months, I find myself asking who's
what on these events! HamFair is our biggest
r, event of the year. I hope we will have a
urn out for this event and also get at least
co-operation from all the members. Every year
ems the same names show up for the jobs.
this year we can see some new names on the
airperson's chairs. I for one, do very little
courage new blood. That doesn't mean I can't
and try to get you to do it. I'll be there
oral support but that will be all.
ve done my work in the kitchen and donated my
-wave for the past 5 years. This year it's
turn. Let's see some new names and faces do-
heir share.
ry few members know who the Editor of this
is because this is my only activity in the
presently. But, here lies my love! I start-
and I want to stay with it.
e all of you at HamFair. We hope to have a
ay there with puctures of our beginning and
s of all issues from Volume 1 from 1964.
by and see us........ Marge K7AMJ

COMING EVENTS

e big event for this month and year is
air '79". August 18/19 are the dates and
be at the Washington National Guard at Camp
just off I-5 at the Camp Murray/Tillicum
umber 122. Remember, if you get your ticket
August 11th, you get two stubs on the main
drawings. So get your tickets early. This
res a lot of hard work but it is fun and
orth the extra effort.

(cont. next col.)

Events (cont.)

The next event on August 25/26 will be the Westport camp-out and fishing trip. The club has chartered a 20 man boat for fishing on Sunday, the 26th. The boat is just about full so if you want to get in on the fishing part, hurry on the reservation. The pot-luck picnic will be on Saturday. Regarless if you go on the fishing excursion, or not come on down for the week-end. Gas is no problem in the Westport area. There is space for trailers, campers and tents. There are no hook-ups but there are toilet facilities both inside and outside of the "El Shako". You will find a map in the pages of this month's Bark showing the way to the area so you should not get lost. Hope to see you at both events this month.

Remember to keep some more dates open in September for more up-coming events. The Stillaguamish camp out on the Stillaguamish river will be on the 7th, 8th and 9th. The other dates will be starting on the 14th when we will need a lot of help from members to man the display booth at the Western Washington Fair in Puyallup. This is not hard work but lots of bodies are needed to be at the booth to answer questions about Ham radio and operate the gear for display purposesScotty K7CYZ

RATS REPORT

The RATS Convention for this year is over.. We had a record crowd. (78). There was still room left for more. The guest book was signed by all and of course is too long to list here.

The first order of business was raising the membership dues from 5¢ to 10¢ a year. (Inflation, you know)

The second order of business was the electi of Officers for the new year. Officers remained the same with the exception of a new Secretary and Treasurer. Ralph W7COP is the new Sec/Treas with the title "Pack Rat". So all o you RATS, not there, your dues are due. Contact "pack rat" Ralph with your money.

The hot-cake contest was a blast.. it turne out in a tie again. This of course will requi another run-cff next year.

Ralph W7COP was challenged at the horse sho pitching contest but no one could topple him s he is still the years champ. (Should be noted that"Little Rat" Don WB7BLQ did beat him out o game.

The Rats will be out on 2 more outings thi year at the Westport and Stillaguamish campout See you there. .....Big Rat..K7C

Amateurs in the Soviet Union may now operate on 160 meters with 10 watts of power. A new "Novice-type" licensee will also be using this band with "EZ" prefixes but will only be permitted to contact other "EZ" stations.

The prestigious publication, "The West Coast DX Bulletin", has ceased publication after 11 continuous years of never missing a weekly issue. The publisher, Hugh Cassidy, a retired postmaster, found the chore impossible to fulfill as subscriptions exceeded 3200. A definite void will be evident among his many loyal followers.

Oregon's bill prohibiting radio transmissions in residential areas has been tabled and killed in the Oregon Senate.

The U.S. and Haiti now have a reciprocal licensing agreement, bringing to 53 the number of countries with which the U.S. has such agreements.

The Canal Zone will cease being a separate country at the end of September. After that, all KZ5's will have to qualify for a HP1 license to continue to operate.

A Dallas to Seattle 2-meter contact was logged on July 1 by WD5DHK who worked W7AX on 144.2 cw at 2340Z. This is believed to be a first on 2 meters for this path.

The first 432MHz. Hawaii to mainland U.S. contact was made on July 17, also the first 432 MHz W.A.S. was achieved by W0YZS, a 10 year effort mostly via moonbounce.

WB7QNQ

HARRY M. SCHLABACK

Harry Schlaback, WB7QNQ, was born in Port Orchard, Washington on November 27, 1912 and passed away June 28, 1979. He was currently living at 2320 Narrows Drive, Tacoma.

Harry joined the Radio Club of Tacoma on November 2, 1978. He suffered a fatal heart attack on Thursday June 28 while in Tacoma General Hospital. Funeral services were held at the Lewis Funeral Chapel, June 30th in Bremerton.

Harry retired as planner and estimater from shop 38 at the Bremerton Naval Shipyards in 1973. One of his first activities, after retirement, was to buy a portable Johnson 120 to explore the wonders of radio. As the 11 meter band became hopelessly jammed, he determined to become a ham radio operator. To this end, he and his wife Faith WB7QCQ, attended the novice classes at the RCT. They received their novice licenses and the next fall attended school again, studying for their Technician class tickets. They made the grade in April, 1978.

Harry enjoyed hunting, fishing, golfing, bowling and talking on the radio. He also had begun to try his luck with a metal detector. Just the previous week, he and Faith had returned from their annual fishing trip to Nimpo Lake in British Columbia. At the time of his death, Harry was President of the Past Exalted Ruler's Association of the Bremerton Lodge #1181.

Harry is survived by his wife Faith, a daughter Yvonne Thayer of Beaverton Oregon, sister Mrs. Sylvia Minor of Bremerton and sister Mrs. Myrtle Graham of Seattle.

The members of the Radio Club of Tacoma all extend our sympathy to Faith and Harry's family..... Doc, W7OS

When I finish this article, all the work will be finished, I want to thank Don WB7BLQ for a job well done as co-chairman and also all of you who turned out and made HamFair '79'.

See you next year........David WB7SDB Chmn.

COMING EVENTS

K7CYZ

September will be another busy month for RCT.

First of all, will be the Stillaguamish River campout. The dates are September 8th and 9th (Saturday & Sunday). The location will be at the Old Mill Group Camp on the Stillaguamish River. This is near Mount Pilchuck, not far from Everett. This annual event has always been a good one. The gang visits the ice caves, the "Maiden of the Woods" and usually a trip to the old mining towns of Silverton and Monte Cristo. If time permits there might be a visit to Mt. Pilchuck, to the site of one of Everett's ham repeaters. There is lots of room and it is free. Sorry, no hook-ups for the trailers but it is a beautiful place to campout. Last month's Bark contained a map of directions to the site. There will be a large W7DK sign at the entrance to the

location, watch for it.

The next event will be the Western Washington State Fair at Puyallup. The fair will be operating from Saturday, September 8th through Sunday September 23rd. The Radio club will man a booth in the Hobby House. We need help to man this display of equipment and operate the gear. Bob WA7ZZA is chairman of this project and would like to hear from you if you will be available to sign up for a tour of duty. Be sure to visit the booth and sign the guest book.

Next month (October) will be the Northwester Rally on Saturday & Sunday, 6 & 7th. Steve K7SSC will be in charge of this event and needs help bad!! He will need members with mobiles or hand helds. If you can help out, please contact Steve soon.

Events (cont.)

We seem to be asking for a lot of help from members especially so soon after HamFair but all of these events are what make the club well known and the great club that it is.

You newer members, please don't hesitate to join in on these special events. If you feel that you might not know what to do or how to handle traffic, the 'Ole' timmers will show you the ropes and are eager to see new members out on these events.

This will be about the last of the coming events untill the Christmas Party and that is a time of fun and a chance to really get acquainted with all members of the club - so plan ahead to attend. ,......Scotty K7CYZ

MEMBER LETTER

Dear Dick,

Just a note to thank you for your efforts to get the "Bark" to us every month. However, we have run into the same problem that Charlie Milhaus ran into in Korea: here it's August 7 and we just received the May issue!

Is there any way you can airmail (Printed Matter) to us? We'd be happy to make up the difference in money. At this rate, we'll be getting our August issue after we've left Japan in December!

We're definitely heading back Stateside at th end of the year. Probably to Yaesu Electronics Corp. in Paramount, California. We will have time to stop off in the NW for the Christmas holidays to see relatives and friends, so we hop to be able to make a meeting. Can't believe it' August already: we've meen married a whole year and the fish heads and rice are beginning to stick in the gullet.

We took on a real project in July: climed Mt. Fuji (and even made it back down!) That's 3,776 meters of huffing and puffing and once is enough, thank you. What a view...like being on top of the world. 90 degrees with 80% humidity in Tokyo and about 25 degrees and dry as the desert at the summit of Fuji. We got one whale of a sunburn but we're sure glad we did it.

We understand you folks had some real hot weather there for awhile. Hope you were able to take advantage of it and go camping (or whatever). Wish it would cool off here but the weather stays hot and muggy until nearly the end of September. Can't say I'm wild about it. The concrete jungle really makes it seem worse, too.

Hope the club did OK at Field Day. I realize that was a long time ago but we haven't heard anything yet. By the way, we'd be happy to spring for the cost of sending an updated club roster here too. We often have need of addresses and calls, so it would be appreciated.

Please pass on our hellos to anyone who might remember us and a special "hi" to your mom... hope that she's doing well these days. You all take care and let us know if there's anything we can do to help with an air mail subscription.

IN MEMORIUM

RICHARD W. KESELBURG
K7MQJ

Richard was born October 11, 1926 in Tacoma and passed away August 20, 1979 at the age of 52. He worked for quite a few years as an Engineer for the City of Tacoma with the Fire Department aboard the Fire Department's fireboat.

Dick joined the Radio Club of Tacoma March 8, 1961 and especially enjoyed the field day activities with the club. In recent years he was actively involved with a 6 meter repeater group and was involved with his newest interest, flying.

His funeral services were held August 23 at the Piper Funeral Home.

Dick is survived by his wife, Gloria and children, Dick K7WUH, Margie, Janice, David, Marian, Cathy and Rita.

Although Dick was not a current member, we are sure many of the membership remember dick. We all extend our sympathies to Gloria and his children.

A carrier showed up on the club's repeater on the 26th of August. It was an apparant rig stuck on. It finally shut the repeater off after timing it out. A few of the members started checking with their beams and determined where the signal was coming from and a couple of phone calls got the carrier off.

'Kirk' W7GCI overheard on the repeater giving away some of his fishing secrets to a fellow member. If you missed it, check with him for the secret of getting them 'deep ones'.

Clay K7CR won the third prize of a computer base at HamFair. Admitted that the actual ticket belonged to his harmonic. Keep us posted Clay on how he does with it.

Don WA7PIN getting ready to return from VE7 land during the Labor Day week-end. Should have some tales about the outing in the hinter-lands. Was involved with a lost ham on a sailboat up in the island water-ways. Turned out he was not lost but had a few anxious people on a search. Forrest fires up in his area was driving the animals (bears for one) down into his camp area. (This makes for anxious night sleeping)

Dick WB7CRR back on the mend after some surgery his hand.

The Huntleys (Scotty K7CYZ & Vivian) along wi the Rawlings (Ralph W7COP & Tykie) are off on a day trip to the Yakima valley area to pick up their annual orders of fresh vegetables and frui for canning.

Don't forget to contact Bob and sign up for the booth at the Puyallup Fair.

That's it for this month.......and off to the press I go....

up before the opening day. The new 75 meter antenna was the big job.

The Northwest Radio store, in Tacoma, loaned the RCT the equipment on display. The gear was on the air most of the time during the Fair.

RCT extends a great big vote of thanks to all of you who worked the booth and the many others who put the booth and antennas together to make a grand display for the thousands who visited the fair and a thank you to NW Radio to help make it a working display with their gear. ...ED

FIELD DAY "79"

The results of the 79 F-D tallies are in and published. RCT did it again! Number one in our class of operation. It was a long dry spell since coming in tops in our class and many years ago we ran second for all classes, running second to the Puyallup Radio Club, which disbanded some years ago. This year's results should fire up the spirit once more to go for broke and capture that envious number one spot. Let's go gang, we know it can be done!

COMING EVENTS

The Norwester Rally (October 6th) will be history by the time you read this issue of the Bark so we will not go into details on this event. We will wish Steve K7SSC and his crew the best of luck.

The next event in October will be on the 21st. The Ladies Auxiliary will be sponsoring a Pot Luck Dinner at the Clubhouse from 4:30pm to 6:30pm that day. They will provide the ham, potatoes and vegetables. Those who attend are invited to bring a salad or desert. A fun evening guaranteed for everyone. See you all there.............ED

"SIX DECADES OF RADIO BROADCASTING" 1919-1979

orabilia and collectibles reflecting six decades of amateur and commercial radio
asting in the Olympia area will be displayed at the State Capitol Museum from
ber 9 through 30.
he exhibit will kick off with a two hour live KGY broadcast from the Museum Art
y on Sunday, September 9, from 1 PM to 3PM, featuring some of the State Capitol
's activities and programs for the coming season. Carl Cook, of the local station's
r staff, will M.C. this public service broadcast.
mateur Radio Week, proclaimed statewide by Governor Dixy Lee Ray, for September
, will be represented through the local chapter of the American Radio Relay Clubs
ateur Radio Museum of Tacoma, with a display of amateur or "ham" radio artifacts,
back to the primitive crtstal sets from the era prior to World War I.
mmercial radio had its beginnings locally in 1914, after the wartime ban on private
asting was lifted. A tiny transmitter at Saint Martin's College, manned by Father
ian Ruth and a dedicated group of radio enthusiasts, with the call letters 7YS was
in this area. In 1922, this station was licensed with the present call letters,
s one of the Northwest's first commercial stations and has continued in several
ons to the present unique waterfront establishment which is a fixture on the
a scene.

WILLIAM H. MOTZ ex 7AA-7QE

This story about 7AA must be a first because you can't get much closer to the beginning than AA, a call which was issued to Bill in 1914 This is several years before RCT history.

Bill in the early years

The early report in the News Tribune (January 1917, listed the first officers of the RCT and a list of the members and here Bill 7AA was very prominent.

Only recently Roy Richards, N7ARO, called our attention to his Great Uncle Bill Motz who is now in Evergreen Convalescent Home in Olympia. See picture below.

Bill today at 82

We were able to get the use of a family album and found some pictures of Bill and his early days in radio along with some information on his activities.

Bill was first noted in the roll call book dat ed September 28, 1920 as living at 4608 S. J Stre His birthday is January 24, 1897. He holds RCT membership number 19. Pictures show him during the first field day activities with early type h gear. In the picture at the first of this colum you may have noted the call 7EK in the back grou who was a good friend of Bill. Also a member of RCT the call belonged to Leslie Lunan. Bill hel the call of 7QE from 1921 to 1923. Bill must ha been close with W7BG, Karl Weingarten since both worked for the Chicago, Milwaukie R.R. at the ti and Bill finally retired in 1946. Among the pictures there were some pictures of him in WW I uniform.

Not much is known of his ham activities after his retirement but from the look of his photo album, photography was an important aspect of his activities.

Bill enjoyed mountain climbing, motor cycle riding. He attended the Chicago Radio Conventio in 1920 and was the only person to represent the Northwest at that time. Bill's comment was, "It's hell not to be able to remember names and dates" but still he still recalls the days of "green silk wire".

He was born in Duncanville Illinois in 1897 and came to Tacoma in 1907 and became an enginee with the Milwaukie RR.

Bill wished he had never given away his catwhisker receiver and his quench gap transmitter. He had a hard time with the winding of a model " coil. Bill said he was heard on the east coast but had to admit he was unable to work them.

We were haply to locate this very early ham a member of the RCT. We were glad to get his picture and only wish that he could visit the RCT.

Best wishes go to Bill and many thanks to his son Lester Motz, to Al K7KNZ and Roy N7ARO for their help getting this story together.

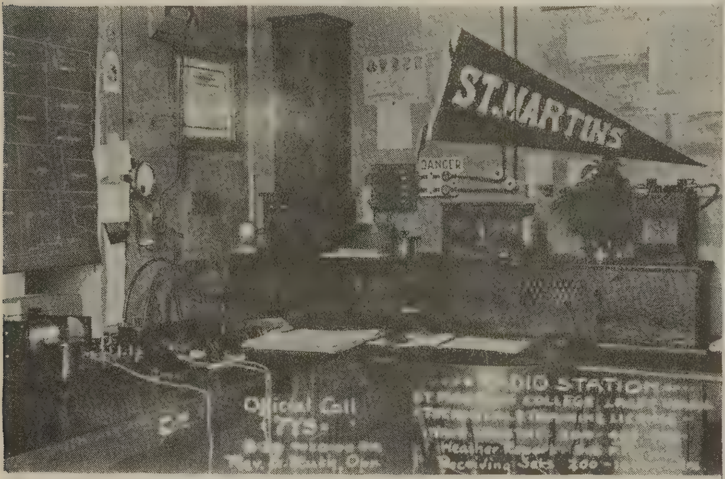
FATHER SEBASTIAN RUTH, *7YS -W7YS. I can remember, as a small boy staring in ham radio, delivering his paper to St.Leos back in 1916. Sebastian visited with me on my first attempt at long wave communications. Later he invited me to his station 7YS at St. Martins to have the thrill of my life to hear a commercial arc radio transmitter.*



Father Ruth developed the station KGY. He was a Charter member of Northwest Chapter QCWA. He was first noted in the Club's records as joining the club in September of 1920.

FORMER OWNERS OF KGY, ST. MARTIN's FATHER SEBASTIAN (1922-1927) AND TOM OLSEN (1939-1976) LOOK OVER KGY's FIRST LOG BOOK.

The month of September (9th-16th) was dedicated to Amateur Radio week by Govonor Ray. (see last month's issue with picture) We of DK are proud of former member Father Sebastian Ruth and his great contribution to the radio history of the northwest.

RICHARD RYAN W7RGD

A long overdue happy occassion took place at Radio Club's meeting October 10th. Dick was cal up front to listen to Doc Spike W7OS recite, "Th has been your amateur radio life Dick", reading from an article which appeared in the Loggers B July 1978. The article described Dick as a pri publisher, photographer, mini computer operator, gold paner, amateur radio expirimenter and opera since 1952. His devotion to RCT has kept him bus putting out the Loggers Bark along with many oth publications, never missing as issue over 16 yea Several years ago, Dick personally had all back issues bound into two beautiful volumes. Just r cently he presented the third volume of issues covering five years through 1978.

On October 3rd, during the Board Meeting, the Board recommended unanimously to extend to Richa C. Ryan, W7RGD, our most honored expression of appreciation for his untiring devotion to the Ra Club of Tacoma a certificate "Honorary Life Membership" with all its rights and privileges. was signed by all Board Members. Doc W7OS moved the following resolution; That the Radio Club of Tacoma Inc, confer upon Richard C. Ryan, W7RGD, the rights and privileges of Honorary Life Membe ship in appreciation of his untiring devotion to the Radio Club of Tacoma. Signed by Doc Spike W Doug Smith WA7ZPK, Irma Duncan W7OVW and John Kelley W7KKN. A standing ovation and concent wa received from a large attendance and Doc surpris Dick by arranging to honor Dick's mother, Verna coming forward to make the presentation. (see fro page picture)

RALPH L. UPRIGHT W7LIL.

Ralph, long time former RCT member, has had a hearing problem but not so bad that he couldn't hear the call of romance. Ralph and Pauline Fre were married September 19 in the Central Bible Evangelical Free Church. Dick Prout, W7VIC, served as Best Man for the ceremony. Congratulations to the happy couple.

NEWS FROM ARRL & HR REPORT

W7BUN

Senator Goldwater has inserted an item about the "Russian Woodpecker" in the Congressional Record. The piece, titled "Soviet Interference in the Amateur Radio Band", claims that cooperation from the Soviet Union is a "one-way" street.

Preliminary reports from Geneva indicate the Amateur Service is faring well so far. Committee decisions have recognized the continuance of the 10-meter band, the encouraging support for a new Amateur allocatiin at 24MHz, some reduction in the 1250MHz band and the defeat of the U.S. proposal to change the requirement for a knowledge of Morse code to merely a recommendation. The committee maintained a requirement but made it applicable for Amateur licensing below 30HHz instead of the present 144MHz. Nothing will be final until the signing of the documents in late November or early December.

The Nation's second oldest repeater, the Mt. Wilson machine in Southern California, has closed down after 18 years on the air. The owner, K6OQK, is fed up with the ongoing harrassment by inconsiderate users and abusers.

Don't forget to watch the French Atlantic Affair on TV the evenings of November 15, 16 and 18. Amateur radio plays an important part in the plot.

FCC rejected "Point of Sale Control" of Amateur transmitting equipment. The Commission noted it has neither the staff nor funds to enforce the record-keeping and the licensing of dealers would be expensive. Several petitions had been filed requesting proof of an Amateur license when purchasing Amateur transmitters.

FCC accepted ASCII for use by Amateurs for RTTY and the staff is writing the rules for its implementation, hopefully by the end of the year.

The USSR will assign special call prefixes to celebrate the Olympic games. Beginning January 1, UA's will become RX or RZ, UK - RK, UW - RV, UR - RU, UC - RZ, UB5 - RZ5, UT - RT and UY - RY, In July, RM30, RT20, RL10 and RK50 will be active from the Olympic games.

The 12th Australian Scout Jamboree will be held from December 29th through January 7, 1980. Schedules with Scouts or Scout groups are desired. Write Scout Amateur Radio VK6SH, Box 467 P.O.West, Perth Australia 6005.

FCC has changed its rules to now require the use of form 610 for a change of mailing address and liceses submitted for modification will be re-newed for five years.

AUTOPATCH

WA7FUS

DO WE WANT AN AUTOPATCH ON OUR REPEATER AGAIN? THIS IS A DIFFICULT QUESTION TO FULLY DISCUSS AT AT A GENERAL MEETING. YOU ALL, I AM SURE, HAVE AN OPINION WHICH YOU WOULD LIKE TO EXPRESS. I WOULD LIKE TO HEAR FROM YOU. PLEASE WRITE OR CALL ME. AS LONG AS ADEQUATE HELP IS AVAILABLE FOR MONITORING DUTIES, THE DECISION WHETHER OR NOT TO HAVE AN AUTOPATCH SHOULD BE MADE BY A MAJORITY OF THE RCT MEMBER USERS OF THE REPEATER.

IF WE WERE TO HAVE AN AUTOPATCH AGAIN SHOULD WE HAVE ONE WHICH MUTES THE VOICE OF THE HAM USING IT AND ONLY BROADCAST THE VOICE FROM THE TELEPHONE? DO WE WANT A PATCH WHICH WILL ONLY ACCESS EMERGENCY TYPE PHONE NUMBERS OR SHOULD IT WORK FOR ALL CALLS? WHO SHOULD MONITOR THE PATCH? FCC LAW SAYS THAT A CONTROL STATION MUST MONITOR ALL AUTOPATCH USE. WE HAVE HAD A SEVERE SHORTAGE OF PERSONS AVAILABLE TO SERVE AS CONTROL OPERATORS DURING THE MAJOR REPEATER USE HOURS OF THE DAY. A FEW VERY DEDICATED PERSONS SERVED AS CONTROL OPERATORS FOR OUR AUTOPATCH ALL HOURS OF DAY AND NIGHT MAKING IT SEEM TO THE MOST OF US THAT ALL WAS FULLY UNDER CONTROL. WHENEVER ONE OF YOU OUT THERE IN RADIOLAND WANTED TO MAKE A PHONE CALL FROM YOUR RADIO, ONE OF THESE PERSONS WAS THERE. IF WE HAVE A PATCH AGAIN, WE MUST ADDRESS THE NEED FOR MORE MONITORING PERSONNEL OR SIMPLY BE WILLING TO ACCEPT THE FACT THAT WHEN THERE IS NOT A CONTROL OPERATOR ON DUTY, THE PATCH WILL NOT COME BACK TO YOUR ACCESS TONES.

ANOTHER ASPECT OF AUTOPATCH OPERATION, WHICH WE MUST THINK ABOUT IS THE RESPONSIBILITIES OF LOGGING THIRD PARTY TRAFFIC. THE REPEATER'S OPERATOR,

OCT. 26,1979

DEAR JACK,

MANY THANKS FOR YOUR GOOD LETTER. I REALLY WANT TO KEEP IN TOUCH WITH YOU AND THE REST OF THE GOOD GANG AT RCT.

ENCLOSED IS MY APPLICATION FOR RE-INSTATEMENT AND A CHECK. IT WILL BE GOOD TO BE A MEMBER AGAIN.

I DID SEE IN QST HOW WELL W7DK DID ON FIELD DAY. CONGRATULATIONS TO ALL!

I NOW HAVE A TELREX TRI-BANDER UP ON A W-51 CRANK-UP TOWER AND THINGS ARE GOING WELL.

AM LOOKING FORWARD TO GETTING THE "LOGGERS BARK" AGAIN, I'VE MISSED IT.

HI DICK,

JUST A NOTE LETTING YOU KNOW THAT THE 'BARK' IS COMMING IN FINE NOW. THANK YOU. IT'S NICE TO HEAR NEWS FROM HOME ABOUT ALL THE FRIENDS I HAVE AND WHAT THEY ARE DOING. SOUNDS LIKE THE HAMFEST WAS JUST GREAT, WISH I COULD HAVE BEEN THERE, MAYBE NEXT YEAR. WX HERE IS BAD. LOTS OF RAIN AND GETTING DOWN TO 2C AT NIGHT. WE WILL HAVE SNOW REAL SOON. HOW ABOUT RUNNING THIS AD FOR ME IN THE 'BARK'?

THANK YOU

My term as Secretary of RCT has been interesting to say the least — a fine way for a new member to get acquainted with the Club.

I'd like to take this opportunity to thank all of you for letting me serve as your Secretary this past year. .....Carol, AE7X

OFFICERS ELECTIONS

Yes! It is that time again, election of RCT officers for the coming year. The nominating committee met in November and they will present their slate of nominees at the first meeting of December (12th). At that time nominations from the membership will be opened.

During the December 26th meeting, nominations will be again taken from the floor. The election will follow at the close of nominations for the 1980 officers.

The two meetings in December are important ones so let's see you at the meetings and help to select the club's choice of officers for the coming year. K7CYZ

MEMBER LETTER

Box 66, Capitol Hill
Saipan, CM. 96950
November 29, 1979

Dear Dick,

I should probably have asked you to do this long ago but just never got around to it. It would be helpful to have my address on the Bark changed from the present listing to the one shown at the top of this letter. It seems that some of the mailroom boys at Headquarters are having difficulty locating me. The box number shown above is just outside my office and will get the Bark to me with no trouble.

I don't know whether you folks know that the Northern Marianas are now under FCC, whereas our "old" licenses were issued by the Trust Territory Government. All of us here received notice earlier this year that after December 31 our TT licenses would no longer be valid and that we had to apply for a FCC license. We could choose to keep our stateside call or our present KG6S call or we could opt ofr a two letter KH0 call.

It was kind of a difficult decision to make. I very much like my call of KG6SW with which I am now identified literally worldwide. But it won't be long before there is a KG6S in California, which is going to cause more confusion on the air. Fact is, just the other day I worked KG6I who lives somewhere in central California. So I decided to opt for a KH0 call since that prefix is reserved for Northern Marianas only. After December 31, listen for KH0AC. KG6 Sweet Willy will be retired at that time.

(cont. next col.)

LETTER (CONT.)

It might also be interesting for you folks t know that the highest class amateur license in Trust Territory is the General Class — —with the same frequency privileges as the old FCC General Class for the 15 and 20 meter bands. But with FCC taking over in the Marianas, our operating quencies will have to conform to the "new" gene Class limitations. With this in mind, I decide the last trip to the States to give the Advance class exam a whirl—"just for practice"...and b jing, I made it! Don't think I'll ever make Ex but it's a relief to know that most of 15 and a of 20 phone will still be available come Januar

I'm usually on around 28.600 plus Fridays fr to 2400Z and of course I'm always happy to hear call out of the W7DK area. In the meantime, be of Season's Greetings to all of our friends the

Sincerely,
/s/

The opening we are expierencing on 6 meters ing the last few weeks, is greater than the bi opening back in 1957/58 The signals are rolli like "gang busters". Everything from VE1's to W4's on the Atlantic seaboard. Cut West Japan the south sea islands are coming in. Even a f contacts are being made from South America and to Alaska. Now would be a good timr for "moun topping".

The reports from the east coast indicate th are working some of the European stations but yet, have not had any reports for same in the west.

We are entering into the northern lights se so keep your antenna pointing north, You may up those elusive Montana or Idaho station for was award. ....Scotty

NEWS FROM ARRL & HR REPORT

W7BUN

FCC RELEASED AN ORDER ADVISING THAT SPECIAL FIELD EXAMINATIONS FOR AMATEUR LICENSES ARE BEING DISCONTINUED IMMEDIATELY. IT WILL NO LONGER BE POSSIBLE TO TAKE AN EXAM AT A HAMFEST OR CONVENTION.

OCTOBER FCC LICENSE FIGURES:

NOVICE	TECH.	GENERAL	ADVANCE	EXTRA	TOTAL
62,337	69,291	122,233	84,605	23,890	362,356

ARRL MEMBERSHIP FIGURES: NORTHWESTERN DIVISION 7,753; TOTAL 163,536.

WARC REPORT: THE CONFERENCE WAS EXTENDED TWO WEEKS T TO DECEMBER 5TH BUT ANOTHER LARGE CONVENTION IN GENEVA IN MID-DECEMBER PRECLUDES ANY FURTHER EXTENSION. THE DELEGATES HAVE BEEN MEETING 16 HOURS A DAY, SIX DAYS A WEEK, IN AN EFFORT TO GET THROUGH THE ENTIRE TABLE OF FREQUENCY ALLOCATIONS. AS OF PRESS-TIME, THERE HAVE BEEN NO UNPLEASANT SURPRISES FOR AMATEURS. IN FACT THERE IS OPTIMISM WE'LL GET ONE, IF NOT MORE, OF THE PROPOSED NEW HF BANDS. INTERNATIONAL BROADCASTING AND SATELLITE COMMUNICATIONS WILL BE CONSIDERED IN A SEPARATE CONFERENCE SOMETIME AFTER 1982. THE HF AMATEUR BANDS MAY AGAIN BE IN DANGER, SINCE MANY OF THE EMERGING NATIONS ARE LOOKING FOR EXTENSIVE INCREASES IN THEIR HF BROADCASTING ALLOCATIONS.

BOARD MEETING

The October 3 Board meeting was called to order at 8:00PM by President, Doug Smith AJ7Y. The minutes of the last Board meeting were read and approved.

TREASURER'S REPORT:

Regular checking $1920; Special checking $102.90; petty cash $20 and savings $5228.77 for a total of $7272.40. Savings include 4epeater fund 324.32; Building fund 137.62; Station fund 152.03 and Field Day fund 18.24. Interest on savings was $115.33.

COMMITTEE REPORTS:

X-mas party. Scotty K7CYZ reports X-mas dinner will be Friday, December 14th at the Puyallup Elks. Happy hour 6:30 with dinner foll,wing at 7:30. The cost will be $9.00 per person. Money must be in by Tuesday, December 11th.

Building Comm. Scotty K7CYZ gave a report on the costs of various types of buildings to house the club's generators. It was moved, seconded and approved unanimously that we recommend setting aside approximately $4000 for the 20' X 20' two car garage by Brookdale Lumber.

Club equipment. Jerry W7BUN phoned in a request for up to $10.00 for parts for the club's rotator control head. Moved, seconded and approved. He also brought up the fact that our book business is getting out of hand. Much of our material is out-dated and with a ham outlet store in Tacoma, there is no need to keep books on hand anymore. It was moved, seconded and approved that we sell all dated material at 50% off and sell all other material at 25% off — holding out what the novice class might find useful and that we start giving away door prizes all that we fail to sell at the next meeting.

HamFair. Joe WA7RWK is the new HamFair Chairman. The site for 1980 will be at PLU. Facilities will include a 60 X 80 room, seminar rooms and kitchen. Low cost dorm rooms will be available. Cost for the whole facility will be less than $1000.00.

NEW & OLD BUSINESS:

Doc W7OS brought a book "The History of York Amateur Radio Club", which was given to the club for our library. Moved, seconded and approved we accept it.

Doc W7OS showed the third volume of hard bound Loggers Bark's presented to the club by Dick Ryan W7RGD. For this and much, much more, it was moved, seconded and unanimously approved that we recommend the club grant Dick, Honorary Life Membership. A written request was prelared, in accordance with the Club Constitution and By-Laws.

The nominations committee will include Roy Richards N7ARO, Bob Teitzel WA7ZZA, Ray Etherington W7FNC, Scotty Huntley K7CYZ and one other person.

Irma W7OVW will handle the phone forwarding for October and Grace AD7S will take it for November.

New member applications voted on were: Paul Trepos AI7S, Dennis Goodwin KB7DZ (former member), Joseph Jenks KA7DCX, Dennis Haza KA7FKZ,

REPEATER. PETER WA7FUS BROUGHT UP THE PROPOSAL (ENDORSED)UNANIMOUSLY BY THE BOARD) THAT WE MOVE THE REPEATER BACK TO THE CLUBHOUSE SITE AND TRADE FREQUENCIES WITH THE AUBURN MACHINE (147.88/28). THE REASON FOR THE CHANGE ARE AS FOLLOWS; 1. WE MUST GET OUT OF GRAHAM TO ALLOW W7KKN/R TO RETURN ON THE AIR. 2. TO RETURN TO THE CLUBHOUSE ON 84/24 WOULD CONTINUE THE 04/64 INTERMOD PROBLEMS TO THE DETRIMENT OF THE HAM COMMUNITY. 3. WWARA ADVISES 88/28 IS AS CLOSE TO A CLEAR FREQUENCY AS WE CAN GET WITHOUT GOING INTO THE SUB-BANDS. AFTER CONSIDERABLE DISCUSSION THE CLUB UNANIMOUSLY ENDORSED THE PROPOSAL THAT WE MAKE THE CHANGE AS SOON AS POSSIBLE. WITH THE CHANGE, WE WILL BE BUYING X-TALD FOR THE AUBURN MACHINE AND FOR ABOUT 6 OF ITS USERS. DOUG AJ7Y ASKED THAT MEMBERS CONSIDER THEIR FEELINGS ON THE FOLLOWING POSSIBILITIES FOR FUTURE CHANGES OR ADDITIONS TO THE CLUB MACHINE.

1. A SIMPLEX AUTOPATCH ON ANOTHER FREQUENCY.
2. AN AUTOPATCH SET UP AS IT WAS BEFORE.
3. A HALF-MUTED AUTO PATCH (PHONE PART ONLY WOULD BE HEARD).
4. AN EMERGENCY AUTO PATCH ONLY.
5. NO AUTO PATCH.

DISCUSSION WILL CONTINUE. PLEASE BRING YOUR PROPOSALS TO THE BOARD OR THE REPEATER COMMITTEE.

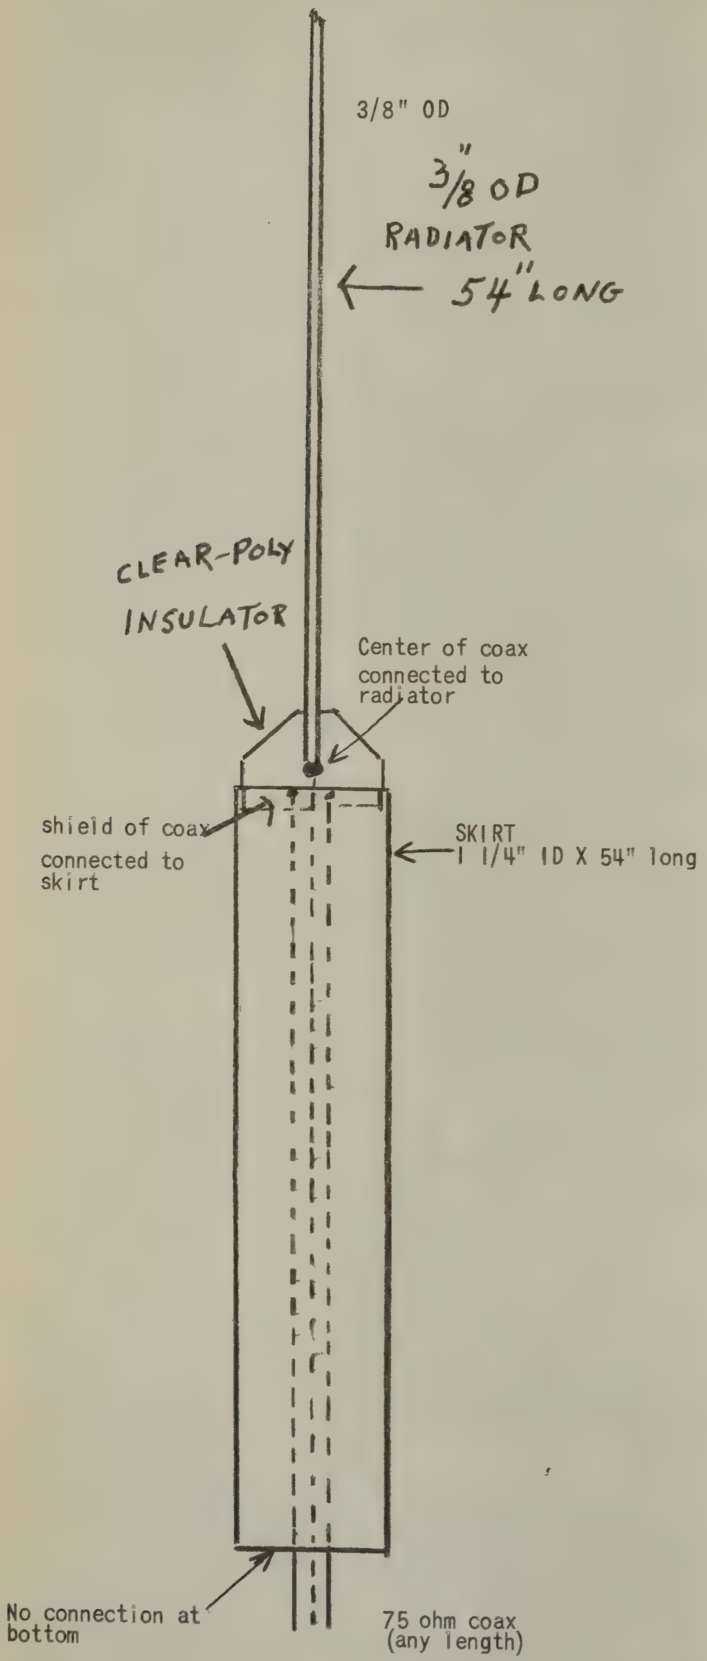
THE "BAZOOKA" OR COAXIAL ANTENNA
FOR 6 METERS



SIX METER BAZOOKA ANTENNA

Dave WB7SDB and Scotty K7CYZ are starting a mor
"Do it Yourself" department to be run in the Logg
Bark. The column will feature small projects tha
be built in a couple of evenings or a week-end.

Since the six meter band has been wide open fo
past couple of weeks and a lot of you are going t
meters and also this antenna will out perform a 1/
wave antenna and is a lot stronger and easier to
we chose this for our first project.

This is not a new antenna, nor is it an untrie
antenna. Scotty has used one of these for about
years. You can rest assured that if it didn't pe
it wouldn't still be up in use. As of November 7
1:32pm a 5x9 was received from VE1ADJ in St. John,
Brunswick with this antenna.

The parts are easily obtained from any hardwar
store. The driven element (radiator) is made of
inch aluminum cut to 54 inches in length. The sk
is also 54 inches long, made of 1 1/4 inch galvan
water pipe. This may be 1 1/2 or 1 1/4 aluminum
just as well and would be much lighter. The poly-
block insulator is made from 1 1/4 OD (round stock
purchased from your local home improvement store.

How you mount the antenna is determined by the
tion. Keep it at least 54 inches away from any ot
vertical metal object. It works well against a wo
mast. Be sure to treat the wood with a good coat
spar varnish. Scotty made two poly sinsulators to
inside of the 1 1/4 galvanized skirt and ran a pi
of 3/4 pipe inside of it. The coax was then run i
the pipe. This makes a very rigid mount and prote
the coax.

Have fun building this antenna and we will have
another project for you next month.

ELECTION RESULTS

1980 Radio Club Officers were duly elected the December 26th meeting as per the By-laws RCT. No railroad trains were observed area and a good choice was available e on. Congratulations to the new d officers.

RCT new Officers are; President, Roy Richards Vice President Jack Moore, WA7ENB; Secretary irkland, N7AZO; Treasurer Don Perry, K7QLC, ard members elected were Scotty K7CYZ and W7BUN. Since the President and Vice President ot running for office this year, they will tically be included as Board members which the 4 Board members required by the By-laws. gratulations again to the newly elected rs. Let's all get behind them and keep the he active club that it is. Remember, the rs cannot do it alone but need the help of nd every member.

INSTALLATION OF OFFICERS ANNUAL BANQUET

installation of Officers will be held at the Club of Tacoma's Annual Banquet. The banquet e at the Puyallu Elks hall in Puyallup, on ry 9th at 6pm. The happy hour will start at llowed by the dinner at 7. The cost is $9. rson, which includes the tax and tip.

the food is as good as what we had at the mas party, you will not be disapointed.

s, you don't want to miss the installation new officers and pay your respects to the ng officers, who have worked so hard this ear.

may pay in advance but it is not necessary, r, I must know how many reservations to make February 6, so get the reservations in early!

YARC SCHEDULES

Those, who participated in the exchange qso party with the York Amateur Radio Club (YARC) in November, had a great time of it. The RCTand YARC would like to extend this activity so that more members could participate. In order to make this possible, another schedule has been worked out between the two clubs.

So with that in mind, put these dates and frequencies on your calendar. February 1st, February 8th and February 15th. The time for the schedules is 1730 (5:30pm local) on all days and the frequency will be 14.340MHz plus or minus a few. We are hoping this later hour will give a better opportunity for everyone to get achance and the frequency selected on 20 meters will bring out some new members in both clubs to participate in the exchanges.

We were advised by YARC that the "White Rose" certificates are in the mail to those who earned them in the last party on the air..

Remember the dates and frequencies for the next on the air party in February. ......Doc, W7OS

BARK REPORT

W7RGD

As we conclude our 16th year of continuous publication and start the 17th year, I would like to express the Bark's thanks to the RCT and the Ladies Auxiliary for their support and help. This support has included articles, manual labor and financial help, to name a few.

Our main goal is to try and keep all members abreast of the Club's many activities and projects. The Bark is not a substitute for attending meetings but does keep those who can not attend (for various reasons) up-to-date on "what's going on" with the club. The Bark also is not in competition (who said we were?) with CQ, HAM, QST, etc.. Articles are written strictly on a local interest bases.

CHRISTMAS PARTY '79'

The 1979 Christmas Party is now history.
had a very good turnout with 98 attending the
party.

The food was tops. The Puyallup Elks do pu
out the best meal that we have found in this
of the country. Some of the younger folk thou
that the music was a little old style but the
older set liked it. For only two people, they
put out a lot of music. Most seemed to be enj
ing the evening without dancing. so I think ev
one had a good time.

Our Club President, Doug AJ7Y, was the only
son observed under the table. Don't know what
were looking for Doug but you looked very guil
when you crawled out from under that table.

Andrew W7GCI went home with the door prize,
nice am-fm digital clock radio. Congratulati
Kirk!

Irma W7OVW won one of the ladies prizes, a
$25 gift certificate from J.C.Penneys. Helen
Dawson, xyl of WB7OTY, won the other gift cer
cate from Penneys which was donated by the La
Auxiliary. The men's prizes were also donate
the Auxiliary.

Henry WA7ZLC won a half gallon of X-mas ch
and Jack WA7ENB won the gift certificate to
Black Angus Restaurant for a steak dinner.

Don't forget that the Club will be having
annual installation Banquet at the same locat
on February 9th, same place and price (9.00).

ARRL Bulletin NR 122, from ARRL Hqtrs,
Newington, CT, December 6, 1979,
To all Radio Amateurs $\overline{\text{BT}}$

The World Administrative Radio Conference, meeting since late September in Geneva, has now finished its work, with favorable results for amateur radio. In the bands below 30 MHz., all present allocations are retained and there will be three new worldwide bands. They are 10.100 to 10.150, 18.068 to 18.168 and 24.890 to 24.990 MHz. In the 10 MHz

band, amateurs will be allowed to operate if they do not cause harmful interference to fixed service stations operating in the band. Amateurs may be permitted in this shared band as early as January 1, 1982. The 18 and 24 MHz bands will be exclusive but before amateurs may operate here the existing fixed service stations must be moved to new assignments elsewhere in the spectrum. This transition will occur between July 1, 1984 and July 1, 1989. Amateur operations will likely be allowed to commence sometime during that period. In most of North and South America, including the U.S. and Canada, amateurs will enjoy exclusive use of the bands 1.800 to 1.850 and 3.750 MHz., which are presently shared with other services. In both cases, the remainder of the band continues to be available on the present shared basis. There were no changes to the allocations at 7.000 to 7.300 MHz. Amateurs in Rregion 1 will have a new narrow, exclusive allocation in the 1.8-MHz band, 1.810 to 1.850 MHz in most countries and 1.830 to 1.850 MHz in others.

Above 30 MHz the amateur and amateur-satellite services also did well. Several new amateur-satellite allocations were made between 1260 MHz and 10.5 GHz all on the condition that harmful interference is not caused to other serviices. They are 1260-1270 MHz uplink only; 2400-2450 MHz; 3400-3410 MHz, limited to Regions 2 and 3; 5650-5670 MHz, uplink only; 5830-5850 MHz, downlink only and 10.45-10.5 GHz. For the amateur service in Region 2, a new secondary shared allocation was made at 902-928 MHz. The band segment 1215-1240 MHz was with drawn from the amateur service to protect a new radionavigation satellite system from interference. No other changes in present allocations above 30 MHz should affect U.S. amateurs. Several new amateur and amateur-satellite bands were designated in the largely unexplored spectrum above 40 GHz. AR

ARRL December QST (page 70) has an article entitled "A Tradition in History", written by WA1STO. A number of RCT members have asked me to send a comment to the editor, since we have claimed to be a very old club. An article has been mailed off stating that **WE FEEL LEFT OUT.** It's true, the eleven first affiliated clubs were prior to 1920, while our birthday was October 16, 1916 and our affiliation with ARRL was August 27, 1920, most of the eleven have fallen to the way side while we are still going, with continuous affiliation since that date in 1920. In the article submitted it was brought to their attention the article with pictures in the January, 1976 issue of QST. Hopefully they will print the article submitted.

FCC has relaxed the requirement that the original operator license be in the possession of the control operator of an Amateur station. Effective December 21, a photocopy will be sufficient.

Canada and the U.S. have agreed that effective January 21, Amateurs of one country visiting the other will no longer need a reciprocal permit. U.S. Technicians and Novices will still not be permitted to operate in Canada.

FCC will issue a Notice of Proposed Rulemaking, probably in several months, looking for additional cb frequencies for ssb use between 27.41 and 27.54 MHz. The elimination of distance restrictions and the use of vfo's for cb is also being explored.

FCC's legal advisors have claimed that volunteer Amateur exams are illegal and the use of volunteers to administer Novice tests must be terminated. From 1951 to 1954, Novice applicants were tested at FCC field offices but since June, 1954, the Amateur Service has had this responsibility. No date has yet been set for the termination.

Russia's Amateur population numbers 30,034 stations, of which 3,629 are club, 17,234 individ - ual and 9,171 VHF.

The planned launch date for the AMSAT Phase III-A satellite, next in the OSCAR series, is May 30, 1980. The apogee is proposed to be 35,786 kilometers. Right hand circular polarized antennas will be a MUST due to the constant spin of the spacecraft. Linear antennas will suffer severe fading of the signals.

K1WHS has achieved the first 2-meter moonbounce WAC (worked all continents) Award in late November. He runs 1000 watts to a 160 element array.

DO-IT-YOURSELF DEPARTMENT

This month's Do-It-Yourself Department has a simple "fix" for those who have Wilson handheld battery chargers. The battery chargers for the Wilson models 1402 and 1405 have a light bulb that indicates regular charge rates, this bulb has a bad habit of burning out and is hard to find. This circuit (opposite page) will replace that light bulb with a "light-emitting diode" (LED). No filaments to burn out! YEA! also indicates trickle charge mode.

Your charger will presently have either circuit "A" or "B". In both cases, remove the light bulb and add the LEDs and resistors to the emitter of the transistor and switch as shown in circuit "C".

All of these parts are available at NorthWest Radio Supply and Radio Shack stores. Also Radio Shack stores have front panel LED mounts available. A $1.00 donation to the repeater committee will get you a complete kit of parts. There is only a limited supply of these kits available, so hurry!

Of a more general interest, an emergency antenna can be made for your 2 meter transmitter as shown on this page. By using other adapters, this flexible $\frac{1}{4}$ wave antenna can be used on many handhelds.

Another carrier came on the Club's repeater which locked it out when the timer took over and shut it down. Several members took readings with their home rigs and the beams located the source South of Tacoma. At this point Kirk (who was mobile) took over pin-pointing the problem carrier. It turned out to be a stray transmitter on McChord AFB. Kirk had a talk with the people out there and after a check the offending transmitter was located and shut down. The problem was taken care of in very short time.

ARRL REPLY LETTER

January 11,

Dr. F. Clifford J. Spike, W7OS
3418 North 19th Street
Tacoma, WA 98406

Dear Doc:

We enjoyed hearing from you and found your
ments on the history of the Radio Club of Taco
very interesting. I must admit to being somew
awestruck by the whole matter as your club is
than twice as old as I! My sincerest complime
to you, Doc, who must be among the older (in t
sense of length of service — you're only as o
you think) continuously active members of one
the oldest continuously active Amateur Radio c
in America. As you pointed out in your letter
Rosalie's article dealt only with the first gr
of eleven clubs to affiliate with the ARRL and
no way was meant to slight any of the other cl
with long, distinguished records of service to
Amateur Radio.

Rosalie would have replied to your letter h-
self were she still on the staff but she has r
ly left for a position in local industry. As
new manager of the Club and Training Departmen
can assure you that we, too, look forward to m
more years of active affiliation with the Radi
of Tacoma.

Very best wishes to you and the rest of th
Tacoma gang in the 1980's.

ARRL BULLETINS

NR 9 January 25, 1980

United States Amateurs of novice and technician class may now operate in Canada with the privileges of mode and frequency authorized to them in the United States. Similarly, Canadian Digital class operators may operate in the U.S. with the frequency privileges authorized them on VHF and UHF in Canada. However, all visitors to the U.S. must stay within the U.S. mode and band privileges. Since reciprocity between Canada and the U.S. is automatic, no written permit is necessary AR

NR 11 January 30, 1980

At the regular meeting of the Commission January 30, a third report and Order in Docket 20777 was issued, setting up regulations permitting the use of the American Standard code for information interchange, ASCII, in the Amateur service. However, the text and the effective date have not been released, pending some editorial corrections requested by the Commissioners. There will be another bulletin from this station when further information is available AR

BUILDING PROJECT

Usually the ham shack is located either up-stairs or down in the basement and even outside in a building of its own. You will save the xyl a lot of steps if you build this low cost intercomm. It is very simple to build and you can use a 9 volt battery or you can swipe 12 volts from your fm power supply. It is designed so that it is possible to turn the system on from either the master or the substation. Thus, power is drawn from the battery only during actual use, which results in exceptionally long battery life. With it you can monitor baby in the nursery or communicate with someone in the garage, basement, barn, etc. In fact, the intercom provides a simple economical solution where communication between two points is needed. If you chose the chassis carefully, this intercom will

(cont. next col.)

look as good as the AM-FM radio that is in most k
ens. The step-saving value is worth the small sp
it will consume.

As we stated, this intercom can be operated wi
9 or 12 volt batteries. However, the gain from
sources will be a lot less than that obtained wi
or 12 volt sources. It can be used over 100 bee
no loss in volume. Both the master and slave st
are always in standby. Either station can initi
communication simply by depressing the send-rece
switch and speaking into the speaker. To use th
tercom for monitoring a remote location, for exam
baby room, the switch on the intercom in that roo
must be held down continuously or either a lockir
type switch can be used in one station. Here is

LOGGERS CERTIFICATES

During the last Board meeting, January 2, Doc W7OS requested to be releived of his activities associated with the Logger Certificate program. For many years Doc has been busy with the assisting of collecting, checking, transmitting the information, and presenting the awards and endorsements at club meetings. Doc advised "it has been great fun and a real pleasure to be involved with the many close friends made during the period", "however, due to health reasons would like to pass the program on to someone else in the club".

Scotty K7CYZ has volunteered to continue on the program, where Doc has left off. Scotty is familiar with the operations and we are sure he will do a good job working with Barbara W7UYL.

Doc stated that now he will have a little more time to work on catching up with Jerry W7BUN on endorsements. Jerry has currently 370 some Loggers contacts. We all wish you luck Doc and a big thank you for your work in the past, firing up the interest amongst the members to "get one more Logger" and the hours of effort on the background work that goes into the whole program....

ROSTER BOOK

The following additions and corrections should be entered into your roster book. At the end of March we will be starting to compile the new roster book for the 1980 roster book. With the help of the computer it should not take as long to get the book out. The grace period for 1980 dues runs out at the end of the month, so get your dues in before the first of April or your name may be dropped from the roster. Remember dues are due for quite a few. Latest count shows about 50% of the current membership are paid up for 80. Also, we don't want to drop you from our mailing list for the Loggers Bark.

REPEATER PROCEDURE

WA7PIN

Heard on the club machine lately----"Yeah man I've got a copy on ya." —"I'll sure 10-4 that". This is just part of the chicken-band garbage that is being heard on our machine. Also incorect clearing procedure such as not identifying the station you were in contact with. Not clearing when the station you are calling does'nt answer. I'm not sure that the FCC requires it as the rules on clearing on repeaters aren't really clear on the subject but it is no more than common courtesy to let someone else know you have cleared so they can make a call rather than sit there and wait, thinking you are still waiting for an answer.

Also —— phoney phonetics. This children's band practice is permeating ham radio with its stench! If you can't learn either ICAO or DX phonetics, then learn to enunciate. Slow down your I.D.ing, so other stations can identify your call. Another thing, although the repeater is open and available for any properly licensed ham to use—show a little courtesy. The other day there was a QSO on for approximately seven minutes without one station even taking a breath—-if there had been an emergency, our repeater would have been useless. Let it drop out once in awhile. Give another station a chance.

I'm sure the newcomers to ham radio would appreciate listening to clean and proper procedures on the repeater, so its up to the more experienced operators to set an example.

In talking to an individual who listens on a scanner to both c.b. and the Ham repeater bands—his remark was--"they all sound alike". That's all we need, to give "big brother" in Washington D.C., the FCC, a reason to regulate us further, just when we were getting de-regulated. Let's clean up our procedures. If you don't know, ask!

PUBLIC SERVICE COMMUNICATIONS

K7SSC

Plans are shaping up for our Public Service Communications Events this spring.

TOUR-DeFORREST RALLY (MARCH 22 & 23)

Have just received the map of the TDF route. The course will run in the same area as last year, north of highway 8 and west of highway 101. One major change-this rally will start and finish at Olympia, Carriage Inn by Interstate 5 southbound exit 105-B. There will be 5 physical stages. Each stage will be run twice for competition. Some of

(cont. next page)

the stages look unusually long so we may need additional mid point communications. Who and what is comming? We expect to see Hendrid Block driving his 300hp GLC rotory Mazda; Danny Goodwin, who's tie-rod broke and crashed last year, driving a rotary GLD; Rod Millen, last year's TDF winner with his Mazda RX7; and John Buffum running his TR8. TDF is the first rally of the season for the competiters and it looks like there will be lots of good competition.

On Sunday morning the rally has invited us to their 9am awards breakfast as their guest. This is an excellent time to meet the competitors and hear their stories. If you would like to attend please let me know so reservations can be made.

DAFFODIL PARADE - MARCH 29.

The operations of the parade will be similiar to last year. We will have four simultaneous frequencies for the staging area, parade route, t-v station and public address and school bus routing. Don, K7QLC and Dick, WB7CRR ran some antenna experiments which will help improve our coverage near the end of the route.

OLYMPUS RALLY - APRIL 5 & 6

Olympus is one of our largest rallies this year. The Tyee Motor Inn, just south of Olympia on I-5, is home base. I will be getting the details of the route shortly.

MARCH OF DIMES WALK-A-THON APRIL 19

This year's walk will be dramatically different because of the addition of Gig Harbor and Puyallup to the Tacoma walk. Budd, WB7FHC and Dick, WB7RAX are co-chairing the Gig Harbor walk communications. If you can help in Gig Harbor, please call either Budd or Dick or myself. The Puyallup walk communications is being organized by Len, K7AFU. Please let Len or myself know if you can help in the Puyallup Valley.

Tacoma's walk will start and end at the University of Puget Sound. The route will be slightly different than last year.

DIABETES BIKE-A-THON APRIL 27

I don't have the details yet but expect to be hearing shortly.

CAN YOU HELP?

If you haven't signed one of the lists at the club meetings, please call me; even if your not sure if you can help. **NOTE:** My phone number was wrong in the 79 Roster book. Correct to 475-4064.

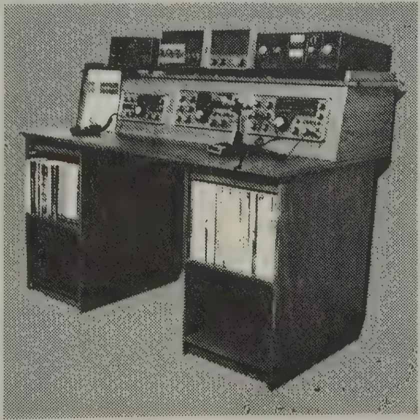
New – a top drawer idea from Clutterfree Modular Consoles.

Because we're ham operators like you, we're continually exploring affordable quality ideas to help you organize your shack. Our latest idea is an optional one or three drawer system that can be built into the upper right and left storage compartments. Each spacious 3-5/16″ high x 15¼″ wide x 24″ deep drawer is available only with your order of a Clutterfree Modular Console. As a special introductory offer you can purchase one drawer for $14.95 or a three drawer system for $29.95.

Slide this top drawer idea into your order for a Clutterfree Modular Console which can be purchased for $179.95 (FOB Tacoma, WA). Each 42″ high by 57″ wide x 29″ deep concole features strong groove construction and mar-resistant Polycite© wood grain pecan finish. Each unit weighs 150 lbs. and can be easily assembled in minutes.

Another low cost option is a face plate which can be custom cut to fit your equipment.

Don't put up with that cluttered desk any longer. Fill out and mail the coupon or call and we'll process your order immediately. Cash, check, money order, Bank America card, Visa or Master Charge accepted.



Closed face console as pictured above is ideal for ham or home computer equipment.

LETTER TO BARK

February 8, 1980

Dear Dick,

Enclosed is a check for my 1980 RCT dues. Please give it to the proper person. As I can't find the current schedule in the Bark I am enclosing what I hope is "enough". If I owe more- let me know. If I am due some change please put it into the repeater fund.

Some changes: My address is now Rt.2 Box410 Conifer, CO 80433. We didn't move, our mailbox did.

Please add Carole as a family member: Carole KA0FDN (novice class).

Give my regards to the gang.

Congratulation on your Honorary membership! I shall always remember you as the one who gave me my start in radio - and probably my career. Thanks! Yours, Roger Noce K7AYC

NOTE: The extra funds received were credited to the repeater fund. Thanks Roger!

DUES ARE DUE FOR QUITE A FEW. WE KNOW WHO AND SO DO YOU.

In Remembrance

RICHARD JOHN NOLL
WA7THA

Richard, a life long resident of Tacoma was born January 2, 1948 and passed away Monday February 25 at the age of 32. Rick had been ill for some time from an illness which occured while serving in the Navy. He had been in and out of the hospital several times.

Since his medical discharge he has served his community of Puyallup working as a dispatcher for the Puyallup police and fire departments. He was a graduate of Puyallup High School and studied at the Bates Vocational School. While attending Bates, Rick was involved in classes in electronics and computers.

Along with his Amateur activities he was involved with photography and was an ardent railroad dispatching buff. He had a Technician license and joined the Radio Club of Tacoma May 24, 1972. He enjoyed being involved with the Club's Field Day activities.

He is survived by his parents, Mr. and Mrs Richard C. Noll, four brothers(Charles, Kenneth, Dean and Michael), a sister Mrs Edward (Judy) Werner all of Puyallup.

Services were held February 27 at the All Saints Catholic Church in Puyallup.

His many friends and all the members of RCT extend our sympathy to his family.

BOARD MEETING

The meeting was called to order by President, Roy N7ARO at 8:00pm. The minutes of the January meeting were read, corrected as necessary and approved.

New member applications were read and approved by the Board, for Anna Mae Angus KA7GBQ, Leonard Angus KA7GBR, Don Severid K7LMN and Edward Armour KH6GBA.

Discussion on how to accept new members and how and when to advise them as to the action taken on their application.

It was recommended by Jerry, W7BUN that we initiate a short form letter advising new applicants as to the action of the Board. Application for membership will be read at the first regular meeting after the application is made for the information of the general membership and then will be voted on by the Board at the next regular Board meeting.

Scotty K7CYZ recommended that we talk up the Banquet to insure a good attendence.

Scotty K7CYZ reported on PSCARC and recommended that the RCT rejoin as he feels that PSCARC would be good for the general amateur community. It was recommended that Scotty K7CYZ be our representative to PSCARC, moved, seconded and passed.

The Treasurer's report was as follows: regular checking 940.45, building fund 137.62, field day fund 96.79, generator fund 136.96, repeater fund 66.10

SLIVERS & SPLINTERS

The first major hamfest of the year is the Skagit Hamfest at Bryant, on Saturday April 19th. There will be NO tour of Jim Creek this year. Only 400 tickets will be sold. Price is $8.00 and includes dinner. Jerry, W7BUN, will have tickets at club meetings.

How About That Department! During the Pinochle games March 4th at Irma W7OVW house Marje Hazelmyer and partner Dot Meyers held a 1500 trump hand.

The C.D. bus (W7BMG) was out twice last month on response to fire calls. New drivers are getting a good work out.

Bob W7RXS thinking about hanging up the old pipe wrench and retiring from the trade. Will be loading up the trailer and doing a little traveling Bob?

Roy and Ethel (W7AZI & W7WLX) back from vacationing and getting back to the old routines.

Steve, K7SSC, busier than a cat on a tin roof trying to get things together for all the Rallys coming up in the next few months. Still could use a lot of volunteers. How about it? Are you going to be able to donate a few hours for a worthy cause?

Frank, W7YDS, overheard out on the water fishing. Frank was complaining, "nothing coming into the boat". At least the weather was cooperating at the time. Better luck next time Frank. Going to have to get together with "Andy" W7GCI and see what he has going for him.

Along the same lines, Don WA7PIN has been overheard down south trying his luck with the Steelhead fishing. What's the latest Don? Any luck recently.

Wilma K7OSN very busy making out certificates for the new "Goof Certificates" award. With all the record keeping it has kept her too busy to get on the air. (That's a joke Wilma) If you are interested in the Goof Award, you will have to get on 147.98/38 and get the details. Here they come Wilma!

Visitors to the meeting last month were Chip and Janet Margelli. Good to see them! Will be living in California for a spell.

Mac, W7FAB very busy with orders for his new desk for amateur radio equipment. (See picture of his operating console in his add elsewhere) Not much time left over for hamming.

Don, K7QLC, busy on the paper work preparation for HamFair. Getting the design ready for tickets and posters.

That's about it for this month. Our apologies for being so late with this months Bark. It was a big one with lots of preparation of special ads. We hope to be a lot closer to the deadline the next month. So o o o with that we will roll up our sleeves, put down the coffee cup reach for the ink can and put this thing down for March...

lph KA7FIG's xyl.

(cont. next col.)

Thanks (cont.)

Ron and Dave advised they will donate a prize of radio gear every month, to be given away at one of the RCT meetings, to some lucky RCT member.

I am sure that I can speak for all members of RCT, to Ron and Dave, thanks. We appreciate what they are doing for the club and we all should give thought to patronizing there store in return.

Again, Ron and Dave, the RCT appreciates what you are doing and wish you the success in your business adventure, the Northwest Radio Supply, Inc.

AUXILIARY MINUTES

The March meeting of the Women's Auxiliary to the RCT met at the Club house on March 19th to discuss our participation in the upcoming "Hamfair". It was decided that we would try and have several on-going activities of interest to women during both days. Also we will be having a raffle of a microwave oven. It was decided also to change the menu in the snack bar this year.

Irma Duncan announced that Pinochle has been doing very well so far this year. She turned in a profit of $39.00 which will go to help pay for the prizes which will go to help pay for the prizes which will go to the top and low players at the finish of play for this year.

It was announced that our April meetingwill be the planning of the food for Field Day. Also we will have a candle demonstration.

In May we will be having a Priness House crystal demonstration. We hope for a large turn out, as we would like to receive enough credit to get some nice prizes to give away at later functions.

Thank You,....Marje Hazelmyer **Sec/Treas.**

Address all advertising and swap column articles to Dick Ryan W7RGD, 1220 South 9th Street, Tacoma WA 98405. Swap column is free to members of the RCT. The Loggers Bark does not guarantee or verify the statements in the swap column. The LOGGERS BARK (USPS 588-060) is published monthly at 1220 South 9th Street, Tacoma WA 98405. Subscription rate per year is $.75 for members of the Radio Club of Tacoma and $2.00 for non-members. Permission is given to use any portion or all of articles published in the Loggers Bark if a by line is included. Second Class postage is paid at Tacoma, Washington 98405.

ROSTER BOOK

The following changes should be made into your roster book. If any member has contact with Dennis Haza, KA7FKZ, have him contact the Bark with his new address and phone number, His last bark was returned with no forwarding address known and his old phone number is no longer in service.

Due to a mix up at the Board meeting there are no new members listed this month.

The staff will be compiling the new roster book during April so if your dues are not in by the first meeting in April, it will not appear in the new roster book. The mailing is going out this month

PICTURE PUZZLE

How many guessed the club member's call in March issue of the Loggers Bark?

For those of you who did not, here is the swer to the picture. First, the wet 7 or wat 7 would be W7. Second, the robot is the lette Finally the robot is grabbing the dial on the on the safe so robot grabbing dial becomes RG Put it all together and you have W7RGD.

Above is the picture for April so see how fare on this one. Good luck and we will have answer next month along with another mind tea

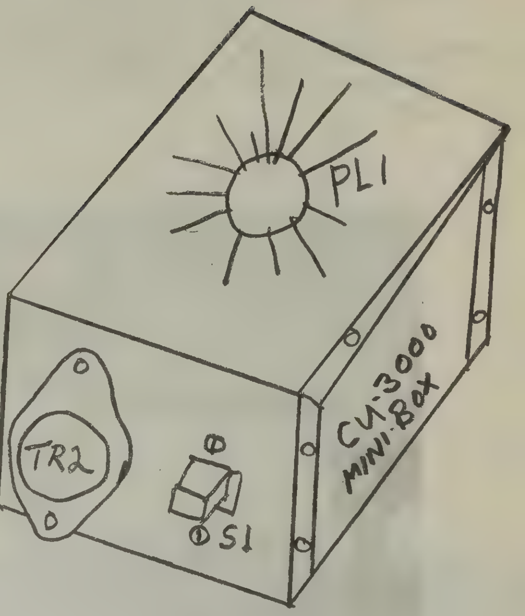
LOW-CURRENT FLASHER



LOW VOLTAGE - LOW CURRENT FLASHER

This month we have a low voltage, self contained emergency flasher. This flasher can be built in a $2\frac{1}{4}$ x $2\frac{1}{4}$ x $1\frac{1}{2}$ minibox. (CU-3000) With the 4 resisters and the capictor shown (100ufd) the unit will produce approximately 85 flashes per minute. The unit can be operated by using the car's batery, via the cigar lighter, instead of the 9 volt battery. Using the car's battery will cause it to flash a little faster due to the additional voltage. The voltage can be dropped to 9 volts by adding a 3 ohm, $\frac{1}{2}$ watt resister in the line.

PARTS LIST

B1	9 volt battery (Eveready #216 or equiv.)
C1	100 ufd. 20v electrolytic cap.
PL1	6.3v 150ma #40 pilot light
R1	100,000 ohm $\frac{1}{2}$watt
R2	100 ohm $\frac{1}{2}$watt
R3	2700 ohm $\frac{1}{2}$watt
R4	470 ohm $\frac{1}{2}$watt
S1	SPST slide switch
TR1	2N35 transistor
TR2	2N256 power transistor
1	Minibox (CU-3000)

The 2N35 npn transistor (TR1) was chosen for its price and availability. Others will work as well. The same goes for TR2 but be sure you use one that will handle the current drain through the 6.3v pilot lamp PL1. A 12v lamp will also work but the drain on the 9v battery will shorten the life of the battery. If using the car 12v source this will not be a problem. By replacing R1 with a higher value pot, the unit can be used as an adjustable interval timer or metronome. You can also use it as an aural alarm by replacing the lamp with a small speaker.

Have fun with the flasher..... Dave WB7SDB & Scotty K7CYZ

CHRIS JENSEN, WA7MJK

Chris is a man of many talents. Currently he has been preparing himself to take over the RCT membership history job. Chris and Doc W7OS have been researching all the old records, minutes, roster books, application forms and pictures. To date they have noted 956 members of RCT since its beginning in 1916. A card file has been set up listing all in chronological order and another by alphabetical name. It is a most interesting and never ending function and all are happy to see Chris take over the job from Doc. Doc has devoted about 6 years, so far on this monumental task.

Chris has many other professional activities. Among them are his Children's psycological studies, deaf sign language, Spanish and more recently, delving into weather satellite receiving. Currently he is involved with weather satellite facsimile recording, copying both U.S. and Russian weather satellites. He copies the predicted data, monthly, from the National Oceanic and Atmospheric Administration (NOAA) which supplies him with the information to figure the time slots for the passes of the satellites.

On February 15 while visiting with Chris We listened to and made copy of a Russian weather satellite on the 137MHz band. The usable pass time is about 12 minutes while a complete revolution of the earth takes approximately 103 minutes.

(cont. next page)

WA7MJK AT RESIDENCE. NOTE ANTENNA ON ROOF

(cont.)

Copy is made on a Vangard Monitor receiver, which is crystal controled. Chris has two types of facsimle recording machines. One uses electro sensitive paper and the other is a carbon paper. The weather satellites are in a polar orbit, Their primary function is to relay weather pictures and display of the cloud cover. They average 3400kilomerer at the horizon and about 800 km when directly overhead..

Chris uses a crossed yagi antenna with two rotators to control the elevation and azmith tracking. Several pictures were taken of the antenna and the equipment but to really see and understand the operation you will have to visit him.

Bob Gates, K7IND, is also very active in this interesting phase of ham activity. Chris and Bob are about the only hams in the immediate area specializing in amateur weather satellite facsimile recording. Maybe the club might put on a program so that the many questions you and I might have could be answered and get a chance to see some of their results..............Doc W7CS

SLIVERS & SPLINTERS

Greetings from former member of RCT, Marvin Kvamme, K7QME. He now resides in the Purdy area and keeps busy with his four children. Hasn't been on the amateur bands for some time.

Joe and Irma W7OVW proved they could operate on emergency power in a hurry on April 1st. (no April fool joke) An accident occured in their area which wiped out a power pole and they were in a black out for 12 hours.

Northwest Radio Supply is donating an Advance Electronics Auto Dialer AD-1 to the club to be given away to some lucky club member. Don't miss the meetings in April!

FLASH!.....It's a girl! Melisa Ann Ransier, $7\frac{1}{2}$ pounds and $20\frac{1}{2}$ inches tall. Joan, Dave and Melissa reported doing fine. Congratulations!

Reade N7AGG very busy on the nets with all the activities going on regarding the Mt. St. Helens eruptions. Coordinating all of the communications from the amateurs involved in the activity is some task. The BawFaw repeater (147.66/06) has been on the air almost continually. With all the amateurs checking in with reports (especially the ones living in the general area) a pretty good picture of what is occuring there can be obtained by monitoring BawFaw.

For those of you who would like to help out with the club's HamFair, be sure to attend the meeting at the club house on April 22. Although the HamFair is still slated in August, there are many preparation jobs that need be done before that time.

TOUR De FORREST REPORT

The Tour De Forrest auto rally went off on schedule and quite a time was had by all. Thanks to the many members who helped to make it the fine operating net that it was.

There was quite an article written in the magazine Autoweek dated April 28, 1980. We have taken a section and reprinted it here for the amateurs benefit.

AUTOWEEK APRIL 28, 1980

It was on the second stage that we went out, the Piggue of Plastique having blown a head gasket and we wisely holed up with R.C. Smith and Ken Moak, who were out in the dark, running part of the radio net for Tour de Forrest.

(The radio net is important; up in the mountains, a CB radio is about as useless as a Dixie cup and a roll of string. But these guys are up there on the two-meter band; they are ham radio guys from Tacoma and so on and they sit there and chat on the radio as clear as you can whisper to a soft-eared lady on a Touch-tone Princess and they know where everybody is at all times.

(These guys are not rally people but they like radio a lot, so they spend all night out in the dark, pinpointing the areas where so-and-so last went caroming off the trees and they are invaluable. They also make great Irish coffee for poor distraught DNF rally drivers.)

....

So again thanks to the many who helped to make the Tour de Forrest the great success that it was and doing the super radio coverage performance.

ARE YOU READY FOR FIELD DAY??

WOMEN'S AUXILIARY

The April 16th meeting of the Women's Auxiliary to the Radio Club of Tacoma met at the club house for their regular meeting.

The minutes from the first meeting in 1951 were read and enjoyed. We have been reading through the minutes of past Auxiliary meetings and find we have been a very busy club from the first. We also learned that convincing more women to come and participate in the Auxiliary has always been a problem.

Field Day food was discussed but since the situation was still unknown as to the site for F-D, it

(cont. next col.)

Auxiliary (cont.)

was decided we should wait and see before maki any definite plans.

It was reported that we have purchased a Quasar microwave oven to raffle at HamFair. Raffle tickets will be 50¢ each or 5 for $2.0

President, Freya Hutt, suggested that as m women as possible should attent the HamFair planning session on April 22nd at 8pm at the house.

The report on Pinochle said there were 8 tables of players present. Margie Ives and O Smith were "High" and Donna Dightman and Don were "Low". After Pinochle, a delicious pot was enjoyed by all.

Remember, we are having a Princess House C Party at the meeting on May 21st. Everyone c and bring your friends so that we can earn lo of points for prizes to give away at other ra club events.

LEROY C. MONROE
K7USF

Roy C. Monroe, K7USF, was born in Seattle Washington on May 4, 1929 and passed away Wednesday, March 26, 1980, at Madigan Army hospital after suffering a stroke following an extended illness.

Roy was a retiree from the U.S. Coast Guard and retired with the rank of Vice Comander. After his separation from the Coast Guard he took up a new profession as a watch repairer and worked at Fort Lewis and later his own business in Tillicum.

He was an avid boater, having his own 28 footer. Roy joined the Radio Club on March 9, 1966 with the call K7USF. He was a member in former years with the call WA6RUK. (August 8, 1962)

Roy was a veteran of WW II and the Korean war, and was honored with a full military service.

He was a member of Christ Lutheran Church. Survivors include; two sons, Stephen LeRoy of tacoma and Mark Raymond of Shelton; one daughter Debbie Raymond of Bellevue; three brothers, Lyle and Raymond of Seattle and Douglas of Renton; two sisters, Mrs. Raymond Stewart and Mrs. Dale Smith, both of Seattle and three grand-daughters.

All members of RCT extend our sympathy to Roy's family as we observe a moment of silence for Roy K7USF.. 73...W7OS

NEWS FROM ARRL & HR REPORT

W7BUN

Jim Fisk, W1HR, Editor-in-chief of Ham Radio Magazine, Ham Radio Horizons and HR Report, died of a heart attack on April 18th. He was 45 years old.

FCC has released a Notice of Proposed Rulemaking, PR Docket 80 136, which proposes to delete the requirement of identifying the other station in an Amateur contact except when international third party traffic is involved. Comment deadline is July 16th.

The Commission has revoked the Novice and cb license of KA6BJU and the cb license of his wife for operating outside of the ham and cb frequencies and for using "HF" numbers to identify.

ARRL & HR Report (cont.)

Ten meter operators are reminded of a long-standing "gentlemen's agreement" which places FM users between 29.5 and 29.7; OSCAR's downlinks between 29.4 and 29.5; AM and SSB below 29.4. Recently there has been an increasing number of SSB signals tearing up the FM portion and great amcunts of FM and SSB interference on the OSCAR signals. Also watch for the Russian Amateur satellites just below 29.4.

WB6JPI and WA6KOS have petitioned FCC to relieve repeater operators of responsibility for the content of messages and types of communications relayed by their repeaters.. (RM-3618)

Heavy industry opposition to FCC's July 1st deadline for reduction of RFI caused by minicomputers, has caused the Commission to delay the compliance to January 1, 1981. New products will have two more years before RFI will have to be reduced and products currently under developement will have four years. Amateurs connecting microccmputers to their transmitters should be aware of severe RFI problems they may encounter.

Despite President Carter'd action to sever relations with Iran, contacts between U.S. Amateurs and EP stations is still permitted. A formal notice to ITU by one of the countries is the only action that would make such contacts illegal.

Launch of the Phase III-A Amateur Satellite is scheduled for May 23rd between 1130 and 1430Z from French Guiana.

KH6GX, operating from the hills above Honolulu, achieved a battery-powered Worked All States in 13 hours and 45 minutes. A TS-120, a Hustler vertical and a Sears "diehard" battery were used.

ARRL EDITORIAL REPRINT

In the early 1950s Amateur Radio faced a crisis because of TVI. That crisis was solved through a several-pronged attack. In the League's lab, we developed circuit and shielding designs which radically reduced the radiation from amateur transmitters. A League staffer journeyed all over the United States and Canada demonstrating how TVI problems could be handled and TVI committees were formed throughout the country in order to coordinate local efforts in tracking down sources of TVI and educating not only amateurs and TV viewers but also other users of the spectrum on how to solve what was then a much more serious problem than it is today.

Now, in the 1980s, Amateur Radio faces another crisis, and it's one that's brought upon us by ourselves. As the guy in the comics said, "We have met the enemy and he is us."

Malicious interference to amateurs by amateurs is causing increasing consternation. Repeaters are being disrupted. Nets handling emergency traffic are being harassed. The appearance of a rare DX station triggers off a veritable barrage of deliberate interference. What kind of sick people are loose in our midst? Must we suffer these indignities? What can we do? League headquarters and Directors are receiving an increasing number of communications on this subject and it was the topic for much discussion - both formally and informally - at the January Board meeting.

One suggestion that seems to warrant careful consideration is the formation of local committees to combat the problem. These committees might be

(cont. next page)

Editorial (cont.)

composed of responsible and competent amateurs who would organize an effort on a local level to educate amateurs on how to improve operating behavior and how to track down (by, for example, radio directional finding means) those responsible for the interference. A network of such committees all over the country could exchange notes on how to proceed, on where interfering transmitters seemed to be located, on technical information that would help the individual committees. ARRL headquarters could publish updated addresses and rosters of such committees and could act as a clearing house for the exchange of pertinent information, perhaps by a regular [illegible] bulletin.

There may be other and better solutions and at its January meeting (at Minute 65) the Board directed President Dannals to appoint an Ad Hoc Committee to study the problems of malicious interference. The Chairman of the Committee is ARRL's First Vice President Carl L. Smith, WØBWJ, with the other members being Director Garfield Anderson, KØGA, Director Ray Wangler, W5EDZ, Vice Director George Diehl, W2IHA and Vice Director Pete Matthews, WB6UIA. Perry Williams, W1UED, is Headquarter liaison. The Committee needs and wants your participation and any input that you have ought to go to WØBWJ at his home address (1070 Locust Street, Denver, CO 80220) or via Newington.

Amateur Radio needs your help, desperately. Amateur Radio faces a crisis and if we don't solve the problem of malicious interference, we will find the Amateur Radio Service descending to a despicable level of behavior that is not in keeping with our fine and vaunted tradition.

Ergo, we damm well better do something about it..

AM - 3:30 PM **TOUR 1**

HISTORIC CHINA TOWN TOUR

Seattle's Chinatown is unique for it combines many Asian cultures in the one community. The tour starts with Japanese tea and cookies along with a 30-minute slide presentation giving the history of Seattle and the Asian Americans who contributed so much toward its growth. It then proceeds to the Old Nippon Kan, the Japanese immigrants' first theater which was recently placed on the State's Register of Historic Places. Entering Chinatown, the history of the Tongs comes alive. You will visit an old Japanese gambling den and finish the seven-block tour in Hing Hay Park under the gaze of the giant dragon mural. An authentic Oriental lunch will be served at a picturesque restaurant. After lunch you may browse through Chinatown including Uwajimaya, a gala Oriental "Supermarket Bazaar".

This is a tour for the history buff. There is an extensive amount of walking so wear comfortable shoes and rain gear.

M. - 3:30 P.M. **TOUR 2**

DISCOVER SCENIC SEATTLE

Board comfortable motor coaches for a tour of Seattle that features an intriguing blend of history, beauty and engineering. Visit downtown Seattle, scenic Magnolia Bluff, the Government Locks, University of Washington, pass the new Kingdome Stadium and magnificent Freeway Park. Discover the lively pace of Pioneer Square faithfully restored in the architectural style of Old Seattle and stroll through Pike Place Public Market where local farmers sell their produce in open-air sidewalk stalls and everything from fresh seafood to antiques and imports can be founds. On to Seattle Center and the Space Needle, famous landmark of the 1962 World's Fair. The observation deck will be open for viewing the spectacular scenery. Leisure time at Seattle Center grounds to browse through the Pacific Science Center, Modern Art Pavillion and the International House.

9:30 A.M. - 3:00 P.M. **TOUR 3**

SEATTLE DOWNTOWN TOUR

Enjoy downtown Seattle at your own pace with a narrated riding and walking tour. Go from the Red Lion Inn to the Olympic Hotel, in downtown Seattle, and board the London Omnibus. There are eight different stops where you can get off and have the freedom to enjoy Seattle's highlights. See the Washington Plaza, Pike Place Market, Space Needle, Pier 70, the Aquarium and Waterfront Park, Pier 51 and Pioneer Square. Stay as long as you like and then board the Omnibus to the next place you want to see. Return to the Red Lion Inn from the Olympic Hotel at 3:00 P.M.

9:30 A.M. - 3:00 P.M. **TOUR 4**

PACIFIC NORTHWEST ARTS AND CRAFTS FAIR

Beginning with one wall of a building in 1947, upon which a few paintings were hunt, to literally thousands of square feet of space stretching the length and breadth of Bellevue Square, the Fair today presents much of what is considered the best in art work produced in the Western United States. More than 575 artists, craftsmen and film makers provide their art work. Every year, during the last full weekend in July, thousands of people come to Bellevue, East of Seattle across the Lake Washington bridges, to see and touch, admire and criticize, talk and listen to, with and about artists and craftsmen. You will begin at Bellevue Square, tour the core of the awards area, in the center of the square. This is a "juried" show. Tour of the photography show at the Bellevue Art Museum, also a juried exhibit. Walking tour of the small individual art stalls displaying painting, ceramics, textiles, sculpture and jewelry.

MOUNT ST. HELENS DISASTER

WA7RWK

saintly mountain turned not so saintly on , May 18th and is now much recorded history. all seen and heard of the destruction of the and of the hardships endured by the ands of its citizens. To alleviate and e their many problems, the Amateur Radio ency Service (ARES) was poised and ready to mediately on the local and State levels.

litz and Lewis Counties were the hardest hit naterial destruction and loss of life. The s of Yakima, Spokane, Ellensberg, Wenatchee, lle and most of Eastern Washington were very it by falling ash.

approximately 8:45am on eruption day my son WA7IVO, awakened me with a phone call, listening to John, W7KKN, and others talking eters about an eruption on the mountain. I ately got on the air and on the telephone, Bob, WA7ZZA, District Emergency Coordinator and was in contact with ARES Coordinators litz, Lewis and surrounding Counties as well Counties to the north. (During this time Director of Emergency Services, Carl Carl-alled to allert me of the eruption)

Red Cross moved in and set up evacuation s in Kelso, Longview, Chehalis and at the airport. Approximately ten centers or more anned by ARES members, working around the until Friday, the 23rd.

ARES Net was started on Sunday early after-o handle traffic. The net was organized and d by un-effected counties to run through to llowing Sunday and longer if necessary. It cured Friday night, when no traffic was re- on the N.T.S..

Yakima Hamfest was held on the 18th., trap- lot of good operators there. They were,

St. Helens (cont.)

however put to good use manning the Red Cross center, the D.E.S. center and handling loads of traffic.

It's impossible to recognize all the hams by name in an emergency such as this.

Pierce County's participation was to send two operators to Packwood for Red Cross. Manned the Sheriff's communication van at Elbe and sent one operator to accompany a search and rescue unit to the devastated area near Toutle.

And so it went for six days. Reports aren't all in at this time but thousands of messages were handled by perhaps three hundred members and who knows how many other hams in Washington, Idaho, Oregon and B.C. Canada.

Saturday was a day of rest and at 4:45am Sunday it started all over again. This time involving Skamania, Cowlitz, Lewis, Thurston, Grays Harbor, Mason, Jefferson, Clallum and Kitsap Counties. This activity lasted until 3:20pm after all D.E.S. centers were closed and general traffic subsided.

The ARES operation was well disciplined and effective in all areas, which points up the value of adhering to ARES principles and organization.

Everyone participating in these emergencies, is to be commended for their unselfish devotion and hard works to fill a public need.

Congratulations to one and all!

In Remembrance

Kenneth F. Hager
W7KQ

The world of radio and more porticular, the Radio Club of Tacoma has lost a very dedicated member in the passing of Ken Hager, W7KQ (formerly KL7KQ) on Saturday May 10th 1980, after a long struggle with his declining health. The passing of his XYL, Elsie on February 18, 1979 had been bery difficult along with his health problem.

Ken was born January 8, 1908 in Tacoma, graduated from Lincoln High School. He He is first noted in the records of RCT on November 22, 1921. (RCT #100) His early radio experience led him into crystal grinding techniques, which developed into almost commercial producing fine crystals for amateurs, commerical and governmental.

Ken went to Juneau Alaska about 1929 and worked in the Alaska Juneau gold mines. In 1930 he went to work for the government Bureau of Fisheries on a ship called "Brandt" as a radio operator. In 1942 he started with the FAA in Alaska and retired 1965. Upon retirement he settled on the beautiful bluff on Maury Island, overlooking Quartermaster Harbor adjacent to his long time friend Bill Reuter W7KT. They belonged to the Vashon Island Golf and Country Club which was just across the road from their homes. Ken was member of the QCWA (#3861) and re-joined the RCT in 1966. He attended several of our Home Coming events and the above picture was taken. He could be heard on 20 meters nearly every morning talking with some of his many friends. Of late, he enjoyed his two meter contacts with his buddies.

Ken's Grand parents, Charles and Alcie Crooks came from Ilinois and Kentucky in 1892 and settled in Old Town in North Tacoma. Ken is survived by several Cousins: Mr. Homer Coffey ov Tacoma, Mrs. Orvie Perkings of Spokane, Mrs. Pearl Gumm of California, Mrs. Ruby Thomas of Connecticut. A Brother-in-low Emil Carlson of Oregon and 2 Nephews.

All members of QCWA and RCT extend our sympathy to his family. We will truly miss W7KO. .... 73, Doc Spike W7OS

PART OF THE GUESTS

WOUFF HONG

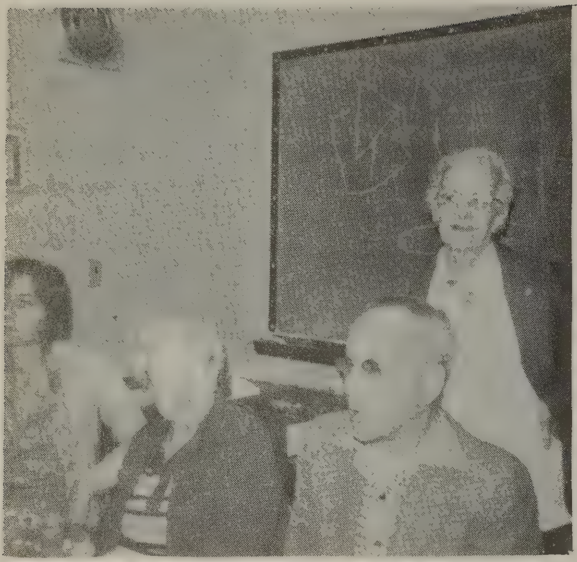
In an institution as old as Amateur Radio, many traditions and symbols appear and become part of it. One symbol which has become a part and parcel of the framework of Amateur Radio, the symbol of its finest traditions, its long and glorious history, is the Wouff Hong. New members of the Royal Order of the Wouff Hong, initiated during the midnight convocations of the Order at League Conventions, ask, "But where did it come from, in the beginning?"

It started in 1917, in the very earliest days of ARRL and QST, when an anonymous Amateur, writing under the title "The Old Man", created a series of humorous stories in the magazine. His "Rotten Radio" series exposed the poor operating practices of the day in a way which drew chuckles even from those recognizing themselves as the targets of his ire. In one of those stories, "Rotten QRM", he gave some examples of some of the poor sending cluttering up the band. The gibberish included the words "wouff hong" which apparantly was being used by someone on somebody else.

It turned out to be one of those priceless pieces of spontaneous word inventions. It caught on instantly with the gang, even though T.O.M. himself admitted he didn't know exactly what a wouff hong was. It quickly became associated with something both to attack bad operating practices and to discipline their perpetrators. The tradition had been established -- in the minds of thousands of Amateurs, the Wouff Hong was some mythical instrument of torture to be used in enforcing good operating practices in Amateur Radio.

In early 1919, T.O.M. concluded an article with the words, "I am sending you a specimen of a real

(cont. next page)



CANDI-VERNA-DICK-IRMA

Wouff Hong (cont.)

live Wouff Hong." The object was duly received at Headquarters and the Editor, fully mindful of its historic significance, took the instrument to the Board meeting held in New York, May 3, 1919. He reported in QST that, "each face noticeably blanched when the awful Wouff Hong was laid on the table." The Board voted that the Wouff Hong be framed and hung in the office of the Secretary of the League. There it remains to this day.

We know the significance of the Wouff Hong. We don't know the significance of its weird shape. Not even T.O.M. revealed after his death as the League's first President, Hiram Percy Maxim, ever explained that. Nor was the precise manner of its use ever prescribed, although it perhaps may be guessed with a little imagination. But as the years passed, it continued to grow in the affections of Amateurs the country over. It became the inspiration of the Royal Order of the Wouff Hong, the Amateur secret society of ARRL Convention. Today it is thoroughly entrenched in the lore of Amateur Radio as its most sacred symbol.

ALUMNI NEWS
W7OS

MILTON W. DURHAM, MD.

We reported in the November 1978 alumni column that Milt was in Kona Hawaii. We are happy to have a picture of Milt and Joe, W7IG, (see above picture).

The picture was taken on the occasion of Joe's visit to the Islands. Joe brought back the best best wishes from Milt. The photograph is in color and will be entered into the club's album.

Milt's previous calls were: W7AQG (1930); WA7QVM (1971); W7IVV (1972) and KH6JOH. We are sure he is active on the ham bands and if you hear him please pass on best regards from RCT.

WILLIAM F. ANTES (ex W7CAY.

Bill is one of our very early members, first recorded as a member in RCT in 1930 and in the Log book in March, 1934. In recent years he has been active on the cb band as KBNG-7677 (channel 39)

During the past several months he has been observed attending the RCT classes preparing for the novice exam. He has also purchased a ticket for HamFair '80' so all will have a chance to greet Bill and welcome him back into amateur radio. Good luck to Bill!

YORK AMATEUR RADIO CLUB

(note picture on previous page) There are a few YARC members who need a few more RCT contacts to become elegible to receive their Loggers Certificates. It has been suggested that the following frequencies be watched for YARC vs RCT contacts. 7255, 14320 21410 and 28710KHz. (especially during F-D) Next fall we will instigate another QSO Party and will announce it in future Bark issues.

CHAUNCEY COSTON, W7ABN.

The RCT library and museum wishes to acknowledge and thank W7ABN for the donation of a book titled "The Radio Boys First Wireless" by Allen Chapman (1922) The book was sent to us by W7TZ of Hoquiam. It is an interesting story of young boys, huddled over a crystal receiver sitting on an apple box in a basement. (Just like several of us did------many years ago) From just such grew the RCT

FRED HUTCHINSON CANCER RESEARCH CENTER

Follows late information received from Bill Reuter W7KT. The Fred Hutchinson Cancer Research Center, 1124 Columbia Street. Seattle 98104 has received the bulk of the estate of our late friend and member of RCT. Ken Hager, W7KQ. A two meter Yaesu FT-227RA transceiver, used by Ken for his 2 meter operation has been given to RCT with the stipulation that it be used for those members of RCT who might become ill and be in the hospital or nursing home. (Temporary basis) It will be supervised by the equipment custodian and the Board of RCT. A metal plate (brass) shall be inscribed and attached permanantly to the equipment.

The presentation will be made to the Board and to the RCT at the next regular meeting of the club. (June 11th)

The inscription on the metal plate will read; "This transceiver donated to the RCT in memory of Ken Hager W7KQ. Donated by Fred Hutchinson Cancer Research Center" 5/28/80

HAMFAIR 80

Time is closing in on HamFair 80" and everything is working out very well. The date is August 23rd and 24th. You will be pleased at the fine facility acquired for you at the University Center on the campus of Pacific Luthern University. The center is a beautiful building with lots of room for everything.

Four top prizes this year are 1st Yaesu FT-107 HF transceiver, 2nd Dentron Clipperton HF amplifier, 3rd Azden PCS 2000 2 meter transceiver and 4th Comtronics 6m fm stynthesized transceiver. Also many other top quality prizes. The Ladies Auxiliary will raffle a Quasar Microwave oven and cookware set.

Lots of very good seminars/programs are being firmed up and many dealers will be with us again this year.

For more HamFair details pick up a flyer at a club meeting or call Eva/Ken WB7QNS/QNT. 564-8347.

SLIVERS & SPLINTERS

The club was honored with a visitor from Germany. Michael Schultz, DC2LS, and his xyl sat through our meeting. Michael speaks no English so his wife had to explain what was being said. Some of the members could speak in German so he did get to discuss some of the clubs activities.

Don, W7ZMG, home after extensive surgery and is now up and around. Glad it worked out ok for you Don.

Verna Ryan back from trip to Reno. This time came back with more money than when she left.

Margie K7AMJ and o.m. Jerry in Reno trying their luck at the tables. Haven t heard how things went with them yet.

John, W7ZTI, out camping with the family on the Peninsula. The camp site started to thin out a head of time when the St. Helens fall-out started settling in the area. John stuck it out and is non-the worse.

Marv, WB7ONX, back home for Field Day. Will not be going back to Maryland this time. The army has other plans for him

Joe, WA7RWK, getting back to normal after the 2 weeks of coordinating the ARES members with the Mt. St. Helens flare up. Look out Joe! thismight just be a rest period while the Mt. thinks up another blow out

Remember to get yourself ready for Field Day!

Also after F-D starts the Fire works stand operation. If you can spare the time be sure to sign up to help man the stand. It only takes 4 hours to put in a shift

Sorry for the short column this month, but have not received any notes from you members out there.

And away we go to the ink pot!......

you are carefull when you build it and should last for a long time if you use a good preservative and plenty of it. It can be used in either horizontal or verticle polarization. If used in the vertical mode be sure to bring the feedline down behind the reflector at least $\frac{1}{4}$ wave down below the nearest element.

If you are looking for a super antenna try the corner reflector also in the ARRL VHF manual. We will give a report on that one as soon as we get it finished.

You can shorten this antenna if you wish but if you go less than four elements you will have to experiment with the element spacing to get the proper match.

MARINE REPEATER GROUP

W7GCI

The Tacoma Marine Repeater Group, N7ABT on 144.61/145.21 has been operational for approximately 6 months. The repeater has a closed autopatch but can be used by all amateurs in case of an emergency, by going through the control operator. The repeater is on 24 hours and the autopatch is on from approximately 8:00am to 10:00pm daily. ....*Kirk*

P.C.B.

A potentially deadly threat exists in many hamshacks due to PCB, the potent cancer-causing chemical widely used as a high-voltage insulator until a recent ban was imposed on its use by the Environmental Protection Angency. Polychlorinated Biphenyls have been widely used in the manufacture of capacitors and transformers since the early 1930's and many amateurs are currently using PCB-filled capacitors in their high-voltage supplies without being awar of the potential hazard.

There is no danger so long as seals are intact but exposure to liquid PCB seeping from a leaking capacitor could have grave health consequences for amateur or his family. Amateurs who suspect their oil-filled capacitors might contain PCB — GE's Pyranol is one well-known example — should check all seals carefully for leakage and make sure the capacitors are run well below their ratings to avoid stress. BOARD MEETING 6/4/80

Meeting called to order at 8:08pm by President Roy, N7ARO. The Secretary and the Treasurer were absent, so the minutes of the previous meeting and the financial report were not available. Applications were read and the following new members were voted into the club: Edward Lange K7YOH, Alvin Campbell KA7BIY, Fayra Armour N/C, Roy Kilgore KA7GBU, Earl Adams N7BPY, Alan Councilman WB7NAH, Earl Glines KA7FPC, Tim Bieniek WA5SQA, Willard Johnson WB7VAR and Michael Vincent K8YDV.

Doug, AJ7Y, gave a report on Field Day. The F.D. Committee has purchased a large quantity of rope
and wire. All antenna placement has been final
ed at the F.D. site. All stations have shelter
arranged for. There apparantly is not enough
interest in having a Novice station this year,
none will be planned.

(cont. next col.)

Doc, W7OS, reported that the late Ken Hage
W7KQ, had a tower and some beams at his QTH on
Vashon Island and the executors of the estate
the club would be welcome to them if we would
them down. Jerry, W7BUN, will investigate if
they are of any use to the club and what would
involved in removing them, before the club mak
a final decision on accepting this offer. Doc
further announced that the Fred Hutchinson Car
Research Center had donated W7KQ's FT227RA 2-
transceiver to the Radio Club to be used as t
club sees fit but especially for hams who are
in hospitals or nursing homes. A plaque will
have to be attached indicating the donor and
fact that it is in memory of W7KQ. The Board
voted to accept the radio and instructed the
Secretary to write a letter of thanks to the
Hutchinson Cancer Rrsearch Center. Scotty, K
will take care of obtaining the plaque and ch
into the purchase of an A.C. power supply. P
WA7FUS, will investigate obtaining a touchto
microphone, so the unit could be used on sea
and public service activities.

Joe, WA7RWK, reported that HamFair-80 is
gressing satisfactorily.

Peter, WA7FUS, reported the repeater remo
control hardware is completed and installed
functioning properly and the autopatch unit
progress.

A discussion was held on the length and c
of regular club meetings, the ratio of busine
social and programs that would be desirable.
N7ARO, felt a survey of club members would
determine the members' wishes. There will
surveys: one to be conducted at a club meet
those who attend and one to be conducted th
the Loggers Bark to attract the comments of
members who don't attend meetings so we can
out their reasons.

The meeting was adjourned at 9:40 PM..

CLUB MEMBERS CALL IN PICTURE

JULY GUESS WHO

In the June Loggers Bark, the picture must have been fairly easy to figure out. For those of you who did not get it, here is the answer. The little guy on the tower was waving a 7 (waving a 7) or WA7. The oil can in the ice should have been interpreted as Oil In Ice or OII. WA7OII.

This month's puzzle is going to be a little harder than June's. Study it closely, it is tricky and can fool you.................... Scotty K7CYZ

COMMING EVENTS IN JULY

First, the fire works stand will still be going strong the first week in July. So, check with Carol Birkland, AE7X and see if she needs any help until the 4th. It's the same old thing, HELP HELP, HELP, I know it is tiresome to listen to but this one of the things that brings in extra money for our Club. Please check with her and then you can have the rest of the year off.

July 2nd is board meeting. July 9th. is the regular club meeting. Then the big FUN FILLED outing, July 19th & 20th is the RATS Convention. We promise to get you back in town in time to get to Seattle for the big ARRL Convention July 26th and 27th at the Red Lion Inn at Sea-Tac airport. Don't forget, in between the two Conventions, is the second club meeting for the month, on the 23rd

JOHN F. MCALLISTER W7MSR (Mac) has just sent us word that he is now transfered to Port Hueneme, California. He is with RCA on the SATCOM I satellite program. Mac was with the WAMI Program in Seattle a couple of years ago. A letter if off to Mac for more details of his new assignment.

HOWARD HANSON, W7MRX, is missed very much in RCT activities. He said it's a long trip into the meetings especialy since he makes the trip to the Bremerton Navy yard each day. Howard has been getting a few letters in the "Letters to the Editor" column in the TNT. He can be heard on the air with Doc on 50.4MHz every Monday night.

WILLIAM (GENE) TICE, W7EOF. After trying to locate Gene since RCT started putting together our history, we found him in Sumner. He is a good friend and neighbor of Don Snyder, W7ZMG. They have been active in the same church and Gene is now retired from the N.P. Railroad. Gene appears in RCT history book "D" on February 6, 1934. We hope he will come to visit RCT so that the long overdue contacts can be re-established.

FRANK MOORHEAD, W7DWW. For the last three weeks, Frank has been enjoying a tour to the Holy Lands. Has been to Egypt, Jordan, Israel, Jerusalem and Germany. Has been giving his hip a real work out after his recent operation, by climbing the pyramids and taking pictures of the many Historical Holy spots, ending up in Oberammergau, Germany to review the Passion Play which is world famous and is produced once every 10 years. Frank is now back working with the cast to put on the Royal Order of the Wouff Hong, for the ARRL Convention July 26th.

COMANDOR RAYMOND DAVIES, W7EHO. Was reported, last month as being very ill in Spokane. We are happy to report he has recovered sufficiently to move to Santa Barbara, California to be with his daughter Louise Harper. We all hope Ray will keep mending and will be able to return back to his home in Aberdeen, soon.

BILL REUTER, W7KT former member of RCT for many years, presented a suggestion to the Fred Hutchinson Cancer Research. He suggested that they, having received the bulk of Ken Hager W7KQ's estate, might donate a portion of his radio gear as a memorial to Ken, to the RCT. The suggestion was accepted and the equipment was formally presented to the club. The following information will be attached to the equipment: "On behalf of the Fred Hutchinson Cancer research 1124 Columbia Street, Seattle 98104 donates this FT-227RA Yaesue Transceiver (which was used by W7KQ) in the memory of Kenneth F. Hager, W7KQ, to be used by those members of RCT who are ill in or out of a hospital or nursing home, strictly on a temporary basis. It shall be supervised by the equipment custodian and Executive Board of the RCT. There will be an engraved brass plate attached "Donated by the Fred Hutchinson Cancer Research to the memory of Ken Hager, W7KQ" A letter of appreciation will be mailed to the Fred Hutchinson Cancer Research by the RCT.

I want everyone to know, I did my own small part to help the efforts of the Convention by fixing a typewriter ribbon while waiting in line to register.

I came away feeling that brotherhood is not dead. In fact I got overcome with this "hams stick to gether" feeling, I spent 300.00 on some new gear. Now I can at least get on the Club's repeater and say hi to people now and again.

I h pe to see everyone of you local people at our own HamFair 80 this month.

HAMFAIR '80'

It's time! Yeh it's here! HAMFAIR'80 *is upon us. August 23rd. and 24th. are the days. So get ready for the biggest HamFair ever!*

We can get into the building on Friday, so a lot of us will be there early. We can use a lot of help Friday, so if you can make it, come. Yes, trailers can get in on Friday also.

Get in touch with Joe Winters, WA7RWK, and get assigned to a job, so you know where you are going to be. Talk to Joe early (it helps) and he knows what jobs are still open for help.

This is the BIG one, so let's all pitch in and see that it goes over big!

COMDR. RAYMOND F. DAVIES, W7EHO

Comdr. Raymond F. Davies, USNR retired, W7EHO and formerly 7AAF (QOWQ) was born October 14, 1905 at Steilacoom Washington and passed away July 4, 1980 in Santa Barbara, California. He moved to California during the last spring to be with his daughter Louise Harper following a serious illness which struck him while on a trip to Lewiston Idaho. Ray moved from Tacoma to Aberdeen in 1925 and worked for the former Grays Harbor Railway and Light Company. He married Isabel Kimball of Tacoma and the couple celebrated their golden wedding anniversary May 5, 1978.

Davies retired from the Public Utility District in Aberdeen as superintendent of distribution after more than 40 years of service.

A retired commander in the U.S. Naval Reserve, his active service in the Navy spanned all of World War II from a post graduate course at the Naval Academy in Annapolis, Md., to duty as communications officer aboard the heavy cruiser USS New Orleans when it was moored at Pearl Harbor on December 7, 1941 and in Tokyo Bay at the close of the war.

He was know in amateur radio cirles in the Western United States and was honored in recent years by the State of Alaska for his many years of service as alternate net control for the Alaska-Pacific Civil Preparedness network. He was also an expert organic gardener.

He was a member of the International Brotherhood of Electrical Workers, Aberdeen Masonic Lodge, Aberdeen Elks Lodge, Affifi Temple of the Shrine and the American Association of Retired Persons. He joined the RCT on November 21, 1921.

Survivors include a sister, Isabel Fuller of San Diego, California; a son Richard of Pittsburgh, Pa.; a daughter, Mrs. David (Louise) Harper of Santa Barbara, California; four grandchildren, Theodore, Roland, Richard and Patricia Harper, all of California and a niece and nephew.

Burial was conducted at sea by the U.S. Navy.

The Radio Club of Tacoma extends our sympathy to Louise, Richard and his family in saying, "Ray served amateur radio well, and we will miss him.....73

I can see why Budd was picked to take charge of our photographic picture history of RCT. He is now starting to re-model his town house and will have more time to spend making up the back log of enlargements of our membership pictures. He hopes to also start attending our regular meetings.

Ignition Systems in motor vehicles." Industries response has been poor, so the Commission has decided to continue the matter for a further indefinite period.

Amateur exams are now available in Spanish for elements 2 and 3. All the elements will eventually be translated and be available in English or Spanish. Applicants must ask the FCC examiner when making an appointment for amateur examinations.

FCC has issued a warning against the use of traffic radar jammers. These devices are often marketed as "Amateur Radio transmitters" and often advertised in automotive magazines. The Commission has jurisdiction, since they are unauthorized transmitters and their use could lead to fines and criminal prosecution.

The Commissioners heard and turned down a draft Notice of Proposed Rulemaking which would have added 25 SSB channels to the cb service. Because of the problems of enforcing the rules and TVI, a new Notice of Inquiry will be prepared. FCC wants a complete study made of all aspects of the cb service before a decision to prepare another NPRM is made.

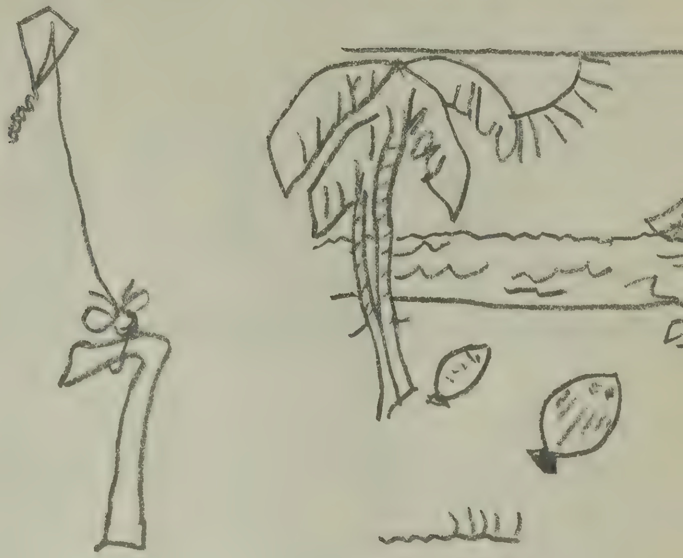
GUESS WHO? PICTURE PUZZLE



AUGUST PICTURE PUZZLE

Here is the puzzle for August. This one you will have to study hard

The July puzzle was easy for some and some said it was a hard one. Here is the answer

The exploding firecracker was Noise or N, the 7 you should have guessed OK. The American flag is AF, so we have N7AF. 36 inches is a yard so now we have N7AFY or if we use the zooming rocket we also have N7AFZ. Easy wasn t it?

Have fun with this month s puzzle . K7CYZ

ther Hamfair has come and gone. The long pf preparation and planning has paid off successful event for all. The fears of a ttendance due to following the Seattle al Convention or the poor publicity of Mt. lens ruining travel within the state, did terialize or hamper the record attendance. pfficial attendance went over the thousand It was hoped to reach 800.

reports, so far, have been favorable for location. The rooms were large enough for tivities and parking was no problem. Plenty ces to sit and WSO with that friend you seen in a long time. The weather was on our nd if it hadn't it would have posed no problem all activities were indoors with an air coned building that kept up with the crowd.

Banquet was great and was handled very quickout the feeling of being rushed. The final and drawing was done quickly so that those d a long drive ahead of them could get out ay earlier in the day than in previous years.

wish to. The big W7DK sign will be at the gate to mark the spot. The Old Mill Group Camp is the name of the campground, and is located 7 to 8 miles past the entrance to Mount Pilchuck. It is located on the right side of the main highway as you travel towards Silverton.

I will be going up Friday afternoon and will place the W7DK sign up as soon as I arrive at the Location. The sign will be placed where it can be readily seen from the road.

For those of you, who have not been to the location, look on your maps for Everett to start. Look to the east of Everett and you will find Lake Stevens and Granite Falls. Just past Granite Falls you will see Ruby and Mount Pilchuck. Do NOT follow the signs to Pilchuck State Park but do follow the signs to Verlot and Silverton. The location is 8 miles east of the Verlot Ranger station. See you therell......Scotty

In Remembrance

Norman J. Arndt
ex 7AK

Norman J. Arndt (ex 7AK) was born in Butternut, Wisconsin on July 24, 1897 and passed away July 31, 1980 at the age of 83 years and seven days. He came to Tacoma in 1910 and was currently living at 4109 North 33rd.

Norman joined the Radio Club of Tacoma as one of its Charter members. He is pictured in the 1st historical picture with the call of 7AK and recorded in the article of the Tacoma News Tribune dated January 21, 1917. The first charter group were listed alphabetically, so he is RCT member #2. Norman's ham activity was mostly in the spark days and although his activies slowed down, his interest was keen as shown in his coming to our first of several club reunions in 1971.

Norman was salesman for the Harold Allen Realastate Co. and a member of the Tacoma Elks Lodge #174.

He is survived by his wife Naomi, a son Norman Jr. of Seattle, a daughter Ella Mae Barnett of Irvine California, four grandchildren and three great grand children.

Services were held at Mt. View Valley Chapel on Monday, August 4th.

The accompaning picture was taken at RCT home coming, 1971.

The Officers and members of RCT extend our sympathy to Naomi and family. We will remember Norman as a dedicated ham and a good friend.

Dear Doc:

The Radio Club of Tacoma came through again. The performance of the Wouff Hong was professional and accepted by the convention goers as a unique experience. All indications from the League officials was very positive. I expected a job well done and I was not disappointed.

SEANARC '80 was a big success with praise coming from all who attended. I am grateful for the support you and the Radio Club of Tacoma gave to our convention. The Orlando group (1981 Convention) were very impressed and are looking to us for guidance for their convention in March '81.

Please extend my sincere thanks to the Club for all of their support. As a former active member of your Club it was with special pride that I watched your contributions in so many areas.

WARNS LETTER

To all radio amateurs

The Washington Amateur Radio News Service (WARNS) now meets each Monday at 7pm on 3.940 MHz.

Two meter operation is also Monday at 6:45pm on the 146.20/80 MHz. machine located in Olympia, WA. Other repeaters will also be used on a scheduled and unscheduled basis.

WARNS is dedicated to the exchange of information of interest to the Amateur Radio community. I hope you or a representative of your club/group can join WARNS and share information and events that are of interest to all of us.

I appreciate being included on newsletter mailing lists of various clubs and organizations. I utilize information from these newsletters for the information and enlightenment of WARNS participants. Many times this information is the only way Radio Amateurs learn of events in the Pacific Northwest.

If I am not now on the mailing list for your newsletter, I would appreciate being added. Also, please feel free to send me information about activities or events that can be broadcast to the Amateur populace via WARNS. Tell your friends to listen each Monday evening and remind them that as ARRL PIA I will assist with Amateur Radio promotion any way I can.

Thank you.

73,
/s/
John H. Brown, W7CKZ

Publisher note:
John has been placed on a regular mailing list.

W7LEC

Pete, W7LEC was born October 27, 1897 in Red Lake Falls, Minn. He passed away September 14, 1980 from a stroke after a long period of illness. His XYL, Frances proceeded him several years ago after an accident.

Pete has been living in Commencement Terrace on St. Helens Avenue. Previous to that he lived in Puyallup where he served with the U.S. Post office. He worked in the Tacoma office of the post office and was there when he went into retirement.

He joined the Radio Club of Tacoma December 18, 1963 and was also a member of the Puyallup Valley Amateur Radio Club. Many of this area's took advantage of his daily code practice and training sessions on 3721KHz. He enjoyed helping the starting hams with his first love, "CW". Pete was a Marine Corps. veteran during WW I. He was a charter member and Post Commander of Puyallup Post #224, Veterans of foreign wars. Also he was a member of the greater Tacoma Senior Bowling Association.

Pete's amateur license W7LEC dates back to about 1944. He had a great sense of humor, which brings back the memory of a letter wrote to the editor of the Tribune by Pete while he was still in the postal service. He wrote about the "weather man" he had on his postal route. He had observed a small Terrier dog who he observed carrying his tail high in the air during the fair weather but it rode low, down between his legs during the rainy weather.

His survivors include; two sons Robert W7JVE of Federal Way, James of Tacoma, two daughters Joanne Price of LaGrande Oregon and Mrs. Jacquelyn Siegel of Bellevue, a brother Earl Bently of Kentucky and 13 grandchildren and one great-great grandchild. The amateur fraternity, especially those starting hams, he helped so much join with the members of RCT in extending our sympathy to Petes family.

MEMBER LETTER

August 30, 1980

Dear "Doc"-

Thank you so very much for the write up in the latest "Loggers Bark". I am still an active, dues paying member of the RCT and enjoy receiving the "Bark" each month.

Just to set the record straight, it was not open heart surgery but was vascular surgery of the Illeac artery that I had to have. This was done expertly by the cardio-vascular team at Letterman Army Medical Center in San Francisco during the summer of 1978. It entailed three operations and was most successful.

Although I was not able to get to know more members, I will always have very fond memories and thoughts of all of you fine hams in the RCT and we'll try to maintain my membership.

I always enjoy meeting one of OUR members on the air and getting news of the club. I had a fine QSO with Jerry, W7BUN, several weeks ago and he gave me much news of the club.

I am enjoying living in (or near) St. Augustine, Florida and after a lifetime of moving all over the world on military orders, have, I hope, finally settled down.

I now have the "ham shack" that I always hoped for. Good Antennae and equipment. I am an avid DXer and have had remarkable success here. In the past year and a half, I have successfully worked 282 countries from this QTH and the confirming QSL cards are steadily arriving - 223 to date.

Thank you again "Doc" for your nice words and all my best wishes to you. Please express to the club my 73 and 88,

Phil, W7LIQ

LETTER OF THANKS

July 15, 1980
G-8090-4145G

TO: *Steve Dightman*
CC: *Members of Radio Club of Tacoma & The Boeing Bears*
SUBJECT: *1980 Special Olympics*

The lateness of this letter will hopefully not take away from its intent, which is to thank you and all the members of the radio clubs who assisted us at the 1980 Special Olympics. As you and I discussed, I was somewhat skeptical of using your people at first but your persuasive arguments proved to be true. I'm convinced you all were a major reason that we finished Saturday's events on schedule - for the first time that I can remember.

The ability to rapidly sove problems at multiple l, cations on the field which you provided was a big help. It's only unfortunate we were unable to duplicate the "feat" on Sunday due to weather.

Special Olympics is a very importont and exciting event each year for me and countless other volunteers. I was happy to hear while talking to several of your volunteers, that they were getting positive vibes as well. Hopefully, that means we'll be able to count on many returnees for the 1981 Games.

Thanks again for all your help.

de W7BUN

FCC has proposed eliminating the Commercial F
Class Radiotelephone Operator license in Gene
Docket 20817. Comments are due November 14, 1

ARRL has a new form, CD258, for use by rep
er groups to report public safety and emergen
activities via repeaters for recognition in t
Public Service column of QST. Send a S.A.S.E
for a supply of CD 258-

FCC reminds all Amateurs that even though
new H.F. bands authorized by WARC may be incl
on new equipment, the use of the 10, 18 or 24
bands will not be allowed for a few years. I
January, 1982 the Commission will begin a slo
transition of the present users of these freq
cies to new allocations.

FCC raided the makers of illegal cb linear
lifiers in August. 44 units valued at $12,00
seized in Scottsbluff, Nebraska and 400 devic
valued at $150,000 were confiscated in Memphi
Tennessee. Also in September, several citati
and license revocations were issued to repeat
users who were transmitting obscene language
the San Francisco area.

The latest (October 1st) call signs assine
the 7th area are: KD7Z, KB7QD, N7CBB and KA7
Present Amateur operator license statistics:
Novice- 70,571; Technician - 69,872; General
123,604; Advanced - 88,502; Extra - 25,728 wi
a total of 378,277.

W8JI has petitioned FCC to reserve 20 to
each 160-meter segment for cw use. (RM-3761)

c Spike!-

e no doubt you've long since given up on me, ing I was all wind and no substance. But no - , in the first place we were on a 4 week trip ot us as far as Jasper (a great success by) and of course there's been a lot of catch- to do since we're home.

thought often of the kindness you and your showed me in taking me over to the club nd giving me the tour of the historical . I think you gathered from what I said that '34', when I was maybe an impressionable uck, the Tacoma Radio Club was pretty impor- me in my several months stay up there (which d a weeks work cleaning second-hand stoves des for $10). It was then and it obviously a real *live* *club. Bravo!*

ou requested, I'm enclosing a couple of my r that wall and for you, I'm also including e of Xerox copies showing your licenses. I und another O.T. in the June 1920 Pacific News - 7GV, Ed Pollock, then of 2707-10th Ave. ttle. I wonder if you knew him?

lled Herb Holt on the phone and had a chat m but couldn't convince him he should get on again. I also worked on Johnny Mardesich, d had no better luck. He at least still has ked. As for me, I'm having great fun. Just after working FP8AA, an old friend W4AI, haven't seen for 20 years heard me and gave a d we chatted for an hour. Last night I heard ho I first worked 50 years ago. That's ham as you know better than I do, Doc!

nks again for a great evening (once I found mmed place!) and see you all on the air. regards to the club

Vern expressed a disire to see the new RCT and it's museum, so W7OS and W7FNC took him (after the club meeting) up and showed him the museum.

While Vern was here, we took the above picture. It was a very enjoyable renewal of old friendships and Vern departed Tacoma the next day. As we parted I requested he send a letter and give us a run down on his adcivities.. He sent the letter (printed on opposite column) along with a QSL card and some Xrox copies of the Pacific News dated back to March 1920. In the pages of the copies Doc Spikes appeared with the call 7AF. Also the copy of QST dated 1916 showed the call of Doc as 7CS (1st call).

Vern has among his many hobbies, "a book store" and we hope to see and hear more from Uncle Vern, W6ERS.

ALFRYDA HOERR (ex **WN7SEH**) *was stricken with a heart attack October 2nd. She was in Lakewood General Hospital in intensive care for about 10 days. Unfortunately we did not receive word of this fact for about two weeks. She is now back in general care and doing well. Word from the doctor is if she keeps improving she will be back home about the time we go to print. I spoke to her via ma bell and she sounded cheerful and we hope for her a very speedy recovery.*

ALVIN STENSO (ex **K7LV**)

Last month, Irequested anyone going down into Oregon, to stop by and contact Al. The request was honored by Bob W7SFO and he is going to make the contact and pick up the items that Al has. Bob will be interviewing Al while there. The article on him will appear in the December issue. Should be very interesting for all.......Doc W7OS

News (cont.)

ARRL members whose equipment is insured through the ARRL Group Insurance plan, will be receiving a letter informing of a new Administrator. There has been no change in the coverage, premium rates or the actual underwriter.

A "landmark" case that may benefit all hams has been won by W6QOL in his suit against the city of Placentia, California. When the city council imposed a 50 foot antenna height restriction, a suit charging a civil rights violation was filed in Federal Court. The Judge ruled that the right of free speech was in violation. The city was also ordered to reimburse legal fees (over $8000) to the plaintiff (W6QOL).

All questions on FCC rules should be sent to the FCC Consumer Assistance Branch, 334 York Street, Gettysburg, PA 17325. Any inquiries sent to Washington will be fowarded to Gettysburg for action and thus delayed. Phone number of the Assistance Branch is (717) 334-7631.

A number of Amateurs and cbers had their licenses revoked for operation outside the authorized bands. KB6JJ lost his Advanced Class license for DXing on 26.945MHz. just below the cb band edge. KA6BJU and WB6VEF and 16 cb'ers were cited for operating on 27.785MHz. WD8CMB was found by FCC on 27.440. In New Orleans, a cb operator was indicted for running 5,000 watts on 27MHz.!

INDUSTRY NEWS:

KENWOOD *has announced a new synthesized 440 MHz rig, the TR-8400, to be available by December.*

CLUB MEMBERS CALL

PICTURE PUZZLE

The October puzzle was easy after you put it all together. The whisky bottle with the 7 was W7. Of course that bright beaming smile was Old Sol. Put all of it together and you have W7OS.

The November puzzle is a little tougher to figure. Going to have to dig a little harder on this one.

Scotty..K7CYZ

SLIVERS & SPLINTERS

Scotty K7CYZ and Vivian back from their business vacation on the East Coast.

Don K7QLC back from vacationing in California. While there visited the Queen Mary and made a QSO on the ships station equipment.

Congratulations to Pat Morgan on obtaining a call. If you catch her on the air the call is N7GAK.

Congratulations to N7AGC on up-grading to Advance!

Remember, no meeting 2nd week of December due to the holiday. Elections will be on the first meeting of December, (10th)

HELP!! The Tour DeForest Rally is on November 22. Steve, K7SSC, needs more help with the communications Please contact Steve if you will be available. The event is in the Shelton area. When heading north on highway 101, take the third exit to Shelton and the collecting point is the Super 8 Motel.

Angela N7AZT home with an injured leg. Understand she has it in a cast. Going to have to get well quick Angie to get out on the dance floor on the clubs Xmas party on the 20th of December!

The club now has its second Life membership. Eric WA7GHE has joined the group with Angela.

Joe WA7RWK busy getting the new National Weather Service net going. Getting reports from 21 amateur stations to the north and south, and forwarding the information to the NOAA people in Seattle. If you are interested in the weather on the West coast, listen in each morning at 1015 on 3910KHz.

Don W7ZMG working on the third Club generator that the club picked up from Olympia. Will be looking for parts to build up a second trailer to mount one of the generators on. If you can help out, I'm sure Don will not turn down the offer.

Bob W7SFO off on a trip to the South. Plans on stopping to visit with Al Stenso in Oregon. Going to interview Al for some information for Doc's article on Al regarding those early days of RCT. Al, as you know, was one of the original first officer of RCT back in the early 1900's.

Chris WA7MJK busy working out problems with his photo copying equipment. Just recently received a weather photo from the Russian weather sattelite.

John K7SRU working out his problems of getting his teletype program running on the 2 meter freq. (146.10/70.) Still got some problems apparantly getting into the repeater on Tiger Mountain.

Running out of time and space so will call it 30 and wind up the main spring on the press and away we go......!!

Elections (cont.)

After the balloting there will be a short program following.

While attending the meeting, remember dues for 1981 membership become due January. I'm sure the Treasurer will be happy to take your dues so that you can avoid the Christmas rush.

See you at the elections meeting on the 10th.!

.....Dick W7RGD

OLD SANTA!

Old Santa has sent word that he will be on the Radio Club's repeater December 20th through the 24th at 6:30pm for a half hour. He will be available to talk to the kiddies who would like to tell "Ole Santa" whatever. The parent or friend can contact him (W7OS) with the name, age, hobbies, school and whether or not the child has been good all year.

*Clean out your chimneys for Ole Santa is a coming to town....*HO-HO-HO!!

In Remembrance

FRANCIS B. MARCOE

WA7BJM

Francis B. Marco, WA7BJM, was born November 7, 1920 in Puyallup and passed away November 4, 1980. He was a life long resident at 304-37th [illegible] NE. He retired as a clerk from the Puyallup post office having served there for 37 years. He was an army air corps veteran of world war II.

Francis joined the Radio Club of Tacoma February 14, 1979. He was inspired to Amateur radio by his son-in-law in Spokane. He participated in the RCT's radio classes and within a years time had earned his General class license. In a year and a half time he became an avid DX ham, using the handle of Frank.

He was a member of the All Saints Catholic Church in Puyallup. The Holy Rosary was given November 7th at Powers Funeral Home burial followed on Saturday November 8.

Survivors include XYL Lurlla (Lois), a son Edward J. of Puyallup, a daughter Mrs. Gary (Luanne) Pfsister of Pasco, two brothers Richard and Harold both of Puyallup and three sisters Mrs. Roy (Lillian) Gogan, Mrs. Steve (Dorothy) Wehmeyer and Mrs. Bill (Delores) Wanden all of Puyallup.

The Officers and members of the Radio Club of Tacoma extend our sympathy to Lois and all of her family. We will miss Frank too.

NEWS FROM ARRL & HR REPORT

FCC has a new form 610 dated August 1980. The new version is expected to be easier to use and covers all types of requests involving primary station and operator licenses. FCC will continue to accept older forms.

FCC has issued the first of four Notices of Inquiry into domestic implementation of the final acts of the 1979 World Adminstrative Radio Conference covering frequencies below 28 MHz. Docket numbers, comment dates and details will be released in the near future.

In the election just concluded for ARRL Director and Vice/Director for the Northwestern Division, the following results were announced: for Director - Mary Lewis W7QGP, 2982; Dale Justice K7WWR, 969; Bob Thurston W7PGY, 718. For Vice-Director: Mel Ellis K7AOZ, 2745; Ron Mayer K7BT, 1882. The term of office is two years and begins January 1, 1981

FCC has issued a Notice of Proposed Rulemaking with the intent of simplifying the language of the Amateur rules. Deadline for comments is June 19, 1981.

5BWAS AWARDS

W7RGD

Pictured above are two RCT members holding their 5 Band Worked All States (5BWAS) award plaques.

Pictured on the left is Don Perry, K7QLC, who received his award numbered 784 with the date June, 25, 1980. Don worked most of his contacts with a "barefoot" Swan and used his beam on the 10-15-20 meter bands.

On the right is pictured Jerry Hathaway, K7ETU, who received his plaque numbered 746 dated April 24, 1980. Jerry worked his stations with a "barefoot" Collins and all contacts were worked on inverted Vs antennas.

The contacts were all made in the past 10 years since any contacts made previous to 1970 were not eligible to be counted.

It is a rather unique situation, where two members of RCT with K7 calls achieved the same award almost at the same time. Congratulations are in order for both. What next are you two working on?.......

Three important rules changes will be released soon by FCC. One: Deletion of of all log keeping requirements; two: The Communications Act section 303 requirement that an Amateur make his station available for inspection by the Commission will be incorporated into Part 97. Three: Every Amateur would be required to keep a copy of Part 97 in his station. These changes will probably be implemented in late 1981.

In a budget cutting move, the Senate "shot down" FCC's plans to move its 1700 D.C. employees across the Pontomac to two new office buildings in Rosslyn, Virginia.

Well-intentioned "gifts" from eager DX chasers may be the cause for the Russian authorities to "lift" the license of UA1OSM. This was the only legitimate source for Franz Josef QSL's and many U.S. DXers are in the habit of sending "green stamps" to countries where IRC's are not accepted However importation of foreign currencies are strictly prohibited in the Soviet Union.

Frank Marco, KA7BJM, William Belskey KA7EOQ and I attended Terry Denbrook's K7JYA Novice class of 78 where we passed and received our Novice tickets. We three subsequently attended Clay Freinwald's class. Frank told me, his son-in-law, who resides in Spokane, wanted Frank to be a ham so they could work each other. He gave Frank an older unit to practice with. Well Frank went all out and was so very interested.

Season's Greetings
Scotty & Vivian Huntley

Frank went up and took his General class but didn't pass, went over to Ivers Acres of Clams, had a lobster dinner and made notes from memory regarding the General exams. He then went to a radio dealer and bought a Kenwood Transceiver and left it in the container, went back to school. (Clay's class)

Later he went again to FCC and passed his General class, went home and opened the carton and un-packed his Kenwood, set it up and realy got on the air. I've seen his many QSL cards from Japan, Australia, England snd many European stations.

Amateur radio became Frank's passion.

ALUMNI LETTER

9-12-80
Medford, Oregon

Dear Cliff

Glad to receive your letter. As to my health, at the present time, I'm O.K..

I might tell you some of what I have been doing since I've been here.

When i first came here I carved an eight foot totem pole. About a year after I became interested in painting and 2 years later was President of the Southern Oregon Society of Artists. I paint animals mostly and have sold many. I have quite a reputation on animals. Having many one man shows here. I have paintings throughout the U.S. Three in Italy and one in Norway. I made a trip to Europe in 1972. Went to several States or countries. I wound up in Olba Italy, as Chairman of Medford's sister city. They gave me a silver plaque of welcome and paid all my expenses. I was entertained by the Mayor, Senetors and business men. The news paper had two photographers taking pictures of every occasion, and then made up an album of 27 eight by ten pictures. I received many other presents. This is a trip that I will always remember.

Later in the year I made a trip across Canada and down the Atlantic coast to Florida where I got on a boat for a trip through the Carrabean and the Islands. Went through the Panama Canal, stopped at Acupulca Mexico, Los Angeles, Sanfrancisco and Vancouver B,C,. Then by bus down the coast to Medford. In 1974 took a trip of 31 days through the Orient with an artist group. We spent seven days in Japan, then to Bali, Penang, Singapore, Bancock, HongKong and Honulula. It was an enjoyable trip.

After I got back from the trip, I went to an eye specialist and he gave me some pills for my eyes The side effects put me in the hospital for three and a half months. (2 months unconcious) A year later I was back in the hospital for another operation. I'm feeling real good now as long as I take an antibiatic pill once a day. I still go to the doctor for a check up every 2 months. That's about all I have, quite a few old catologues and

(cont. next col.)

instruction books that should be valuable to
library. If some member is down this way an
drop in, I'll give them to the Club.

I'm the only first officers left. I was
first Treasurer, 2nd and 3rd President and p
the way the Club has progressed. Ienjoy the
magazine (BARK) *every month. I'll be 90 yea*
in December. I think I'll make a hundred.

This is a wonderful place to be in. Noth

SLIVERS & SPLINTERS

W7RGD

Congratulations to Don K7QLC on up-grading to Advance.

Don K7QLC, Scotty K7CYZ and Dick W7RGD out testing the Emergency Services Communication bus. The city has moved its berth to a new location down by the old Puyallup river bridge. Response time to get the bus out has been increased and will be looking for a better location to store it.

Joe WA7RWK busy working out details and signing up more amateurs for the ARES weather net. The response has been good with a total of over 40 stations checking in each day, on 3910KHz at 10 am.

Steve K7SSC has finished the final Rally race for this season. The races and other ham activities have held him up on the "auto patch" work for the club repeater. Said he would have it done by the end of Fall. Will have to burn the midnight oil there Steve. January 22 isn't too far away.

Dick N7AZO still making the long run each day to his job and ending up by putting in a 10 hour working day, not to mention the long drive back and forth.

Budd WB7FHC is running evening classes at the school for adults in Computer operations. Teaching there uses and the basic language for computers.

Don WB7BLQ and Dick W7RGD are both sporting new radio consoles in their respective ham "shacks". Don's is set up as a complete station and Dick's is set up to accomodate his computer.

With the heavy rains last month, the River Watch gang from the club are out taking the readings again. A smooth operation with everyone knowing where and what to look for.

Len WA7HHI over at Jack's K7SRU helping out with the allignment of Jack's transmitter on the RTTY frequency. Discovered a 'glitch' in the synthesiser section of the rig. Back to the HR-2 transceiver.

Angela N7AZT seen at club meeting with the cast still on her foot. Broke her ankle but that is not keeping her tied down.

The club's bowling team really bowled over their heads during one night's session in November. Total pins per game over the thousand mark with a few 200 plus games thrown in for good measure.

Jerry W7BUN back with his family after a few days vacation to the East coast.

Doc W7OS getting ready and letting his beard grow out for Ole Santa week coming up for the kiddies. Remember, OS will be on the club repeater for 4 days starting the 20th.

Don't forget the X-mas party out at the Puyallup Elk's Lodge is coming up fast. Let Scotty know if you plan on attending. He needs the head count for them to make plans.

Dues are due so keep those checks coming, and more important let's see your face at club meetings!

With that, we will say 73 and the whole staff of the Loggers Bark wish you and yours a very Merry Christmas and a Happy New Year! as we complete our seventeenth (17) year publication of the Bark.

Many thanks to all the members of the Ra Club of Tacoma for the portable AM/FM stere ceiver with twin speakers that I won as doo at the Christmas party December 20th.

It sure has wonderful quality stereo aud selective tuning. I especially enjoyed lis to the many Christmas songs on it at home.

My foursome enjoyed the party associatio HAMS, XYLS, YLS *and* FRIENDS *along with th dinner and dancing. ....Howard, W7*

CHRISTMAS PARTY

We had a good turnout this year. The with the people that showed up after the d came to 76. That was good, seeing that we so close to christmas.

The winer of the door prize was Howard and Jerry W7BUN. Howard won a portable b cast receiver and Jerry won a U.S. Callbook.

The receiver was supplied by the Radio Cl Tacoma. The callbook was donated by Nort Radio Supply. The Ladies Auxiliary donated prizes. Two dinners for two from the Steak and two pieces of crystal for the womens pri

Scotty K7CYZ won one of the steak dinner Larry Kiesel KB7FQ won the other. The l prizes were won by Kay Kirkwood and Marilyn

If you did not attend this year's party missed a lot of fun and a very good meal.

See you next year.

FCC NEWS LETTER

December 5,1980

The FCC has revoked the license of a Seattle cb radio operator for violation of three FCC Rules associated with "out of band" operation.

Jim G. Gordon, KBU 9741, had his license revoked

(cont. next page)

FCC (cont.)

for operation on U.S. Government frequencies outside of the cb band, using equipment not type accepted by the FCC for cb use and not using his cb call sign at the end of his transmissions.

Out of band operation can cause harmful interference to emergency communications and to stations operating legitimately on those frequencies. Use of non-type accepted equipment increases the probability of interference to televisions and other home entertainment equipment. Failure to identify properly makes the resolution of interference problems more difficult.

Mr. Gordon's operations were discovered by engineers from the FCC Seattle District Office on February 12 and 13, 1980, as part of the office's ongoing investigation of illegal radio operations.

An unlicensed pirate broadcasting station operating in the 7 and 21 megahertz international shortwave broadcasting bands was closed down on October 24 by engineers from the Commission's Seattle District Office. Using sophisticated mobile direction finders, the engineers traced the signals to the home of James T. Dolan of Seattle. The station, which Dolan identified as "RX4M Voice of Clipperton", employed transmitters capable of world-wide coverage.

Dolan, who holds a Restricted Radiotelephone Operator Permit issued by the Commission, has been ordered to pay a fine of $750.

The fine was assessed under the authority of Public Law 95-234 which was enacted by Congress on February 21, 1978. This law amended Section 503 of the Communications Act of 1934, as Amended and authorized the Commissionto issue forfeitures of up to $5000 to any person who violates any provision of the Act, the Commission's Rukes, or any treaty to which the United States is a party.

Dolan's operation of the unlicensed station was in violation of Section 301 of the Communications Act of 1934.

Operation of pirate broadcasting stations can cause interference to legitimate radio services including emergency communications involving safety of life or property. The Commission views unlicensed operation of broadcast stations as a serious matter and offenders will be dealt with accordingly.

NEWS FROM ARRL & HR REPORT

de W7BUN

FCC has announced phase three of its call sign assignment, system. Amateurs may now request a call sign reflecting their class of license. The Commission selects all call signs and requests for specific ones will not be honored.. All amateurs may keep their present calls even when upgrading or moving to a new call district. All license applications **MUST** *be made on the new August 1980, Form 610.*

Report (cont.)

FCC has made permanent the rule requiring commercial amplifiers be type accepted. The Commission also released a Notice of Proposed Rulemaking to allow amplifier manufacturers t supply to licensed Amateurs with instructions how to modify the amplifiers to operate in the MHz and the new 24 MHz bands.

The December 1 call signs for the 7th call are as follows: KF7E, KB7RT, N7CEH and KA7JFO. latest FCC operator license figures have a to 370,547 Amateurs in the U.S. ARRL membership totals 157,036 with 7,652 in the Northwestern sion. Also, of interest to some, are the dec subscription totals of 73 Magazine which is n 49,211 down from 56,000 six months earlier.

ARRL continues to receive complaints from who are having problems with DSI. General Ma Baldwin says there is little more that can be since the League already banned DSI from adve ing in QST earlier this year. DSI owes over $100,000 to the IRS, plus more to its other c tors. However, the company is working very h to stay in business and reduce its indebtedne

they received.

AMSAT has secured a launch for the Phase IIIB satellite to replace the one that was aboard the ill-fated Ariane launch vehicle that crashed in May. The new date is February 28, 1982. Two sets of hardware are being readied for Phase IIIC in 1983 and U.SAT, the first Amateur scientific research satellite should "fly" in September, this year. Also in the works, are Amateur Radio's first geostationary satellite in 1984, more Phase III launches in 1984/5 and microwave and digital transponders as well as linked satellite systems. All this space hardware costs money and AMSAT is asking all Amateurs to help ensure the continued pioneering of new Amateur Radio techniques, by becoming a member of AMSAT. Members receive a bi-monthly copy of Orbit, the excellent magazine published by AMSAT. (See W7EUN for membership forms or information)

OLD SANTA

O. S. has had a busy time chatting with the children again this year. He is having a time keeping abreast of all the new electronic toys. I think he enjoys his bells, reindeer and chatts with the little ones as much as they do.

W7 Old Santa and Mrs. Claus wish to wish you all a Happy New Year.

SLIVERS & SPLINTERS

With only one meeting in December it was hard to scrape up any news for this column this month. Have to be careful so that I don't run into Scotty's wing over there on my right. Boy! that was close

Dick, W7RGD in the boat construction business. Got a 5 foot radio controled model of the U S S Missouri. His basement has become a hard-hat area.

Budd on the club repeater passing along some computer program changes. That's WB7FHC yp. Budd.

Irma, W7OVW busier than a cat on a tin roof on several repeaters on 2 and 220MHz, with the rivers acting up again during the heavy rain. Looked like "grand central switch board" for awhile. Doing a terrific job of it.

Jack, K7SRU has a new piece of computer equipment. Is completely computerized on the 2 meter bands.

New Years eve found a group of RCT members celebrating at the Devish's QTH. Enjoying the fun were the Devish's (Roy W7AZI & Ethel W7WLX); the Rawlings (Ralph W7COP & Tykie), the Huntley's (Scotty K7CYZ and Vivian) and the Smiths (Otho K7ATD and Rene).

A reminder to all you ladies out there. The next auxiliary meeting on January 21st will be election night. Be sure to attend the meeting and cast your vote.

"Smitty" K7ATD announced at the X-mas Party at the Puyallup Elks that he will be joining the growing crowd of retirees in the RCT. Will hang up his paint smock in February.

Howard, W7HWD enjoying his new am/fm radio he won at the X-mas party.

How many of you got to hear 'Ole Santa' on the club repeater just before he left the [illegible] on his rounds? The little ones were really excited for the chance to chat with him. A real round of applause for W7OS for making the arrangements for the kids.

That's about it for this first issue for the start of the eighteenth year of print. We of the Loggers Bark wish you all the best of new years and may all your radio dreams come true!..73

BARK CHANGES

STARTING WITH THIS ISSUE, THE LOGGERS BARK WILL BE PRINTED BY COMPUTER. DICK, W7RGD, HAS A "WORD PROCESSOR" PROGRAM TO OPERATE IN HIS TRS-80 COMPUTER AND WILL TYPE, EDIT AND SET UP THE ARTICLES USING THE NEW PROGRAM. YOU WILL NOTE THE ARTICLES ARE PRINTED ALL IN UPPER CASE (CAPITOL LETTER). EVENTUALLY WE PLAN ON INSTALLING AN UPER/LOWER CASE HARDWARE PROGRAM TO GIVE US THE CAPABILITIES TO PRINT THAT WAY. MUCH LATER (WHEN THE BARK'S SHIP COMES IN) WE HOPE TO HAVE A "DAISY WHEEL" HIGH SPEED PRINTER TO GIVE THE PRINT THAT "PROFESIONAL" LOOK. IF THE PRINT ON THIS PAGE LOOKS "FUZZY" TO YOU, IT'S NOT BECAUSE YOUR EYES ARE OUT OF FOCUS BUT RATHER IT IS THE PRINT. PRESENTLY THE LETTERS AND NUMBERS ARE PRINTED USING A 7 BY 9 DOT MATRIX GENERATOR. THIS MEANS EACH CHARACTER IS MADE UP OF DOTS OF INK AND CONSEQUENTLY THE PRINT IS NOT SOLID AS IN THE CONVENTIONAL TYPWRITER.

THE NEW PROCESS IS MUCH QUICKER TO TYPE AND ONCE AN ARTICLE IS TYPED, IT IS STORED ON A DISK UNTIL SUCH TIME AS IT IS NEEDED TO CUT THE STENCILS FOR THE PRESS.

WE WILL CONTINUE TO UPGRADE THE QUALITY OF THE PRINTED MATERIAL. NOW IT IS YOUR TURN TO HELP US BY SUBMITTING MATERIAL TO BE PRINTED. IF EACH MEMBER DONATED AN HOUR DURING THE YEAR TO SUBMIT ONLY ONE ARTICLE FOR THE BARK THE PAPER WOULD BE THAT MUCH BETTER FOR ALL. WE PRESENTLY HAVE 3 MEMBERS WHO WRITE 95% OF THE ARTICLES CONTAINED IN THE BARK EACH MONTH. SCOTTY K7CYZ, JERRY W7BUN AND DOC W7OS ARE THE FAITHFUL REPORTERS EACH MONTH.

SO HOW ABOUT IT? DO YOU HAVE AN HOUR TO SPARE, TO SIT DOWN AND WRITE AN ARTICLE ABOUT A PROJECT YOU ARE INTERESTED IN? MAYBE AN IDEA FOR A CLUB PROJECT OR POSSIBLY AN AMATEUR RADIO RELATED GRIPE. KEEP THOSE LETTERS AND NOTES COMING! ....DICK W7RGD

YARC NEWS

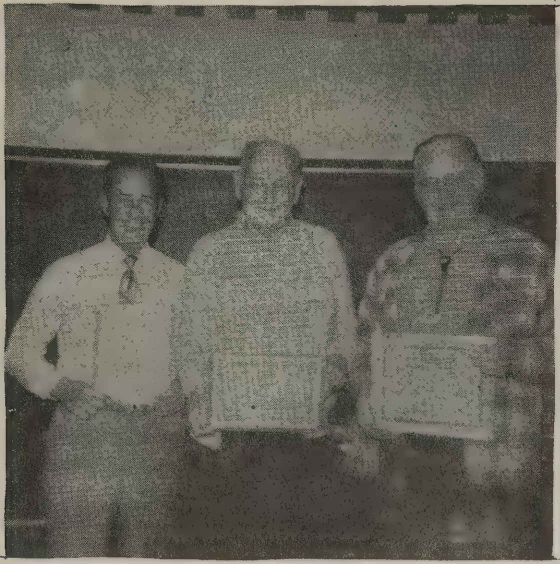
WE OF RCT ARE HAPPY TO SEND TO THE FOLLOWING MEMBERS OF THE YORK AMATEUR RADIO CLUB, THE FOLLOWING LOGGER CERTIFICATES AS A RESULT OF THE 1980 QSO PARTIES.

W3IQF	MERLE	#498
WB3LJS	ROBERT	#499
WA3BZA	STAN	#500
W3EDO	GEORGE	#501
K3GDI	FRANK	#502

THESE, ADDED TO THE PREVIOUSLY MAILED CERTIFICATES, MAKES A TOTAL OF THIRTEEN LOGGERS CERTIFICATES TO YARC MEMBERS.

WE HAVE FORWARDED QSL CARDS FOR THE "WHITE ROSE AWARD" FOR TWO OF OUR MEMBERS (DON ROJEWSKI WB7VHA AND ROD REVER WA7ZSR)

WE ARE WAITING FOR THE YARC MEMBERS TO SUGGEST A DATE FOR OUR NEXT RCT VS. YARC QSO PARTY THIS SPRING. CONGRATULATIONS TO YARC...... DOC W7OS



L. R. ALEX W7AZR*BILL W7AZE*ROY W7AZI

THESE THREE PROVIDED A DECORATED CAKE WITH ICE CREAM AT THE RADIO CLUB OF TACOMA, INC. MEETING OF JANUARY 14, 1981 TO CELEBRATE 150 YEARS OF COLLECTIVE HAMMING. ALL THREE TOOK THEIR LICENSE EXAMS TOGETHER AT THE SEATTLE OFFICE OF THE DEPARTMENT OF COMMERCE, RADIO DIVISION IN JANUARY 1931. WILLARD PUGMIRE RECEIVED CALL W7AZE, ROY DEVISH RECEIVED W7AZI AND ALEX BRAIDWOOD WAS ISSUED W7AZR.

IT IS EQUALLY REMARKABLE THAT THE THREE HAVE KEPT AND OPERATED THOSE CALLS IN THE SAME CITY OF TACOMA, WILLARD AND ROY AT THE SAME QTH, FOR ALL THE INTERVENING 50 YEARS.

THE THREE GOT THEIR START IN THE RADIO CLUB OF LINCOLN HIGH SCHOOL WHICH WAS ADVISED BY THE LATE RUSSELL CHRYST, W7ATB AND AFTER OBTAINING THEIR LICENSES JOINED THE RADIO CLUB OF TACOMA. ALL THREE ARE YOUNG RETIREES AND ENJOYING THEIR HOBBY IN THESE LONG AWAITED EXTRA HOURS.

ALL MEMBERS OF RCT EXTEND OUR CONGRATULATIONS TO THESE VERY ACTIVE, ENTHUSIASTIC HAMS FOR THEIR SERVICE TO OUR HOBBY AND WISH FOR THEM ALL MANY MORE WONDERFUL YEARS OF HAMMING...............

NOTE: PICTURE AT TOP (NEXT COL.) DEPICTS ALEX W7AZR CUTTING THE CAKE. PICTURED TO THE LEFT IN PICTURE IS BILL W7AZE AND TO THE RIGHT IS ROY W7AZI AND XYL ETHEL W7WLX. (IT TASTED GOOD TOO!)

NW SHRINE AMATEUR RADIO CLUB

-W7AZI

THIS CLUB HAS BEEN IN OPERATION A LITTLE OVER 2 YEARS AND IS GROWING AND ACCOMPLISHING THE GOALS OF ITS FORMATION. GOOD FELLOWSHIP AND MEETING OTHER HAMS IN THE SHRINE FRATERNITY WAS A GOOD START.

THE GOAL: TO ESTABLISH AMATEUR RADIO STATIONS

NEWS FROM ARRL & HR REPORT

DE W7BUN

ELLEN WHITE, W1YL/4, XYL OF FAMOUS DX COLUMNIST W1CW, WILL BECOME EDITOR OF QST'S DX COLUMN BEGINNING IN APRIL.

ARRL'S DXCC ETHICS RULE, RULE 12, HAS BEEN STRENGTHENED IN A MOVE TO DISCOURAGE DX STATIONS FROM DEMANDING MONETARY PAYMENT BEFORE SENDING QSL CARDS. THE FULL TEXT WILL BE IN MARCH QST.

THE 1981 SEVENTH-CALL AREA MEMBERS OF ARRL'S ADVISORY COMMITTEES ARE AS FOLLOWS: DX - K7LAY, CONTEST - N7DF, VHF/UHF - W4WD/7, EMERGENCY COMMUNICATIONS - KA7M, PUBLIC RELATIONS - W7CKZ AND VHF REPEATER - K7CR.

CALIFORNIA REPRESENTATIVE WILLIAM DANNEMEYER HAS INTRODUCED A BILL TO AMEND THE 1934 COMMUNICATIONS ACT TO PERMIT FCC TO UTILIZE VOLUNTEERS. THE BILL, HR-8445, WOULD PERMIT THE USE OF AMATEURS TO HELP FCC MONITOR FOR VIOLATIONS OF RULES AND WOULD MAKE THE NOVICE VOLUNTEER PROGRAM LEGAL.

AMATEURS WHO HAVE ANTENNAS NEAR AIRPORTS WILL HAVE TO SUBMIT DETAILED ANTENNA INFORMATION DIRECT TO THE FCC ANTENNA SURVEY BRANCH FOR CONSIDERATION AND APPROVAL UNDER NEW RULES APPROVED BY THE COMMISSIONERS ON JANUARY 13TH.

LATEST FCC OPERATOR LICENSE FIGURES SHOW 382,006 TOTAL. ARRL MEMBERSHIP NOW TOTALS 157,407, DOWN 2,000 FROM LAST YEAR.

FCC HAS DISMISSED WITHOUT ACTION THE FOLLOWING PETITIONS FOR RULEMAKING: RM-3454 WHICH HAD REQUESTED AMATEUR EXAM CREDIT FOR THE HOLDERS OF COMMERCIAL RADIO LICENSES; RM-2892 WHICH HAD REQUESTED AN INTERIM LICENSING PROGRAM TO COMPENSATE FOR FCC DELAYS IN LICENSE ISSUANCE; RM-3426 WHICH REQUESTED A 60 DAY WAITING PERIOD FOR RETAKING AN AMATEUR EXAM AND RM-3455 WHICH HAD ASKED FOR MAIL EXAMS OF U.S. CITIZENS IN FOREIGN COUNTRIES.

PALOMAR ENGINEERS HAS 2 NEW 1.8 TO 60 MHZ RECEIVER PREAMPS.

HY-GAIN HAS A NEW COLLINEAR 2-METER BASE STATION ANTENNA.

PIPO HAS A NEW LOW PROFILE TT PAD.

DIGICOM HAS A LINE OF CIGARETTE-PACKAGE SIZED 6 CHANNEL HAND-HELDS FOR 144, 220 AND 440 MHZ..

AMATEUR REPEATER

HELLO FROM THE 147.98/38 REPEATER GROUP! WE ARE WRITING TO TELL YOU ABOUT WHAT WE FEEL IS ONE OF MOST UNIQUE REPEATERS IN THE ENTIRE AMATEUR SERVICE.

LOCATED 4680 FEET ABOVE SEA LEVEL ON LADD MOUNTAIN, ABOUT 60 STATUTE MILES SOUTHEAST OF TACOMA, WASHINGTON, THE SITE BOASTS COVERAGE FROM VANCOUVER B.C. TO PORTLAND, ASTORIA, ELLENSBURG AND BEYOND. THE EQUIPMENT IS PRESENTLY COMPRISED OF VHF ENGINEERING AND MOTOROLA REPEATERS, WITH A 220 MHZ UP-LINK AND ASSOCIATED CONTROL LOGIC CIRCUITRY. WHAT IS UNIQUE ABOUT THE REPEATER IS THAT IT IS ENTIRELY SELF-CONTAINED. ELECTRIC POWER COMES FROM A PROPANE GENERATOR CHARGING NI-CAD BATTERIES. (IT'S ALMOST AS IF THE REPEATER WERE OPERATING UNDER PERMANENT FIELD DAY CONDITIONS!) WE ARE CHARTERED UNDER WASHINGTON STATE LAW AS A NON-PROFIT CORPORATION.

WITH ONE OF THE BROADEST COVERAGES OF ANY TWO-METER MACHINE, THE REPEATER HAS BECOME THE FOCAL POINT FOR A VARIETY OF AMATEUR ACTIVITIES. MT. ST. HELENS IS A MAJOR SOURCE OF INTEREST AND 98/38 HAS TOTAL COVERAGE FOR EMERGENCY SERVICES OF ALL BUT THE MOST ISOLATED SECTIONS OF THE MOUNTAIN. DAILY AT 9:30 A.M. WINDS ALOFT AND SEISMOGRAPHIC REPORTS ARE RELAYED FOR WASHINGTON'S FAVORITE VOLCANO. EARLIER IN THE DAY AT 6:30 A.M. ONE CAN RECEIVE WEATHER OBSERVATIONS FOR MANY WESTERN WASHINGTON AND NW OREGON LOCATIONS. WEDNESDAY NIGHTS AT 7:00 P.M. CATCH THE 98/38 REPEATER NET AND THURSDAY NIGHTS AT 7:00 P.M. JOIN ONE OF THE BIGGEST SWAP'N SHOPS IN THE VHF SPECTRUM. MOUNTAIN SEARCH AND RESCUE IS ALSO CONDUCTED ON THE MACHINE, AS WELL AS RIVER WATCH AND THE ALWAYS-POPULAR MESSAGE HANDLING. NOT TO WORRY - THE REPEATER IS BUSY BUT THERE IS STILL PLENTY OF TIME FOR CASUAL QSO'S WHEN HIGHER PRIORITY ITEMS AREN'T PENDING.

WATCH US GROW! 98/38 HAS SOME PROPOSED ADDITIONS AND MODIFICATIONS UNDER DISCUSSION AND WE WOULD LIKE TO HAVE YOUR INPUT. OF PRIMARY IMPORTANCE IS A NEW/ADDITIONAL GENERATOR AND ADDITIONAL NI-CADS TO HANDLE THE HEAVY DUTY-CYCLE WE HAVE BEEN EXPERIENCING. WITH THAT OUT OF THE WAY WE ARE CONSIDERING LINKS FOR IMPROVED COVERAGE INTO OTHER AREAS, INCLUDING THE

(CONT. NEXT COL.)

REPEATER (CONT.)

POSSIBILITY OF LINKING EASTERN WASHINGTON WAY OF SNOQUALMIE OR WHITE PASS.

YES, 147.98/38 IS WELL ON THE WAY TO BECOM A STATE-WIDE AND INTERNATIONAL REPEATER. W THOUSANDS OF SQUARE MILES TO COVER, INDEPENDE FROM OUTSIDE POWER SOURCES, MULTIPLE MISSIONS THE VARIED INTERESTS OF ITS AMATEURS, THIS PEATER IS GOING TO BECOME THE BACKBONE OF TWO-METER BAND. YOU OWE IT TO YOURSELF AND A TEUR RADIO TO JOIN US IN INVESTING IN THIS UNI EXPERIMENT. YOUR TAX-DEDUCTABLE DONATION OF DOLLAR OR MORE PER MONTH WOULD BE MOST WELC (AFTER ALL, PROPANE AND MAINTENANCE AREN'T FR BUT IN ANY CASE JOIN US ON THE AIR AND USE REPEATER FOR THE ACTIVITIES STATED ABOVE, PAR CULARLY FOR THE COVERAGE WHICH NO OTHER REPEA IN WESTERN WASHINGTON CAN OFFER.

THANK YOU FOR YOUR INVOLVEMENT WITH OUR PERIMENT. JOIN US ON THE FIRST SUNDAY OF E MONTH FOR BREAKFAST AND FELLOWSHIP IN AMAT RADIO. TIME AND PLACE WILL BE ANNOUNCED ON 98/38 REPEATER NET.

73!

FEBRUARY'S PUZZLE MAY BE A WEE BIT TOUGHER. TAKE A GOOD LOOK, YOU WILL HAVE TO STUDY THIS ONE

SLIVERS & SPLINTERS

DON'T FORGET TO CONTACT SCOTTY K7CYZ IF YOU ARE PLANNING ON ATTENDING THE CLUB'S BANQUET FEBRUARY 21ST. YOU NEED NOT PAY IN ADVANCE, JUST LET HIM KNOW FOR A HEAD COUNT FOR THE 565 CLUB.

HAMFAIR MAY BE OFF IN THE FUTURE AWAYS BUT THE CLUB NEEDS MAN-POWER TO GET THE BALL ROLLING. IF YOU CAN BE AVAILABLE FOR THE PLANNING, BE SURE AND CONTACT THE CHAIRMEN (W7BUN OR WA7RWK) AS SOON AS POSSIBLE.

CONGRATULATIONS TO GARY THAYER ON OBTAINING A CALL OF KA7JDU AND JOY ALLEN ON HER NEW LICENSE KA7JDX. A COUPLE MORE FOR THOSE HUNGRY LOGGER CERTIFICATE HUNTERS.

JOE, WA7RWK WORKING ON HIS TELETYPE EQUIPMENT AND IS NOW COPYING THE TWO METER TELETYPE FREQUENCY (146.10/70). EXPECTS TO HAVE THE TRANSMIT MODE IN OPERATION SHORTLY. WHAT HAPPENED TO MAC, W7FAB? HIS TELETYPE MACHINERY IS UP AND RUNNING BUT NOT ON THE BANDS.

STEVE K7SSC TRYING TO FINISH THE AUTO-PATCH BEFORE THE SPRING ACTIVITIES START UP WITH ROAD RALLYS, WALK-A-THONS, ETC.

JACK K7SRU BUSY GETTING INVOLVED WITH THE WEATHER NET. HAS A NEW DISK DRIVE FOR HIS COMPUTER AND A MODEM FOR THE PHONE LINES. WORKING ON HIS TWO FINGER TYPING TO GET THAT SPEED UP. TOO BAD IT ISN'T A BUG KEY INSTEAD OF KEYBOARD, JACK!

XVIII NR 3 W7DK MARCH 1981

1980 INSPIRATION AWARD

*ch year the Radio Club of Tacoma honors a club
r who has upheld the high ideals and traditions
e Amateur Radio Service and has served as an
ration to the rest of the membership. The
member to be honored for 1980 is quite involv-
club activities, yet in spite of his busy
ule he always finds time to volunteer for
tional projects. He is always willing to help
hams, both club members and non-members -
ners and old-timers. He served as a member of
ub's Board of Directors in 1980, yet he has
great interest in the Radio Club that he al-
ttends Board meetings, even when not required.
s member is our Activities Chairman and as such
sponsible for our Installation Banquets and
tmas parties and these events are always very
ssful due to his efforts. He keeps us advis-
all forthcoming social and operating activi-
heads up the club badge program, is co-editor
Loggers Bark newspaper, Committee-head for
suance of Logger Certificates and endorsements
the Club's representative to the monthly
gs of the Puget Sound Council of Amateur
Clubs. Last year, this member was heavily in-
l in Hamfair, Field Day, the Amateur Radio
ncy Service River Watch program and he serv-
the nominating committee to help choose our
fficers.
r recipient of the 1980 DOC Spike Inspiration
tstanding individual---a helpful ham--a person
e all proud to have as a friend -- truly an
tion to all of us ------Scotty Huntley, K7CYZ.*

de W7WLX

March 18th is the next meeting at the clubhouse 7:30 PM.

The February meeting was well attended and covered so much business that the time flew by and no one stayed for the usual card fun.

Election results provided these officers for 1981:

President	*Freya Hutt*
Vice President	*Dot Myers*
Sec/Treas.	*Marje Hazelmyer*
Board Members	*Donna Dightman* *Ethel Devish*
Laison to DK	*Irma Duncan*
Sunshine	*Marie Fuller*

We were busy making plans and anticipating the fun and hard work involved in Hamfair in August. If we have enough prizes, we will have the free Bingo for the ladies most of both days. Please help us with this - we need nice little "freebees"- the kind you'd like to win. If you would like to spend some of your time at Hamfair working in one of the booths for an hour, call me - we're making a schedule.

Our Sunshine gal, Marie, can't bring cheer to the ones who are down unless we let her know. If you know of any Club member or Auxiliary member who is ill, call Marie, 582-7566 or 582-5841.

We've been a busy bunch for 30 years so if you haven't been coming, you've missed some good times.

We are still collecting aluminum cans!!

Hope to see YOU at the meetings.

YARC VS. RCT QSO PARTY

de W7OS

The YARC/RCT QSO Party has been set for March 12th, 19th and 26th. (all on Thursdays) at 0100GMT (1700 local time). The frequency decided on is 21.410 plus-minus a couple of KHz.

It is hoped that as many as possible RCT members will geton one or more of these dates to help the YARC members get the necessary 10 contacts to win a Loggers Certificate. Some 13 members of YARC have obtained Loggers Certificates and are looking for endorsements. We need a lot more members to show up to help them in this matter.

France has legalized cb radio, with a 2-watt power limit and 22 channels in the 27MHz band. It is estimated there were 100,000 illegal cb users in France prior to legalization.

King Juan Carlos of Spain (EA0JC) was due to visit the U.S. in February, with stops in California, New Mexico and Texas before arriving in Washington, D.C., however due to the recent civil unrest in Spain the visit has been delayed. The King likes low-band ragchewing with his Drake TR-7.

INDUSTRY NEWS:

DSI INSTRUMENTS closed its doors in January, however, DSI counter owners who need service help can contact **BRIGHT ELECTRONICS**, Box 76972, Atlanta, GA 30328.

ICOM's new IC-720A adds an interface to the popular IC-720 so the IC-2KL automatic bandswitch linear and antenna tuner can be connected. The interface, LDA-1 is available for the IC-720, also.

ALUMNI NEWS
W7OS

RCT HISTORICAL MUSEUM has become recognized for some of its choice, early radio display old time gear. WB6IVO, Dave of Cooma California (a teacher) is gathering slides and pictures of early communications equi.ment for teaching purposes. He has requested slides of the early spark gap transmitters, We have them available and are making arrangements to help WB6IVO.

FAYRA ARMOUR, DA2BY **and ED KH6GBA** are both in Germany. Fayra wrote to Angela N7AZT to tell her about her new call DA2BY. She also listed several frequencies available to her. It looks like 10 meters will be good this spring.

Alumni (cont.)

Fayra was home to help her mother go back to Germany afterwhich she hopes to up-grade her license.

Angela has the letter with the frequencies she will be operating on. I'm sure many of the club members would like to contact he on the air

ALLAN HOSKINS W7MHC wrote asking for any information regarding the Naval reserve trainees during the 1941 classes at the Bainbridge Island radio school. After the article in the January issue Cliff Cook, W7DUV sent in a copy of the Seattle Times dated January 27 in which Henry Long showed pictures and listed names. Now there is the makings of plans for a 40th re-union, sometime in May. I I suspect Al W7HMC will be there and hop that he will make RCT one of his stops. Anyone wanting to make contact with Henry Long, write 7719 Bobcat Drive SE, Olympia WA 98503 or call (206) 491-2122.

CAL W7SFT & PAT N7CAK Morgan reported their 18 month old grandson Jacob Rinehart was involved in a fatal car accident January 27. He was in an infant seat in the rear of the vehicle driven by his mother Juanita. The car was struck in a rear end collision and caught fire. All members of RCT extend a moment of silense in sympathy with Juanita, Cal and Pat.

HARRY JACKSON, W7MCW of Bremerton suffered a heart attack and passed away February 9. Harry was a very active Northwest amateur and was especially active in QCWA and a past chairman of that group, in 1977. He was an ardent member of SOWP, Noon Time Net, the Bremerton Amateur Radio Club and second world war prisoner for a very long time.

Funeral was held on February 12 with burial at sea. QCWA memorial service held Feb 22. Harry was a close friend of many RCT members and we extend our sympathy to his xyl Pauline and family.

PROVIDENCE RADIO ASSOCIATION, W1OP sent W7DK a very interesting QSL card which has printed on it the following: "The Oldest continuously active radio club in America" established in 1919, ARRL chartered in 1921 and Incorporated 1933. It was noted (in hand writing) the following. "WOW!", "You beat us". The QSL card was dated June 29, 1980. Apparantly it was a field day contact. I will in due time, write them and wish them well . Ihope they have a club paper that we may exchange papers with them to exchange information between two old established Radio clubs.

The RCT is happy to receive, in exchange for our Loggers Bark, a copy of the York Amateur Radio Club news letter. Congratulations to Bob Icks WB3IJS the editor and publisher.

CONGRATULATIONS TO GRACE, AD7S, ON RECEIVING HER DX-YL CERTIFICATE TO ADD TO HER YLCC. THE DX-YL IS AWARDED WITH CONFIRMED CONTACTS WITH 25 YLS OUTSIDE OF THE 48 STATES WHICH ALLOWS ALASKA AND HAWAII TO COUNT TOO. THE YLCC IS AWARDED WHEN 100 QSLS FROM DIFFERENT WOMEN AMATEURS ARE MAILED IN TO YLRL. GRACE IS JUST ONE AWAY FROM WORKED ALL STATES YL AND FOR THIS ALASKA AND HAWAII MUST BE INCLUDED AND QSLS MAILED IN.

SUE, N7AFZ IS A VERY ACTIVE AMATEUR. TRAFFIC HANDLING IS HER THING AND MARCH QST LISTS 272 MESSAGES HANDLED BY SUE. SHE IS HEARD DAILY ON THE MT. ST. HELENS ALERT FREQUENCIES RELAYING THE WINDS ALOFT AND SEISMIC REPORTS. SHE CHECKS IN TO THE WEATHER NETS TOO.

IRMA, W7OVW, CONTINUES TO BE THE CONTACT ON 2 METERS TO TAKE CARE OF ACCIDENT REPORTS, MAKE PHONE CALLS, DIRECT LOST HAMS AND ANSWER THOSE JUST WISHING TO MAKE A CONTACT. SHE ALSO HANDLES BASE STATION REQUIREMENTS FOR ALL ARES EVENTS AND SEARCH AND RESCUE ACTIVITIES. WHEN THE RAINS COME SHE RECEIVES THE REPORTS ON THE RIVER WATCH AND ALSO REPORTS THE AMOUNT OF RAINFALL AT HER QTH TO THE DAILY WEATHER NET.

EVA, WB70NS IS HEARD ANSWERING THE MANY CALLS ON 04/64 AND IS CURRENTLY DOING A SUPERB JOB AS NET CONTROL ON THE MONDAY NIGHT NET. WE ALL KEEP AN EAR PEELED TO HEAR WHAT SHE HAS FOUND WITH HER METAL DETECTOR AND THE WEATHER IS CERTAINLY CO-OPERATING. THEY DON'T EAT ALL OF THEIR MEALS AWAY FROM HOME - JUST SEEMS THAT WAY.

MANY OF THE GALS ARE HEARD ON 2 METERS WHO ENJOY THE HAM CONTACTS WITH THEIR OMS AND THE LOCAL RAG CHEWS AND LET THAT BE THE EXTENT OF THEIR HAMMING. THAT'S FINE TOO, AMATEUR RADIO PROVIDES LOTS OF DIFFERENT WAYS TO ENJOY THE HOBBY.

THE TUOLA YL NET HELD THEIR FIRST REAL MEETING SINCE FORMING ON MARCH 17TH, 1980. THE NAME REPRESENTS TUMWATER AND OLYMPIA, THUS THE LONG "O" IN THE PRONUNCIATION.

AS THIS ISSUE OF THE LOGGERS BARK GOES TO PRESS, THE LAST OF THE QSO PARTIES HAVE BEEN COMPLETED. WE ARE PLEASED TO REPORT THAT MANY CERTIFICATES AND ENDORSEMENTS HAVE BEEN EARNED. MANY "WHITE ROSE" AWARDS WILL BE RECEIVED. CONGRATULATIONS TO BOTH CLUBS FOR A GOOD PARTICIPATION. GOOD CONDITIONS WERE ENJOYED FOR THE EXCHANGES. BILL BOYER W3AMQ AND DOC W7OS ARE HANDLING THE CERTIFICATES AND QSL CARDS. FOR THE RCT MEMBERS WHO WISH TO SEND IN THEIR QSL CARDS, PLEASE SEND THEM TO W7OS WHO WILL TAKE CARE OF THE MAILING FREE ! THE OFFER FOR THE FREE MAILING WILL END ONE WEEK AFTER THE BARK IS MAILED, SO BE SURE AND GET YOUR CARDS TO DOC BEFORE THAT DATE.

BILL BOYER WILL BE SENDING TO DOC, ALL THE YARC LISTS AND REQUESTS FOR LOGGER CERTIFICATES/ENDORSEMENTS. THESE REQUIRE ONLY A LIST OF THE TEN RCT MEMBERS WITH CALLS AND THE DATE WORKED (ONE TIME CONTACT ONLY PER MEMBER). REMEMBER THE LOGGERS AWARD STILL IS ACTIVE CAN BE WORKED ANY TIME, ANY MODE AND ANY FREQUENCY OR BAND BUT THE MEMBER MUST BE IN GOOD STANDING OR IN GOOD STANDING ON THE DATE WORKED (BACK TO 1957)

THANKS TO ALL WHO PARTICIPATED.......DOC W7OS

MEMBERS RCT:

THE HISTORY OF RCT INCLUDES ALBUMS OF THE PICTURES OF OUR INDIVIDUAL MEMBERS. THE PICTURES ARE TAKEN IN FRONT OF THEIR RADIO GEAR. THE CLUB TRYS TO TAKE A BLACK/WHITE PHOTO OF EACH MEMBER AND WE ENLARGE THEM TO 8X10 AND ENCLOSE THEM IN THE ALBUM. WE URGE ALL MEMBERS TO CONTACT W7OS, W7RGD OR WB7QCW FOR ARRANGING A TIME TO HAVE YOUR PICTURE TAKEN. THE ALBUMS ARE KEPT IN THE RCT MUSEUM AND WILL BE ON DISPLAY AT HAMFAIR '81'. IF YOU HAVE NOT BEEN PHOTOGRAPHED FOR INCLUSION IN THE ALBUM, PLEASE TAKE THE TIME TO ARRANGE IT, SINCE IT DOES TAKE SOME TIME TO PROCESS THE PICTURE AND WE DO WANT ALL MEMBERS TO BE INCLUDED IN THE CLUB'S RECORDS ......THANKS DOC W7OS

NEWS FROM ARRL & HR REPORT

ARRL & HR REPORT (CONT.)

WILLIAM E. DANNEMEYER, REPUBLICAN REPRESENTATIVE OF CALIFORNIA, HAS INTRODUCED A BILL INTO THE HOUSE REQUESTING THAT VOLUNTEERS BE PERMITTED TO ASSIST FCC IN MONITORING AMATEUR AND CB VIOLATIONS AND IN PREPARING AND ADMINISTERING FCC EXAMS. THE BILL, HR-2203, WILL BE DETAILED IN APRIL QST.

THE LEAGUE HAS DECIDED TO HOLD FOR FURTHER STUDY THE PROPOSAL FOR PHONE PRIVILEGES BELOW 7100 KHZ AND IS ALSO STUDYING THE POSSIBILITY OF ASKING FCC FOR GENERAL CLASS OPERATION TO BE REINSTATED FROM 3825 TO 4000 KHZ.

FCC HAS SIMPLIFIED THE PROCEDURES FOR GRANTING PERMISSION FOR AMATEUR ANTENNA STRUCTURES WHICH EXCEED CERTAIN HEIGHTS OR ARE NEAR AN AIRPORT. A NEW SINGLE FORM IS BEING CREATED WHICH WILL REPLACE THE PRESENT FCC FORMS 610, 714 AND THE FAA FORM 7460-1.

FCC MAY SUFFER UNDER THE REAGAN ADMINISTRATION'S AUSTERITY PROGRAM. A STAFF REDUCTION OF 8% HAS BEEN ORDERED, WHICH WILL AMOUNT TO 160 POSITIONS BEING CUT. ALSO, THE MOVE FROM WASHINGTON, DC, TO ROSLYN, VIRGINIA, SEEMS TO BE ON AGAIN AFTER ALL.

IF YOU HAVE AN INTEREST IN ASTRONOMY, CHECK THE GROUPS ON 3930 KHZ., SUNDAYS AT 10PM OR 14.300MHZ WEDNESDAYS AT 8PM..

A ONE-YEAR SPECIAL TEMPORARY AUTHORIZATION (STA) HAS BEEN GRANTED BY FCC TO AN EAST COAST GROUP TO CONDUCT SPREAD SPECTRUM EXPERIMENTS ON H.F. AND U.H.F.. A RECENT QST ARTICLE EXPLAINED THIS REVOLUTIONARY TECHNIQUE OF BROADBAND MODULATION.

27-MHZ BRITISH CB HAS BEEN OK'ED BEGINNING THIS FALL. SIMILAR TO THE NEW FRENCH CB, IT WILL UTILIZE FM RATHER THAN AM. A 930 MHZ CB IS ALSO BEING PLANNED BY THE HOME OFFICE.

THE MAY MEETING WILL BE WEDNESDAY THE 20TH AT THE CLUBHOUSE (1249 SO WASHINGTON STREET) AT 7:30PM..

WE ARE ALL LOOKING FORWARD TO THAT DELICIOUS MOTHER'S DAY BREAKFAST, SO WELL PREPARED AND SERVED BY OUR HUSBANDS AND SONS. IT DOES GIVE MOTHER'S DAY A NICE START.

WE WERE HAPPY TO HAVE IRENE BUNDY AND CARMEAN PERRY JOIN US AT THE APRIL MEETING. FREYA, OUR PRESIDENT, RUNS A NICE TIGHT MEETING SO WE ARE SOON DONE WITH THE BUSINESS AND HAVE A NICE TIME VISITING IF WE HAVEN'T ARRANGED A SPECIAL MEETING.

THERE ARE MANY NICE ITEMS SHOWING UP FOR BINGO PRIZES FOR HAMFAIR BUT WE CAN USE MORE IF YOU WISH TO HELP US. WE'RE TAKING NOTE OF ANY OF YOU WHO WOULD LIKE TO DEVOTE AN HOUR OR SO TO ANY OF THE JOBS CONNECTED WITH BOTH FIELD DAY IN JUNE AND HAMFAIR IN AUGUST.

ALUMINUM CANS ARE STILL BEING COLLECTED!

SEE YOU AT THE MEETING. ....ETHEL

WHAT A NICE DAY WE HAD TO ATTEND THE SKAGIT HAMFEST - QUITE A CHANGE FROM THE RAINY DAYS OF THE LAST COUPLE OF YEARS. ANGELA, N7AZT, ACCOMPANIED ME IN THE V-W WAGON AND WE ARRIVED IN TIME FOR ALL OF THE LADIES ACTIVITIES. THERE WERE FEWER PEOPLE, WHICH MEANT LESS CROWDING AND A VERY ENJOYABLE TIME.

TODDY NYE, W7LCS AND HER GROUP OF 10 HAWAIIAN DANCERS PUT ON AN AUTHENTIC PROGRAM OF NATIVE SONGS AND DANCES. IT WAS VERY GOOD.

THERE WAS A GOOD ATTENDANCE OF LADY OPERATORS AT THE SKAGIT HAMFEST. I COUNTED 10 MINOW GALS-BETTY WA7CBU, DIXIE WA7DXI, PAT WA7GMX, EVELYN W7LLD, RUBY W7QME, MARGARET WAYRBR, RUTH WA7RVA, MONA WAYUFS, NORMA K7UTT AND MYSELF.(THERE MAY HAVE BEEN MORE).

THE MINOWS WILL HAVE THEIR ANNUAL MEETING AND POTLUCK IN RICHLAND ON MAY 31ST AND SINCE THE TRI-CITIES ARE HAVING A HAMFEST THAT WEEKEND, WE WILL HOPE TO HAVE SOME OF THE YLS VISIT OUR GROUP. CHECK IN ON 3913KHZ AT 8AM ANY FRIDAY OR SEE ME FOR FURTHER DETAILS.

GEORGE P. BECKET

ONE OF OUR REAL OLD TIMERS (RCT #120) APPARANTLY HAS NO RECENT OR CURRENT CALL. IN THE EARLY DAYS HE HELD THE CALL OF 7AFN. LATER ON HE HELD THE CALL OF 7ZM WITH AN ADDRESS OF EITHER 3823 OR 3323 SOUTH 10TH, TACOMA. GEORGE ATTENDED OUR SECOND 'HOME COMMING' IN 1973.

WE HAVE A TACOMA NEWS TRIBUNE CLIPPING DATED 1974 IN THE COLUMNS ENTITLED, "LOOKING BACKWARD 50 YEARS". THE PARAGRAPH READS AS FOLLOWS; "GEORGE P. BECKET WAS ELECTED PRESIDENT OF THE TACOMA RADIO CLUB, HERBERT HOLT AS VICE PRESIDENT AND WALLACE FOWLER AS TREASURER".

ON APRIL 18, I WAS INVITED AS A GUEST OF DR. ERSKIN BURTON, W7SF, TO A SEMI ANNUAL LUNCHEON OF THE SOCIETY OF WIRELESS PIONEERS (S.O.W.P.) AT THE DOG HOUSE RESTAURANT IN SEATTLE. W7SF WAS A FORMER SECRETARY AND VERY ACTIVE MEMBER OF RCT. IT WAS AT THIS MEETING THAT I WAS VERY THRILLED TO MEET AND VISIT WITH GEORGE. GEORGE NOW LIVES AT ROUTE 5 BOX 2550, ELLENSBURG WITH A PHONE AT 925-9186.

AFTER ALL THESE YEARS, GEORGE HAD A LOT OF QUESTIONS REGARDING THE OLD TIMERS OF THE RCT. WE TRIED TO BRING HIM UP TO DATE ON THE HAPPENINGS OF THE RCT TO DATE. HE WAS INVITED TO ATTEND OUR 5TH HOME COMMING ON MAY 13TH.. WE HOPE HE CAN MAKE IT AND HOPE TO HEAR FROM HIM AGAIN AND SOON.

YARC NEWS:

WE ARE HAPPY TO REPORT THAT EIGHT MEMBERS HAVE SENT THEIR REQUEST AND QSL CARDS VIA W3AMQ FOR THEIR LOGGER CERTIFICATES AND/OR ENDORSEMENTS. THEY WILL BE PROCESSED BY BARBARA W7UYL (SECRETARY OF LOGGER CERTIFICATES) AS SOON AS POSSIBLE AND THE QSL CARDS WILL BE DISTRIBUTED TO THE RCT MEMBERS. THE FOLLOWING IS THE LIST OF APPLICATIONS RECEIVED:

NEWS FROM ARRL & HR REPORT

DE:W7BUN

THE U.S. AND THE GAMBIA, PREFIX C5, HAVE AGREED TO PERMIT THE EXCHANGE OF THIRD PARTY TECHNICAL OR PERSONAL MESSAGES BUT NOT PHONE PATCHES, BY THEIR AMATEURS EFFECTIVE APRIL 15TH.

SENATOR BARRY GOLDWATER, K7UGA, HAS INTRODUCED A BILL S929, WHICH WOULD AMEND THE COMMUNICATIONS ACT WITH RESPECT TO AMATEUR RADIO. THE BILL WOULD PROVIDE FOR POINT OF SALE CONTROL OF TRANSMITTERS, EXTEND THE LICENSE TERM TO 1 YEARS, GIVE FCC AUTHORITY TO SET RFI STANDARDS FOR RECEIVING EQUIPMENT, ALLOW FCC TO USE VOLUNTEER AID FROM AMATEURS FOR EXAM GIVING AND ENFORCEMENT EFFORTS AND REMOVE THE SECRECY PROVISIONS OF SECTION 605.

UNCONFIRMED REPORTS INDICATE FCC PROPOSES T CREATE A NEW CODE-FREE "EXPERIMENTER" CLASS LICENSE. THE WRITTEN EXAM WILL HAVE "SUBSTANTIAL REQUIREMENTS. INTERNATIONAL LAW PRESENTLY FORBIDS A NO-CODE LICENSE BELOW 144MHZ. BUT IN 198 THAT WILL CHANGE TO 30MHZ. IT IS EXPECTED THI WILL BE A PHONE-ONLY LICENSE.

ALSO, FCC MAY PROPOSE THE DELETION OF THE 20-WPM TELEGRAPHY TEST REQUIRED FOR THE AMATEUR EXTRA CLASS LICENSE. IT IS BELIEVED THAT THIS ACTION IS A RESULT OF EVER-INCREASING BUDGET RESTRAINTS.

RICHARD BALDWIN, W1RU, THE GENERAL MANAGER O ARRL, HAS SUBMITTED HIS RESIGNATION EFFECTIV JUNE, 1982. DICK HAS BEEN A MEMBER OF THE HQ STAFF FOR 30 YEARS AND SERVED AS GENERAL MANAGE FOR SEVEN YEARS. HE WILL HAVE REACHED AGE 62 B MID-1982 AND PLANS TO MOVE TO MAINE. TH MANAGEMENT AND FINANCE COMMITTEE HAS BEEN DESIGNATED BY PRESIDENT DANNALS TO CONDUCT A SEARC FOR QUALIFIED CANDIDATES TO REPLACE DICK.

THE MARCH FCC CALL-SIGN ASSIGNMENT FOR THE 7T AREA IS KG7D, KB7TV, N7CHX AND KA7JRZ.

THE LEAGUE'S WASHINGTON AREA COORDINATOR PERRY WILLIAMS, IS DOING AN OUTSTANDING JOB REPRESENTING THE INTERESTS OF AMATEUR RADIO IN TH CAPITOL. DURING THE 3-MONTH PERIOD ENDING JANUARY 18, 1981, HE SPENT 17 DAYS IN WASHINGTON DISCUSSED 93 SUBJECTS WITH 54 GOVERNMENT OFFICIALS, OF WHICH 23 ARE AMATEURS.

FCC BUDGET CUTS MAY HAVE MANY CONSEQUENCE THAT AFFECT THE AMATEUR RADIO SERVICE. TH "PLAIN LANGUAGE" AMATEUR RULES MIGHT SEE LENGTHLY DELAY, THE LICENSE TURN-AROUND MIGH SLIP TO WELL OVER TWO MONTHS, ENFORCEMENT EFFORT WILL BE CURTAILED, SEVERAL FIELD OFFICES WILL CLOSED AND CITIES WITH MONTHLY OR QUARTERLY EXA WOULD HAVE THEM ONLY ANNUALLY.

MARK FOWLER, A COMMUNICATIONS LAWYER, IS EXPECTED TO BE NAMED FCC CHAIRMAN BY PRESIDEN REAGAN. FOWLER STRONGLY ENDORSES CONTINUATION THE DEREGULATION OF TELECOMMUNICATIONS.

SEVERAL ANTI-CASTRO ILLEGAL BROADCASTERS ARE OPERATING IN FLORIDA ON THE LOW END OF 40M. ONE KILOWATT STATION, CLOSED DOWN TWICE BY THE FCC, HAS HAD ALL CHARGES DROPPED UPON REQUEST OF THE LOCAL U.S. ATTORNEY. IT APPEARS THESE UNDERGROUND STATIONS WILL BE ABLE TO CONTINUE OPERATING.

ARRL HAS PROPOSED 20-M PHONE PRIVILEGES DOWN TO 14150 (RM3860) AND THE NEW 10.1MHZ BAND FOR 250-WATT CW OPERATION ONLY (RM3855). N3AVS HAS PROPOSED AN INCENTIVE SUBBAND OF 28.4 TO 28.5MHZ (RM3866).

A GROUP OF ECHO IX CLUB MEMBERS (CHICAGO) HAVE BEEN PROMISED BY CHINESE OFFICIALS PERMISSION FOR OPERATION FROM CHINA NEXT FALL. IF IT HAPPENS, THIS WILL BE THE FIRST BY ACTIVITY SINCE THE COMMUNIST TAKEOVER.

KERCHUNK

THE KERCHUNKERS MEET EACH DAY WHEN THE REPEATER IS NOT IN USE. TO QUALIFY AS A KERCHUNKER ONE MUST SHOW HIS SKILL BY PRESSING THE MICROPHONE BUTTON LONG ENOUGH TO ACTIVATE THE REPEATER BUT NOT LONG ENOUGH TO I.D. OR BE IDENTIFIED. TO BE A CERTIFIED KERCHUNKER, ONE MUST FOLLOW THIS PROCEDURE SUCCESSFULLY UNTIL THE MIKE FINGER FATIGUES OR SOMEONE WANTS TO USE THE REPEATER. BE CAREFUL TO KERCHUNK WHEN YOU KNOW NO ONE IS LISTENING, SO THAT LEGITIMATE REPEATER USERS WILL NOT BE IRRITATED AND PUT AN ANTI-KERCHUNK DEVICE ON THE REPEATER. BY BEING A CERTIFIED KERCHUNKER, ONE CAN DO THE FOLLOWING:

(1) SEE IF YOUR TRANSMITTER CAN ACCESS THE REPEATER.

(2) SEE IF THE REPEATER CAN HEAR YOUR TRANSMITTER.

(3) ENJOY THE EXCITEMENT OF HEARING THE SQUELCH TAIL.

(4) SEE IF THE REPEATER IS "UP".

(5) USE THE REPEATER WITHOUT HAVING TO TALK TO ANYONE.

IT IS A REAL THRILL TO PUT YOUR LICENSE, YOUR RIG AND THE REPEATER TO USE BY KERCHUNKING AND BE SURE TO COMPLAIN WHEN THE REPEATER IS "DOWN". THE KERCHUNKERS ARE NOT TAKING ANY NEW APPLICATIONS FOR MEMBERSHIP; WE HAVE TOO MANY MEMBERS NOW.

EVERYONE AGAIN.

I'VE HAD MY DAY OF BEING ACTIVE AND DIGGING INTO HELP BUT I'M SETTING BACK AND LETTING THE OTHER ONES DO THE JOB. THINGS ARE EASIER FOR YOUR NEWER MEMBERS BUT OF COURSE THAT'S PROGRESS- THINGS ARE EASIER FOR US HOUSE WIVES COMPARED TO OUR PARENTS. THE CLUB HAS COME A LONG WAY SINCE I JOINED IN 1957 AND ALL FOR THE BETTER BELIVE ME!

THE 65TH BIRTHDAY NIGHT MAY 13TH HONORED LUCY, KA7JDV, AS MEMBER NUMBER 1000. NICE TO HAVE A YL SO HONORED. IT WAS GREAT TO SEE ALICE YOUNG W7WHV, DOROTHY GRASSMAN (EX-WN7FUF) AND ALL THE OTHERS WE SELDOM SEE INCLUDING MARGIE K7AMJ AND MARY W7OGP.

BAND CONDITIONS ARE MAKING IT DIFFICULT TO ENJOY OUR NETS. THE YCWW NET (TUESDAYS, 11AM -14.295) LOST ABOUT 1/2 OF THE USUAL CHECK-INS WHEN DAYLIGHT TIME TOOK OVER.

THE 20 METER M.I.N.O.W. NET (TUESDAY, 10AM-14.313) HAS THE USUAL FEW AND JUNE W7LXQ, NOW LIVING IN ARIZONA, IS A REGULAR. SHE AND DAVE WILL BE VISITING THEIR FARM HERE IN THE SUMMER, AGAIN.

THE 75 METER MINOW NET (FRIDAY 8AM-3913) VERY OFTEN LOSES CONTACT WITH THE EASTERN WASHINGTON GALS AND SOMETIMES EVEN SEATTLE CAN'T HEAR TACOMA.

DE W7BUN

ARRL WILL DEVELOP AND IMPLEMENT A TECHNICAL EXPERIMENTER'S NEWSLETTER TO BE AVAILABLE TO LEAGUE MEMBERS FOR A NOMINAL ADDITIONAL CHARGE. IT IS HOPED THAT SUCH A NEWSLETTER WOULD SERVE AS A CATALYST FOR EXPERIMENTATION AND TECHNICAL DEVELOPMENT IN AMATEUR RADIO. THE FIRST ISSUE MAY BE OUT AS EARLY AS SEPTEMBER.

THE ARRL WILL FILE FOR A 6-MONTH EXTENSION IN THE TIME FOR COMMENTS IN THE SO-CALLED PLAIN LANGUAGE DOCKET.

SOME HIGH LEVEL FCC OFFICIALS HAVE BEEN PROPOSING THAT CB LICENSES BE ABOLISHED AND ANYONE BE ALLOWED TO USE THE CB BAND WITHOUT FCC APPROVAL.

THE REGION I IARU CONFERENCE IN ENGLAND HAD MOST DELEGATES AGREEING THAT THE NEW 10MHZ. BAND SHOULD BE RESERVED FOR NARROW-BAND USE ONLY (CW AND RTTY) AND NO CONTEST OPERATING PERMITTED.

FCC HAS BEEN EXPERIENCING COMPUTER PROGRAMMING PROBLEMS WHICH ARE CREATING A LICENSE TURN-AROUND TIME FOR NEW AND RENEWAL APPLICATIONS IN EXCESS OF TWO MONTHS.

WITHIN THE NEXT TWO MONTHS, FCC WILL LIFT MOST RESTRICTIONS ON THE AMATEUR 160-METER BAND. ALL RESTRICTIONS WILL BE ELIMINATED FROM 1800 TO 1900KHZ. BUT SOME FREQUENCY AND POWER LIMITATIONS WILL REMAIN BETWEEN 1900 AND 2000KHZ. TO PROTECT CANADIAN LORAN STATIONS ON 1950KHZ..

SLIVERS & SPLINTERS

DOC W7OS BACK FROM VACATION TO NORTH CAROLINA AFTER VISITING WITH DAUGHTER LIVING THERE. HAD A CHANCE TO UNWIND AFTER ALL THE PREPARATION WORK ON THE CLUB'S 65TH BIRTHDAY PARTY.

A GROUP OF DK MEMBERS GOT TOGETHER FOR A RETIREMENT DINNER TO HONOR JOE DUNCAN'S JOINING THE RETIRED BUNCH. NOW THE WORK REALLY STARTS JOE. NOW YOU WILL HAVE THE TIME TO CATCH THOSE BIG ONES THAT GOT AWAY FROM YOU ALL THESE YEARS!

IT IS WITH REGRET THAT WE REPORT A SILENT KEY AMONG THE RCT MEMBERSHIP. ED RANDALL, KA7HZK, JOINED THE RANKS IN MAY. HE JUST JOINED THE CLUB IN THE LAST YEAR BUT WILL BE MISSED BY ALL. OUR DEEPEST SYMPATHIES GO TO HIS FAMILY. 73.

MARGIE K7AMJ AND O.M. JERRY HAVE MADE THEIR PLANS AND ARE EAGERLY AWAITING THEIR DEPARTURE TO GO ABROAD IN EARLY JUNE. BON VOYAGE!

THE HUTTS (WB7BLQ & WB7QAH) WILL HAVE A GERMAN STUDENT VISITING AND STAYING WITH THEM FOR ABOUT 6 WEEKS THIS SUMMER. HE WILL BE JOINING THE ACTIVITIES WITH THE CLUB. (FIELD DAY, RATS CONVENTION, ETC). ALSO DON REPORTS RECEIVING GOOD WISHES TO THE CLUB MEMBERS FROM THEIR PREVIOUS VISITOR LAST SUMMER FROM COQUI.

HAPPY TO REPORT THAT ED K7CZM IS OUT OF THE HOSPITAL AND BACK TO NORMAL ACTIVITIES.

RAY W7FNC HAS RECEIVED HIS PAPER WORK BACK FROM FCC AND WAS LUCKY TO RETAIN HIS OLD CALL.

BOB GATES JR K7INE WILL BE BACK IN THE TACOMA AREA FOR A VISIT SOMETIME THIS SUMMER. THIS WILL GIVE SOME OF THE CLUB'S LOGGER CERTIFICATE HUNTERS A CHANCE TO PICK UP ONE OF THE TOUGH ONES.

LEN WA7HHI STILL HAVING TROUBLES WITH HIS BACK. NOT BAD ENOUGH TO REQUIRE GOING INTO THE HOSPITAL BUT CUTTING DOWN ON HIS ACTIVITIES.

MORE TROUBLES REPORTED AT THE CLUB'S MEETING PLACE. SEEMS NOW THE PROBLEM WAS LOCKING THE LIBRARY AFTER MEETING. WHO HAS THE KEY?

HOW'S JACK'S K7SRU MEMORY? GOOD, JUST ADDED ANOTHER 16K OF MEMORY TO HIS COMPUTER FOR A TOTAL OF 48K.

LUCY KA7JDV AND O.M. JIM WA7DWG SETTLING DOWN TO THE REGULAR ROUTINE AFTER THE GALA AFFAIR AT THE CLUB MEETING IN MAY. A SPECIAL WELCOME TO LUCY ON BEING THE 1000TH MEMBER. SHE WILL BE SPECIALLY REMEMBERED AS BEING THE BIRTHDAY PRESENT TO THE CLUB ON ITS 65TH BIRTHDAY.

MAC W7FAB TRYING TO WORK OUT SOME TIME TO INSTALL HIS NEW **ANTENNA** SYSTEM. HAS THE HARDWARE, JUST NEEDS TIME TO PUT IT TOGETHER. TOO MUCH BUSINESS, MAC?

THANKS TO THE LADIES AUXILIARY, THE BARK HAS ACQUIRED A NEW (USED) POWERED PAPER CUTTER. WITH THAT WILL PUT THE LID ON THIS MONTH'S BARK AND WARM UP THE INK FOR THIS MONTH'S INK BLOB....AND AWAY WE GO...............................W7RGD

WARNING!

HAVE YOU GONE TO A SWAP MEET, HAM CONVENTION OR FLEA MARKET AND WONDERED IF WHAT YOU SWAPPED FOR OR BOUGHT MIGHT BE STOLEN PROPERTY? HAVE YOU REQUESTED A RECEIPT FOR YOUR PURCHASES WITH VALID IDENTIFICATION AND IN THE PRESENCE OF WITNESSES??

LET ME TELL WHAT HAPPENED TO STAFF SERGEANT TOM GASTA, USAF (WB7BED) OF MESA, ARIZONA. HE SWAPPED A MOTOROLA MOBILE RADIO FOR A PIECE OF TEST EQUIPMENT WITH A MAN HE HAD NOT MET PREVIOUSLY OR SINCE. THE TEST EQUIPMENT TURNED OUT TO BE STOLEN!

SGT. GASTA HAS BEEN THROUGH A JURY TRIAL AND WAS FOUND GUILTY OF POSSESSING A STOLEN ITEM. HE WILL SERVE A 5 TO 10-YEAR PRISON SENTENCE. FORMAL SENTENCING IS TO BE ON MAY 20, 1981. LIKELY AN APPEAL WILL BE REQUESTED AND A COURT APPOINTED ATTORNEY WILL BE NECESSARY AS S/SGT. GASTA IS ALREADY IN DEBT $9,000.00 DUE TO ATTORNEY FEES. HE IS DESTITUTE! HIS AIR FORCE CAREER OF ALMOST 9-YEARS COULD BE DESTROYED. HE HAS HAD HIS HAM LICENSE ALMOST 5-YEARS.

EACH OF WE HAMS CAN PROFIT FROM SGT. GASTA'S EXPERIENCES.

IF YOU ARE UNDERSTANDING OF THESE CIRCUMSTANCES AND WISH TO HELP THIS TWENTY-SIX YEAR OLD AIR FORCE SGT. WHO IS A HAM, PLEASE SEND ANY MONEY, BE IT 10 CENTS UPWARD, TO ME (WD5AHE). CHECKS, MONEY ORDERS, CASHIER CHECKS SHOULD BE MADE PAYABLE TO THOMAS T. GASTA--WB7BED OR DOROTHY D. DAVIS--WD5AHE. CASH CONTRIBUTIONS ARE ALSO WELCOME. A JOINT ACCOUNT HAS BEEN SET UP IN CITIZENS BANK, SAN PEDRO BRANCH, ALBUQUERQUE, N. MEXICO. IN THE NAME OF THESE TWO HAM OPERATORS AND NAMED "ATTORNEY ACCOUNT".

ALL CONTRIBUTIONS WILL GO TOWARD HELPING TOM WITH HIS $9,000.00 DEBT. THIS IS "NOT" A TAX DEDUCTABLE CONTRIBUTION.

PLEASE, IF YOU CAN, HELP A FELLOW HAM IN DIRE NEED. THE SAME THING COULD HAPPEN TO YOU! WATCH WHAT YOU BUY, USING EXTREME CAUTION. (IT COULD HAPPEN TO YOU!)

INFORM ALL FELLOW HAMS OF THIS WARNING---ON NETS, AT MEETINGS, RAG CHEWS, ETC.. CIRCULATE COPIES OF THIS QST TO YOUR HAM FRIENDS. WRITE ME FOR FURTHER DETAILS IF YOU WISH.

MEMBER LETTER

JUNE 2, 1981

MS. ETHEL DEVISH
1330 EAST 64TH STREET
TACOMA, WASHINGTON 98404

DEAR ETHEL

THIS IS IN RESPONSE TO YOUR NOTE OF MAY 28, 1981 ASKING FOR MY OPINION CONCERNING THE "QST WARNING" ISSUED BY DOROTHY DAVIS, WD5AHE. AS FOR THE BASIC WARNING CONTAINED IN THE DAVIS LETTER, IT IS SOUND. ANY TIME THAT ONE PURCHASES USED MERCHANDISE AT A FLEA MARKET OF ANY KIND, BE IT A HAMFEST OR A SWAP AND SHOP AT THE STARLITE DRIVE-IN, ONE RUNS THE RISK THAT THE MERCHANDISE WILL BE STOLEN. SUCH EVENTS ARE NOTORIOUS FOR THAT PROBLEM AND ARE ROUTINELY "SHOPPED" BY THE BURGLARY DETAIL OF LOCAL POLICE DEPARTMENTS. MS. DAVIS' WARNING THAT YOU SHOULD REQUEST VALID IDENTIFICATION AND PURCHASE THE PROPERTY IN THE PRESENCE OF WITNESSES OR SECURE A RECEIPT IS SOUND ADVICE. EVEN THEN, THE PROPERTY MAY BE STOLEN. IF SO, THE PROPERTY CAN ALWAYS BE RECOVERED BY THE TRUE OWNER REGARDLESS OF YOUR GOOD FAITH IN HAVING PURCHASED IT. A GOOD FAITH PURCHASE DOES IMMUNIZE YOU AGAINST CRIMINAL LIABILITY FOR RECEIVING STOLEN PROPERTY, HOWEVER.

THAT BRINGS ME TO THE SECOND POINT CONTAINED IN MS. DAVIS'S LETTER AND THAT CONCERNS SGT. GASTA'S CONVICTION FOLLOWING A JURY TRIAL. IT IS DIFFICULT FOR ME TO COMMENT UPON THIS SPECIFICALLY AS I AM NOT AN ARIZONA ATTORNEY. HOWEVER, IT WOULD COME AS A GREAT SHOCK TO ME TO LEARN THAT ARIZONA LAW IMPOSES STRICT CRIMINAL LIABILITY UPON A POSSESSOR OF STOLEN PROPERTY (IN OTHER WORDS, THAT ARIZONA MAKES IT A CRIME TO SIMPLY POSSESS STOLEN PROPERTY WHETHER YOU KNOW IT WAS STOLEN OR NOT). WASHINGTON LAW PROVIDES (AS DOES EVERY JURISDICTION OF WHICH I HAVE PERSONAL KNOWLEDGE) THAT ONE CAN BE CONVICTED OF POSSESSING STOLEN PROPERTY ONLY IF YOU HAD KNOWLEDGE OF THE FACT THAT IT WAS STOLEN. IF SGT. GASTA WAS CONVICTED FOLLOWING A JURY TRIAL, A JURY OF PEERS WERE CONVINCED BEYOND A REASONABLE DOUBT THAT HE POSSESSED THE ITEM KNOWING THAT IT WAS STOLEN. IF SUCH IS THE CASE, I HAVE NO SYMPATHY FOR HIM WHATSOEVER. I MUST ASSUME THAT SGT. GASTA TESTIFIED IN HIS OWN BEHALF THAT HE SWAPPED THE MOTOROLA RADIO FOR THE TEST EQUIPMENT THAT PROVED TO BE STOLEN. APPARENTLY THE JURY WAS CONVINCED BEYOND A REASONABLE DOUBT THAT HE LIED.

FINALLY, WE HAVE THE MATTER OF SGT. GASTA'S ATTORNEY'S FEES. I DOUBT THAT LEGAL FEES ARE SIGNIFICANTLY DIFFERENT IN MESA, ARIZONA THAN THEY ARE HERE OR ANYWHERE ELSE. A $9,000 FEE FOR THE DEFENSE OF A RECEIVING STOLEN PROPERTY CASE IS UNUSUALLY HIGH. A TYPICAL FEE FOR A FULLY CONTESTED FELONY MATTER OF SUCH A VARIETY
BE LESS THAN ONE-THIRD OF THAT AMOUNT. HOW
I CANNOT SAY WITH CERTAINITY THAT SGT. GAS
NOT INCUR SUCH A FEE. SOME ATTORNEYS COMMAN
FEE THAT THE TRAFFIC CAN BEAR IF THE
WISHES TO RETAIN THEM. THAT IS ESPECIALLY
WITH REGARD TO CRIMINAL LAWYERS. IN SOME S
COMMUNITIES, THERE ARE ONLY ONE OR TWO CRI
LAW SPECIALISTS AND, UNFORTUNATELY, IT I
UNCOMMON THAT THEY CHARGE EXORBITANT FEES.
ONE REALLY SOUNDS SUSPICIOUS TO ME NEVERTHELE

WHEN I THINK BACK WHEN HOWARD REICHERT, 7HR, AND I GOT A BUNCH TOGETHER TO FORM A RADIO CLUB, WE HAD NO IDEA THAT IT WOULD GROW SO BIG OR LAST SO LONG.

CREDIT IS DUE TO THE OLD MEMBERS THAT KEPT IT ALIVE. 65 YEARS OLD AND A THOUSAND MEMBERS, ISN'T THAT SOMETHING? SORRY I WASN'T ABLE TO ATTEND THE ANIVERSARY. AT 91, YOU DON'T HAVE THE ENERGY AND THE EYESIGHT TO DRIVE AROUND. I'M SELLING MY CAR.

I WISH THE CLUB ALL THE LUCK IN THE WORLD AND MAY IT KEEP ON GROWING. I'M PROUD TO BE A MEMBER. I'M FEELING WELL AND SURE GLAD I'M HERE. HOPE YOU ARE ALL WELL.

YOURS TRULY.

NORMAN S. MOBERG, W7CMO

I COULDN'T BELIEVE MY EARS WHEN I HEARD NORM ON TWO METERS. MOST OF US RECALL NORM AS ONE OF THE SEVERAL REAL DX'ERS IN THIS AREA. WE WERE HAPPY TO HEAR NORM RETIRED AS OF APRIL 1ST FROM MANY YEARS WITH THE CITY OF TACOMA UTILITIES. HE SAID WE MIGHT EXPECT HIM TO VISIT RCT AFTER MANY YEARS. NORM WAS A MEMBER IN THE EARLY DAYS. WELCOME HOME NORM.

HOWARD C. LORENZEN, W7BI

HOWARD'S QTH IS BELLEVUE NOW AND IS A MEMBER OF QCWA AND FORMER MEMBER OF THE NAVAL RESEARCH LABORATORY, WAHINGTON D.C. FOR SOME YEARS. HOWARD PROMISED ME ONE OF THE N.R.L. LAB'S QSL CARDS OF MANY YEARS AGO WHOSE CALL WAS NKF. THANKS TO HOWARD WE HAVE IT AND IT WILL GO IN THE QSL LIBRARY.

BERYL AND LAVERNE HOOD (K7NPG/K7NKZ)

SOME OF THE OLD TIMERS WERE TAKEN BY SURPRISE WHEN LAVERNE CAME IN ON TWO METERS. WE EXTRACTED A PROMISE TO ATTEND THE CLUB'S MEETING ON JUNE 23. IT WAS WONDERFUL TO HEAR ABOUT ALL THE HOODS INCLUDING CONNIE AND BONNIE. WE SURE MISS THEM AT RCT.

C. HOWARD NICHOLS, W7HWD

HOWARD SENT A QSL CARD SAYING HE IS TRYING A NEW ADDRESS IN SAN DIEGO CALIFORNIA. WE HAD HEARD THAT HE MIGHT CHANGE QTH ONE DAY BUT WE HOPE HE WILL DROP BACK TO TACOMA IN PERSON OR VIA HAM RADIO.

PAT WELLS, WA7UNF

PAT CALLED FROM HIS HOME IN OLYMPIA TO ADVISE HE HAD CONTACTED SOME ONE WITH AN OLD "FRESHMAN MASTER PIERCE" RECEIVER AND WANTED SOME HISTORY ON IT WHICH WE DID GET FROM W7JYI. HAVEN'T HEARD FROM PAT SINCE THAT TIME. I GUESS HE IS PRETTY BUSY. SURE GLAD TO HEAR FROM HIM.

DOROTHY GRASSMAN EX-WN7FUF

IT WAS GREAT TO SEE AND CHAT WITH DOROTHY AT HOME COMING AND TO RECEIVE A NICE LETTER SAYING SHE ENJOYED SEEING ALL HER OLD RCT FRIENDS.

LIND SIMONSON W7JHK

FORMER MEMBER OF RCT BACK IN ABOUT 1952. HE IS NOW LOCATED AT 629 SO WINIFRED AND HOPES TO ATTEND HOME COMING. HOPE HE WILL VISIT AGAIN SOON.

FIELD DAY IS NOW PAST HISTORY. WE HAD HOPED FOR A REPORT TO PASS ALONG HERE IN THE BARK'S PAGES BUT TIME DID NOT ALLOW FOR SAME. WITH SOME PROBLEMS OF INTERFERENCE BETWEEN THE 15 CW/PHONE AND 20 CW/PHONE, THINGS WENT PRETTY WELL OTHERWISE. THE ANTENNAS WENT UP WITH NO PROBLEMS AND ALL THE BEAMS WERE ERECTED AND READY TO GO ON FRIDAY EVENING. CONGRATULATIONS TO THE FIELD DAY CHAIRMEN FOR THEIR PLANNING AHEAD FOR A SMOOTH OPERATION.

THE CLUB RECEIVED A NICE PLAQUE FROM THE MARCH OF DIMES COMMITTEE FOR THE CLUB'S OPERATION DURING THEIR LAST MARCH OF DIMES WALK-A-THON.

THE HAMFAIR COMMITTEES WILL HAVE A MEETING AT THE CLUB HOUSE AT 7:30PM TO GO OVER THE PLANNING. THINGS ARE PROGRESSING GOOD WITH NO HANG-UPS, SO FAR. IF YOU WANT TO HELP WITH THE PREPARATIONS AND HELP DURING THE HAMFAIR, PLEASE COME TO THE MEETING AND LET YOUR ASSISTANCE BE KNOWN.

HELLOW FRIENDS OF W7DK,

PLEASE CHANGE MY ADDRESS WITH THE CLUB ROSTER AND WITH THE MAILING OF THE "LOGGERS BARK". I REALLY ENJOY EVERY ISSUE AND READ IT THOROUGHLY. I SURE WISH I WAS BACK IN TACOMA SO I COULD ATTEND THE MEETINGS. I HAVE TRAVELED MANY PLACES AND VISITED MANY CLUBS BUT I DON'T THINK ANYTHING COMPARES TO THE R.C.T..

PLEASE ALSO CHANGE MY CALL SIGN IN THE CLUB ROSTER. MY NEW ADDRESS/CALL SIGN IS:

SSG. CHARLES A. MILHANS KC0CE
USAISD SCH BDE
FORT DEVENS, MA 01433

PLEASE SEND ME A CLUB ROSTER.

AUGUST 19TH IS THE NEXT MEETING, AT 7:30PM AT THE CLUBHOUSE, 1249 SOUTH WASHINGTON.

HAMFAIR WILL BE OVER AND WE HOPE IT ALL WENT WELL. IF I HAVEN'T CALLED YOU AND YOU WOULD LIKE TO GIVE AN HOUR'S TIME TO THE ACTIVITIES-CALL ME!

THE JULY MEETING HAD 13 LADIES. AFTER THE BUSINESS SESSION WE ENJOYED LOIS MC GRAW AND HER NATURES SUNSHINE PRODUCTS. DID YOU KNOW THAT CHICKWEED CLEARS ACNE AND FACIAL BLEMISHES AS WELL AS DESTROYING THE FAT FROM THE DIET INTAKE, THAT CAYEANE PEPPER CURES STOMACH ULCERS? THERE WERE MANY OTHER HERB SURPRISES AND THESE ARE ALL AVAILABLE IN CAPSULE FORM FOR EASY CONSUMPTION.

(CONT. NEXT COL.)

WOMEN'S AUXILIARY (CONT.)

LOIS ALSO HAD SOME SECURITY ITEMS OF INTEREST. A PORTABLE ALARM FOR HOTEL ROOM SAFETY AND A CHEM-SHIELD KEY RING - SIMILAR TO THE CONTROVERSIAL MACE UNIT BUT APPROVED BY THE AUTHORITIES.

IT WAS A LUCKY NIGHT WITH TWO LADIES PROVIDING REFRESHMENTS. THANKS TO TYKIE AND DONNA, WE ENJOYED IT ALL.................. ETHEL DEVISH

ROSTER BOOK

THE NEW ROSTER BOOK HAS BEEN PREPARED FOR PRINTING INCLUDING THE PROOF READING. THE PRESS WILL BE PRINTING THE FINAL PROJECT IN THE FIRST WEEK OF AUGUST. THE FINISHED PRODUCT WILL BE AVAILABLE AT THE FIRST MEETING IN AUGUST AND THERE AFTER.

THE PRINTING HAS BEEN DELAYED DUE TO OTHER PROJECTS AND OUR APOLOGIES TO ALL FOR THE DELAY. EACH MEMBER SHOULD ATTEND A MEETING AND PICK UP A COPY THAT WILL BE AVAILABLE. THERE IS NO CHARGE FOR THE ROSTER BOOK UNLESS YOU NEED AN ADDITIONAL COPY. THERE IS A CHARGE OF 25 CENTS FOR ANY ADDITIONAL COPIES YOU MAY NEED.

STARTING IN THE NEXT BARK, WE WILL AGAIN LIST CHANGES AND ADDITIONS TO BE INCLUDED IN YOUR ROSTER. HOPEFULLY EVERYONE WILL HAVE THEIR COPY AND CAN UPDATE THE NEW MEMBERS AS THEY JOIN.

THINGS ARE ACTIVE AND WELL ON VHF/UHF

THE OTHER DAY SOMEONE SAID 144.200 SOUNDED LIKE GRAND CENTRAL STATION ANMORE. WELL, TAT ISN'T QUITE TRUE BUT THERE IS LOTS OF ACTIVITY NOW AND SEVERAL MOBILES ARE WORKING 2 SSB. THERE IS PROBABLY 200 SSB STATIONS ON 2 METERS. 220 IS PICKING UP GOOD AND 432 IS REALLY MOVING ALONG STRONG.

THIS IS AN AREA WHERE YOU CAN SPEND YEARS WORKING AND IMPROVING YOUR STATION AND ANTENNA SYSTEMS WITH MUCH OF IT HOME BREWED. STOP IN FOR A CHAT WHEN YOU CAN. REPEATERS ARE GREAT BUT OSCAR IS A REAL CHALLENGE AND THRILL.

HARMONICS:

THE HARMONICS (PUBLICATION OF THE SOUTH JERSE RADIO ASSOCIATION K2AA) IS EXCHANGED WITH THE RCT'S CLUB PAPER, THE LOGGERS BARK. IN THEIR JUNE ISSUE THEY HAVE AN INTERESTING ARTICLE ON THEIR UP-COMING 65TH CLUB BIRTHDAY. MOST R.C.T. MEMBERS RECALL, SEVERAL YEARS AGO, WHEN WE EXCHANGED BRIEF SKETCHES OF EACH CLUB'S HISTORY. AT THE TIME WE ACKNOWLEDGED THAT SJAR WAS THREE MONTHS OLDER THAN RCT. THEY NOW HAVE A COPY O OUR JUNE ISSUE OF THE BARK, COMPLETE WITH PICTURES SHOWING OUR 65TH BIRTHDAY AND INCLUDIN PICTURES OF OUR 1,000TH MEMBER TO JOIN THE CLU SINCE OUR BEGINNING (OCTOBER 16, 1916).

WE WISH TO EXTEND OUR CONGRATULATIONS TO TH MEMBERSHIP OF SJAR, K2AA ON THEIR BIRTHDAY.

AMFAIR-81 A GREAT SUCCESS!

attendance at Hamfair-81 was approximately me as last year, which is excellent since all her hamfests in the Northwest have suffered a decrease in attendance this year. All our rs agreed that this year's event was the best with plenty of activities to keep all occupied. were virtually no complaints and all went quite ly thanks to the dedicated efforts of all those Hamfair Committee. There will be a post-ham-eeting to critique and analyze for the benefit t year's Committee - the date and place will be ced atthe next club meeting.

heartfelt thanks to all those who helped make -81 such a great success.

ROSTER BOOK

New roster books are available for members to pick up at the club's meetings. They have been available since the first meeting in August. If you haven't picked up your copy, they will be available at all regular meetings.

There has been noted a few errors in the printing and they will be listed in the coming month's issue of the Bark. These corrections will be delayed so that more copies can be passed out to more members. If members are not able to pick up theircopy, due to not being able to attend a meeting, a copy will be mailed on request. A donation to cover mail costs would be appreciated since mail costs would be prohibitive to make a complete member mailing.

H. Everett Cutting
W7HC

Everett Cutting, W7HC, was born in Boseman, Montana January 17, 1898 and passed away July 31, 1981 at the age of 83 years, after a long illness.

Ev, as we all knew him, studied elecrical Engineering at Montana State College. He joined the Navy on April 11, 1917 and was medically discharged July 27, 1917. He was a member of the Episcopal Church.

He was first recorded in the records of RCT, July 24, 1929. During his long history of amateur radio, he held the calls of 7HC (1912-1919), 7LY (1922-?), 7XBC (experimental call 1931-?) and finally he got back his old call of W7HC in 1951 (his initials). He held this Extra class license. Ev's first love was c.w. and could be heard nightly on 80 meters. It was only in the last few years that his health did not permit his regular schedules.

Ev was known best as the "C" of C & G Radio and his early business history will be found in this month's RCT Alumni news column. In later years he was a busy sales engineer for A.T. Stewart Radio Company of Tacoma.

He is survived by his wife Rose Marie, his son Arthur of Soap Lake, a daughter Kathryne of Sacremento California, a step daughter Rose Dela Cruz of Tacoma, two grand children and two great grand children.

All members of the Radio Club of Tacoma stand in silent memory of a very great amateur and pioneer of the art of radio communications and extend our sympathies to Rose and his family.

HAMFAIR LOGGERS BREAKFAST

We used 36 dozen eggs for the Hamfair Breakfast. Some customers didn't have eggs so we figured we served around 200, plus the help in about 3 hours!

I want to thank the following people for the wonderfull help they supplied and all for free!

Joe Duncan (dish washer and table clean up). Smitty K7ATD (egg fryer-upper). Kim and Sis Smith (money collectors and runners). Joe WB7OXA (coffee, milk, juice server and coffee maker). Roy N7BXI a (assistant hotcake fryer and general run-about), he did anything asked of him including starting the generator. Ray W7FNC(ham cooker and part time hot cake fryer and clean up man). Larry [illegible] (electrical supervisor and fuse replacer).

I hope I didn't forget anyone. If I did, please let me know and I will make amends. Thanks to all of you who had breakfast with us, It was fun!

Thanks to Don W7ZMG for bringing the generator out and having it tuned up to top shape.

W7OS

H. EVERETT CUTTING, W7HC *Ev had a very interesting history in commercial radio, starting in Boseman, Montana. He had his own commercial radio station advertising for several stores following his studying radio and electrical engineering at Montana State College. He showed up as chief engineer of station KVI in 1929. At that time the studio was in the basement of the old Tacoma Hotel with the flat top antenna located at Kent. About that time KVI and radio station KXI exchanged frequencies which required some antenna length changes. This was accomplished in spite of a battle with bees!*

Early in the 1930's, James V. Griffith owned a radio store (Griffith Sales Co.) on 6th and "K" st. Tacoma. The business was moved to South 8th and St. Helens and shortly thereafter was purchased by Ev. (1935). Ev then took in as a partner, A.D. (Red) Gunstin W7GP, thus establishing the firm name of C & G Radio Supply. Later C & G was sold and former member Lloyd Norberg W7EHQ took the helm.

After the sale, Ev went to work for AT Stewart Radio where, for many years, he was the salesman handling the Fort Lewis military supplies for A T Stewart.

He appeared in the log of W7DK as an operator for the club station at 1426 So. Oaks.

Those of us, who knew Ev, admired his ability as a ham and will miss him greatly. I am deeply appreciative to Gene Dodge, W7BTV and Rose Marie Cutting for this early history...

AS: The Radio Amateur Travelers Society, AKA RATS, a non-profit recreational organization, herein refered to as the Party of the First Part, believes that it has a cause of grievance; Therefor Be It Known that the Party of the First Part hereby charges Aaron Huntley, AKA, Scotty Huntley, a member of said organization, herein known as the Party of the Second Part, as follows:

E: EXTORTION

FICATION: That said Party of the Second Part did, without prior knowledge or approval of the Party of the First Part, arbitrarily increase the dues of members of said Organization in the amount of fifteen cents per year, which said members consider to be an unjust and unreasonable amount, thereby violating the rules of said Organization.

: ILLEGAL FEEDING OF FISH

ICATION: That on the 9th day of July in the year of our Lord 1981 the Party of the Second Part did illegally feed game fish inhabiting an area of Puget Sound adjacent to Point Defiance, an unbalanced and improper diet which consisted of one Tempo hand-held radio transceiver, thereby endangering said fish

: DISSEMINATION OF FALSE INFORMATION

ICATION: That on occasions too munerous to list, Party of the Second Part has given members of this Organization and The Radio Club of Tacoma, a sister Organization, false and misleading information as to dates of activities, causing confusion among the membership.

VIOLATION OF F.C.C. RULES AND ILLEGAL SALES OF GOODS.

ICATION: That Party of the Second Part did sell or offer to sell, to certain members of the Organization, certain badges at a price of $1.32 each. Since the cost of said badges to Party of the Second Part is $1.17 each, he has made a profit of fifteen cents on each badge sold thereby violating Federal Communications Commission rules which prohibit using Amateur Radio or his connection therewith to gain pecuniary benefits. It is also noted that the sale of these badges was offered and made on Sunday in the county of Thurston where sales of such items on the sabath are prohibited.

R: At last having such criminal charges discovered, Party of the First Part pleads that Party of the Second Part be required to stand trial and be judged by a jury of his peers, such trial to be held at the regular meeting of the Radio Club of Tacoma to be held at Tenzler Library on Wednesday, July 22nd in the year of our Lord 1981.

ES:

1: Full restitution of all overcharges to all members who have paid such increased dues, from his own personal funds. It is to be understood that such repayment is to be in U.S. funds only and in cash. NO CHECKS ACCEPTED.

2: That defendant be prohibited from having any radio equipment in his possesion while occupying any boat, ship, inner tube or other aquatic conveyance on any part of Puget Sound.

3: That he be required to consult on dates of activites with his wife Vivian, who has a much better head for dates and further that he take an approved course in how to read a calender.

4: That defendant be required to refund the extra fifteen cents collected on all badges sold as above specified, such refunds to be paid from personal sources in U.S. funds only and in cash. It is also recomended that he be prohibited from further such profitable transactions.

POTLUCK DINNER

*'t forget about the Club's Pot Luck dinner
Club house, 5pm on October 17th. (Saturday)
Ladies Auxikiary will furnish the roast beef
s and coffee. There will be NO charge!
nd out the menu, bring along a salad or some
f desert to put into the pot luck.
s is a good chance to get acquainted with our
members and renew old acquaintances. We es-
ly hope our newer members will attend. Some
newer members have not been in the Club's
use and this will afford them the chance to
t over and see the repeater, main operating
n and the museum. so...please make note of
te (17th) and we will all have a great time
ng friendships on a one-to-one basis along
njoying a great dinner. The clubhouse is
located at 1249 South Washington.*

MEETING NOTICE

*ce the regular meeting in November falls on a
holiday (November 11th) the library will be
all day. Some other arrangments had to be
or the Club's regular meeting place. The
elected to still have a meeting for the mem-
rather than cancel a meeting. The meeting
e held at the Club's clubhouse at 1249 South
gton at the usual time. It was decided that
ld not be a business meeting but rather a
meeting. The clubhouse will be open to be
ted from the bottom up. This will let all
s and guests to see just what is available
t location. Some of the old timers would be
sed at the changes made. Some have not seen
w garage addition and the wiring system in-
d between the gerator(housed in the garage)*

Meeting (cont.)

to the clubhouse proper. There has been a new roof and paint job on the building. The club's 2 meter repeater and the low band station is in full operation to be seen.

The starting time has been moved up to 7:30 to open the doors but if you come a little later than that, no problem since there will be no actual meeting as such. The sign in book will still be there to sign for the benifit of those who are establishing attendance for their application to membership. The attendance to this social meeting will count in establishing the 3 attendance nights.

There will be another reminder next month of this change in meeting location but keep it in the back of your mind.

This will be a good chance to get re-acquainted and meet the newer members of the club along with the Potluck dinner this month.

THANK YOU NOTE

May we take this opportunity to than all the kind volunteers who helped us at the pre-registration and registration desk at our Hamfair '81', August 15 & 16 at P.L.U..

were then passing. The suspect apparantly recognized their car and shot at it, but missed.

Nichols immediately called the police station when they got to Mrs. Wheelock's home. He was told that police officers were already patrolling the area. As later put together, this happened to be about the same time that officer Wendie Harper had caught him.

Nichols and Wheelock are senior citizens and both feel lucky over their experience. It was like calling the bluff of an opponent and winning high stakes, he says. Nichols is a veteran of WW1... later (9/30) he surveyed the parking spot and explained, as above, to officer Holander at this location.

wo years ago the members of RCT voted at a gen-

I agree that civic obligations undertaken by

where club members are requested to volunteer

form a public service. The include parades,
-thons, bike-a-thons, road rallies, etc..

her subject, my congratulations to those re-

n of a computer was a good idea but, as you
uess, I do have a suggestion. If a computer
again next year, I would recomment that it be
med to more reflect how it can be interfaced
ateur radio. Having worked three shifts at the

riand about the Apple II information than was

spent on questions about amateur radio.

Having gone this far, I might as well go all the way. I agree that the club repeater should be monitored but as far as I'm concerned, that doesn't really demonstrate the versatility of 2 meter communications. I think those manning the booth should be able to monitor other repeaters and a rig to do so easily. Being completely unfamiliar with the equipment being used in the booth and no manuals available to explain the operation of the equipment, I didn't want to experiment and possibly loose everything. I feel the equipment being used should be as simple as possible so any operator can master it. This will also make it a lot easier to explain how the equipment works. If a piece of equipment looks too complicated, someone who might be interested in becoming a ham could loose interest in a hurry. Why make it look so difficult?

These are just my opinions and mine alone. Generally my opinion and 50 cents will get you a cup of coffee in most middle class restaurants. At least I feel a little better having said what I have been thinking for quite some time now.

Sincerely
/S/

WOMEN'S AUXILIARY

de:W7WLX

October 17th is the Potluck date. Come one come all. This is especially for our new club families - We want to get better acquainted. The meal for the whole family will only cost a contribution of a salad or a dessert. You can't beat that anywhere.

We plan to eat at 5:00 P.M. and the Auxiliary will furnish the roast beef, patatoes and gravy and the coffee.

October 21st is Auxiliary meeting - 7:30 is the time. We'll visit with the new members that we met and encouraged to come from the Potluck.

The September meeting, with Dr. Gordon Klatt and Marlee Wendt provided some very worthwhile Cancer information and aswered questions of health problems in general. After the meeting, Jean Wheeler talked about her experiences in Fairbanks last winter and we should make a program with her as our speaker some night.

In November, Marlee Wendt will bring us another "Early Detection" cancer program. More in next month's Bark. ......Ethel Devish

NOVEMBER SWEEPSTAKES

de: W7RGD

The November ARRL Sweepstakes contest is coming up pretty quick and this year the RCT and the BEARS Club will re-instate their inter-club contest in conjunction with Sweepstakes. In previous years, this h has been a real "hot" contest between the two clubs and participation has been high by both club's membership. If we expect to do as well or better than the the last time, we will need a good "turn-out" on the bands by as many members as possible.

The rules (agreed to by both clubs) are published here for all to read over. The rules are basically the same as in the past. Jerry, W7BUN, has the necessary log sheets, duplicate sheets, etc. to use for the contest. The actual rules for the S.S. contest will be found in QST.

Remember, it isn't too early to start getting ready for the contest. November 7/8 will be the weekend for the c.w. portion and November 21/22 will be the weekend for the phone portion.

RULES

BOEING EMPLOYEES AMATEUR RADIO SOCIETY VERSUS THE RADIO CLUB OF TACOMA ANNUAL COMPETITION FOR HIGH SCORES IN ARRL SWEEPSTAKES CONTESTS.

has proposed that Congress amend the Communica-
ct of 1934. Among those proposals that affect
s are the changing the statutory basis to allow
of volunteers for examination preparation, ad-
ation and monitoring and also to help in moni-
for rules violations, to change license terms
ears and to eliminate all regulation of radio

control and cb operators.

FCC has confirmed previous rulings regarding retransmission of Amateur signals by repeaters. Technician class operators may have their signals retransmitted to the ten meter band where ordinarily they would not be allowed to operate.

The ARRL Board of Directors met September 10 and 11 in Hartford. Some of the actions to be implemented are increased coordination with affiliated clubs, more responsibilities for the Section Communications Managers, a program to train Amateurs in Emergency Communications is to be developed, a petition to FCC was ordered to extend General Class privileges on 75 meters to 3860-4000KHz and a study was ordered to explore the possibility of reduced membership rates for studens and the disabled.

FCC's "plain language" rules proposal drew over 1000 comments. There now is some indication, however, that it may be a long period of time before any action is taken on the matter.

For those with VHF and UHF receiving capabilities, The Space Shuttle's second flight in late October can be monitored on 296.8 and 259.7MHz with 243MHz for emergencies and on 2287.5 and 2217.5MHz..

ARRL Bulletin nr 112

Starting October 23, 1981, U.S. amateurs will no longe be required to give the callsign of the station with which they are in contact unless International third party traffic is being handled. Furthermore, there will no longer be a requirement to identify your station at the beginning of a transmission, so long as you identify your station at the end of the transmission, so long as you identify your station at the end of the transmission or series of transmissions and at least once each ten minutes during the communication.

BOARD MEETING

Meeting called to order by President, Cal Morgan, W7SFT at 8:10PM.. Previous minutes and Treasurer's report were read and approved.

COMMITTEE REPORTS:

W7BUN announced interference problems has been handled and it was not the Club.

W7OS mentioned York Amateur contest and needs system for getting Logger's Certificates and suggested possibility of getting in on the Washington State QSO Party if not too late. W7BUN concurs getting on the Washington State QSO even though it is too late for advertising. He will also approach the BEARS and try to make arrangements for this event and will notify club of results of discussion.

Hamfair

Hamfair-82 has been tentatively set for August 14 and 15, 1982

The editor wishes to "squash" the rumor that the club is broke. It is true that the Treasurer Don K7QLC is back from vacationing in Reno and the club is still solvent!

Roy W7AZI followed Rick K7MF's suggestion and is enjoying a new Kenwood. After the loan of Rick's 520, he was sold. Roy has been surprised at the reports he is getting.

Welcome back to Tacoma to Jean Wheeler WA7OII. Word has it, Maru KG7V (formally WB7ONX) will be returning from Alaska in December

Congratulations! to our Club's Secretary, Karen KA7GZG on upgrading to Technician last month.

Remember, the November 11th RCT meeting will not be held at the Tanzler Library. The club has decided to hold an open house meeting at the Club house that night, so there will be no business meeting. (It's a holiday and the library will be closed!)

There will be two conflicting events on the week end of October 17/18. The Simulated Emergency Test (S.E.T.) and the Boy Scout Jamboree at Ft. Lewis are scheduled for that week-end

The club's generator had a work out during the recent emergency at the Stadium High School. Power was supplied to the crew working the night shifts on the repair work. The C-D bus was also put into operation to help the city with its problems at the site. (W7BMG). Lot's of club members assisted on the late hours of operation. Among them were W7ZMG, K7AFU, W7KKN, WA7GHE, K7QLC, WA7RWK, W7RGD and others that I might have missed.

Clay K7CR at home recuperating from a nasty fall that injured his back. Broke a couple of bones but he talked the Dr. in letting him recupe at home rather than in the hospital

Dick WB7CRR busy bailing water out of his newly dug hole in the back yard if he can get it dried out long enough, plans on filling it with concrete for his new tower base.

The Huntleys (Scotty K7CYZ and Vivian) and the Rawlings (Ralph W7COP and Tykie) back from their vacation in Canada and the "Bad Lands" of the Dakotas

That's it for this month. I hear the 'ole' 1250 calling for ink, time to feed it . . . W7RGD

Tacoma, Washington 98405

Dear Sirs:

The City of Tacoma's Department of Emergency Services wishes to express our appreciation for the use of the generator which provided light needed during the Stadium bowl crisis.

Our special thanks to Don Snyder and Jack Lenhart for their assistance in bringing the generator to the site in addition to considerable man hours expended by them.

Your help as well as the equipment utilized during our emergency situation made our jobs and those of the other volunteer workers a much safer one. Again, may we say thanks for all your cooperation and assistance.

Yours truly,

VISITOR TO RCT

DOC W7OS-KEN JR3VII

Ken Takemura, JR3VII, visited The Radio Club of Tacoma on October 14, 1981 as a guest of Roy, KA7X. Ken has been visiting hams all up and down the Pacific coast. He was introduced at the meeting by Doc, W7OS, given a roster book and welcomed to the membership.

Ken gave a report of his trip and advised that he had worked at least 10 RCT members and hoped he could get a Loggers Certificate. A picture was taken of Ken grouped with the RCT members that he had made contacts with. He proved to be a very interesting speaker.

RICHARD W. ANDERSON, W7KCJ (Andy)

Andy visited the RCT museum on October 26th and brought two choice receivers with him, which he wanted to enter into our museum.

The first item is a Hallicrafters model SX-28 vintage early WW2. The second item is a Hamarlund model HQ-120, vintage 1938.

Andy currently lives in Port Townsend and is a member of the QCWA, member IEEE, retired USN Captain and is a consulting engineer.

Ray W7FNC (curator RCT museum) and Doc W7OS gave Andy a tour of the museum, the radio room and the rest of the club house. Andy has a few other choice museum type receivers that he will bring down later.

Thanks to Andy for his donation.

ED MOE 7AG

Ed Moe, RCT's first charter Secretary and Silent Key, has not been forgotten.

During the Puallup Fair, September 24, 1981, Doc W7OS and Ray W7FNC were thrilled to have a visitor ask,"is there an old receiving tube on display, which my father donated?" Doc did recall it very well, as a audiotron (first receiving tube) with 5 wires coming out and mounted on a red fibre novel wooden block with 4 brass contacts to match the old fashioned tube socket.

(cont. next col.)

Alumni (cont.)

Sure enough, the gentleman turned out to be Kenneth G. Moe, of Tacoma, son of Ed Moe 7AG. Ken said, he would like to see that tube again and to bring his family along to see the museum and show them what their Grandfather had done. He was invited to visit the club and we hope to see him at the club's open house on November 11th.

The above picture (not too sharp) shows the tube with its wooden base and is on display along side of another choice set of old tubes (VT-I and VT-II. I hope all members will visit the museum and see this rare old member of firsts vacume tubes.

ROBERT L. JENKS, K7ZVA

Bob's picture appears along with a 'Silent Key' memorial elsewhere in this issue of the 'Bark'.

Bob was first licensed as class "C" in 1959 and held the call of D7ZVA during the Bicentenial year of 1975.(see QST May 1975 p.80)

Bob first joined the RCT December 1963 and attended our 'home coming' and regular meetings as often as he could get transportation. He could not drive, due to his faulty eye sight caused primarily by his long and serious bouts with his Diabetes. His primary operations were on the cw bands, being an excellent cw operator. He was convinced that low power was for him. His philophesy was, "Power is no substitute for skill".

Bob was Vice President, general Secretary and Editor of the QRP Amateur Radio Club, International, a quarterly news letter. His activity was mainly during 1972 to 1975.

During the last couple of years, he had to spend a great deal of his time on the kidney machine and as his eyes failed he turned to closed circuit tv for his reading. He took a special course in California for its operation.

He took a trip to the Philadelphia area to visit with his family some months ago. He mentioned that James Kirkwood was the last person he talked to on the phone and thanked him for his help finding the root of the troubles in his transmitter. Bob was always so appreciative of his many friends.

A 'Silent Key' Memorial service was held at RCT on October 28 by Doc, W7OS.

(the following is a reprint of the October, 1979 Loggers Bark article)

WILLIAM H. MOTZ ex:7AA/7QE

This story about 7AA must be a first because you can't get much closer to the beginning than AA, a call which was issued to Bill in 1914. This is several years before RCT history.

(cont. next page)

Alumni (cont.)

he early report in the News Tribune (January) listed the first officers of the RCT and a of the members, where Bill 7AA was very inent.

nly recently Roy Richards, N7ARO, called our ntion to his Great Uncle Bill Motz who is now vergreen Convalescent Home in Olympia.

e were able to get the use of a family album found some pictures of Bill and his early in radio along with some information on his vities.

ill was first noted in the roll call book d September 28, 1920 as living at 4608 S. J et. His birthday is January 24, 1897. He s RCT membership number 19. Pictures show him ng the first field day activities with early ham gear.(picture refered to used this month emorial) In the picture you might note the 7EK in the back ground, who was a good d of Bill. Also a member of RCT the call nged to Leslie Lunan. Bill held the call of rom 1921 to 1923. Bill must have been close W7BG, Karl Weingarten since both worked for Chicago, Milwaukee R.R. at the time and Bill ly retired in 1946. Among the pictures there some pictures of him in WW1 uniform.

t much is known of his ham activities after etirement but from the look of his photo , photography was an important aspect of his ities.

ll enjoyed mountain climbing and motor cycle g. He attended the Chicago Radio Convention 20 and was the only person to represent the west at that time. Bill's comment was, "It's not to be able to remember names and dates" till he recalls the days of the "green silk .

was born in Duncanville Illinois in 1897 ame to Tacoma in 1907 and became an engineer the Milwaukee RR.

ll wished he had never given away his cat- er receiver and his quench gap transmitter. d a hard time with the winding of a model il. He was heard on the East coast but had nit he was unable to work them.

st wishes go to Bill and many thanks to his ester Motz, to Al K7KNZ and Roy N7ARO for help getting this story together.

POTLUCK DINNER

We had 72 people (counting the kids) at the dinner October 17th.

The women did a bang-up job on the roast beef and potatoes. There were more salads, pies and things than you could count. Anyone who went home hungry, can only blame themselves.

We should do this more often. It was a wonderful meal. The women should be commended for the job so well done!...............Scotty K7CYZ

In Remembrance

ROBERT L. JENKS
K7ZVA

Bob was born in Lancaster Pennsylvania on February 18, 1923 and passed away October 18, 1981 at the age of 58, after a long period of Diabetes and failing eye sight.

He retired from the army with a rank of SP5 after serving in WW-1 and the Korean war. He served a total of 20 years in service. Bob was a member of the Fort Steilacoom Post of the Veterans of Foreign Wars; the Blind Veterans Association; the National Armed Uniform Service; the Visually Impaired Club and the American Diabetes Association.

As a dedicated Amateur Radio operator, he was a past Vice President of the QRPARC. A former member and an alumni of the Radio Club of Tacoma, he joined in December 12, 1963. There are more details of his ham radio activity in the Alumni news column this month.

Survivors include his wife Kazuye; two sisters, Dorothy Peters in Pennsylvania and Edith Fryberger of West Chester Pennsylvania; two brothers John McMenamin Jr. of Allentown Pa. and Jim McMenamin Westchester Pa.

The RCT was represented in the memorial services by Dr. F. Clifford J. Spike, W7OS and the services were conducted by Rev. Thomas Fukuyama at the American Lake Hospital Chapel at 1pm Thursday, October 22, 1981. Internment was at Williamette National Cemetary, Portland Oregon.

The Officers and all members of RCT extend our sympathy to Kazuye and her family.

IN Remembrance

WILLIAM H. MOTZ
7AA-7QE

William was born in Duncan, Illinois January 24, 1897 and passed away in Olympia, Washington, October 1, 1981 at the age of 84.

He lived in Tacoma from 1907 until 1971, when he moved to Olympia to be near his son Leslie. Bill was a retired railroad engineer with the Chicago Milwauke R.R. in 1946. He was a member of the Railroad Brotherhood Association.

Bill gained his very early amateur radio call 7AA in 1914 back in the days before RCT was organized. He appears in the 1st Tacoma News Tribune article of January 21, 1917. In that article he was noted as a charter member of The Radio Club of Tacoma with member number 19.

An account of Bill's early life and his many hobbies appears in this issue elsewhere in the Alumni news column.

Bill has been in the Evergreen Convelecent Home in Olympia for the past several years.

He is survived by one son Leslie of Olympia; a daughter Mrs. William (Margorie Bookie) of Louisville Kentucky; a sister Maude Jophet of Olypia; a brother Roy of Taft California; Great Nephew Roy Richards N7ARO and three Grand children and one great grand child.

Funeral services were held on October 5, 1981 with interment at Mountain View Memorial Park.

The Officers and members of RCT extend our sympathy to Leslie and his family. ....Doc W7OS

NEWS FROM ARRL & HR REPORT

de:W7BUN

FCC has extended its deadline on RFI Inquiry,
ket 78-369, to November 30; ARRL has filed its
ments and vigorously opposed any attempts to
ce the liability for resolving RFI problems on
teurs. The League further recommended that the
mission support Congressional legislation that
ld give FCC the authority to require manu-
turers to incorporate RFI filters in home en-
tainment equipment.

News from ARRL & HR Report (cont.)

The General Manager of ARRL has been told informally by FCC Staff members that they will propose to the Commissioners that the Plain Language matter be "killed" but it will have to wait until after the comment deadline since to do so sooner would make the Commission look ridiculous.

President Reagan's new Deputy Press Secretary is Peter Roussel, K5JCC.

The Eyebank Net recently passed information about its 10,000th eye. The Net started with seven stations in 1962 and now over 150 stations meet twice daily.

FCC has released an NPRM which proposes raising 6-meter repeater power limits from 25-100 watts to 100-800 watts (depending on height above average terrain) and lowering 10-meter repeater power limits from 1000 watts to 100-800 watts.

New DXCC country status has been granted to the Sovereign Military Order of the Knights of Malta, the Roman enclave recently on the air with the call of 1A0KM. DXCC credit will begin January 1, 1982.

FCC may lose over 500 positions during fiscal 1982 and 1983 as a result of the Administration mandated budget cuts. The planned cuts will leave only 31 people doing all the private radio bureau's work in Washington! The Field Office Bureau will have its staff reduced from its present 455 to 311. A number of Field Offices will have to be closed and it is going to become even more important to have the Goldwater bill S.929 passed so FCC will legally be permitted to use volunteer help.

The new 10-MHz band may not be allocated for some time yet. Due to FCC staff cuts, the January 1, 1982 implementation may be delayed indefinitely.

OSCAR 9 is working fine, with the 145.825 MHz beacon signal being copied even on hand-helds with rubber duckies installed.

The latest assigned Amateur call signs for October 1, 1981, for the 7th call area are: KN7O, KC7IO, N7DFQ and KA7LNE.

Amateur exams at FCC Field Office's have declined recently from a high of 20,000 in April to only 12,000 in July.

INDUSTRY NEWS

KENWOOD'S new general coverage receiver, the R-600, covers 150KHz to 30MHz and operates on AC or 12VDC.

DRAKE has a lower cost transceiver, the TR-5, a 9 band digital readout, full break-in radio, which will sell for about $500 less than the TR-7.

Welcome to membership letter to be revised to include information regarding the ARRL and instructions on how to join if desired.

AJ7P appointed to head the nominating Committee for the 1982 Officers. Nominations the 1st meeting in December to be followed by voting the second meeting in December.(Last meeting of the year)

W7SFT entertained a motion that the Treasurer pay the exkpenditure to the Women's Auxiliary for last club meeting refreshments, etc. AJ7P Motioned same, seconded and so moved.

November 11th meeting to be held at the club house as a social meeting as the library will be closed. Social meeting to begin at 7:30pm. N7ARO suggested having someone up in the library, museum, radio room, etc.to assist with questions, etc.. Refreshments will be handled by the Women's Auxiliary.

Len WA7HHI discussed subject of club members with opposing opinions not being given the opportunity to talk during meetings. Topic was discussed in detail and it is acknowledged that this has happened in the past and more discussion related to business to be kept to a minimum at regular club meetings and brought to the board meetings. W7SFT re-iterated that all members are welcome to attend Board meetings.

W7BUN suggested there may be too many committee reports during the regular club meetings. W7SFT made decision that those wishing to give committee reports to see him before the meeting.

BOY SCOUT JAMBOREE
de:WA7GHE

The annual Boy Scout Jamboree was held on tober 2/3/4 on the Ft. Lewis base. There were er 2000 boy scouts participating from the rthwest and Canada.

There were 2 low band stations set up and 2 hf ations. The club supplied the club's generator r powering up the equipment. Set up started on iday afternoon and ran through Sunday. Many cw ntacts were made on the 2 meter band and was e most popular. A UHF satellite station was so set up at the site.

11 other Jamboree stations were worked in- uding Florida, Georgia, California, etc..

CLUB MEMBER'S CALL IN PICTURE

PICTURE PUZZLE
de:K7CYZ

October's picture puzzle was K7CTT and here is how we arrived at that answer. The 7 with the king's crown adds up to K7. Then off to the right was a Chinese Tea Tray. Sum total, K7CTT.

I think November's puzzle will prove to be a mite harder, so rack your brains and see what you come up with. .... Scotty

SLIVERS & SPLINTERS

Congratulations to Kathy Wood on obtaining her call KA7LMZ !

Our Secretary, Karen KA7GZG, received an injury to her foot and is sporting a cast on her leg. Didn't keep her from getting to the meeting.

Bob W7RXS helping on keeping the neighborhood vandalism down. Caught a juvenile inside his trailer and turned him over to the authorities.

Ralph W7COP busy trying to top his XYL's bowling score a few weeks back. Tykie bowled a 204 game.

Mac W7FAB and Ken WA2JQW are both waiting for their computers to arrive. Both ordered a new TRS80 complete with disk drives.

Scotty, K7CYZ busy copying cw on the low bands. Got something in mind, Scotty?

Emil K7GPK sure busy on 2 meters. Giving his new 2 meter hand-held a work out.

Well that just about does it for this month. Don't forget no meeting at the library on the 11th. It will be open house at the clubhouse instead. See you there.....and away we go to the 'ole' 1250 to put the ink to work.......W7RGD

ARES REPORT

de:WA7GHE

Recently I was asked by Helen Ettlin of the American Red Cross and Chief Tony Mittchel of the Tacoma Fire Department, if I would start a fire response team to help persons who have been burnt out of their homes in the Tacoma area.

I am looking for anyone, who is interested in responding for the Tacoma Fire Department to a house fire when they are called by the fire department to help re-locate people who's homes have been burnt, to the degree that they cannot stay in the house for just a few days or longer.

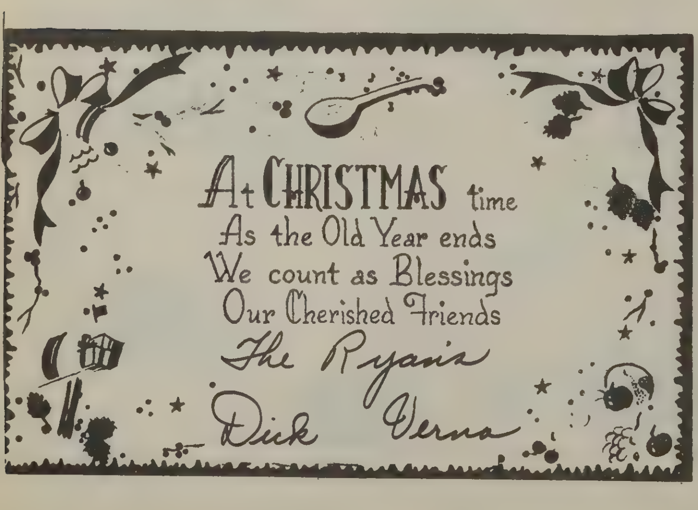
I would like to have persons, who can respond, from each section of town. This way, someone in the north end would not have to go to south 96th or someone in the south end would not have to go to Northeast Tacoma.

What this program would involve would be making up a list on a 2400 hour basis, seven days a week. Your name and when you could be available would be placed under that time slot. This would be strictly voluntary and you would respond only during the hours that are convient for you. When there is a fire and a person is requested by the first engine company or Batalion Chief, the fire department would look under a certain time, see who is available and look for the closest person to respond to the scene.

It would be your responsibility to respond to the location and help in what ever way they might need help. It might be just comforting them until relatives arrive, finding a place at a local motel or hotel for them. The Red Cross will give you vouchers to be used for payment of these motels and hotels, so that it does not come out of your own expenses, also determining whether they will need just clothing,(Adult or Children) or whether they will need to set up a complete new household.

Anyone interested in helping me with this new program in the Tacoma area, please contact me as soon as possible. The Red Cross, Fire Department and myself, would like to get this program

(cont.next col.)



underway as soon as possible

I hope you would never have to be called bu
remember, you or I could be the next one tha
someone else has to help.

NEWS FROM ARRL & HR REPORT

de:W7BUN

FCC Amateur station licenses for October show a total of 403,660. (29,025 Extra; 93,230 Advanced; 126,450 General; 76,058 Technician and 78,917 Novice) In Washington State there are 11,393 station licenses. ARRL membership figures total 156,982 with 7,640 in the Northwestern Division.

FCC has "killed" the controversial Docket 80--729, the so-called plain language rules issue. Approximately 1400 filed comments with most opposed to the rules re-write. ARRL led the opposition, saying it would turn the Amateur Service into a "sophisticated Citizens Band Service."

Russia plans to launch three new Amateur satellites momentarily. Input will be 145.82 -145.84 MHz. and output on 29.32-29.34MHz. Oscar 8 is still performing well and Oscar 7 is still being checked out with all systems satisfactory so far. King Hussein, JY1, donated $10,000 to AMSAT while on his recent U.S. visit.

INDUSTRY NEWS:

KENWOOD:

Kenwood has begun a rebate program with the purchase of many of their products.

LORAIN ELECTRONICS of Dallas has acquired DENTRON.

The considerably revised 1982 ARRL HANDBOOK is now out, still at $10.00.

TEN-TEC has a new 2kw, 160-10 meter antenna tuner with a built-in SWR/power meter.

The South Jersey Radio Association (K2AA) an
The Radio Club of Tacoma (W7DK), you may recall
have exchanged histories and both are very ol
and proud Amateur Radio clubs. The two club
exchange monthly newspapers. (Loggers Bark an
Harmonics)

During the month of September, the SJRA put
little notice entitled,"Our Club". In the article the intimated they were having trouble generating interest for their membership. We hope they will note that is is read out here in the West by W7DK and we think we have a solution. RCT has a real live-wired Ladies Auxiliary, involving the YL/XYLs of our members. They are a real help in creating activities. They are very involved with pot luck dinners, stimulating Mother's day breakfasts, attending meetings, setup booths and provide entertainment at the Hamfair and aspire our club activities. Bless them and we are proud that many of them are licensed amateurs and all work very hard at making RCT the most active club.

We recommend a Ladies Auxiliary to all Amateur Radio Clubs. Try it - you'll like it.

JIM KIRKREIT, K7YLM

Jim has been conducting code practice every night at 6pm on the 15 meter band (21180KHz) and doing a great job. For many months, Jim has been coaxing Doc W7OS, to get on cw to limber up his glass arm. Jim didn't know how fragile and creeky 'ole santa's" glass arm really is! Anyway, a few nights of listening to Jim's fine code, gave Doc the courage to break-in and a dusty executed QSL was passed to Jim. It was great Jim!

W7DK

RCT had an open house on November 11th and it was a gala affair. A lot of our newer members got their first real look at our club house. The radio room was manned on the low bands and the club's repeater was available for inspection.

The library area was all spruced up and Ray, W7FNC (Curator of the club's museum) had all the choice old time gear arranged, marked and shinny. Many of the members had not had the opportunity of viewing.

We had several VIPs. One that we were expecting, Ken Moe and his wife, came to view some of the choice items, which his father Ed Moe, (ex 7AG charter Secretary) gave to our museum namely the original audiotron tube that we described last month. Also he viewed the number 1 volume 1 of QST magazine dated 1915. We took his picture and hope to have it in a future Loggers Bark.

(cont.next page)

nother Alumni visitor was ROBIN OTIS of
ma, who joined RCT in 1946 and was the Club's
etary 1946/7. Otis was never licensed but
very active in the club's events. We hope he
visit again, soon.

hanks to Howard Hanson, W7MRX and Ray, W7FNC
their many hours of help.

elen and I wish everyone in RCT, a very Merry
stmas and a Happy & Prosperous New Year.

SILENT KEY

LEO McDONALD, KN7BNV, a Tacoma resident since 1905, died October 21, 1981 at the age of 76. He was born August 24, 1904 in Everett Washington.

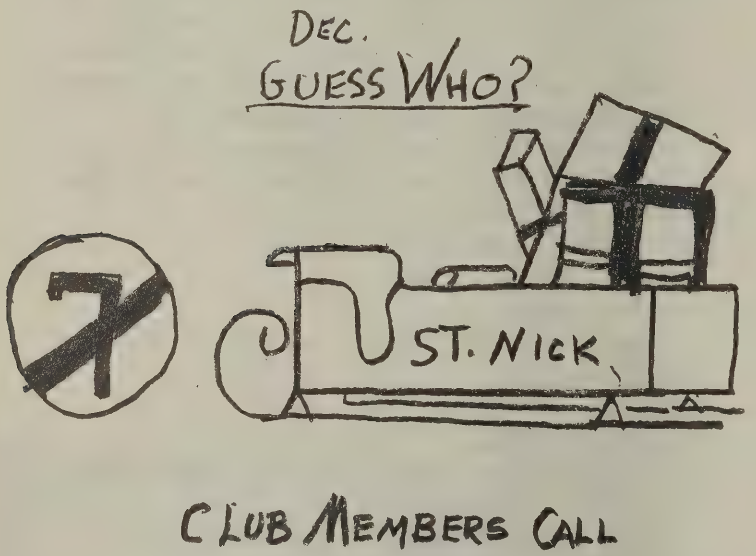
He was the owner and operator of Leex Ornamental Iron from 1933 until November, 1980.

Although Leo was not a member of RCT, he was a life time member of the Webbfooters Jeep Club, member of Pierce County Search & Rescue and very active on the six and two meter bands. He was licensed as an amateur in 1957 and built and operated his own amateur radio equipment. He was great for experimenting with new ideas.

He was active in community events, such as the Daffodil Parade and very talented in his endeavors. He would try anything, the harder the better. He would not give up, even a severe bout with cancer. He devoted much of his spare time to helping others.

Leo was a member of the St. Charles Borromeo Catholic Church. He is survived by a son Angus of Montesano, a daughter Marguerite Dolack of Tacoma, brother Milton of Tacoma and four grandchildren.

He was known by many RCT members and will be greatly missed. W7OS



PICTURE PUZZLE

The November picture puzzle should have added up to WB7AKB. To arrive at that answer you should have noted the "Western Boot" for the WB7. The Australian Koala Bear would then complete the picture as WB7AKB. I wonder how many caught that one?

This month's puzzle (above) is in the X-mas spirit and we hope you can get the call without having to spend too much time. Lot's of luck and Merry Christmas to all...............Scotty K7CYZ

SLIVERS & SPLINTERS

Need to boost up your code speed? Might listening in any day at 6pm on the 15 meter (21.180) plus or minus the qrm. Jim, K7YLM, the one pounding the key. An excellent way learn that cw business or even to wake up not used often section of your brain. Thank Jim for his time and effort.

You think you have problems? Let D WB7CRR, tell you about his. After much time troubles with all the rain he did manage to his concrete poured for his new antenna inst ation. Felt pretty good when it was finall and the antennas mounted. Then!!! along c the big wind storm in November and all his work comes down in the storm. Sorry to re the tower, antenna, coax, etc. were all bent of shape or damaged. Got a bigger job now to back into shape. Good luck Dick!

More bad luck for another club member, W7PK. Tom was out for his usual afternoon up behind his QTH in a not so populated a when ole man 'bad luck' came along and tri him. In the process, he managed to break one his ankles. Luckily he had his hand-held a with him. He called for help, since he could walk on the broken ankle, and Eve, WB7QNS, swered his 'mayday' and got help started to location. Denny, W7ZTG, was on the air started to the location to help out until emergency services could render first aid. Tom now re-cooping at home. Another instance of A teur Radio helping in a serious matter.

During the big wind storm the club's repea was off the air for a period until power was stored. Hopefully the self start feature of auxiliary power unit will be operating before next 'big blow'.

Scotty and Vivian (K7CYZ) off to Californ via Chicago, for the week of Thanksgiving. (T the long overland trail)

Two more members of the RCT have joined computer gang. Mac W7FAB and Ken WA2JQW have model 3 TRS-80's with the ROM-116 teletype hardware/software programs.

The Devish's (W7AZI & W7WLX) are back f their extensive trip to the far East. Have a of stories to tell about Red China, Taiwan, H Kong, etc.

That about winds it up here after 18 years publication. That's about 216 Slivers & Spli ers. We of the staff hope you all have a v Merry X-mas and a Joyous New Year, and the will fly for the last one in 1981.

ELECTION RESULTS

here was a good turn out at the December 23
meeting for the election of the 1982 R.C.T.
cers.
he nominations were opened to the floor for
office of President. There being no further
nations from the floor, it was moved and
nded that Cal W7SFT be given a vote of acli-
on. It was so voted.
im K7YLM was nominated from the floor for the
ce of Vice President. Jim K7YLM was elected
he position.
here were no further nominations for the
ce of Secretary and Jean WA7OII was voted in
he new Secretary for 1982.
here being no further nominations for the
ce of Treasurer, Don K7QLC was unanimously
nstated for another year as the holder of the
's "purse strings".
here were several additional members nomi-
d for the office of Board Member. Len
HI, Marvin KG7V, Dick W7RGD and Joe KA7DCX.
he large list of nominees, Peter WA7FUS, Marv
and Dick W7RGD were elected to the posi-
s. The fourth position on the Board was
ed, automatically by the outgoing Vice Pres-
t, Dan AJ7P as per the By-laws of RCT.
ongratulations to all the new Officers for
nteering to take over the reins of RCT. It
becomes necessary for all members to volun-
their help to these Officers to make this
her great year to remember. We have a great
behind us and with your help, an even
ter one ahead.

MBER, DUES ARE DUE!!!!!

UPCOMING PROGRAMS

JANUARY 13TH - Our new Vice President, Jim K7YLM, will give us a short technical presentation.

JANUARY 27TH - Otto Johnson, a Boeing engineer, will show us some fascinating and beautiful scenes of his two trips to Nepal. "Trekking Through Nepal" is Otto's slide program of his high altitude (18,000') hiking in the Himalaya Mountains. There will be a very short business meeting, and the program will begin at 8:15 PM.

FEBRUARY 24TH - Paul, AI7S, will present his slide program of "Scenic Views of the Pacific Northwest".

LOGGERS BARK REPORT

de W7RGD

This issue of the Loggers Bark marks the completion of 18 years of continuous publication. A lot of ink has dried on the pages since it's beginning back in December of 1963.

As we start the new year off, the staff of the Bark would like to report the continued growth of RCT and success with it's many projects.

To make the Bark something news-worthy for all members, we especially want to encourage articles from all members. If you have a pet project, news of other members, a message you want to get to the readers, please feel free to get the information to a staff member or to the Secretary of the club. This is especially true of all members who have been appointed to a project or a committee. We would like a status report on all activities of the club, so sharpen that pencil!

The next meeting will be Wednesday, Januar 13th at 7:30 PM in the clubhouse, 1249 Sout Washington Street.

This meeting will have lots of business and w urge all members to attend. All of you ladie are automatically members and we have no dues s come and get better acquainted. We'd like to se up programs ahead so we need ideas. We have som money to spend and we'd like your ideas. We wil have election of Officers and you need to com and defend yourself. Our railroad runs whethe you are present or not.

The December meeting found President, Freya too ill to attend and also Irma. Our Secretary /Treasurer, Marje, was also unable to attend s it was decided to postpone the business and th election. However, the "goodie" portion of th meeting was tastily enjoyed and recipes wer eagerly exchanged.

December Pinochle session had four talbes plu one. High scorers were Jean Wheeler and Me Pruitt. One dollar winners were Ethel Devish an John Kelley. Next time to try your luck is Jan uary 2nd, 8:00PM at the clubhouse.

The four dinner certificates provided by th Auxiliary and given at the W7DK Christmas Part December 5th., were won by Pat Morgan, Hal Dawson, Scotty Huntley and Roy Devish. How nice i was for me to get in on the $20.00 gift certificate to the Steak & Lobster House.

I hope to see YOU on January 13th........ETHEL

W7 Old Santa 1981 was enjoying his pre-Christmas chats with the many children calling to talk to OS. He is grateful for the oportunity to use the RCT repeater to help make this time of the year a little brighter and more joyous for the little ones and their families. Old Santa and Mrs. Claus wish you all the best of Season's Greetings and to wish for you all a Healthy and Happy New Year.........P.S. Sorry about the aligator!

KEN TAKEMURA JR3VII.

Ken keeps a very close schedule with members of RCT on 21050 to 21055, (0130 to 0330 GMT) Monday through Fridays and hopes to contact more of our members. We are all happy and honored to have Ken join the RCT and we hope he will keep in close touch. We appreciated receiving the colored pictures from Ken.

KENNETH S. ANDERSON WB7QNT.

Ken had surgery a week or so before Christmas but is home now and back to his 15-meter, eleven o'clock daily schedule. He was back on the air before anyone knew about his surgery. Doing real well and taking his daily walks under the careful care of his xyl, Eva. (A very special nurse)

CHET LA MONT, W7ALM.

Chet, our faithful Honorary Charter Member of Astoria Oregon, reports over (Ma Bell) to Doc Spike, that he is doing well and enjoys reading the monthly Loggers Bark. We of RCT wish some of our other alumni would contact us so that we can keep closer contact. Thanks to Chet we wonder about Al Stenso, Winifred Dow Williams, Joe Asplund, Dewey Wilson, Len Kaufer and many others and how they are doing?

Cal Morgan, W7SFT, our President and his assistant Officers did such a good job running the club's activities during 1981. This year, Cal and some of the former Officers agreed to continue on in the leadership of the club. We are very proud of RCT and know we will enjoy and benefit from the leadership voted to office.

Happy New Year from Old Santa and Mrs. Claus!

NEWS FROM ARRL & HR REPORT

de:W7BUN

Booth, W3PS, who was the ARRL General
for 20 years, died on December 3rd. Bob,
70, was widely known and respected for
dicated service for the cause of Amateur
and his legal abilities in the field of
cations law and frequency management.
has dismissed RM-3618, which had requested
change to place the responsibility for
ssion content on a repeater user rather
repeater licensee.
has issued a Report and Order that would
ireless alarms, garage door openers and
uch devices on all VHF/UHF frequencies.
filed a strongly-worded petition asking
tay of the effective date (December 10,
this action. The League further re-
these devices be limited to narrow fre-
bands and especially not on the 144-148,
and 420-450 MHz. Amateur bands. The FCC
no. 20990 would all allow these devices on
quencies above 70 MHz. on a "non inter-
basis" with a label warning the purchaser
e device might be subject to RFI.

NEWS FROM ARRL & HR REPORT (cont.)

The potential for problems with Amateur equipment transmitting nearby is extremely high!

ARRL has petitioned FCC to implement the changes agreed upon at the 1979 WARC in Geneva. The primary concern is the new 10 MHz. Amateur band which was supposed to be allocated to the Amateur Service, January 1, 1982. FCC has not taken any action due to budget limitations and Congress hasn't ratified the treaty which would make the U.S. a party to the new WARC frequencies.

Bob Stankus, N1AAR, received a 5-year prison sentence and a $5500.00 fine for his Keswick Sales TS-520 scam. He will have his prison sentence reduced to 3 years probation if he repays all the Amateurs whose money he took with his phony mail order scheme. (If a mail order price for ham gear appears too good to be true - it very well might be!)

FCC will soon release new rules permitting SSTV and facsimile on all phone frequencies from 80 through 10 meters.

Poland, under martial law, has confiscated all Amateur radio equipment. There are, however, some Polish hams still on the air, usually on CW and with brief transmissions. If you happen to work such a station, don't use his call letters or you might endanger his safety.

The Japanese government may soon authorize repeater operation on the 50, 144 and 440MHz bands.

FCC has been refusing to accept comments on rule-making petitions if all the rules are not followed. A copy of the comments must be sent to the petitioner and a statement to that effect must be included in the comment filing. In a recent action, FCC "threw out" 35 comments on RM 3618, the request to make repeater users responsible for transmissions and these were not even considered when they decided to dismiss the petition. Another cause for FCC not accepting comments is their being received after the announced deadline.

Russia has launched 6 new Amateur satellites. (RS3 through RS8) and their frequencies, in order, are 29.320, .400, .330, .410 and .460.

Radio Moscow has been causing interference to WWV on 10 and 15MHz. The National Bureau of Standards asks anyone observing such interference to phone WWV at 303-484-2372.

If you haven't yet worked Senegal (6W8) or Gambia (C5), work them quickly! The two countries are expected to merge early in 1982 and both countries will be deleted for DXCC purposes and the new country will be a new DXCC spot.

INDUSTRY NEWS!

TELEX (HyGain) has purchased the CD rotor line.

MOSELY ELECTRONICS has new owners and should be back in full production by the end of this month.

SLIVERS & SPLINTERS

It was a joy to listen to the little ones speaking to Santa Claus on the club repeater just prior to Christmas. The club owes a big "thank you" to W7 Ole Santa for the wonderful job he did for the membership's little ones.

Marv Wheeler (with new call KG7V) is back in Tacoma. Got back just in time to be elected to Board member of RCT. Glad to have you back Marv!

Reade N7AGG being heard on the RTTY frequencies more often lately. Must be on quite a bit more since it was noted by this reporter his fingers were tickling the green keys a lot quicker.

The RCT bowling team had a 'doozy of a night' during December. Ralph W7COP had three games over the 200 mark. A few of the club's members have been out to cheer them on, on Tuesday nights.

Ed KA7HZH and XYL Margret back after a short vacation to Reno.

Bob W7RXS has been having a 'ball' on the ten meter band. Seems the band has been open and he dug out an old rig and converted it for fm.. Lots of old fashioned DX still on the band.

Sue N7AFZ signed up with the National Weather Service and is making her daily weather report from Bonney Lake.

COMING PROGRAMS

FEBRUARY 10

A delegation from the Boeing Employees Amateur Radio Society (BEARS) will present the Sweepstakes trophies to the Radio Club of Tacoma, the winners of our interclub competition. The BEARS members will present a short program of their club's activities. Special refreshments are planned, with a social "hour" to follow to meet the BEARS members.

FEBRUARY 24

Paul Trepus, AI7S, will present a slide show of "Scenery of the Pacific Northwest". Paul is an avid hiker, mountain climber and photographic enthusiast. His pictures are the most beautiful you will ever see.

LOOKING AHEAD TO APRIL

ICOM will present a program on the future of Amateur radio gear in view of the rapid change of technology.

HAMFAIR '82'
AUGUST 14/15

Dan Zittel, AJ7P, has been appointed by President Cal, as Chairman of the HAMFAIR'82's Committees. This year's HAMFAIR will be bigger and better than ever.

Greetings!

For the benefit of those of you who have been unable to attend the meetings lately, take heart, the auto-patch is almost ready to go.

In a classic case of "Open mouth, insert foot", I have been convinced (ever look down the business end of a 357-Magnum?) to serve as auto--patch monitor coordinator. Having held our first meeting, the auto-patch committee has established some guidlines for the use of the patch. A copy of these guidelines will be available to you the next time you attend a club meeting. Meanwhile, if you want the access code, it will be necessary to contact a control operator.

Speaking of control operators (notice that smooth transition?), we had a very impressive list of volunteers on our initial request. However, (here it comes!) even though we have good coverage for early morning and early evening, we can use additional help during mid-afternoon and week-end hours. If any of you have a few hours available, a couple of days a week, your time and assistance would be greatly appreciated. Remember, the more control operators we have, the less time each will be required to monitor.

The only prerequiste to be a monitor is: (1) be a RCT member. (2) Have a touch tone telephone at your residence and (3) have a touchpad on your 2 meter rig.

It has been a long time in coming and whether you participate in its operation or just benefit from its use, I hope you enjoy the auto-patch. The use of which will be restricted to RCT members. If you would be willing to be a control operator, please give me a call at 584-4173.

73,

REMBER, DUES ARE DUE!

WOMEN'S AUXILIARY

de:W7WLX

The next meeting of the Auxiliary will be the third Wednesday of February (17th), in club house, 1249 South Washington at 7:30 Sorry about having the wrong date last month I learned that some do read the Bark.

At our January 20th meeting we did take ca of the post poned December business and election of Officers. Due to the large number nominations for the office of President, it voted to ballot on each office separately in der that the losers might be nominated for su ceeding offices. This worked out very well the new Officers for 1982 are:

President............Freya Hutt
Vice President.......Ethel Devish
Secretary/Treasurer..Donna Dightman
Board Members (2)....Marje Hazelmyer
....Larena Smith

Jean Wheeler had a surprise for us and we all enthusiastic about the project she has sta ted. It doesn't take us long to find ways spending money.

The February 17th meeting will be really start of our new year and we hope to have a monstration of Creative Circle Stitchery. If are into something that is fun, come tell us bout it and we'll try to have some programs interest to all.

The next Pinochle session is February 6th. winners of the January 2nd play were Tykie Ralph Rawlings and the losers were Jack Moore Jean Wheeler. In spite of the snow storm and day after New Years, we had four tables and te rific food. With the Holidays over and go weather returning we should have about eig tables February 6th. Will you be there?

Mark your calendar for the Radio Club Banqu on March 27th......................Ethel Devis

NEWS FROM ARRL & HR REPORT

by W7BUN

Over 2-dozen countries have been heard on the new 10 MHz band which became an Amateur band January 1, 1982.

U.S. hams do not have authorization to commence 10 MHz operation, despite efforts by ARRL, until present users have been moved and all treaty and rule-making procedures are completed.

It appears likely that FCC will be acting on U.S. phone band expansion and Novice 220 MHz privileges in the near future. Knowledgeable people are predicting the phone band expansion will be accepted but the Novice expansion will be rejected. Other proposals in the works include one to limit power for cw operation and one to develop new power-specifying techniques, such as the controversial "peak" power measurements (rather than the present "average DC" power).

ARRL is considering deleting the tone report portion of the present cw signal report portion of the present cw signal report. Even though many cw signals are not T9, the "599" report is almost automatic, especially during DXing and contests, so the effectiveness is being seriously questioned. Send your comments to the ARRL, Communications Department, 225 Main Street, Newington, CT 06111.

ARRL membership for the end of 1981: Total 157,036; Northwestern Division 7,652.

ARRL is proposing to FCC to restructure the examination procedures, to authorize "Certified Organizations" to give exams for all Amateur classes. Any comments should go to KF1Y, Training Manager, ARRL.

Another attack on our ham bands - - General Dynamics has petitioned FCC to allow cordless telephones on 1.6 to 2.0 MHz., which of course includes all of our 160 meter band.

Latest Amateur license figures: Total 406,017 and Washington State 11,501 operators.

ALUMNI NEWS

de:W7OS

The long and exceedingly interesting history of the Radio Club of Tacoma from 1916 to 1982 (a span of 66 years) has seen extensive changes take place in the scientific advancement of our equipment. From galena to solid state, from haywire to printed circuits and from smoke signals to the talk-back of modern computers.

It has been interesting to see that "People" still hold the spot light. We have, from time to time, reported in the RCT history, some pretty interesting people. Marconi had his day, Hertz has been recently been honored, Hiram Percy Maxim had much to offer. This spring we will again hear much about Father Sebastian Ruth, KGY and W7YS.

(cont. next page)

Art Gilmore (ex 7MR) the great net work announcer got his start here in the RCT. Who knows, maybe some of our present RCT members will become the great of tomorow. Let's start out with the Morgan family.

Calvin P. Morgan Jr. W7SFT, the 1981/82 President of RCT, was first licensed W0IBC in 1951. He is a professional Electronic Engineer having studied at the school of mines and technology, receiving a Bachelor's degree in EE in South Dakota in 1952.

Cal earned his general license and W7SFT call in 1978. He is currently a design specialist in computer testing at the Boeing Company. In the past few months he got lost in his own computer. We hope his xyl, Pat N7CAK, will be able to find the right button to push and get him back on the line soon.

Cal has proved his worth in RCT, by being re-elected as President of same. His computer records him as being currently the 1981/82 Chairman of the Northwest Chapter of the Quarter Century Wireless Association (QCWA). Also listed as the 1973 Past Master of Demoines Lodge of FAM #245; 1975 Past Patron of Pyramid Chapter #257 Order of Eastern Star. He is currently trying to keep up with his xyl Patricia Ann Morgan, R.N. (N7CAK) who is going places and doing things also.

Besides rearing three lovely children, she earned her R.N. Bachelor of Science degree in 1955 at the University of Washington. She received her Master of Science degree in Occupational Nursing Education from Central Washington University. She currently teaches "Medical Ward Clerk Class" at the Tacoma Clover Park vocational technical school. Some how she manages time for piano and organ playing. She earned her Amateur Technician license in August, 1980 and her general class in August, 1981.

Pat is a past Matron of Pyramid Chapter #257, Order of Eastern Star.

RAYMOND C. ETHERINGTON, W7FNC

Ray has been very active in the RCT's museum of antique wireless radio gear. He has put in many hours being the curator of the museum catalogues (300 items and their display).

He has been licensed for over 25 years and was elected last year as Vice Chairman of the Northwest Chapter QCWA. He will be installed as Chairman on June this year and is currently making plans for the annual installation/dinner at the Holiday Inn at Fife.

(cont. next col.)

Ray is the net control station for the Satur day morning ARES Net on 3930 and the QCWA noo time net on Sundays on 3955.

Ray's family consists of his xyl, Dulcie and sons, Ray and Alex. Alex is a recent license novice with a call of KA7JCG.

Ray spent many years as a power plant enginee with Tacoma City Light at the LaGrande Dam nea Eatonville and retired from their employment i 1975.

Ray holds an advanced license and joined th RCT on April 14, 1976.

WILLIAM BASIL BONNELL, K7PKM

Bill joined RCT on October 10, 1962. He was x-ray technician at the Mary Bridge Children' Hospital in Tacoma.

Have not had contact with him in some time when I accidently ran into him while visiting th Tacoma Masonic Lodge #22, where he is the Junio Warden. We had a nice short visit during which urged him to attend one of our meetings.

I hope to have the opportunity of visitin many more of our "busy" members.

WOMEN'S AUXILIARY

de:W7WLX

THE NEXT MEETING OF THE AUXILIARY WILL BE ON THE THIRD WEDNESDAY, MARCH 17TH IN THE CLUBHOUSE, 1249 SOUTH WASHINGTON AT 7:30 P.M.

THE PROGRAM FOR MARCH 17TH WILL BE EITHER DICK GEYER OR DAVE CRAIG FROM "CRIME-STOPERS". THEY HAVE A FILM AND WILL ALSO TELL US ABOUT THEIR PROGRAM.

AT OUR FEBRUARY MEETING, MERILEE WALSTON CAME WITH HER CREATIVE STITCHERY AND WE ALL MADE A NICE LITTLE CROSS STITCH BOOK MARK AND ADMIRED THE GREAT VARIETY OF KITS SHE HAD AVAILABLE TO CREATE.

JEAN WHEELER IS STILL WORKING ON THE CARPETING PROJECT FOR THE CLUBHOUSE. SOUNDS GREAT AND WE ARE IN NO HURRY.

THERE WERE 18 AT THE FEBRUARY PINOCHLE SESSION. WINNERS WERE JEAN WHEELER AND JACK MOORE. LOSERS WERE MARION STOLL AND ART IVES. HOPE TO SEE YOU AT THE MARCH 6TH PINOCHLE AT THE CLUBHOUSE AND DON'T FORGET YOUR RESERVATION FOR THE MARCH 27TH BANQUET.

NK YOU VERY MUCH FOR YOUR LETTER.

I HAVE RECEIVED THE LOGGERS BARK OF JANUARY, WHICH ROY, KA7X, KINDLY SENT TO ME.

I WAS APPRECIATED VERY MUCH TO SEE THE ARTICLE ABOUT ME, YOU MENTIONED IN THE REPORT.

I WISH I WOULD MAKE MORE QSO WITH RCT MEMBER, NOT ONLY THE LOWER FREQUENCY (3MHZ) BUT ALSO THE HIGHER FREQUENCY WITH NOVICE STATIONS. AS SOON AS I GET REPORT FROM ROY, AFTER FINISHING SCHEDULE QSO WITH HIM, I WILL MOVE TO THE IDICATED FREQUENCY. I WILL TRY TO ADJUST MY SPEED IN ACCORDANCE WITH THEM. HOWEVER PLEASE UNDERSTAND THAT THE STYLE OF MY QSO IS ON CHAT AND NOT EXCHANGE OF SIGNAL REPORT ONLY AND I DO NOT LIKE RAT RACE SPEED ON THE CONTEST. I HOPE I WILL MAKE QSO AS MANY RCT STATIONS AS POSSIBLE. PLEASE TELL THE ABOVE AT THE NEXT CLUB MEETING.

MY HAM TRIP WERE:
VK AND ZL FOR ONE MONTH ON 1979.
USA FOR ONE MONTH ON 1980.
USA FOR 6 WEEKS ON 1981, FROM THE BORDER OF MEXICO TO THE BORDER OF CANADA. THEY WERE A LONG WAY TRAVEL BY AIR AND GREYHOUND, HOWEVER MY FRIENDS TREATED ME SO KINDLY THAT THEY WERE REALLY HAPPY TIMES FOR ME.. I WISH I WOULD PAY A VISIT VK AND ZL THIS YEAR AGAIN, PROVIDING MY POCKET SAYS "NO OBJECTION" HI HI. THERE ARE ALSO MANY FRIENDS WHO ARE WAITING ME.

I AM A HAPPY OLD (YOUNG?) MAN OF THREE GRAND CHILDREN. 70 YEARS YOUNG HI. HOPPING YOUR GOOD HEALTH AND PROSPERITY OF RTC.

FEBRUARY'S PUZZLE WAS RIGHT IF YOU CAME UP WITH WA7YBB AND THE WAY TO ARRIVE WITH THAT ANSWER WAS AS FOLLOWS. THE WINDOW AWNING WITH THE 7 ON IT (WA7) COUPLED WITH A YOUNG BUSY BEAVER (YBB) MAKES FOR THE CALL OF WA7YBB. SO, THERE YOU HAVE LAST MONTH'S BRAIN TEASER.

HAVE FUN WITH THIS MONTH'S PUZZLE....SCOTTY

NOTICE CONCERNING ALLEGED T V INTERFERENCE FROM THIS TRANSMITTER...

1. YOU HAVE CALLED TO MY ATTENTION THE FACT THAT TRANSMISSIONS FROM MY STATION ARE CAUSING INTERFERENCE TO YOUR T V RECEPTION.

2. INTERFERENCE SUCH AS YOU DESCRIBE IS NOT CAUSED BY HAM OPERATIONS, AS HAM STATIONS CANNOT AND DO NOT CAUSE T V INTERFERENCE. NOR IS THIS INTERFERENCE THE RESULT OF ANY MALFUNCTIONS OF MY EQUIPMENT OR POOR OPERATING HABITS, FOR MY STATIONS IS NOT A HAM STATION.

3. BE ADVISED THAT YOUR GOVERNMENT IS PLACING A $500.00 PER YEAR TAX ON ALL TV RECEIVERS. BECAUSE IT IS DIFFICULT AT THIS DATE TO OBTAIN A LISTING OF TV SET OWNERS FOR TAXATION PURPOSES, OUR GOVERNMENT HAS ESTABLISHED A VAST NETWORK OF TV JAMMING INSTALLATIONS WITH THE GOAL THAT TV SET OWNERS WILL MAKE THEMSELVES KNOWN TO THESE JAMMING STATIONS, SO THAT THEIR NAMES CAN BE ADDED TO THE TAX ROLES. THIS STATION IS JUST SUCH AN INSTALLATION.

4. YOUR GOVERNMENT GREATLY APPRECIATES TURNING YOURSELF IN. YOU WILL BE ONE OF THE FIRST TAXED. YOU HAVE ALSO VERIFIED THAT THIS TV JAMMING EQUIPMENT IS FUNCTIONING PROPERLY. (cont.)

5. WE HAVE MADE NOTE OF THE TIME AND CHANNEL YOU REPORTED THIS JAMMING. THIS INFORMATION WILL BE GIVEN TO SEVERAL TV PROGRAM RATING SERVICES.

6. YOU HAVE THEREFORE PROVIDED A VALUABLE SERVICE TO THE ENTERTAINMENT INDUSTRY AND TO YOUR GOVERNMENT.

7. SO THAT YOU WILL NOT BE THE ONLY ONE TAXED, PLEASE BE PATIENT AS WE CONTINUE OUR TV JAMMING OPERATION.....................

RCT vs: YARC

THE THIRD ANNUAL QSO PARTY WILL BE HELD ON APRIL 8TH (THURSDAY) AT 5PM LOCAL TIME (TACOMA) AND ON APRIL 15TH (THURSDAY).

THE FREQUENCY ELECTED TO BE THE GET TOGETHER FREQUENCY IS 21410 KHz +/- QRM AND WILL BE MONITORED FOR ONE HOUR.

THE YORK ARC MEMBERS WILL BE WORKING FOR OUR RCT LOGGERS CERTIFICATE AND/OR ENDORSEMENT. QSL CARDS FROM THEM ARE REQUIRED TO BE IN GROUPS OF 10 WITH ONLY ONE CONTACT PER MEMBER. WE REQUEST THE YARC MEMBERS PLEASE SEND THEIR LIST VIA W3AMQ.

RCT MEMBERS WILL BE WORKING FOR THE "WHITE ROSE" AWARD. THIS AWARD REQUIRES A QSL CARD FROM 5 YARC MEMBER STATIONS AND TO FACILITATE THE OPERATION, GET THEM TO DOC, W7OS. HE IN TURN WILL FOWARD THE CARDS (PAYING THE POSTAGE) AND YOU WILL RECEIVE YOUR "WHITE ROSE" AWARD CERTIFICATE BY MAIL. IN THIS MANNER WE WILL HELP THE PROGRAM TO FURTHER ADVERTISE OUR "LOGGERS CERTIFICATE" PROGRAM, SO LET'S HELP THE YARC.

THIS WILL BE THE LAST NOTICE REFERENCE THE PARTY SO PLEASE NOTE THE DATES AND HOURS ON YOUR CALENDAR AND GET THAT BEAM POINTED EAST....DOC

IN LAST MONTH'S BARK, I INTIMATED THAT OUR SCIENTIFIC ACCOMPLISHMENTS HAVE DEVELOPED FANTASTIC IN ELECTRONIC EQUIPMENT, WHICH IN TURN HAS MADE OUR LIVES MORE INTERESTING AND CONSEQUENTLY HAPPIER.

IT HAS BEEN "PEOPLE" WHO HAVE DEVELOPED AND ARE THE ONES TO BE ABLE TO ENJOY ITS BENEFITS. JIM KIRKREIT, K7YLM, OUR NEW VICE PRESIDENT IS ONE OF OUR CLUB'S GREAT "PEOPLE". FOLLOWS IS HIS OWN STORY.

WHAT'S A RALLY?

by Claudia Chittim

PRO RALLYING IS A FORM OF AUTO RACING IN WHICH SPECIALLY PREPARED SPORTS CARS RACE, ONE AT A TIME, ON DIRT ROADS AGAINST THE CLOCK. THE RALLY CONSISTS OF A NUMBER OF RACE SECTIONS OR STAGES. THESE ARE GENERALLY 5-20 MILES LONG AND ARE LINKED BY SLOW SECTIONS TO TRANSIT THE CARS FROM ONE RACE SECTION (STAGE) TO THE NEXT.

BESIDES THE SPEED ASPECT, RALLYING ALSO INVOLVES TIMING AND DIRECTION. THERE ARE TWO PEOPLE IN A RALLY CAR AND THE DIVISION OF LABOR IS CLEAR. IT IS THE DRIVER'S RESPONSIBILITY TO DRIVE FAST ON THE STAGES. IT IS THE CO-DRIVER'S RESPONSIBILITY TO MAKE SURE THEY FOLLOW THE PROPER COURSE AND DO IT IN ACCORDANCE WITH THE ORGANIZER'S TIMETABLE. FOR EXAMPLE, WHEN A CAR APPROACHES THE BEGINNING OF A STAGE, THEY ENCOUNTER A CHECKPOINT CREW AT THE START LINE OF THE STAGE. (cont. next page)

THIS CREW ASSIGNS THE CAR A TIME TO BEGIN THE STAGE. WHEN THIS TIME APPROACHES, THE START PERSONNEL COUNT DOWN THE SECONDS, "FIVE..FOUR..-.THREE...TWO...ONE...GO!" THEN AND ONLY THEN, DOES THE CAR ROAR OFF ON THE RACE SECTION. DURING THE SPEED STAGE, THE CO-DRIVER READS OUT THE INSTRUCTIONS AS THEY GO, "RIGHT AT A T INTERSECTION AT 2.5 MILES FROM START... RIGHT AT T IN 1 MILE...RIGHT AT T IN HALF A MILE... RIGHT COMING UP...TURN!" THIS IS NECESSARY BECAUSE THE DRIVER IS GOING AT TOP SPEED AND HAS NO TIME TO CONCENTRATE ON ANYTHING EXCEPT DRIVINMG THE CAR. WHEN THEY FINISH THE GATE THEY ARE TIMED AS THEY CROSS THE FINISH LINE. THE CONTROL PERSONNEL WRITE THEIR TIME ON THE SCORECARD AND ASSIGN THEM A TIME IN WHICH TO COMPLETE THE NEXT TRANSIT. IT IS THE CO-DRIVER'S JOB TO KEEP THE DRIVER INFORMED AS TO THE SCHEDULE. FOR INSTANCE, IF THEY WERE GIVEN 20 MIN. TO TRANSIT 10 MILES, THEY KNOW THEY HAVE TIME TO STOP FOR GAS BUT ONLY BRIEFLY. SPEEDING IS NOT ALLOWED ON THE TRANSIT SECTIONS SO IT IS VITAL THAT THE CO-DRIVER KEEP ON TOP OF THE SITUATION AND NOT ALLOW THEM TO FALL BEHIND. ALSO, IT IS THE CO-DRIVER KEEP ON TOP OF THE SITUATION AND NOT ALLOW THEM TO FALL BEHIND. ALSO, IT IS THE CO-DRIVER'S JOB TO FIGURE THEIR SCORE. THIS IS DONE BY SUBTRACTING THE START TIME FROM THE FINISH TIME ON EACH STAGE. EACH MINUTE IS WORTH 100 POINTS. FOR EXAMPLE:

	START	FINISH	SCORE
STAGE 1	8:00	8:05	500
STAGE 2	8:10	8:20	1000
STAGE 3	8:27	8:35	800

			2300

THE CAR WITH THE LOWEST SCORE WINS. NORMALLY, THE ONLY POINTS ACCRUED ARE ON THE STAGES, HOWEVER, IF A CAR IS FOUND BREAKING A RULE, SUCH AS SPEEDING IN A TRANSIT ZONE, EXTRA POINTS CAN BE ASSESSED. SO, IT IS VERY IMPORTANT TO READ AND UNDERSTAND THE RULES THAT GOVERN THE SERIES AND THAT EVENT IN PARTICULAR. PRACTICALLY EVERY TOP RALLYINST HAS, AT ONE TIME OR ANOTHER, LOST A RALLY BECAUSE OF THIS KIND OF ERROR. SO, WHILE RALLYING IS BASICALLY A FORM OF RACING, THE FUNCTION OF THE CO-DRIVER AND THE LEVEL OF TEAMWORK IS VITAL TO THE SUCCESS OF THE TEAM AS A WHOLE.

WHILE ALL RALLY CARS MUST BE STREET LEGAL, THEY ARE NOT EXACTLY LIKE THE SPORTS CAR YOU MAY HAVE SITTING IN YOUR DRIVEWAY. MOST RALLYISTS START WITH A STOCK CAR AND THEN MODIFY IT TO MAKE IT MORE SUITABLE FOR RALLYING. IN OTHER WORDS, THEY DO EVERYTHING THEY CAN TO MAKE IT MORE DURABLE AND FASTER. THIS GENERALLY INCLUDES STRENGTHENING THE SUSPENSION PIECES, CHANGING

TIRES, FITTING THE CAR WITH A SKID PLATE
THOSE EMBARRASSING MOMENTS WHEN YOU BOTTOM
AND PERHAPS PUTTING IN A FASTER ENGINE.
MODIFICATIONS ARE MANDATED BY THE SCCA RU
ALL RALLY CARS MUST BE FITTED WITH A ROLL
AND 5-POINT SAFETY HARNESSES FOR BOTH DRIVER
CO-DRIVER. THEY ALSO MUST BE EQUIPPED WITH
TAIN SAFETY EQUIPMENT SUCH AS FIRST AID
FLARES OR TRIANGLE, FIRE EXTINGUISHER, ET..
COMPLIANCE IS CHECKED OUT BEFORE EVERY RALL
ENSURE THAT THE SPORT WILL BE SAFE AS POSSI
SO FAR, THE MEASURES TAKEN HAVE BEEN MORE
ADEQUATE SINCE ALTHOUGH THE CARS BASH THROUGH
FOREST AT INCREDIBLE SPEEDS, THERE HAS NEVER
A FATALITY ON A RALLY AND SERIOUS INJURIES
VERY RARE. ROLLOVERS AND BRIEF (AND SOMET
NOT SO BRIEF) EXCURSIONS OFF THE ROAD ARE,
EVER, FAIRLY COMMON. BUT WITH THE SAFETY EQ
MENT AND CAR PREPARATION, THESE INCIDENTS
RARELY VERY DAMAGING EXCEPT TO THE DRIV
PRIDE.

PRO RALLYING IN THE U.S. IS A RELATIVELY Y
SPORT THAT HAS ONLY RECENTLY ATTAINED A T
PROFESSIONAL STATUS. IN EUROPE AND OTHER P
OF THE WORLD, HOWEVER, IT IS HUGELY POPULAR.
EXAMPLE, IN ENGLAND FOR THE RAC RALLY, THE
GANIZERS UTILIZE OVER 7,000 WORKERS TO MAN
TROLS AND MANAGE THE 8 MILLION SPECTATORS
LINE THE ROADS! IN KENYA, FOR THE EAST AFR
SAFARI RALLY, THE CARS ARE FLAGGED OFF BY
COUNTRY'S PRESIDENT AND COURSE CONTROLS ARE
NED BY THE ARMY. IN THE U.S. WE HAVE A 14 E
SERIES SPONSORED BY THE SPORTS CAR CLUB
AMERICA. AN AVERAGE FIELD NUMBERS 60 CARS
THE NUMBER OF SPECTATORS GROWS WITH EVERY EV
THE SPORT NOW ENJOYS REGULAR COVERAGE IN
NATIONAL PRINT MEDIA AND TELEVISION EXPOS
BECAUSE OF THE FACT THAT IT IS ALL CHEAPE
RALLY IN THE U.S. AND THE COMPETITION IS NO
FIERCE AS IN EUROPE, MANY FOREIGN DRIVERS
OPTED TO COMPETE IN THIS COUNTRY IN THE LAST
YEARS. CONSIDERING THE AMERICAN LOVE AFFAIR
THE AUTOMOBILE, IT IS NO WONDER THAT THE
SEEMS TO BE THE LIMIT FOR THIS EXCITING SPORT.

CAUTION

-TRANSISTORS IN SOME TRANSMITTER POWER AMPLIFIERS ARE ENCAPSULATED IN A CERAMIC CALLED BERYLLIUM OXIDE. NO DANGER CAN ARISE FROM NORMAL HANDLING OF THIS MATERIAL IN ITS SOLID FORM BUT IT IS EXTREMELY TOXIC IF PULVERIZED AND IF THE DUST IS INHALED. THE AMOUNT OF BERYLLIUM OXIDE WHICH CAN CAUSE DEATH OR CHRONIC DESEASE IS INCREDIBLY SMALL...ONLY 50 MICROGRAMS PER CUBIC METER. NEVER, UNDER ANY CIRCUMSTANCES, ATTEMPT TO DRILL, FILE, GRIND, POLISH, CUT, BREAK, ETCH OR OTHERWISE MODIFY A PIECE OF THIS CERAMIC. DO NOT DISCARD THESE TRASISTORS IN WASTE, WHICH - THROUGH COMPACTING OR OTHER PROCESSING - MIGHT CAUSE FRACTURE OR ABRASION.

NEW RFI SOURCE

A NEW RFI SOURCE IS BEGINNING TO CAUSE PROBLEMS TO AMATEURS, PARTICULARLY IN RURAL AREAS. THE TROUBLESOME DEVICE IS THE CMH, A MULTIPLEXER THAT PROVIDES EIGHT MULTIPLEXED VOICE CHANNELS OVER A CONVENTIONAL PHONE LINE. THE PROBLEM IS IN ITS SWITCHING-TYPE POWER SUPPLY, WHICH OPERATES AT 79KHz AND GENERATES HARMONICS WELL INTO THE VHF SPECTRUM. THESE HARMONICS ARE RADIATED THROUGH THE PNONE LINES IT IS TIED INTO. CMH--GENERATED INTERFERENCE SHOWS UP ON THE BANDS AS SLIGHTLY UNSTABLE SIGNALS THAT APPEAR EVERY 79KHz. (From Daytona Beach Repeater Assoc., Florida)

SLIVERS & SPLINTERS

THE LOGGERS BARK HAS ITS NEW (USED) PRESS IN PLACE AND THE PRINT THIS MONTH WAS RUN ON IT. THE STAFF OF THE BARK WISH TO THANK THE CLUB MEMBERS FOR THERE SHOW OF APPROVAL BY VOTING TO HELP US ACQUIRE THE PRESS. SCHEDULE FOR W7DK AUTOPATCH CONTROL OPERATORS

March 23,
8304 Luza
Tacoma, W

Dear RCT Members:

In case you have not noticed, the autopatch is up and working well. Naturally we have had a few getting it started but like all such projects, they will be worked out in due time.

Again, I come to you for help in keeping the patch open from 6am to 10 pm each day. For the most are in good shape. Unfortunately, we do have a few holes that need to be filled! In this copy of the you will find a schedule for the monitors and the blank spaces you see in that schedule, could use you in it.

My thanks to Ralph (KA7FIB), who has been filling in the blank spaces on a temporary basis. He h pulling five shifts and doing more than his share folks. If just four of you would step forward and c services, it would be greatly appreciated. The 'job' of monitoring is really no job at all. All you do is have your radio on so you can hear it and then go about your business. The only time you have attention is when the autopatch is brought up or if someone calls for the control operator. About th thing that is required is your time. If you can help us at all, please call me and let me know. The number is 584-4173.

Sincerely,
/s/
John, N7AGC

HOW TO USE THE AUTOPATCH

With many new hams joining the Radio Club of Tacoma and some of the long-time members, who have n an autopatch, you may be wondering just how it is done. Like anything, once you have done it, it is v However, that first time is just like the first time you put out a CQ as a novice...you hope no one he one will answer.

Before using the autopatch, make sure you are within range of the repeater. You want to have a go signal into the repeater so you will be able to hold the repeater during your conversation. If everyt right and you are ready for that first call, just follow the following steps;

1. *Make sure the repeater is not in use. (If the repeater is being used and your call is of an eme nature, ask for a break. Explain the situation and make the call. Calling the wife to tell her be ten minutes late does not constitute an emergency. Use good judgement.)*
2. *Key your mike and state something to the effect: "This is N7AGC accessing autopatch." Then, wit still keyed, punch in the access code 735 on your touch tone pad. Now, unkey your mike and you hear the dial tone.*

3. KEY YOUR MIKE AGAIN AND PUNCH IN THE PHONE NUMBER YOU ARE CALLING. NOW UNKEY YOUR MIKE AND YOU SHOULD HEAR THE PHONE RINGING.
4. WHEN YOUR PARTY ANSWERS, KEY YOUR MIKE AND IDENTIFY YOURSELF AND INFORM THE PARTY YOU HAVE CALLED, THAT YOU ARE CALLING FROM YOUR CAR. (FROM THIS POINT ON, YOUR CONVERSATION WILL BE JUST LIKE A 2 METER CONTACT. YOU HAVE TO KEY YOUR MIKE TO TALK AND UNKEY THE MIKE TO HEAR).

THAT IS ALL THERE IS TO IT. HOWEVER, THERE ARE A COUPLE OF THINGS YOU SHOULD KEEP IN MIND. THERE ARE A FEW RULES YOU MUST ABIDE BY. THE AUTOPATCH HAS A THREE MINUTE TIMER ON IT. THE TIMER STARTS WHEN YOU PUNCH IN THE FIRST DIGIT OF THE NUMBER YOU ARE CALLING. LIKE ALL AMATEUR RADIO, NO BUSINESS CAN BE CONDUCTED ON THE AUTOPATCH. IF YOU CALL A BUSINESS TO TALK TO A FRIEND AND THEY PUT YOU ON HOLD, YOU MUST TERMINATE THE PATCH IF THEIR HOLD LINE PLAYS MUSIC. REMEMBER, AMATEURS CANNOT BROADCAST MUSIC.

THESE ARE THE BASICS OF HOW TO USE YOUR AUTOPATCH. GO AHEAD, TRY IT, YOU'LL LIKE IT.

73,
JOHN, N7AGC

HIS SUBJECT WAS WELL COVERED AND OF SUCH A AT INTEREST TO ALL WHO ENJOYED HIS TALK. A N QUESTION PERIOD FOLLOWED.

THANKS TO JIM KIRKWOOD, K7YLM,OUR VICE PRESI- T FOR MAKING THE ARRANGEMENTS FOR MR SCHOTT TO OUR GUEST SPEAKER OF THE EVENING.

NEW FROM ARRL & WESTLINK REPORT

de:W7BUN

THE ARRL HAS A NEW PRESIDENT AND GENERAL MAN- R. AT THE MARCH 18TH BOARD MEETING IN NEW- TON, VIC CLARK, W4KFC, WAS ELECTED PRESIDENT DAVE SUMNER, K1ZZ, WAS ELECTED GENERAL MANA- DICK BALDWIN, K1RU, WHO RETIRED

(cont. next col.)

AS GENERAL MANAGER AND HAS OVER 30 YEARS WORKING FOR THE LEAGUE, WAS ELECTED VICE PRESIDENT FOR INTERNATIONAL AFFAIRS.

OTHER ACTIONS OF THE BOARD INCLUDE; A PETITION WILL BE SENT TO FCC ASKING THE 20 METER PHONE EXPANSION BE AS FOLLOWS - 14.150 TO 14.175 MHz EXTRAS ONLY; 14.175 TO 14.225 MHz EXTRA AND ADVANCED AND 14.225 TO 14.350 MHz EXTRA, ADVANCED AND GENERAL CLASS. ANOTHER ATTEMPT WILL BE MADE TO PUSH FOR EARLY ALLOCATION OF THE NEW 10 MHz BAND. BOB THURSTON, W7PGY, WAS ELECTED AS DIRECTOR EMERITUS. A STUDY WILL BE MADE TO DETERMINE THE FEASABILITY OF ASKING FOR 10 METER TECHNICIAN PRIVILEGES. A MEMBERSHIP FEE OF 80% THE NORMAL RATE WAS ESTABLISHED FOR LICENSED AMATEURS UNDER 18 YEARS OF AGE. $10,000 WAS GIVEN TO THE ARRL SATELLITE FUND ON A MATCHING FUND BASIS. FULL MINUTES WILL APPEAR IN MAY QST.

AT THE MARCH 17TH ARRL EXECUTIVE COMMITTEE MEETING, THE BOEING EMPLOYEES ARS OF WICHITA (BEARS/0) WERE GIVEN AFFILIATION ALONG WITH 14 OTHER CLUBS. THIS MAKES 1,978 ARRL AFFILIATED CLUBS.

FCC HAS DENIED TWO PETITIONS FOR RULEMAKING. ONE ASKED FOR THE LEGAL POWER INPUT ON 144 TO 144.5 AND 431 TO 433 MHz TO BE RAISED TO 2,000 WATTS D.C. FOR MOON BOUNCE COMMUNICATIONS. THE OTHER ASKED FOR A REDUCTION IN POWER TO 250 WATTS ON THE CW BANDS. THE COMMISSION ALSO CALLED UPON THE AMATEUR FRATERNITY TO FIND NEW SOLUTIONS TO POWER MEASUREMENT TO CHANGE FROM AN INPUT TO AN OUTPUT MEASUREMENT OF P.E.P..

ARRL HAS A NEW LEGAL KIT PAMPHLET WHICH CONSOLIDATES CASES AND MATERIALS FOR ATTORNEYS OR THOSE INTERESTED IN ZONING AND TOWER LITIGATION CASES. (SEE W7BUN IF YOU WISH TO VIEW A COPY OR ORDER FROM THE LEAGUE)

FCC HAS ANNOUNCED IT WILL NOT BE ALLOCATING ANY OF THE NEW WARC BANDS IN THE NEAR FUTURE, SINCE CONGRESS HAS NOT YET RATIFIED THE WARC-79 TREATY AND IT IS UNKNOWN WHEN THIS LEGISLATION WILL BE ACTED ON. MANY NATIONS HAVE PERMITTED AMATEUR ACTIVITIES ON THE 10.1 TO 10.15 MHz BAND, SO FAR ALL ON CW.

KAMARAN, VS9K, HAS BEEN DELETED FROM THE ARRL COUNTRIES LIST FOR DXCC CREDIT, SINCE IT HAS BEEN OCCUPIED BY NORTH YEMEN FOR OVER 10 YEARS.

RENO RALLY REPORT

OVER THE WEEKEND OF DECEMBER 11/14, 1981, NEARLY A HUNDRED RADIO AMATEURS GATHERED IN RENO, NEVADA TO DEMONSTRATE THEIR EFFECTIVENESS IN PROVIDING COMMUNICATIONS IN DIFFICULT AND UNUSUAL CIRCUMSTANCES. THE OCCASION WAS THE FIRST ANNUAL RENO INTERNATIONAL RALLY, AN OFF-ROAD AUTOMOBILE RALLY WHICH ATTRACTED PARTICIPANTS FROM EUROPE,

RENO RALLY (cont.)

SOUTH AFRICA AND NEW ZEALAND, AS WELL AS THE TOP RALLY TEAMS FROM THE UNITED STATES AND CANADA. THE RALLY WAS HELD OVER FOUR DAYS AND SIX HUNDRED MILES OF ROUGH MOUNTAIN AND DESERT ROADS.

THE RENO INTERNATIONAL RALLY WAS BASED ON THE EUROPEAN STYLE OF RALLYS. THERE WERE TWENTY-FIVE PERFORMANCE STAGES, WHERE THE PARTICIPANTS RACED AT THE HIGHEST POSSIBLE SPEED AGAINST THE CLOCK OVER CLOSED OFF ROADS. THE PERFORMANCE STAGES WERE LINKED BY TRANSIT STAGES, WITH STRICTLY ENFORCED (LEGAL) SPEEDS. THERE WERE SERVICE BREAKS SCHEDULED FOR SOME OF THE TRANSITS. EACH NIGHT THE RALLY CARS RETURNED TO RENO FOR A "PARC FERME", AN OVERNIGHT IMPOUND AREA WHERE SERVICE WAS NOT PERMITTED.

AS YOU MIGHT IMAGINE, THE COMMUNICATIONS REQUIREMENTS WERE TREMENDOUS. THE RALLY ORGANIZERS CALLED ON STEVE DIGHTMAN, K7SSC, TO HEAD UP THE COORDINATION. STEVE HAD WORKED RALLYS IN THE PACIFIC NORTHWEST WITH THE RADIO CLUB OF TACOMA AND THESE EFFORTS HAD MADE AMATEUR RADIO AN INDISPENSIBLE COMMUNICATIONS RESOURCE IN THE MINDS OF THE RENO INTERNATIONAL RALLY ORGANIZERS. STEVE WORKED CLOSELY WITH BRUCE ARKELL, WB7UXO AND GARY HASKETT, KA7AKM, TO EVALUATE THE UNIQUE REQUIREMENTS OF THE RENO SITUATION. BRUCE, GARY AND THE RENO AREA (cont. next col.)

RALLY (cont.)

AMATEURS PUT TOGETHER AN ORGANIZATION WHICH A SIZEABLE CONTRIBUTION TO THE SUCCESS OF WHOLE RALLY! AMATEURS WITH RADIO EQUIPPED ERS AND MOTOR HOMES VOLUNTEERED TO SET UP A MOTE SITES OUT ALONG THE RALLY COURSE. O VOLUNTEERED THEMSELVES AND THEIR EQUIPMENT WHATEVER WAS REQUIRED. THE WHOLE COMMUNICA SYSTEM WAS PUT TOGETHER IN SIX SHORT WEEKS; INVOLVED GAINED VALUABLE EXPERIENCE FOR PROV COMMUNICATIONS IN OTHER PUBLIC SERVICE EMERGENCY SITUATIONS.

THE PRIMARY FUNCTION OF THE HAMS AT THE INTERNATIONAL RALLY WAS STAGE COMMUNICATION STATION WAS LOCATED AT THE BEGINNING AND E EACH PERFORMANCE STAGE, USING A 2 METER SI CHANNEL TO RELAY THE START AND FINISH OF PARTICIPANT. IN THIS WAY, THE CARS WERE AC TED FOR AND A POTENTIALLY DANGEROUS SITU COULD BE IDENTIFIED IMMEDIATELY IF A CAR DI FINISH. THE USUAL REASON FOR A FAILURE TO F WAS A MECHANICAL BREAKDOWN.

IN ADDITION TO THE STAGE COMMUNICATIONS, RODE ALONG IN PACE AND SWEEP VEHICLES PROV COMMUNICATIONS AT TRAFFIC CONTROL POINTS SERVICE AREAS. PACE VEHICLES COVERED THE C AHEAD OF THE RALLY CARS TO INSURE THAT THE C WAS CLOSED AND THAT WARNING SIGNS AND OTHER KERS WERE PROPERLY PLACED. WITHOUT THEIR OK PERFORMANCE STAGES COULD NOT BE STARTED.

SWEEP VEHICLES FOLLOWED THE PARTICIPAN LOCATE BROKEN DOWN CARS AND ASSIST IN REM THEM FROM THE COURSE.

TRAFFIC CONTROLS WERE MAINTAINED WHE THERE WAS THE POSSIBILITY THAT NON-RALLY TR MIGHT STRAY ONTO THE COURSE.

ALL OF THESE COMMUNICATIONS FUNCTIONS HA BE COORDINATED. TWO REPEATERS WERE USED WH METER SIMPLEX WAS IMPOSSIBLE. 220 MHz FM ALSO USED. CONTROL STATIONS WERE MAINT VIRTUALLY TWENTY-FOUR HOURS A DAY. ON THE DAY, WITH ESPECIALLY ROUGH TERRAIN, THE CO STATION WAS LOCATED IN AN AIRPLANE FLYING THE RALLY COURSE.

IN ALL OF THESE ACTIVITIES THE NUMBER PRIORITY WAS SAFETY. AMATEUR RADIO COMMU TIONS ENABLED THE FLOW OF INFORMATION ASSISTED OFFICIALS TO CONTROL THE COURSE FO SAFETY OF THE PARTICIPANTS, COURSE WOR SPECTATORS AND THE GENERAL PUBLIC. WI EFFECTIVE COMMUNICATIONS SUCH AN EVENT COUL BE HELD. FOR THOSE OF US WHO PARTICIPATE WAS A GREAT OPPORTUNITY TO BE PART OF AN EXC EVENT AS WELL AS A CHANCE TO IMPROVE OUR CO ICATIONS SKILLS AND DEMONSTRATE THE EFFECTIV OF AMATEUR RADIO.

MEMBERS VACATION REPORT

de:WB7QCW

DOREEN, KA7MIC AND I HAD A FANTASTIC VACATION TO JAPAN AND GUAM THIS LAST MARCH. WE CAN THANK THE AMATEUR RADIO OPERATORS OF BOTH ISLANDS FOR THE SUCCESS OF OUR VISIT.

Doreen, Bud and Toshio JA1DSR in Toshio's shack

(Cont.)

KEN TAKEMURA, JR3VII AND HIS WIFE WERE
GRACIOUS. KEN MET US AT THE SHIN ASHIYA ST
(RIDING THE BULLET IS A REAL EXPERIENCE) AN
CORTED US AROUND THE KOBE-ASHIYA AREA SIGH
ING. KOBE IS A BEAUTIFUL MODERN CITY AND
IN THIS COLUMN WOULD NOT DO JUSTICE DESCR
ALL THE ATTRACTIONS.

THE EVENING OF MARCH 18TH WAS A SPECIAL T
KEN INVITED DOREEN AND I AND HIS LONG
FRIEND, TATSUP TAKEUCHI, JR3DLW, TO HIS HOME
A KOBE BEEF DINNER. WE HAD A HOT SAKI TOA
AMATEUR RADIO, TO JAPANESE/AMERICAN RELATION
A FEW OTHER TOASTS BEFORE KEN PREPARED THE
NER, JAPANIESE STYLE, IN THE CENTER OF THE TA

KEN, IT WAS MAGNIFICENT. LATER, MRS. TAK
PLAYED THE GUITAR FOR US. AFTERWARD WE DR
OFF TO KENS'S HAM SHACK AND MADE A FEW CON
WITH AUSTRALIA. (KEN HAS THE DRAKE LINE
GEAR). LATER, MRS. TAKEMURA PREPARED A
DESSERT SHAPED LIKE A FLOWER WITH AN ICE-
CENTER.

KEN CREDITS TATSUO, JR3DLW (FORMERLY J3D

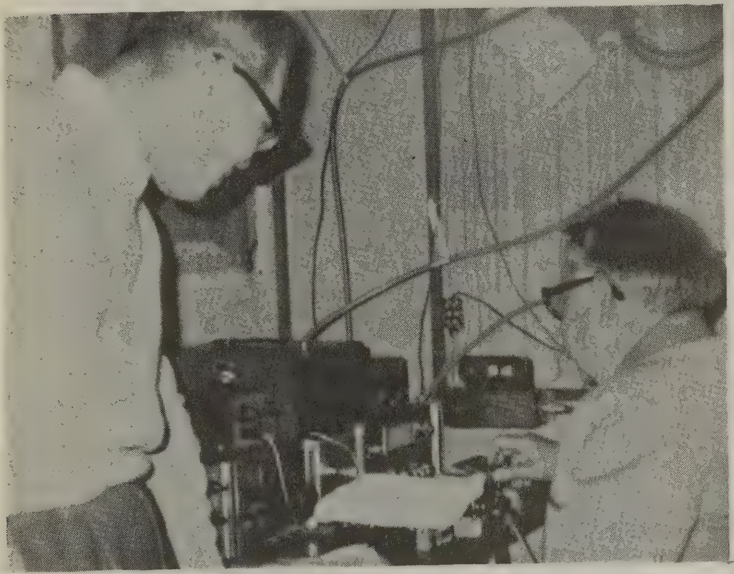
(Japan trip cont.)

BEFORE OUR DEPARTURE FOR GUAM, KIYO AND HIS WIFE HAD US VISIT THEIR HOME FOR A "LITTLE LUNCH". IT TURNED OUT TO BE A SEVEN COURSE, JAPANESE STYLE DINNER. EXCELLENT!



Ken and Budd in Ken's amateur radio shack

TOSHIO HAD OUR JAPAN VISIT ALL PLANNED AND SCHEDULED. OUR HOTEL RESERVATIONS WERE MADE IN ADVANCE, OUR TRAIN TRIPS PLANNED AND "MUST SEE" POINTS MAPPED AND SPELLED OUT JUST HOW TO GET THERE. WE WERE IN TOKYO TWO DAYS AND WITHOUT TOSHIO'S HELP, WE WOULD HAVE BEEN THOROUGHLY LOST AND MISSED ALL THE POINTS OF INTEREST.

TOSHIO AND I MET ONE EVENING ON 10 METERS AND IMMEDIATELY BECAME FRIENDS. I WROTE TO HIM AND HE WROTE TO ME. OUR LETTERS CROSSED SOMEWHERE IN THE PACIFIC AND WE HAVE KEPT IN TOUCH EVER SINCE.

KEN, TATSUO, TOSHIO, KIYO AND ON GUAM BILL AH2L, RICK KH2AP, GARY WH2ADA, PAUL KG6RN AND ALL THE HAMS AT THE TRACKING STATION AT ANDERSEN AIR FORCE BASE, THANK YOU SO VERY,VERY MUCH FOR YOUR HOSPITALITY.

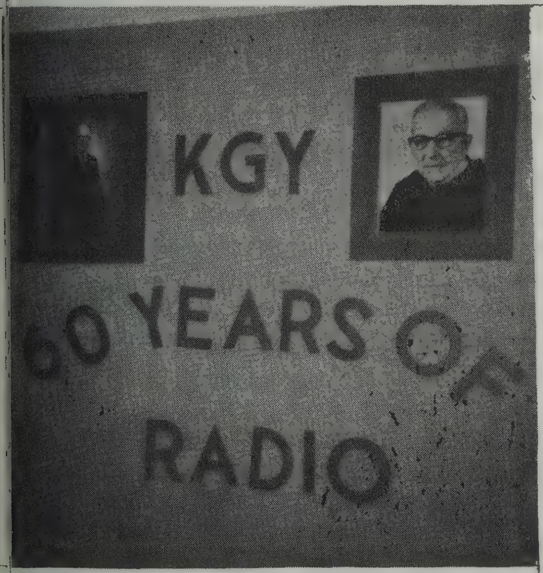
L REUTER,W7KT, OF VASHON ISLAND HAD US ALL D FOR A BIT FOLLOWING A REPORT HE HAD BEEN SEATTLE HOSPITAL FOR A FEW DAYS. BILL, CUTTING HIS LAWN, BECAME ILL BUT WITH QUICK L CARE, HE IS NOW BACK HOME AND THE LATEST HE IS FEELING FINE BUT WITH ORDERS NOT TO O. BILL'S FIRST RECORD WITH THE RCT DATES O FEBRUARY 26, 1926 WHEN HE JOINED THE CLUB BER 170.

WELLS, WA7UNF, IS REPORTING THE ACQUISI- F SEVERAL OLD TIME RECEIVERS. AN AC DALTON 5 TUBES (301) CUNNINGHAM TUBE AND A WARDS NE. WE ARE GLAD TO HEAR FROM PAT.

NN R STEWART W7EG (SILENT KEY) FROM BURG WAS REPORTED IN ERROR. HIS NAME WAS ENLY REPORTED LAST MONTH'S LOGGERS BARK AS R SHERWOOD W7GR. I AM VERY EMBARRASED FOR GLENN VERY WELL. MY APPOLOGIES. ALL THE OF THE INFORMATION WAS CORRECT. WE WILL LENN R. STEWART, W7EG, VERY MUCH.

HARD (DICK) RYAN, W7RGD. LAST MONTH IT WAS CED THAT DICK WAS SELECTED BY THAT ILLUS- GROUP OF RECIPIENTS OF THE 'DOC SPIKE IN- ION AWARD' TO RECEIVE THE 1982 PLAQUE AND ICATE. IT IS AN HONOR TRULY DESERVED AND PRESENTED BY MARVIN WHEELER, KG7V. IT ME GREAT PLEASURE TO CONGRATULATE DICK.



ASTIAN RUTH, W7YS,(RCT MEMBER #76) WAS RECORDED AS JOING THE CLUB SEPTEMBER 28, ND BECAME A "SILENT KEY" IN 1958. HE HAS ONORED DURING THE 60 YEAR CELEBRATION OF LYMPIA RADIO STATION, KGY. A COMMITTEE OF ANAGEMENT OF KGY, OLYMPIA BUSINESS MEN, MARTIN COLLEGE ADMINSTRATORS AND HEADED BY ROWN W7CKZ (PUBLIC RELATIONS REPRESENTATIVE L) CONCEIVED THE IDEA TO CELEBRATE THE 60 OF KGY RADIO. (cont. next col.)

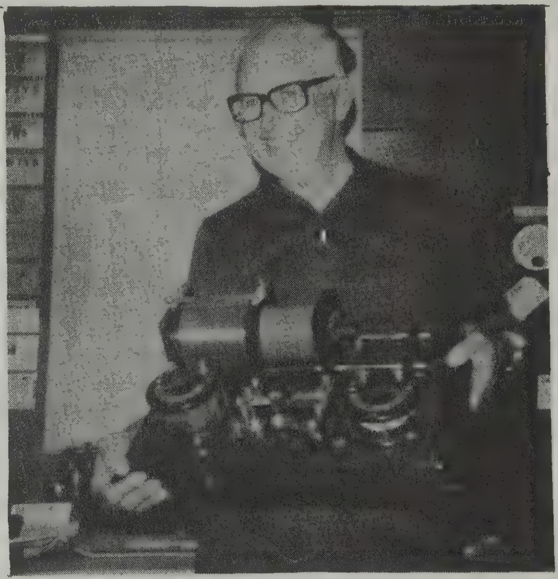
Alumni (cont.)

IT ALL STARTED WITH THE EXPERIMENTATION AND EARLY AMATEUR RADIO ACTIVITY OF FATHER SEBASTIAN RUTH. THE FIRST CALL WAS 7CM AND LATER CHANGED TO 7YS (AS AN EXPERIMENTAL LICENSE) AND FINALLY AS W7YS.

MOST KNOW THE INTERESTING STORY OF W7YS. THE PRESENT CELEBRATION CONSISTED OF RE-CONSTRUCTING THE ORIGINAL 7YS, LONG AND SHORT WAVE AMATEUR RADIO STATION FROM PICTURES, ALONG WITH THE VARIOUS HISTORICAL ADVANCEMENT OF KGY THROUGH OUT THE LATTER PART OF THE 60 YEARS.

DURING THE MONTH OF APRIL, AT THE LACEY MUSEUM, ALL THE OLD RADIOS, INCLUDING THE ORIGINAL MURDOCK RECEIVER LOANED BY W7DJ, EARL THORN. ALSO A HALF DOZEN ANTIQUE WIRELESS PIECES WERE LOANED BY THE RCT MUSEUM FOR DISPLAY.

ONE OF THE UNIQUE FEATURES OF THE 60 YEAR CELEBRATION, WAS THE PARTICIPATION OF THE PRESENT HOLDER OF THE CALL W7YS. MR. WILLIAM G SCHUCHMAN (BILL) OF 1400 N WAKONDA ST, FLAGSTAFF ARIZONA, WHO CAME FROM FLAGSTAFF TO PARTICIPATE APRIL 18TH-APRIL 25TH USING HIS PRESENT CALL, W7YS. WITH HIS COOPERATION THE OLD CALL WAS BROUGHT BACK TO LIFE.



BILL IS A RETIRED ARMY COMMUNICATOR, HAVING RECEIVED HIS FIRST CALL, W9ACG IN FORT WAYNE IN 1940. HE WAS IN THE ARMY SIGNAL CORP. 1942 AND OPERATED WAR FROM 1945 TO 1957 AS A CIVILIAN SIGNAL CORP. HE RETIRED IN 1974. HE IS AN EXCELLENT CW OPERATOR AND VERY PROUD OF THE HISTORY OF W7YS.

WHILE AT THE MUSEUM, HE OPERATED EVERY AFTERNOON, WORKING MANY STATES AND SEVERAL COUNTRIES. LOCALLY, HE CONTACTED MANY OF THE RCT MEMBERS AND HOPES TO RECEIVE OUR LOGGERS CERTIFICATE. HE OPERATES AS AN EXTRA CLASS AND CAN BE FOUND ON OR ABOUT 7030 TO 7040. WOULD LIKE TO WORK MORE OF THE RCT MEMBERS. IF YOU CONTACT HIM, PLEASE PASS THE WORD ONTO DOC, W7OS.

QSO PARTY

THE YORK AMATEUR RADIO CLUB AND THE RADIO CLUB OF TACOMA HAVE FINISHED OUR SPRING, 1982, QSO PARTY. THE INSPIRATION FOR THE PARTY WAS THE RCT LOGGERS CERTIFICATE AND THE YARC 'WHITE ROSE' AWARD. THE FINAL DATE (15TH) TURNED OUT JUST IN TIME WITH THE 15 METER BAND GONE AT THAT TIME OF DAY FOR SUMMER. WE TRIED AGAIN ON THE 22 OF APRIL BUT IT WAS A TOTAL FAILURE. I SUSPECT THAT WE WILL HAVE ANOTHER OPORTUNITY. THE WASHINGTON STATE QSO PARTY, WHICH IS ALWAYS HELD IN SEPTEMBER. MORE DETAILS IN THE AUGUST ISSUE OF THE LOGGERS BARK.

THANKS TO ALL FROM DOC SPIKE, W7OS, AND COMMITTEE..................................W7OS

NEWS FROM ARRL & THE WESTLINK REPORT

de:W7BUN

ARRL HAS AGAIN ASKED FCC TO REVIEW THEIR DECISION DENYING AMATEURS ACCESS TO THE NEW 10.1 TO 10.15 MHz BAND. THE LEAGUE HAS ALSO ASKED FOR AN EXTENSION OF THE COMMENT TIME IN DOCKET 82-83, THE POSSIBLE EXPANSION OF THE HF PHONE BANDS. PRESENT DEADLINE IS JULY 1. ARRL IS ASKING FOR AN AUGUST 16 DEADLINE.

THE MURA CORPORATION AND THE EIA HAVE ASKED FCC FOR 46.6 - 47 AND 49.6 - 50 MHz SEGMENTS FOR CORDLESS PHONES. ARRL HAS FILED COMMENTS TO RE-INFORCE THE IDEA THAT THE PRESENT (cont.)

News (cont.)

1.6 - 2.0 MHz IS UNSUITABLE BUT ALSO SUGGES THAT ADJACENT CHANNEL INTERFERENCE TO 6-M AMA OPERATIONS MIGHT BE A PROBLEM.

FCC CHAIRMAN, MARK FOWLER, IS QUOTED AS ING, "WE NEED TO ENCOURAGE AMATEURS TO DEV NEW TECHNOLOGIES BY LIBERAL POLICIES THAT COURAGE THEM RATHER THAN REPRESS OR REST THEM. WE MIGHT WANT TO CONSIDER RELAXING ENTRY STANDARDS". WHILE FCC IS STILL IN FAVO A CODE-FREE AMATEUR LICENSE IN THE NEAR FUT ARRL HAS ADOPTED A POSITION STRONGLY OPPO THIS MOVE. WHEN ARRL LAST POLLED ITS MEMB THE MESSAGE WAS CLEAR - A GREAT MAJORITY WER GAINST ANY AMATEUR LICENSE WITHOUT AT LEAST CODE EXAMINATION.

FCC HAS DELETED TWO SECTIONS OF ITS RU PART 97.74, WHICH PROVIDED FOR A LICENSEE MEASURE HIS TRANSMITTED FREQUENCY AND PART 97 WHICH REQUIRED ADEQUATELY FILTERED DC ON TRANSMITTER BELOW 144 MHz., WERE BOTH CONSID AS SIMPLY "GOOD OPERATING PROCEDURES" BY COMMISSION.

THE OLD "1ST AND 2ND" CLASS RADIOTELEP LICENSES HAVE BEEN REPLACED BY THE NEW "GEN RADIOTELEPHONE OPERATOR'S LICENSE" WHICH NOW A NEW EXAM. TO OBTAIN A GRT LICENSE AN APPLI MUST PASS A TEST OF THE SAME DIFFICULTY AS OF THE PREVIOUS "2ND" CLASS TEST. ALSO, FCC DELETED THE REQUIREMENT THAT C.B. OPERATORS TAIN AND KEEP A COPY OF PART 95, THE C.B. R AND REGULATIONS.

THE RETURN PERIOD FOR NOVICE EXAMS HAS CHANGED FROM 30 TO 60 DAYS. THIS SHOULD HELPFUL TO CLUBS AND SCHOOLS WHO ORDER THE E IN "BULK" FOR AMATEUR TRAINING COURSES.

CANADIANS WILL COMMEMORATE THE ACTIVATIO THEIR CONSTITUTION BY USING THE PREF VC1-VC8-CK1-CY1 AND CY2 THROUGH MAY 31ST.

ALL PUBLIC SERVICE NETS WISHING TO BE LI IN THE NEW EDITION OF THE ARRL NET DIRECTORY REGISTER BY JUNE 1. ALL LOCAL NETS MUST REGI WITH THE SCM (WA7RWK) AND WIDE AREA NETS CAN TAIN FROM CD-85 FROM ARRL HEADQUARTERS FO S.A.S.E..

FCC HAS ANNOUNCED A GRACE PERIOD FOR AMAT WHO WANT TO CONVERT A SECONDARY CALLSIGN TO T PRIMARY STATION LICENSE. THE LICENSEE MUST A BEFORE OR WITHIN ONE YEAR AFTER, THE SECON LICENSE EXPIRES. SECONDARY STATIONS, AS S WILL NOT BE RENEWED.

FIELD DAY 1982

KG7V

EACH YEAR WE HAVE AN OPPORTUNITY, AS A CLUB GROUP, TO HAVE A WEEK-END CAMPING TRIP WHILE SHARPENING OUR OPERATING SKILLS. THIS YEAR THAT OPPORTUNITY OCCURS ON JUNE 26 AND 27.

FIELD DAY PRESENTS OPPORTUNITIES FOR MOST FACETS OF THE HOBBY, i.e.ANTENNA ERECTION, MESSAGE HANDLING AND PHONE AND C.W. OPERATING UNDER LESS THAN OPTIMUM CONDITIONS. (BARELY-WHO AT HOME, HAS FIVE ELEMENT MONOBANDERS?)

THIS YEAR WE WILL BE OPERATING FROM THE GROUNDS OF THE KEY CENTER PENINSULA MIDDLE SCHOOL, WHICH IS LOCATED APPROXIMATELY 2.5 MILES SOUTH OF KEY CENTER. THE FACILITIES ARE VERY NICE, INCLUDING INDOOR PLUMBING AND PROVIDES ADEQUATE AREA FOR THE ERECTION OF RARE AND EXOTIC ANTENNAS AND MAXIMUM SEPARATION OF STATIONS TO PREVENT INTERFERENCE.

TRADITIONALLY, THE LADIES AUXILIARY HAS GRACIOUSLY PROVIDED FOR THE PREPARATION AND SERVING OF THE FOOD. MEALS INCLUDE THE EVENING MEAL SATURDAY AND A MIDNIGHT SNACK, BREAKFAST AND LUNCH ON SUNDAY. THIS YEAR PART OF THE "CREW" HAVE OTHER COMMITMENTS AND VOLUNTEERS ARE NEEDED TO AUGMENT THOSE WHO HAVE AGREED TO FEED THE HUNGRY MASSES. IF YOU ARE NOT INTERESTED IN OPERATING A STATION AND WOULD LIKE TO VOLUNTEER FOR ONE MEAL OR ANY PORTION OF THE MEALS OR IF YOUR XYL WOULD LIKE TO HELP, PLEASE CONTACT IRMA, W7OVW OR MYSELF AND LET US KNOW.

IF YOU ARE ONE OF THE FORTUNATE WHO HAVE A TRAILER OR MOTOR HOME AND WOULD ALLOW IT TO BE USED TO OPERATE A STATION FROM, PLEASE CONTACT ME. WE HAVE A SEVERE SHORTAGE THIS YEAR AND ANY HELP WILL BE GREATLY APPRECIATED.

THIS IS A FUN WEEK-END AND YOU ARE INVITED TO BE A PART OF THE ACTIVITY. THERE ARE SPACES FOR ANY LICENSED AMATEUR, WHO IS A CLUB MEMBER.

AUXILIARY NEWS

THE NEXT MEETING OF THE AUXILIARY WIL WEDNESDAY, JUNE 15TH AT 7:30 PM AT THE CLUBHO 1249 SOUTH WASHINGTON STREET.

WASN'T THAT A NICE MOTHER'S DAY BREAKFAST? IS REALLY GREAT TO BE HONORED AND HAVE THOSE FELLOWS DO THE COOKING AND THE SERVING AND THE DISHES. WE ALL APPRECIATED THEIR EFF VERY MUCH. THE TURN-OUT, OF ABOUT 92, MADE PAYING PROJECT, SO MAYBE IF WE'RE LUCKY THEY DO IT AGAIN NEXT YEAR.

OUR MAY PROGRAM GAVE US A BETTER UNDERSTAN OF DIABETES AND BROWNIE BRAUNSTEINER WAS AN CELLENT REPRESENTATIVE AND MADE US ALL FEE HOME WITH HIS DESIRE TO ANSWER ANY OF OUR Q TIONS AND SHARING HIS EXPERIENCES AS A DIAB THE LAST SIX YEARS. THOSE OF US WHO WISHED, GIVEN A BLOOD/SUGAR TEST, AS A PRELIMINARY G TO OUR SUSCEPTIBILITY. IT WAS AN EVENING SPENT BUT WE WERE EVER MORE CONSCIOUS OF WHA WERE DOING WHEN WE PARTOOK IN THE GOODIES TYKIE RAWLINGS HAD FOR US.

AT THE JUNE MEETING WE WILL LEARN WHO WON PINOCHLE PRIZES FOR THE YEAR. WE WILL FINA WHATEVER THE NEEDS ARE FOR FIELD DAY AND WE VISIT. NO PROGRAM IS SCHEDULED. WE REALLY NEED MORE THAN EIGHT PEOPLE TO EXPECT SOMEONE COME AND GIVE US THEIR TIME.

HOPE TO SEE YOU AT THE MEETING....ETHEL DEV

NEWS FROM ARRL & WESTLINK REPORT

de:W7BUN

FCC HAS EXTENDED TO AUGUST 16 THE TIME FOR COMMENTS IN DOCKET 82-83, WHICH PROPOSES 20-M PHONE BAND EXPANSION DOWN TO 14.150MHz. THE DOCKET ALSO ASKS FOR VIEWS ON EXPANDING OTHER PHONE BANDS AND ON INCENTIVES TO UPGRADE. THE FULL TEXT OF THE DOCKET IS IN MAY QST AND THE EDITORIAL IN THAT ISSUE ALSO ADDRESSES THE SUBJECT.

THE NOVICE EXAM RETURN TIME HAS BEEN EXTENDED FROM 30 TO 60 DAYS. THIS SHOULD AID THOSE WHO ORDER EXAMS IN BULK FOR AMATEUR CLASSES.

H.R.5008 HAS BEEN ADOPTED BY THE U.S. HOUSE TELECOMMUNICATIONS SUBCOMMITTEE AND IS STILL INTACT WITH PROVISIONS FOR FCC TO SET RFI STANDARDS FOR CONSUMER ELECTRONIC PRODUCTS. THIS IS SIMILAR TO SEN. GOLDWATER'S BILL (S-929) AND NOW MUST PASS THE FULL HOUSE AND THEN BE RECONCILED WITH THE SENATE VERSION BEFORE GOING TO THE PRESIDENT FOR HIS SIGNATURE. THERE IS STILL STRONG OPPOSITION BY THE POWERFUL EIA LOBBY.

MONTANA IS THE LATEST STATE TO ADOPT THE "PACIFIC NORTHWEST" 20 KHz TWO METER SPLIT SYSTEM. EXISTING REPEATERS WILL NOT BE REQUIRED TO CHANGE FREQUENCY BUT NO NEW REPEATERS WILL BE COORDINATED ONTO 30 KHz PAIRS.

ON MAY 17, TWO RUSSIAN COSMONAUTS PUSHED THE 62# "ISKRA 2" THROUGH THE AIRLOCK OF THEIR SOLYUT 7 SPACE CRAFT TO PUT A NEW AMATEUR SATELLITE INTO ORBIT. IT IS BELIEVED THAT THIS SATELLITE WILL TRANSLATE 15-M SIGNALS TO 10-M BUT DETAILS AREN'T AVAILABLE AT PRESS TIME.

QEX, THE ARRL'S EXPERIMENTERS' EXCHANGE NEWSLETTER, BECOMES A MONTHLY PUBLICATION WITH THE MAY ISSUE. RATES ARE $6.00 PER YEAR FOR ARRL MEMBERS AND $12.00 PER YEAR FOR NON-MEMBERS.

INDUSTRY NEWS:

ICOM--HAS A NEW 6-M ALL-MODE TRANSCEIVER, THE IC-505 AND A NEW HF TRANSCEIVER, THE IC-740.

THE LUNNAR LETTER IS A NEW MONTHLY MAGAZINE FOR VHF/UHF EXPERIMENTERS WITH EMPHASIS ON EME WORK AND IS AVAILABLE FROM KI7D FOR $7.50 PER YEAR.

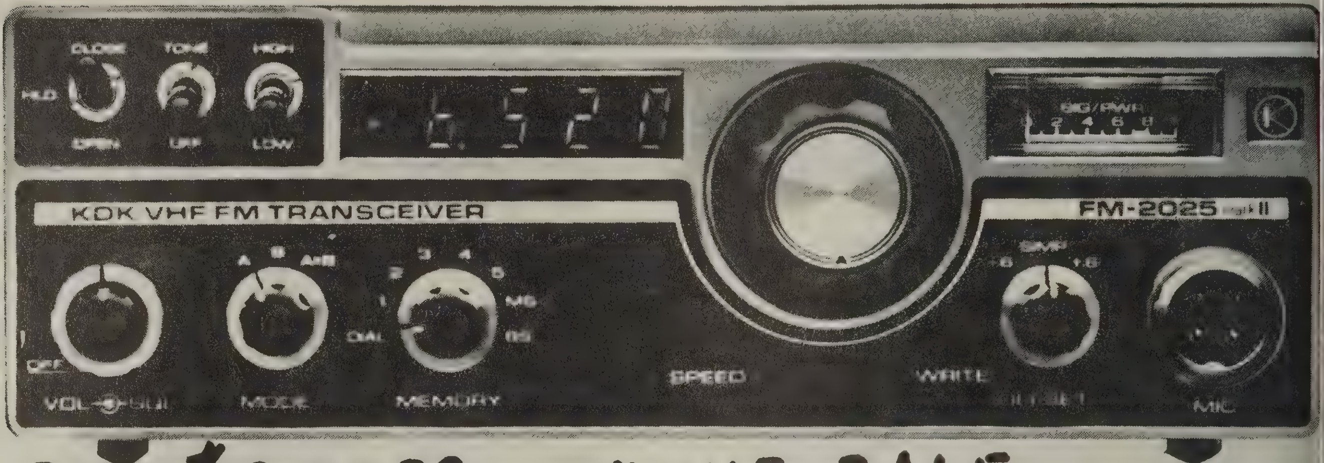
KDK MAKES 2 METER FM SIMPLE AND EASY!

KD

NORTHWEST RADIO SUPPLY
475-2619



REG. $299.00 JUNE SALE $279.00

KDK INTRODUCES A NEW GENERATION OF 2 METER FM RADIOS.
THE SPARKLING 2025A MKII IS LOADED WITH FEATURES. EASE OF OPERATION IS THE DESIGN CONCEPT AT K

FREE TTP MIKE

- Features such as ten channel memory in two banks of five each, a solid 25 watts of power, full MARS and CAP coverage from 143.000 Mhz to 148.995 Mhz, plus built in memory retention for up to one year . . . and much, much more makes this the radio of the year.
- If you have been waiting to move up to a new model, or have wished for a radio with "everything" . . . KDK has it!
- The ten channel memory is easily addressable and you have two banks of five channels each. You can even use both banks at once for odd splits.
- Standard 600 hz shift up or down — plus factory available boards for foreign shifts. Your 2025A is never obsolete!
- Band scan or memory scan. Memory scan is easy. There is also band scan with upper and lower limits you can choose yourself!
- Built in nicads for the memory retention which has drain in nano-amps, not milli-amps. The internal battery will hold the memory for up to one year! No other radio offers you this feature.
- Fast and easy dialing. Full solid state dialing and you can choose from the front panel either a fast or slow dial rate.
- No relays are used, only solid state switching. This eliminates a trouble spot many radios encounter.
- KDK has also eliminated another trouble spot by completely hand wiring each radio. No internal plugs to become intermittant and no wire wraps either, just good solid wiring.
- KDK gives you one of the hottest receivers you can find. By using UHF (not VHF) dual gate MOS-FETs with electronic auto tuning for the RF amplifier and the first mixer, you have a combination of ultra sensitivity and maximum quietness.
- The squelch on the 2025A MkII is highly sensitive and front panel adjustable, use it for ultra-DX or super local.
- The audio output stage in the 2025A MkII uses an inte circuit which has internal protection against over-voltag shorted output conditions. Plus, it is a high audio output c just what you need in a noisy mobile situation.
- The transmitter uses direct VCO varicap modulation fo FM. Your transmitted audio sounds as it should; crisp, cle natural.
- The power output stage of the 2025A MkII will not down even with an infinite VSWR load, and uses heavy solid state antenna switching with a four stage low pass filt this gives you an exceptionally clean, spur free output.
- KDK has included an adjustable sub audible tone circuit can also be used for CTCSS or tone burst on transmit. more features!
- Size is 2 7/10" high, 7 1/8" wide, and 9 1/2" deep.
- You can switch from 25 watts to 3 watts low
- And, of course, the DC cable is included along wit matching microphone and mobile mounting bracket. A encoder microphone is also available to match and is, nat pre-wired.

KGY RADIO OLYMPIA

STATION KGY IN OLYMPIA HAS MAILED TO RCT, VIA W7OS, A LETTER OF GRATITUDE FOR THE PART RCT PLAYED IN KGY's CELEBRATION DURING THE WEEK OF APRIL 18, HONORING 7YS AND FATHER SEBASTIAN RUTH.

RUTH STARTED THE BROADCASTING STATION (7YS) WHICH LATER BECAME KGY.

THEY SET UP A MUSEUM, IN LACEY (A REPLICA OF THE ORIGINAL 7YS) WITH OTHER EARLY GEAR, PICTURES AND HISTORY. THE RADIO CLUB OF TACOMA, THROUGH OUR MUSEUM, PROVIDED SOME OF OUR EARLY RADIO GEAR TO HELP WITH THEIR DISPLAY.

BILL SCHUCHMAN (THE PRESENT HOLDER OF THE CALL W7YS) CAME FROM FLAGSTAFF ARIZONA TO OPERATE THE STATION DURING THE SPECIAL WEEK. WHILE HERE, BILL EARNED ONE OF OUR "LOGGER CERTIFICATES". THIS LETTER OF APPRECIATION WAS READ AT THE RCT MEETING, MAY 25TH..

RAY ETHERINGTON, W7FNC

IT'S OFFICIAL NOW AND WE CAN REPORT THAT RAY WAS DULY INSTALLED AS CHAIRMAN OF THE NORTHWEST CHAPTER QUARTER CENTURY WIRELESS ASSOCIATION AT THE ANNUAL MEETING JUNE 19TH AT THE FIFE, HOLIDAY INN.

RAY RECEIVED THE TIME HONORED GAVEL OF AUTHORITY, WHICH WAS HAND FASHIONED BY JOHN INGWERSEN, W7CS OF SUN CITY ARIZONA (FORMERLY OF SEATTLE). THAT CALL WAS MY OWN CALL SEVERAL YEARS BACK (7CS).

RAY SUCCEEDS CAL MORGAN, W7SFT, THE IMMEDIATE PAST CHAIRMAN, WHO FINISHED A SUCCESSFUL YEAR 1981-1982. THERE WERE 75 MEMBERS AND THEIR WIVES ATTENDING THE BANQUET. WE WERE ELEGANTLY ENTERTAINED BY THE PAT WEST GROUP OF HAMS WHO VISITED CHINA. I HAVE HEARD THEIR PROGRAM THREE TIMES AND EACH TIME IT IS ANOTHER INTERESTING APPROACH TO THE LIVELY PICTURES OF THEIR EXCITING EXPERIENCES ON THEIR CHINA VISIT.

THERE ARE ABOUT 22 MEMBERS OF QCWA, WHO ARE MEMBERS OF RCT AND MORE TO COME SOON.

BEST WISHES RAY FOR A SUCCESSFUL YEAR AS CHAIRMAN OF NW CHAPTER QCWA.

FRANK HELD PREVIOUS CALLS WB5ERI AND I1AB. JOINED THE RCT ON AUGUST 5, 1981 (#1016). I JUST NOW CATCHING UP WITH FRANK AND I'M SURE CAN'T GUESS HOW -?

SOME TIME BACK I RECEIVED SOME INTEREST MAIL, MOST OF WHICH I WAS NOT ELIGIBLE FOR ONE THING CAUGHT MY EYE. TO BE ELIGIBLE TO FILIATE WITH "THE OZONE CLUB" YOU HAD TO OPERATED A SPARK GAP TRANSMITTER. SOME ONE SUBMITTED MY NAME! I DID ANSWER, SUGGESTING I WAS INTERESTED. TODAY, I RECEIVED A ROS LIST WITH 222 MEMBERS AND MY NAME APPEARS ON LIST AS THE 222ND MEMBER. LOOKING BACK AT NUM 221, HOW COULD I HAVE GUESSED THAT THE N7CZV, WOULD QUALIFY AND BE ONE OF OUR OWN MEMBERS (#1016)? I NEED TO GET BETTER ACQUAIN WITH FRANK AND SEE IF HE MIGHT HAVE OPERATED EARLIER MODEL FORD SPARK COIL THAN 'OLE' SPIKE USED. LET'S GET TOGETHER AND COMPARE GALENA CRYSTALS FRANK AND MAYBE THERE ARE OTHER SPARK PLUGS IN OUR RCT WHO DARE TO BEEPING OUR SPARKS! HI. LET'S HEAR FROM THEM.

NEWS FROM ARRL & WESTLINK REKPORT

by:W7BUN

H.R.5008 CLEARED THE HOUSE ENERGY AND COMMERCE COMMITTEE AND WAS SENT TO THE FULL HOUSE ON JUNE 2ND. IT IS PREDICTED TO PASS WITH MINIMUM DIFFICULTY. THIS BILL AUTHORIZES FCC TO REQUIRE MORE RESISTANCE TO RFI ON HOME ELECTRONIC DEVICES. (ESPECIALLY T-V SETS)

OF THE APPROXIMATELY 2,000 RESIDENTS OF THE FALKLAND ISLANDS (VP8), ABOUT 300 ARE HAMS - THE HIGHEST PER CAPITA HAM POPULATION IN THE WORLD. EVEN THOUGH THE ARGENTINE MILITARY HAD CONFISCATED ALL RADIO EQUIPMENT, SOME MAKE-SHIFT STATIONS HAVE BEEN PUT ON THE AIR AND QSO's HAVE BEEN REPORTED BY SCOTTISH AND ENGLISH AMATEURS.

IN THE MOVIE "E.T.-THE EXTRA TERRESTRIAL", THE COMMUNICATIONS DEVICE USED BY THE FILM'S CENTRAL CHARACTER, WAS BUILT BY K2SSQ FROM HAM RADIO EQUIPMENT.

TWO WELL-KNOWN AMATEURS HAVE DIED. JIM LAWSON, W2PV, WELL KNOWN FOR HIS "SUPER CLASS" CONTEST STATION AND HIS MANY ARTICLES ON ANTENNA THEORY AND CONSTRUCTION, BECAME A 'SILENT KEY' IN EARLY JUNE. JESSE BIEBERMAN, W3KT, THE ARRL ATLANTIC DIVISION DIRECTOR, PASSED AWAY IN LATE MAY.

IN NORTH CAROLINA, A NEWLY LICENSED HAM WAS KILLED INSTANTLY WHEN THE ANTENNA HE WAS RAISING ACCIDENTLY TOUCHED A LIVE 220v POWER LINE. WE ARE ALL REMINDED HOW IMPORTANT IT IS TO BE CAREFUL WHEN WORKING NEAR LIVE POWER LINES.

OPEN LETTER TO RCT, LOGGERS BARK:
REF: R.A.T.S.

I BELIEVE THAT THE RCT HAS BEEN INFILTRATED BY THEM. I HAVE BEEN A DUES PAYING,,,,R.A.T. FOR SEVERAL YEARS. I HAVE YET TO GET A RECEIPT, A CERTIFICATE OR ANYTHING ELSE FOR MY HARD EARNED MONEY. I WON'T MENTION ANY NAMES BUT K7CYZ SCOTTY, PROMISED HE WOULD TAKE CARE OF ALL THIS, NOTHING HAPPENED. W7OVW IRMA WAS APPROACHED AND SHE WAS TOLD MY SAD STORY, AGAIN A PROMISE THAT IT WOULD BE TAKEN CARE OF AND CORRECTED. THAT WAS NEARLY A YEAR AGO AT HAM FAIR. STILL NOTHING.

I PROUDLY WEAR MY R.A.T.S. BUTTON (WHEN I REMEMBER IT). I GET LOTS OF PEOPLE ASKING, "WHAT IS THAT?" I EXPLAIN WHAT IT IS,(I THINK) BUT EVEN I'M NOT SURE.

WHAT HAPPENED TO THE INVESTIGATION INTO THE RAISING OF THE DUES? NOTHING, WHAT GIVES WITH THESE R.A.T.S.? CAN THEY DO THIS AND GET AWAY WITH IT? OH YES, W7GDP DARRELL, WAS THE ONE WHO TALKED ME INTO JOINING IN THE FIRST PLACE AND HE TOO DID NOTHING BUT TAKE MY MONEY. THAT WAS MORE YEARS AGO THAN I CARE TO REMEMBER. I THINK THE DUES WERE A WHOLE NICKLE AT THAT TIME. I PAID A QUARTER THE LAST TIME AND THAT WAS TO GUESS WHO? SCOTTY, AT HIS NORMAL PLACE OF LOAFING, N.W. RADIO.

OH R.A.T.S. I GIVE UP,,,,,,,,,,,,,,,,,,

A FELLOW RAT,
/s/
K7TVO - JIM

(the following is a reply from the Editor)

TO JIM, A FELLOW R.A.T.
& "FISHING PARTNER"

BEING THAT YOU ARE BROKEN HEARTED ABOUT THE SUDDEN INFLATION IN YEARLY DUES JIM, I WILL AT THIS YEAR'S RATS CONVENTION, SUPPLY 25 CENTS WORTH OF SOMETHING (NOT US CURENCY) TO COMPENSATE YOU FOR YOUR TEARS. I AM GLAD THAT YOU ADMIT THAT YOU PROUDLY WEAR THE R.A.T.S. BUTTON. IF YOU READ THE FINE PRINT ON THE BUTTON IT IS SELF EXPLANTORY OF THE MEANING.

AS FOR THE CERTIFICATE, I ONLY DESIGNED IT, NOT ISSUE THEM. THE SECRETARY/TREASURER HAS THEM.

THANKS FOR THE LOVELY LETTER JIM, AT LEAST YOU ARE THINKING OF US.

BROTHER RAT,
/s/
SCOTTY, K7CYZ

Note: See front page this month's BARK for next R.A.T.S. Convention notice.

DON'T FORGET, THE RADIO CLUB WILL NOT BE MEETING AT THE TENZLER LIBRARY ON THE FIRST MEETING OF THE MONTH OF JULY! IT WILL BE HELD AT THE RESIDENCE OF DON HUTT.

KEN WB7QNT HAS BEEN HOLDING REGULAR QSO's WITH KEN WA2JQW BACK IN LAFAYETTE INDIANA. KEN IS ENJOYING THE SCHOOLING BUT ANXIOUS TO GET BACK TO TACOMA FOR THE HAMFAIR. THE TWO KENS ARE HOLDING THEIR QSO ON THE 20 METER BAND, EVENINGS (7PM), AROUND 14.220 AND UP, WHEREVER THEY CAN SQUEEZE IN. DICK W7RGD HAS HAD A COUPLE OF SUCCESSFUL CONTACTS WITH KEN ON THE TELETYPE DOWN IN THE 14.090 RANGE. GOT ZILCHED ONE EVENING BY THE 'WOODPECKER'.

NOW THAT SCHOOL IS OUT WE HEAR JOE AND DIANA (WA7BLE & WA7BLF) MOBILING IN THE LOCAL AREA. HOPE TO SEE YOU BOTH AT ONE OF THE CLUB MEETINGS DURING THESE SUMMER MONTHS.

SEEMS EVERY MEETING WHEN THEY PASS OUT THE LOGGER'S ENDORSEMENTS, I HEAR THE CALL WB7RAX. HOW MANY DOES THAT MAKE DICK??

ANOTHER FIELD DAY HAS GONE BY. WE WERE FORTUNATE TO HAVE A GOOD LOCATION EVEN THOUGH THE BANDS DID NOT COOPERATE AS WELL AS THEY COULD HAVE. WE HOPE TO HAVE A LOT OF PICTURES IN THE NEXT MONTH'S BARK OF THE GOINGS-ON. THANKS TO BUD WB7QCW, YOU WILL NOTE AN INCREASE OF PICTURES THROUGH-OUT THE PAGES OF THE BARK. WE FEEL THAT A SINGLE PICTURE IS WORTH A HUNDRED WORDS. THE STAFF AND THE CLUB OWE BUD A BIG! THANK YOU.

DURING THE BOAT RACES ON JULY 3RD, ELMER WB7AQC, BECAME ILL WHILE HELPING WITH THE COMMUNICATIONS. HE HAD TO LEAVE THE COURSE AND IS REPORTED RECOVERING AT HOME NOW.

CONGRATULATIONS TO RAY W7FNC ON HIS BEING ELECTED TO THE CHAIRMANSHIP OF THE NORTH WEST CHAPTER OF THE QUARTER CENTURY WIRELESS ASSOCIATION. HE WILL TAKE OVER THE REINS FROM OUR RCT PRESIDENT CAL, W7SFT WHO DID A FINE JOB THIS PAST YEAR.

DICK WB7CRR BUSY WORKING THE PUYALLUP RIVER RACE. WAS BUZZING UP AND DOWN THE COURSE IN A JET POWERED BOAT UNTIL THEY GOT INTO SHALLOW WATER AND SCOOPED UP SOME GRAVEL INTO THE INTAKE OF THE JET. STOPPED OPERATIONS FOR A FEW MINUTES TO CLEAR THE JETS AND THEN WERE BACK AT IT AGAIN.

JOE WA7RWK BUSY GETTING READY FOR THE ELECTIONS COMING UP SOON FOR THE ARRL N.W. DIRECTOR'S OFFICE. HE HAS BEEN NOMINATED TO RUN FOR THE OFFICE AND WE WISH HIM GOOD LUCK.

THAT ABOUT DOES IT FOR THIS MONTH. WE HOPE YOU ALL SURVIVED THE 4TH OF JULY HOLIDAY WITH NO MISSING TOES OR FINGERS. WITH THAT, WE WILL INK THE ROLLERS AND SQUEEZE SOME INK ONTO THIS PAPER.. ....30 & 73

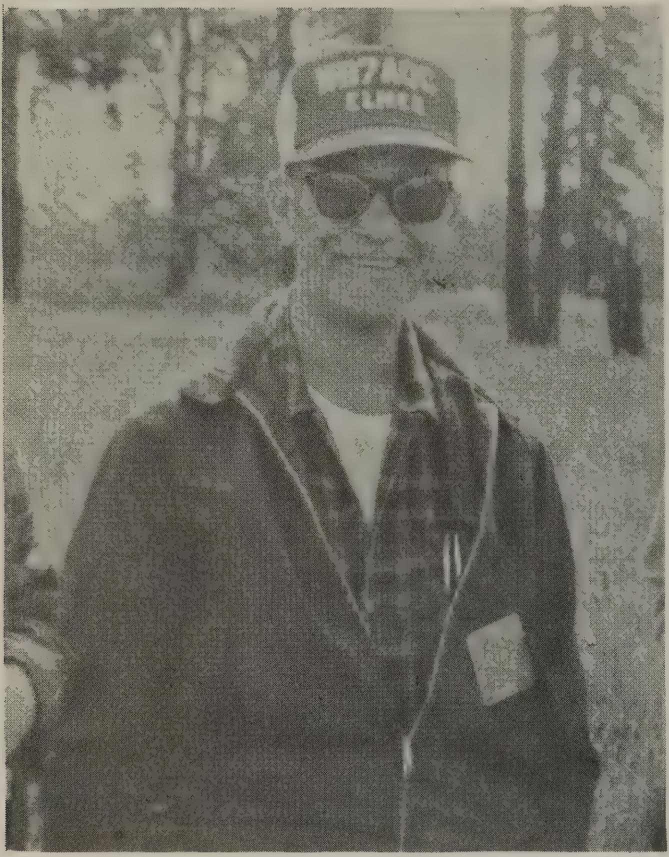
LOGGER OF THE MONTH



ELMER RHOADS,WB7AQC

ELMER WAS BORN AND RAISED IN HARRISBURG, PA ABOUT 73 YEARS AGO AND FOUND HIMSELF LOOKING FOR A JOB DURING THE DARK DAYS OF THE DEPRESSION. BEING A MUSICIAN AND INTERESTED IN MUSIC, ELMER JOINED THE ARMY AND FOUND HIMSELF IN THE 4TH INFANTRY BAND UNIT. WORLD WAR II FOUND HIM SHIPPED TO AFRICA WITH AN ANTI-AIRCRAFT UNIT AND SERVED IN BOTH AFRICA AND ITALY.

ELMER RETIRED AFTER 30 YEARS WITH THE ARMY, WITH A MASTER SERGEANT RATING. HE AND HIS WIFE SETTLED DOWN IN THE PUGET SOUND AREA, WHERE HIS INTERESTS TURNED TO MORE IMPORTANT SUBJECTS, LIKE AMATEUR RADIO.

ELMER EARNED HIS NOVICE LICENSE IN 1972 AND SOON AFTER ACQUIRED HIS TECHNICIAN LICENSE. HE HAS BEEN A VERY ACTIVE RCT MEMBER AND WHEN VOLUNTEERS ARE CALLED FOR, ELMER ALWAYS HAS HIS HAND UP TO RENDER WHAT EVER ASSISTANCE HE IS ABLE.

ON ONE OCCASION, HELPING STEVE K7SSC WITH A ROAD RALLY, ELMER RAN INTO A LITTLE TROUBLE HIMSELF. WHILE REACHING DOWN FOR HIS MIKE, WHILE DRIVING NEXT TO THE RAILROAD TRACKS NEAR ETNA, ELMER STRADLED THE RAIL, PUNCHING A HOLE IN THE RADIATOR OF HIS CAR. WITH THE HELP OF STEVE AND

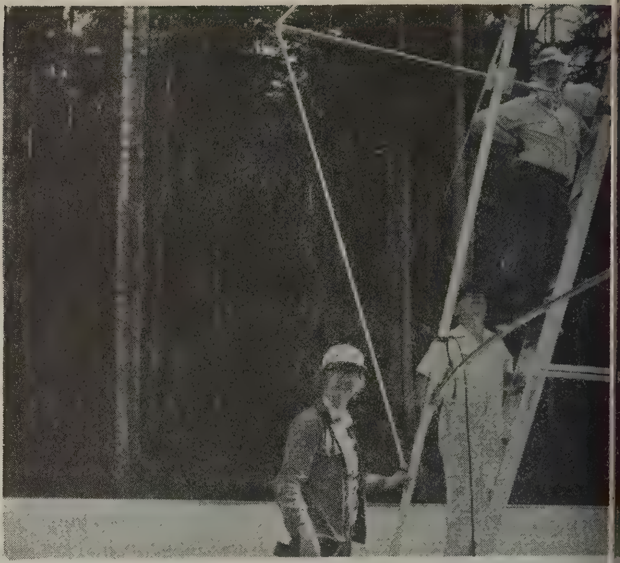
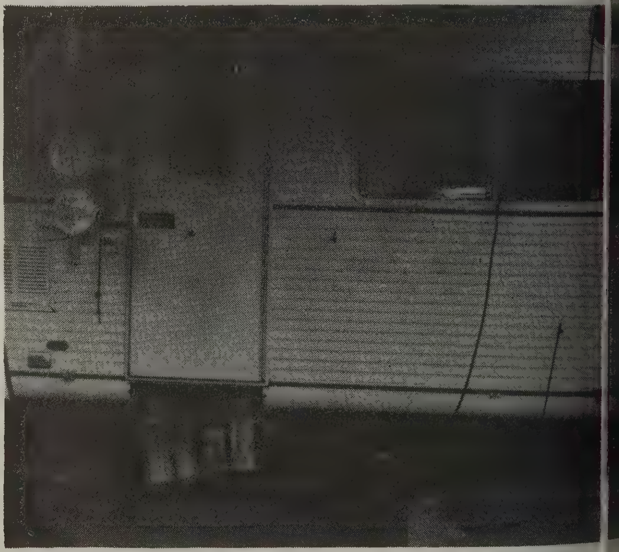
Parker K7GYP and with back to camera, Bob WA7ZZA. Bob said,"Don't want my picture in all this rain"

A DISASTER! DON'T KNOW OF ANY OTHER WORD TO DESCRIBE FIELD DAY 1982. THE SITE, AT PENINSULA MIDDLE SCHOOL OUT BY KEY CENTER, WAS NICE ENOUGH. LOTS OF ROOM. THE ANTENNAS WERE SPREAD OUT OVER TWO FIELDS AND THERE WAS VERY LITTLE INTERMOD AND MAN-MADE NOISE BUT SATURDAY MORNING, JUST BEFORE HOOKING UP GEAR AND GETTING UNDERWAY, THE RAIN CAME. DON PERRY, K7QLC, WAS HEARD TO SAY, "IT'S COMING DOWN LIKE POURING OUT OF A BOOT." OVERHEARD ALSO WAS SOMEONE SAYING SOMETHING ABOUT "ON A FLAT ROCK".



FRIDAY AFTERNOON, JUNE 25TH, STEVE K7SSC,
KG7V, JOHN W7KKN AND THEIR CREWS WERE
ERECTING THE MONO-BEAMS FOR 20, 15 AND 10 ME
JOHN PUT UP A 75 METER PHONE (VERTICLE)
RADIALS STRUNG OUT ALL OVER THE FIELD.
WB7FHC WAS PUTTING UP THE 40, 80 AND 160
DIPOLES BETWEEN TREES WITH THE HELP OF A BO
ARROW WITH A FISH LINE ON A SPINNING
ATTACHED TO GET THEM THROUGH THE TREE L
THAT WORKED VERY WELL AFTER A STRONGER FIS
WAS OBTAINED.



Don Hutt, WA7BLQ, had 40 cw station set up
motor home. Noted on entrance to the moto
was a sign "BEWARE OF CAT".

THE OLD SUN DID NOT COOPERATE EITHER, I
WAYS THAN ONE. WE MUST HAVE HAD A HECK OF
FLARE JUST BEFORE CONTEST TIME. THE EAST
WAS COMING IN PRETTY GOOD AROUND 9:30A
AROUND 11AM EVERYTHING WENT DEAD.

(cont. next page)

D - Joe WB7OXA - Don WB7QCT operating 40
phone, in the heavy rain.

NDS WERE SO DEAD THAT JERRY W7BUN WAS
AROUND FOR A SCREWDRIVER TO GET INTO HIS
CHECK OUT THE TUBES. ALL THE BANDS WERE
REALLY DEAD! GRADUALLY, AS THE DAY WORE
RAIN STOPPED AND THE BANDS STARTED TO
IVE OFF AND ON.

ETERS - DON K7QLC, JOE WA7RWK AND PARKER
PHONE. BUD WB7QCW AND DICK WB7RAX ON
NT THE DAY JUST FOOLING WITH THE DIAL,
O PICK UP ANYTHING.
EN METERS - CAME UP PRETTY WELL AS THE
ON.
Y METERS - WAS DOING VERY WELL. JERRY
AUTOMATIC ID GENERATING AND HAD TIME TO
GH A LOT OF COFFEE.

(cont. next col.)

Joe Duncan - Vivian Huntley - Sis Smith - Irma Duncan. Part of the hard working kitchen crew.

NEWT KA7CXU AND DWAIN N7DRS WORKED THE LONG WIRE. 265 FEET SPREAD OUT BETWEEN THE TREES AND THEY CAME IN ON 160 METERS. THEY WORKED THE BAND ALL NIGHT ON BOTH CW AND PHONE. THE BAND WAS NOT ALL THAT GOOD BUT DID LOG ABOUT 45 STATIONS ON BOTH MODES. BILL KA7IQQ KEPT THEM COMPANY AND ALSO LOGGED A FEW.

JACK K7AFU AND DON W7ZMG TOOK CHARGE OF THE GENERATOR AND NO PROBLEMS THERE.

Joe WA7RWK and Bob W7SFO holding down the fort on the 10-meter band.

REX W7NP, WORKED THE 15-M BAND LOGGING CW. 15 METERS CAME UP PRETTY WELL AS THE AFTERNOON WORE ON.

Irma W7OVW and Ed K7CZM busy setting up a shelter to beat the rain.

THE KITCHEN CREW DID A BANG UP JOB OF SUPPLYING THE HUNGRY MOB WITH MEALS AND SNACKS DURING THE DAY. JOE AND IRMA DUNCAN, VIVIAN HUNTLEY, SIS SMITH, JEAN WHEELER, FREYA HUTT, ETC. WORKED TO KEEP THINGS RUNNING SMOOTH ALONG WITH OTHERS I MAY HAVE MISSED LISTING HERE. WE ALL CAN'T SAY ENOUGH FOR THEIR HELP IN MAKING THIS DISASTER A SUCCESS.

I THINK EVERYONE WHO TOOK PART IN THIS DISASTER, WILL ALL AGREE THAT IT WAS MORE FUN THAN ANY OTHER DISASTER THEY HAVE EVER BEEN INVOLVED WITH. WE ARE DEFINATELY LOOKING FORWARD TO NEXT YEAR. ....BUD WB7QCW

AUXILIARY NEWS

THE NEXT MEETING OF THE AUXILIARY WILL BE WEDNESDAY, AUGUST 18 AT 7:30PM AT THE CLUB HOUSE. (1249 SOUTH WASHINGTON) OUR BUSINESS SHOULD BE SHORT-HAMFAIR ALL OVER- SO WE WILL REALLY ENJOY ALICE WHEELOCK TELLING US ALL ABOUT HER VERY RECENT TRIP TO IRELAND.

AS YOU ARE READING THIS, HAMFAIR IS STILL AHEAD OF US AND IF I HAVEN'T CALLED YOU AND YOU COULD GIVE AN HOUR OR TWO TO HELP WITH THE LADY'S ACTIVITIES, PLEASE CALL ME - 472-4213. THE MORE HELP WE HAVE THE MORE WE ALL CAN ENJOY HAMFAIR.

THERE WILL LOTS OF ACTIVITIES FOR THE WOMEN AS USUAL. THERE WILL BE DEMONSTRATIONS OF "HOW TO" CRAFTS AND FACIALS BY MARY RAY COSMETICS; THERE WILL BE INFORMATIVE TALKS ON CRIME STOPPERS AND CRIME PREVENTION. ALSO A QUICK TEST FOR DIABETES AND THE DANGER SIGNALS TO WATCH FOR, A HAWAIIAN DANCE GROUP PUTTING ON A DELIGHTFUL PROGRAM AND

PUYALLUP RIVER RACE

de:K7AFU

ON JULY 3, THE PUYALLUP KIWANIS CLUB HELD THE "FIRST ANNUAL PUYALLUP KIWANIS RIVER RAFT RACE". STARTING AT ORTING AND FINISHING AT THE MERIDIAN STREET BRIDGE IN PUYALLUP, THE RACE COVERED A DISTANCE OF 14.2 MILES ON THE PUYALLUP RIVER. THERE WERE 205 PEOPLE ENTERING THE RACE IN 97 WATERCRAFT, INCLUDING CANOES, KYAKS, RUBBER RAFTS AND INNER TUBES. OF THESE, ALL BUT THREE FINISHED THE RACE WITH CONGRESSMAN NORM DICKS BEING THE LAST ENTRANT ALONG WITH HIS SON. THE THREE THAT DID NOT FINISH, CONSISTED OF TWO YOUNG LADIES WHO SUFFERED MILD HYPOTHERMIA FROM A DUNKING IN THE RATHER CHILLY WATER AND WERE PROMPTLY THAWED OUT BY EMERGENCY PERSONELL AND A MAN WHOSE MOTHER BECAME SUDDENLY ILL. OUR OWN ELMER WB7AQC BECAME ILL AND UNDER ADVICE FROM DON MCLAIN AND EMT AT THE SCENE, WAS TAKEN TO MADIGAN HOSPITAL FOR A CHECK UP. I AM GLAD TO REPORT THAT ELMER IS NOW OK AND THE SITUATION DID NOT TURN OUT TO BE TOO SERIOUS.

I WANT TO TAKE THIS OPPORTUNITY TO THANK ALL OF YOU WHO HELPED IN MAKING THE COMMUNICATIONS ON THIS RACE SUCH A SUCCESS. I HAVE BEEN CONGRATULATED FOR THIS FINE WORK BY SAFETY DIRECTOR DICK CARMAN AND THE COORDINATOR OF THE RACE, PUYALLUP POLICE CHIEF, LARRY NASH AS WELL AS ALMOST EVERY OFFICIAL ON THE RACE COMMITTEE AND WE HAVE ALREADY BEEN ASKED TO HELP AGAIN NEXT YEAR. YL NEWS

THE TULOA NET HAS DECIDED TO ENJOY THE SUMMER AND DISPENSE WITH THE NET UNTIL SEPTEMBER 6TH OR 13TH. SEPTEMBER 6TH IS LABOR DAY SO THE BIGGER CHECK IN WILL BE ON THE 13TH..

IRMA, W7OVW AND EVA, WB7QNS CONTINUE TO DO THEIR GOOD JOB OF ANSWERING ALL THOSE QUERIES ON 2 METERS. THAT IS A REAL PLUS FOR OUR CLUB AND NOT ENOUGH APPRECIATION IS GIVEN, I'M AFRAID.

LOIS WB7QCP SAID GOODBYE TO SON DENTY AS HE LEFT FOR MILITARY DUTY AND WE ARE NEVER READY FOR THAT BIG MOVE.

INEZ W7RXT AND BOB ENJOYED A NICE LONG VISIT WITH THEIR THREE GRANDCHILDREN FROM MINNESOTA. IT IS LOTS OF FUN CREATING LOVING MEMORIES BUT IT DOES LET US KNOW A FEW YEARS HAVE GONE BY SINCE WE DID THOSE SAME THINGS FOR OUR OFFSPRING.

DEBBIE WA7UJI AND ROY ATTENDED THE AIRSTREAM RALLY AT BOZEMAN, MONTANA AND HANDLED MANY MESSAGES AS WELL AS KEEPING IN TOUCH WITH THE HOME AREA OF LACEY. CAN YOU PICTURE 3,700 AIRSTREAMS ALL IN ONE PLACE AT THE SAME TIME?

JANE W7LXQ, NOW LIVING IN ARIZONA, IS ON A TRIP TO THE EAST COAST. SHE SAID ON HER POSTCARD, THAT THE RAIN IN WEST VIRGINIA WAS DELAYING THE HAY HARVEST, JUST AS THEY OFTEN EXPERIENCED IN WESTERN WASHINGTON.

PAT N7CAK AND CAL ARE LOOKING FORWARD TO AN AUGUST VACATION AND SOME COOL CAMPING AT GRANITE FALLS.

THAT'S ALL FOR THIS TIME.

Board Meeting
June 2, 1982

The regular board meeting was called to order at 8:03 PM by K7YLM, Vice-President.

The minutes of the last meeting were read and approved.

Treasurer report: Regular Checking $369.17, Spec. Checking $156.21, Petty cash $40. Savings and Investments $2179.10. Total all funds $2744.48. Special Funds Bldg. $142.62, Field Day $282.43, Generator $74.92, Raffle $84.62, Repeater/auto-patch $254.14, Station $152.03. K7QLC reports the tax assessment on the clubhouse and property has increased from $20,000 to $36,000. Also reported a phone call on the club bill for $5.00 to San Diego, will have it cancelled.

REPORTS

Hamfair-meeting to be June 8, 7:30 PM at club, still need someone to take charge of children's activities.

Repeater- WA7FUS reports he is looking into ways of funding and checking on cost of a repeater, duplexer and antenna.

Field Day- June 26 & 27 at Key Peninsula Middle School. One major problem is transportation on antennas and towers to the site. Possibility of loan of a flatbed trailer from Dave Reed, KG7V made motion to rent trailer if unable to find appropiate transportation, second by WA7FUS and approved by members.

ARRL-info received from the League on liability insurance for clubs, Treasurer to review and report back to Board. Mention made of possibility of insuring the club equipment with them also, Don will check this too.

New Business

Applications for membership received from W. E. Tice, W7EOF, Edward Holloway, KA7INX, Alan Allen KA7MYT/ST, John Sonnefeld KA7KZO, Eugene

(cont.next col.)

MINUTES (cont.)

Norris WD8AUA, Richard Davidson KA7MYS. M made to accept these applicants, seconded approved by Board.

Phone bills: WA7FUS mentioned that the bill at the club is approximately $600.0 year due to the business listing and the phone required for repeater control. He was quested to look into the possibility of li as a residence and what requirements must be An unlisted dedicated line is necessary for repeater/auto-patch.

Club phone will be forwarded to AD7S fo month of June.

Miscellaneous

Mention made of NRI and Heathkit Amateur Course in back of club room. Note found in and apparently they were donated to the cl Ardell H. Woie, letter of thanks to be se the secretary.

Meeting adjourned 9:30 PM.

YL NEWS & VIEWS

WE HAD 45 OPERATORS SIGN OUR YL LOG AT HAMFAIR '82'. IT WAS A BUSY WEEKEND OF LOTS OF GOOD THINGS TO ATTEND AND I KNOW THERE WERE LOTS OF YL OPERATORS WHO DIDN'T LINGER AT OUR TABLE TO DISCOVER THE LOG. WE NEED TO ADD A PRIZE DRAWING. HAMFAIR '81' HAD 53 SIGN IN AND HAMFAIR 80 HAD 47, SO WE SLIPPED UP THIS YEAR.

IT IS ALWAYS NICE TO HAVE THE EYE-BALL QSOs PROVIDED BY THE SUNDAY MORNING COFFEE HOUR. JEAN WA7OII AND MARION WB7SQU HOSTED OVER 20 AT THAT EARLY HOUR AND NO ONE WANTED TO LEVE. EVERYONE PROMISES TO BE MORE ACTIVE ON THE AIR.

IT WAS NICE TO SEE KAREN MOAK, KA7GZG AND GLAD THEY COULD MAKE IT BACK FROM INDIANA FOR HAMFAIR. WE HAD FOUR CANADIAN GALS AND ONE FROM ALASKA. OUR YOUNGEST YL WAS LISA CZARNECKI, KA7KUD, ABOUT 10 YEARS OLD.

CONGRATULATIONS TO LUCY KELLY KA7JDV ON UPGRADING TO GENERAL AT HAMFAIR.

ONE VERY EXCITED GAL, EDITH GIDEON, W7OKR OF BREMERTON, PASSED HER EXTRA CLASS EXAM AND IN THE PROCESS LOST HER PRIZE TICKET. WOULDN'T YOU KNOW - SHE DID GET DRAWN BUT WITH NO TICKET SHE EVIDENTLY DIDN'T STAY OR MAKE HERSELF KNOWN. HER'S WAS OME OF THE "FOUND TICKETS".

LOIS MOORE WB7QCP IS RIGHTLY VERY PROUD OF SON DENTY WHO CAME IN SECOND IN HIS CLASS AT BOOT CAMP. OUR CONGRATULATIONS.

AUXILIARY NEWS

THE NEXT MEETING OF THE LADIES AUXILIARY WILL BE SEPTEMBER 15TH AT 7:30 PM IN THE CLUBHOUSE AT 1249 SO. WASHINGTON STREET.

OUR PROGRAM WILL BE ON BASKETS AND DRIED FLOWER ARRANGING BY ALICE WHEELOCK AND HER DAUGHTER-IN-LAW JEANIE WHEELOCK. ALICE WILL ALSO BE HOSTESS FOR THE EVENING. ARE WE OVERDOING IT, ALICE?

WE THOUROUGHLY ENJOYED ALICE'S RECOUNTING HER VERY RECENT TRIP TO IRELAND AND WE LEARNED THE REAL EFFORT IT TAKES TO ACTUALLY "KISS THE BLARNEY STONE". THE HIGHLIGHT OF HER TRIP WAS HER ADVENTURE ALONE TO FIND THE BIRTHPLACE OF HER FATHER. SHE LEFT HER TOUR FOR A DAY AND TOOK THE TRAIN TO BELFAST (WHERE ALL THE RIOTS ARE) AND FROM THERE BY PRIVATE TAXI TO THE LITTLE VILLAGE 25 MILES AWAY WHERE THE McGINNIS FAMILY LIVED. HER CABBIE WAS A GREAT HELP IN GOING TO ALL OF THE PLACES SHE WAS SENT ON HER SEARCH. SHE DID VISIT THE CHURCH WHERE HE FATHER WAS BAPTISED BUT HER TIME RAN OUT BEFORE SHE COULD LOOK UP THE ACTUAL HOME OF HER FATHER. SHE WILL GO BACK AND FIND IT NEXT TIME. WE ALL FELT WE'D BEEN TO IRELAND AND IT WAS FUN LEARING ABOUT THE HEDGEROWS AND THE PENNEY WALLS WITH PICTURES TOO.

HAMFAIR IS OVER AND OUR PART WAS SUCCESSFUL. IT TAKES MANY HANDS TO MAKE IT GO SMOOTHLY AND WE APPRECIATED THE EXTRA HELP WE GOT THIS YEAR. WE HAVE SOME LOVELY GALS WHO AREN'T ABLE TO ATTEND OUR MEETINGS BUT RESPONDED WILLINGLY TO OUR PLEA. THANK YOU DIANE BUSHNELL, ANN GOOD, ARELENE MANSON, LORNA SEAMAN, KAY KIRKWOOD, SUZY STEIGERS, MARJORIE IVES, JOY McCAW, HELEN DAWSON, SANDY KIENZLE, HELEN ASPLUND AND EVELYN BUTLER. WITH ANOTHER DOZEN WHO DO GET TO AUXILIARY, ALL WORKING HARD, WE KEPT ALL DEPARTMENTS WORKING AT TOP EFFICIENCY--THANK YOU ALL TOO.

WE'RE SORRY TO LOSE JULIE BERRIAULT, ONE OF OUR ATTENDING AUXILIARY MEMBERS. SHE AND BOB HAVE BEEN SENT OVERSEAS FOR A THREE YEAR HITCH AND THEY HAD TO LEAVE AUGUST 12TH - BEFORE HAMFAIR.

AUXILIARY NEWS (cont.)

IF YOU REMEMBER THE REPORT ON THE AUXILIARY'S JUDGING OF THE AMVET'S ESSAY CONTEST, YOU'LL REMEMBER THAT POST #1's WINNER, THAT WE PICKED, WAS ALSO THE STATE WINNER AND AT LAST MEETING WE LEARNED SHE CAME IN SECOND NATIONALLY. HOW ABOUT THAT? WE'VE AGREED TO JUDGE AGAIN NEXT YEAR.

PINOCHLE STARTS OCTOBER 2ND AT 8:00 PM AT THE CLUBHOUSE AND THE RULES ARE PUBLISHED ELSEWHERE IN THIS MONTH'S BARK.

TELEPHONE RFI

by W7BUN

RECENT CASE OF TELEPHONE RFI BY A CLUB
ER WAS BROUGHT TO THE ATTENTION OF THE CLUB'S
COMMITTEE. THE MEMBER HAS A 260 WATT PEP HF
SCEIVER AND OPERATES 10 THROUGH 80 METERS
A 4-BAND TRAP VERTICAL ANTENNA AND AN 80-M
LE. THE NEIGHBOR, 50' AWAY, WAS RECEIVING
RFERENCE ON A WESTERN ELECTRIC MODEL
03AG1-50 DESK-TYPE TOUCH-TONE PHONE. A
CESS PHONE PLUGGED INTO THE SAME OUTLET WAS
SUBJECT TO ANY INTERFERENCE. SINCE THE PHONE
PURCHASED AND NOT LEASED, THE TELEPHONE
ANY HAS NO LIABILITY TO RFI-PROOF IT, HOWEVER
EXCHANGED IT TWICE FOR SIMILAR MODELS AND
LLY FOR A DIFFERENT MODEL WHICH WAS
RFERENCE FREE. UNFORTUNATELY THE PHONE WAS
LETELY SEALED, SO THE TVI COMMITTEE WAS
LE TO OPEN IT AND ADD BYPASS CAPACITORS
SS THE HANDSET. THE PHONE COMPANY INSTALLED
ILTER AT THE RECEPTACLE BUT WAS WILLING TO
LE FOR A DIFFERENT STYLE TELEPHONE.

FAIR IMPRESSIONS

de:KC7NA

"I SUPPOSE YOU'RE GOING TO THE FAIR AGAIN TONIGHT", SHE SAYS IN A RESIGNED, NO-LONGER-ANGRY KIND OF VOICE AS SHE SCRAPES THE DINNER SCRAPS INTO THE CAT'S DISH AND TRIES TO FEND OFF THE BABY, WHO IS HOT ON THE TRAIL OF THE CAT.

"WELL, I REALLY DO NEED TO CHECK IN" I ANSWER APOLOGETICALLY, SOUNDING SOME HOW LIKE A GUILTY HUSBAND, SNEAKING OUT TO MEET HIS LOVER.

"OK, SEE YOU WHEN YOU GET HOME". SHE GIVES ME A SMOOCH AND I SAUNTER OUT THE DOOR, TRYING NOT TO SHOW MY ELATION.

WHEEEE! I'M OFF TO THE WESTERN WASHINGTON FAIR. I HOP INTO MY 1963 BEATER--TRANSFORMED FOR TONIGHT, INTO A SLEEK LATE MODEL LANCIA AND GLEEFULLY WEAVE MY WAY IN AND OUT OF BLINDING HEADLIGHTS, BLARING HORNS AND PEDESTRIAN TRAFFIC JAMS, FINDING A FREE PARKING SPACE IN THE SECRET PLACE THAT ONLY I KNOW ABOUT (A FEW BLOCKS FROM THE YELLOW GATE). AS I APPROACH THE GATE, PROFFERING MY FREE PASS, COMPLIMENTS OF W7DK, MY LUNGS EXPAND WITH THE AGE-OLD EXCITEMENT OF SCONE-VENDORS, NEON-BRIGHT FERRIS WHEELS, BLENDER QUEEN SALESMEN HAWKING THEIR WARES. I WALK A LITTLE FASTER, MY STEPS BOUYANT NOW AS I PASS FRAGRANT FAIRBURGER STANDS AND PUNGENT CATTLE BARNS, DODGING AT EACH STEP THE THOUSANDS OF OTHER FAIRGOERS MILLING IN MY PATH.

THERE IT IS, THE HOBBY HALL! NESTLED NEATLY, IN THE SW. CORNER, AMONG PATCHWORK QUILTS, DOLL COLLECTIONS AND HOBBY DISPLAYS, IS THE RADIO CLUB OF TACOMA BOOTH, WHERE TWO SMILING HAMS ARE GREETING A FELLOW-HAM FROM ALASKA AND SHOWING A YOUNG COUPLE, JUGGLING A BABY, HOW TO SEND AN AMATEUR RADIOGRAM.

WARM HANDSHAKES, SLAP ON THE BACK AND I FEEL CHEERED, WELCOMED HOME. WE CHAT, DISCUSS THE EQUIPMENT, THE PROBLEMS AND REMARK ON WHO'S BEEN AND WHO'S COMING; ALL THE WHILE A ROCK BAND (BLARING) IN OUR EARS FROM THE PAVILLION OUTSIDE. THE WARM INDIAN-SUMMER AIR WAFTS THROUGH THE DOORWAY, BRINGING THE SMELL OF POPCORN AND COTTON CANDY AND CARRYING WITH IT A WHOLE SPECTRUM OF SIGHTSEERS, MOST OF WHOM GIVE US A FRIENDLY SMILE BUT DON'T REALLY KNOW WHAT OUR EQUIPMENT IS FOR. WE TELL'EM AND HAVE THEM SIGN OUR GUEST BOOK OR ENCOURAGE THEM TO SEND A MESSAGE TO A FRIEND.

(cont. next page)

FAIR (cont.)

STATIC---THEN A CALL FOR W7DK. IT'S ONE OF THE MEMBERS, SCHEDULED FOR TONIGHT, CONFIRMING THAT ILLNESS IN THE FAMILY WILL PREVENT HIM FROM COMING. "NO SWEAT", I REPLY MAGNANIMOUSLY, "I'LL FILL IN FOR YOU -- YOU JUST TAKE CARE OF THAT KID". GREAT! FIVE MORE HOURS, DOING WHAT I LIKE BEST--TALKING ABOUT AMATEUR RADIO! I SETTLE DOWN FOR THE 6:00 - 11:00PM SHIFT.

TEN MESSAGES, 300 ODD VISITORS AND 299 INQUIRIES FOR THE LOCATION OF THE BATHROOMS LATER, THE FAIR IS GRINDING TO A CLOSE FOR THE NIGHT. ONLY A FEW HAVE TRICKLED BY IN THE LAST HALF HOUR. I CAN HARDLY BELIEVE THAT ONCE AGAIN, 5 HOURS HAVE FLOWN BY LIKE CLOUDS RACING ACROSS THE SKY AND COLORFUL PERSONALITIES, NOT TO MENTION TWO XE2'S, AN HB9 AND A G3 STOPPING BY. AS I WALK TO THE CAR, I FEEL TIRED BUT IT'S A PLEASANT KIND OF TIRED. I GIVE A SPINE-TINGLING STRETCH BEFORE CRAWLING INTO THE BEATER AND DRIVE SLOWLY HOME, NO LANCIA NOW.

THE HOUSE IS DARK AND SILENT EXCEPT FOR THE REGULAR BREATHING FROM THE KID'S ROOMS. THE WIFE ROLLS OVER AND MUMBLES, "HI......YOU HOME?" AND AS I CLIMB INTO BED, "HOW'D IT GO?" SHE ASKS THICKLY, STILL HALF-ASLEEP.

"OH, Y'KNOW. SAME OLD THING" I REPLY, TURNING OUT THE LIGHT AND SMILING TO MYSELF.

CLUB AUTOPATCH

de:KA7DCX

AS OF THE FIRST CLUB MEETING IN SEPTEMBER, JOHN N7AGC, RESIGNED AS CHAIRMAN OF THE AUTOPATCH COMMITTEE AND I VOLUNTEERED TO TAKE OVER.

AFTER CHECKING ALL THOSE WHO ARE CURRENTLY CONTROL OPERATORS, I FOUND THAT WE HAVE SOME OPEN SLOTS TO FILL. THE FOLLOWING DAYS AND TIMES ARE:

SUNDAY	10AM - 2PM		
TUESDAY	6AM - 10AM	2PM - 6PM	
WEDNESDAY	10AM - 2PM		
THURSDAY	6AM - 10AM	10AM - 2PM	
SATURDAY	10AM - 2PM	2PM - 6PM	6PM-10PM

SO, I AM ASKING FOR MORE VOLUNTEERS TO WORK AS CONTROL OPERATORS TO FILL THE ABOVE FOUR HOUR SLOTS. YOU MUST HAVE A TOUCH-TONE PHONE OR A METHOD OF AUDIO TOUCH TONE OVER-THE-PHONE RECEIVER AND ALSO A RADIO WITH A TOUCH TONE PAD.

I AM ALSO TRYING TO PUT TOGETHER AN ALTERNATE LIST OF CONTROL OPERATORS, WHO CAN WORK ON A PART TIME BASIS, IN CASE THE ASSIGNED CONTROL OPERATOR CANNOT.

THANK YOU FOR ALL YOUR HELP AND IF YOU HAVE ANY FURTHER QUESTIONS, PLEASE CONTACT ME.

73, JOE JENKS, KA7DCX
PHONE# 473-3873

P.S. REMINDER--PLEASE HIT THE # SIGN BEFORE ACCESS CODE.

AUTOPATCH GUIDLINES

1. KEEP YOUR AUTOPATCH CALLS BRIEF. THE REPEAT ER AND AUTOPATCH SYSTEM IS LIKE A HUGE PART LINE. DON'T TIE IT UP.

2. EXCEPT IN CASES OF EMERGENCY THE AUTOPATCH HA NO PRIORITY OVER QSOs ON THE REPEATER. DON' BREAK A QSO TO ASK IF YOU CAN CALL YOUR WIFE THE AUTOPATCH IS A CONVENIENCE WHICH IS AVAILABL WHEN OTHERS ARE NOT USING THE REPEATER FOR HAM T HAM COMMUNICATIONS.

3. THE AUTOPATCH WILL BE AN 'OPEN' AUTOPATCH T ALL HAMS IN THE TACOMA, PIERCE COUNTY AND TH IMMEDIATE ADJACENT AREAS.

4. USE OF THE AUTOPATCH TO MAKE BUSINESS CALLS I NOT PERMITTED BY FCC RULES. THIS MEANS THAT YO MAY NOT USE THE AUTOPATCH TO CALL A BUSINESS FO THE PURPOSE OF INQUIRING ABOUT AND/OR ARRANGIN TO PURCHASE A PRODUCT OR SERVICE. IT IS O THOUGH TO CALL A BUSINESS FOR THE PURPOSE O HAVING A PERSONAL CONVERSATION WITH A FRIEND O SPOUSE.

5. THE AUTOPATCH HAS A 3 MINUTE TIMER. IF YO HAVE NOT COMPLETED YOUR CALL IN THAT TIME PERIOD THE PATCH WILL HANG UP FOR YOU.

6. THE AUTOPATCH HAS BEEN PROGRAMMED NOT TO ACCEPT 1s & 0s AS THE FIRST DIGIT OF PHONE NUMBERS. THIS MEANS THAT NO LONG DISTANCE PHONE CALLS CA BE MADE WITH THE AUTOPATCH.

7. IF YOU ARE IN A PLACE WHERE YOU CANNOT COP THE REPEATER WELL, DON'T ATTEMPT TO USE TH AUTOPATCH, RATHER, ASK SOMEONE ELSE TO MAKE CALL FOR YOU OR WAIT TILL YOU ARE IN A BETTE LOCATION BEFORE YOU TRY IT. REMEMBER THAT YOU EARS ARE MORE USED TO DIGGING INTELLIGENCE OUT O A NOISY SIGNAL THAN THOSE OF A NON-HAM. EXTREMELY NOISY SIGNLS MAY ALSO CAUSE MISDIALE NUMBERS.

8. THE AUTOPATCH WILL BE AVAILABLE FOR USE WHENEVER THE REPEATER IS BEING MONITORED BY A CONTRO OPERATOR. IF THERE SEEMS TO BE TIMES OF THE DA WHEN YOU WOULD LIKE THE PATCH TO BE AVAILABLE BU NO CONTROL OPERATOR IS ON DUTY AT THE TIME, MAYBE YOU SHOULD BE THE VOLUNTEER WHO CONTACTS THE AUTOPATCH COORDINATOR TO APPLY FOR A CONTROL OPERATOR APPOINTMENT.

9. REMEMBER....THE HAM USING THE AUTOPATCH HA CONTROL OVER THE PERSON ON THE TELEPHONE BEIN REBROADCASTED BY THE REPEATER. SIMPLY BY PUSHIN HIS MIKE BUTTON HE MAY SUBSTITUTE HIS AUDIO FO THAT OF THE PERSON ON THE TELEPHONE. THUS, THE HAM HAS CONTROL OVER THE UNLICENSED THIRD PARTY, WHOM HE ALLOWED ON THE REPEATER. THE PRESENSE OF A SIGNAL ON THE RECEIVE FREQUENCY WILL PREVENT AUDIO FROM THE TELEPHONE FROM BEING TRANSMITTE BY THE REPEATER.

10. REMEMBER...THE CONTROL OPERATORS HAVE BEEN EMPOWERED WITH THE RESPONSIBILITY OF SEEING THAT W7DK/R IS OPERATED ACCORDING TO FCC PART 97 RULES. THIS MEANS THAT THEY HAVE THE RIGHT TO DECIDE WHETHER WHAT IS BEING REBROADCAST BY THE

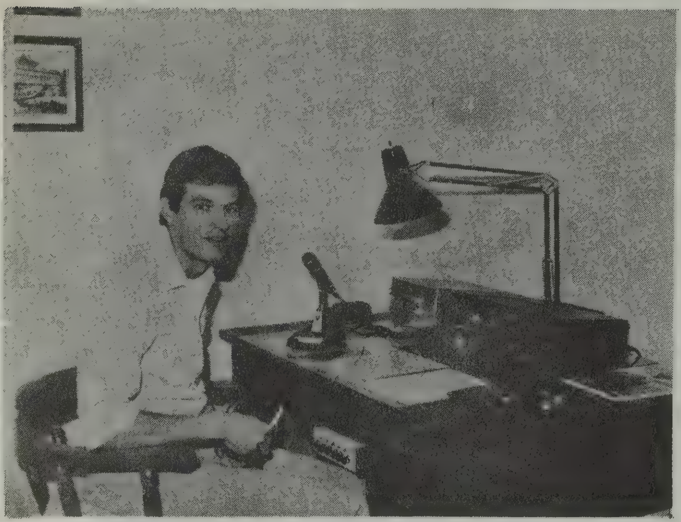
HAM OF THE MONTH



JOHN SONNENFELD KA7KZO

JOHN WAS PICKED FOR 'HAM OF THE MONTH' FOR A VERY SPECIAL REASON. HE IS JUST ONE HECK OF A NICE GUY TO KNOW AND I THINK THE REST OF THE MEMBERS OF RCT WILL AGREE WHEN YOU TALK TO HIM ON THE AIR AND HAVE AN EYE-BALL.

JOHN IS ONE OF OUR YOUNGER AND MORE RECENTLY LICENSED HAM OPERATORS AND YET, NOT SO NEW. AT AGE 14, JOHN BECAME INTERESTED IN AMATEUR RADIO AND GOT HIS NOVICE LICENSE. HE DEVELOPED OTHER INTERESTS AND LET HIS LICENSE LAPSE BUT LIKE SO MANY OF US, THE INTEREST WAS STILL THERE. NOW 30 YEARS OLD, MARRIED WIFE KAY AND TWO CHILDREN, CANDI AGE 20 MONTHS AND JAY AGE 9 MONTHS. JOHN IS BACK ON THE AIR AND VERY ACTIVE ON THE HF BANDS AND ON TWO METERS.

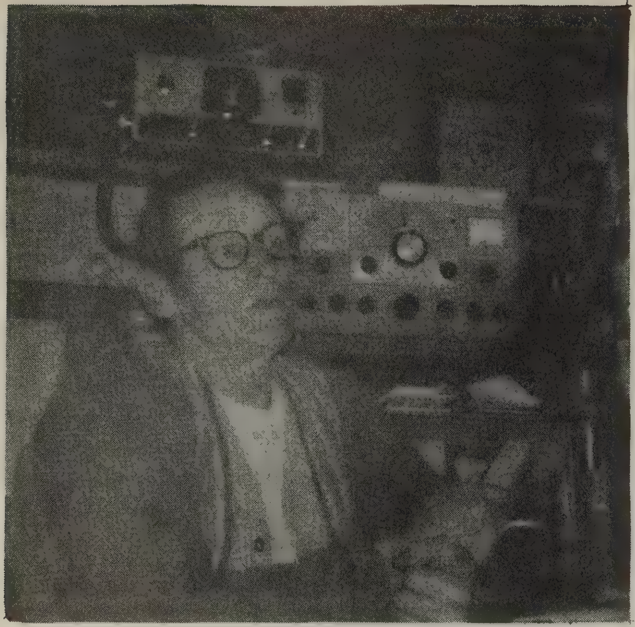
HE GREW UP IN ST. LOUIS MISSOURI AND JOINED THE ARMY AT AN EARLY AGE. HE BECAME A HELICOPTER PILOT WITH A WARRENT OFFICER 2 RATING. AFTER TRAVELING FROM ARMY POST TO ARMY POST FOR 11 YEARS, JOHN AND WIFE WITH TWO YOUNG HARMONICS FIGURED THEY HAD BETTER GROW A FEW ROOTS AND DECIDED THE TACOMA AREA WAS NOT TOO BAD A PLACE TO DIG IN.

THOSE OF YOU WHO WANT TO GET ACQUAINTED WITH JOHN AND HIS FRIENDS, WILL FIND THEM ON THE 75 METER BAND EVERY MORNING BETWEEN 7AM AND 8AM ON 3.960MHz EXCEPT ON SUNDAYS. BREAK IN AND SAY HELLO. ....BUD, WB7QCW

If you know anyone in the club that could use a word of cheer, congratulations or condolences, please call Ethel Devish 472-4213 or Irma Duncan 531-0705.

We try to spread sunshine and we certainly don't want to overlook ANYONE.

IN MEMORY OF



JULIEN DEWAELE
W7PWP

JULIEN (JIM) WAS BORN IN PAWTUCKET, RHODE ISLAND APRIL 4, 1919 AND PASSED AWAY TUESDAY, AUGUST 24, 1982 AT THE AGE OF 63. HE HAS RESIDED IN THE MORTON AREA FOR THE LAST 13 YEARS, COMING FROM THE LAKEBAY AREA.

HE WAS EMPLOYED AT THE PUGET SOUND NAVAL SHIPYARDS AFTER HAVING RETIRED FROM THE NAVY, WHICH HE JOINED IN 1941 AND RETIRING IN 1947 AS AN ENGINE MAN. HE WAS IN THE NAVAL RESERVE FOR ABOUT 12 YEARS. HE ALSO SERVED IN NAVY MARS A TIME.

JULIEN WAS A MEMBER OF THE ARRL, THE REBEL RADIO CLUB AND THE RADIO CLUB OF TACOMA (JOINED RCT MAY 24, 1972 #677). HE WAS A FORMER MEMBER OF THE TACOMA AMATEUR RADIO SOCIETY (TARS). HE WAS ACTIVE IN THE TRAFFIC HANDLING DEPARTMENT AND A REGULAR CHECK IN ON WARTS. HE HELD MEMBERSHIP #10881 WITH THE NORTH WEST CHAPTER OF THE QUARTER CENTURY WIRELESS ASSOCIATION (QCWA).

HE HELD MEMBERSHIP IN THE MORTON MOOSE LODGE AND WAS ACTIVE IN THE CATHOLIC CHURCH OF MORTON.

I REMEMBER HIS HANDLE AS JIM (JULIAN JAMES DEWAELE). ABOVE ALL ELSE, I REMEMBER HIM AS A VERY CHEERFUL, ENERGETIC AND ACTIVE HAM. ALL OF THIS, I AM SURE, HELPED TO CARRY HIM THROUGH HIS VERY SERIOUS ILLNESS THE PAST FEW YEARS WHICH NO DOUBT CUT HIS YEARS SHORT BUT NOT HIS INSPIRING SPIRIT.

HE IS SURVIVED BY HIS XYL, THELMA, (MARRIED 40 YEARS) AND TWO SONS, JAMES OF MILLINGTON TENN. AND JOSEPH OF MORTON. ALSO SURVIVED BY A DAUGHTER MRS. DON (SUSAN) MILLER OF WINLOCK, A BROTHER FRED OF PELHAM NH, A SISTER PEGGY MASSE OF PAWTUCKET AND THREE GRAND CHILDREN..cont->

NEWS FROM ARRL & WESTLINK REPORT

by W7BUN

IN LATE OCTOBER, THE ARRL WILL BEGIN A BI-WEEKLY NEWSLETTER CALLED "THE ARRL LETTER". SUBSCRIPTIONS WILL BE $19.50 PER YEAR TO ARRL MEMBERS. ALL THE NEWS FROM THE AMATEUR RADIO SCENE WILL BE COVERED IN A FORMAT MORE READABLE THAN THE PRESENT LENGTHLY DOCUMENTS ONE MUST WADE THROUGH.

BREAK OUT THE CHAMPAGNE! ON SEPTEMBER 13, PRESIDENT REAGAN SIGNED INTO LAW H.R.3239, WHICH INCORPORATES THE AMATEUR RADIO PROVISIONS LONG AWAITED. FCC NOW HAS AUTHORITY TO IMPOSE RFI STANDARDS ON THE MANUFACTURERS OF RADIO AND TV SETS, BURGLAR AND SECURITY ALARMS, GARAGE DOOR OPENERS, ELECTRONIC ORGANS, STEREO EQUIPMENT AND TURNTABLES AND MEDICAL ALERT DEVICES. THE LEGISLATION ALSO CLARIFIES THE EXCLUSIVE JURISDICTION OF RFI MATTERS TO FCC AND EXEMPTS SUCH MATTERS FROM STATE OR LOCAL LAW OR REGULATION. ALSO IN THE BILL ARE PROVISIONS TO END LICENSING OF CB OPERATORS, USE AMATEURS TO HELP FCC MONITOR FOR RULES VIOLATIONS AND TO PREPARE AND ADMINISTER EXAMINATIONS FOR AMATEUR LICENSES AND TO PAVE THE WAY FOR A 10-YEAR LICENSE TERM.

FCC HAS ANNOUNCED THIRD-PARTY TRAFFIC AGREEMENTS WITH ST.LUCIA (J6) AND ANTIGUA/BARBUDA (V2).

FCC HAS DENIED TWO PETITIONS FOR RULEMAKING, ONE (BY W3XO) ASKED FOR EARLY USE OF A 902-928MHz AMATEUR ALLOCATION. THE OTHER (BY K1IF), SOUGHT SPECIFIC CALLSIGNS FOR GENERALS AND HIGHER CLASS LICENSEES.

AMATEUR CALL SIGN ASSIGNMENTS FOR AUGUST 1, 1982 WERE: KV7G, KC7YF, N7EIG AND KA7ODO.

SENATORS GOLDWATER AND SCHMITT WROTE TO FCC CHAIRMAN MARK FOWLER IN AUGUST AND REQUESTED IMMEDIATE ACTION ON OPERATING AUTHORITY FOR THE 10 MHz BAND. CHAIRMAN FOWLER RESPONDED WITH A PROMISE OF ACTION. THE OPTIMISTS EXPECT COMMISSION ACTION WITHIN A MONTH OR SO. GET YOUR 10MHz ANTENNAS SQUARED AWAY NOW!!-------cont.

NEWS FROM ARRL & WESTLINk REPORT (cont.)

TWO MANUFACTURERS HAVE REQUESTED WAIVERS OF FCC PART 18 CERTIFICATION. NORTH AMERICAN PHILIPS WANTS TO MARKET A LIGHT BULB WHICH GENERATES RF. A SAN DIEGO COMPANY HAS DEVELOPED AN ELECTRONIC BALLAST FOR FLOURESCENT LAMPS. BOTH DEVICES GENERATE INTERFERENCE TO AMATEUR RECEIVERS AND ARRL HAS FILED COMMENTS EXPRESSING SUPPORT FOR ENERGY CONSERVATION MEASURES BUT SUGGESTING THE RFI POTENTIAL MUST BE CONSIDERED BEFORE GRANTING ANY WAIVERS.

A BLUE-RIBBON COMMITTEE HAS COMPLETED ITS STUDY AND ARRL HAS FILED LENGTHLY COMMENTS IN FCC DOCKET 79-144, CONCERNING PROPOSED FCC REGULATIONS TO LIMIT HUMAN EXPOSURE TO STRONG RF FIELDS. THE FILING IS SUMMARIZED IN OCTOBER QST.

DR. STEPHEN J. LUKASIK, FCC CHIEF SCIENTIST, HAS TENDERED HIS RESIGNATION EFFECTIVE OCTOBER 2 TO RE-ENTER PRIVATE INDUSTRY. DR. LUKASIK SERVED IN THE POSITION, WHICH REPLACED THE POSITION AND TITLE OF CHIEF ENGINEER, FOR FOUR YEARS.

A NEW THREAT TO AMATEUR RADIO IS THE "ULTRA LONG RANGE" CORDLESS TELEPHONE. DESIGNED FOR EXPORT ONLY, THESE MODELS OPERATE ON 143-147 MHz WITH 13 WATTS AND A 25 WATT "BOOSTER" IS AVAILABLE. ONE EXPORT MODEL, THE NO CORD DX NC-20M, HAS BEEN DISCOVERED BEING USED IN THE U.S. ILLEGALLY AND NOWHERE IN THE MANUFACTURER'S LITERATURE IS THE FACT MENTIONED THAT THE UNITS ARE ILLEGAL IN THE U.S..

220 MHz REPEATER WILL BE HERE AND ON THE OON. THE COORDINATED FREQUENCY PAIR, ED TO US BY THE WESTERN WASHINGTON AMATEUR ASSOCIATION, IS 224.52 T AND 222.92 R.

WILL BE TESTING THE REPEATER ON THE AIR IN ACOMA AREA, IN ORDER THAT WE MAY GET AC-ED WITH IT AND BE ASSURED OF ITS RELIABIL- BEFORE WE MOVE IT TO A LESS ACCESSIBLE P LOCATION.

THE OUTSET OF THIS PROJECT IT WAS DETER- BY THOSE PERSONS WHO EXPRESSED THEIR NS AND INTEREST, THAT OUR 220 REPEATER BE A WIDE AREA OPERATION. WE DETERMINED HE ABSOLUTE MINIMUM COVERAGE WE DESIRED WAS EA WE REFER TO AS THE GREATER PUGET SOUND

REGION. WITH THIS OBJECTIVE IN MIND, WE ARE WORKING ON ARRANGEMENTS TO LOCATE THE REPEATER ON A MOUNTAIN PEAK ON THE WEST SIDE OF THE PUGET SOUND. I'LL GIVE YOU MORE INFORMATION ON THIS AS IT BECOMES AVAILABLE.

WITH DEPENDABILITY AND HIGH PERFORMANCE IN MIND, WE HAVE PURCHASED THE VERY BEST COMMERCIAL QUALITY, HEAVY DUTY COMPONENTS WE COULD OBTAIN FOR THIS SYSTEM. THE ANTENNA IS MADE BY DECIBEL PRODUCTS OF DALLAS, TEXAS AND IS A 9db GAIN, CARDIOD RADIATION PATTERN, STACKED DIPOLE ARRAY. DUE TO ITS RUGGED CONSTRUCTION, THIS ANTENNA IS GUARANTEED TO WITHSTAND WINDS UP TO 100 MPH WITHOUT ICE AND UP TO 70 MPH WITH UP TO 1/2" OF RADIAL ICE. OUR DUPLEXER IS ALSO TOP QUALITY AND MADE BY DECIBEL PRODUCTS. IT CONSISTS OF 6 TUNED CAVITIES AND CLAIMS ISOLATION OF 10db AT 1.6 MHz FREQUENCY SEPARATION. THE REPEATER IS A MODEL LR-1 MADE BY MICRO CONTROL SPECIALITIES OF GROVELAND, MASSACHUSETTS. ITS RECEIVER CONTAINS MULTI-SECTION XTAL FILTERING AND IT HAS A HELICAL RESONATOR/PREAMPLIFIER FRONT END FOR SUPER SENSITIVITY AND SELECTIVITY. ITS TRANSMITTER IS RATED 15 WATTS AT 100% CONTINUOUS DUTY CYCLE, WHICH MEANS IT CAN RUN KEY-DOWN FOREVER WITHOUT OVERHEATING. ITS AUDIO IS TRUE FM, NOT PHASE MODULATION. BOTH THE RECEIVER AND THE TRANSMITTER ARE ENCLOSED IN THEIR OWN DIE CAST RF TIGHT BOXES TO INSURE MAXIMUM ISOLATION AND MINIMUM INTERACTION BETWEEN THEM. WHEN ADDITIONAL FUNDS ARE GENERATED, WE INTEND TO OPTIMIZE THE SYSTEM WITH A 75 WATT CONTINUOUS DUTY AMPLIFIER.

OUR GOAL IS TO PROVIDE YOU WITH THE MOST RELIABLE AND THE HIGHEST PERFORMANCE REPEATER SYSTEMS AFFORDABLE TO US. YOUR INPUT IS ALWAYS WELCOMED.

REPEATER (cont. from front page)

MANY OF YOU ARE INTERESTED IN ACQUIRING 220 MHz RADIO EQUIPMENT. SELECTION IS A BIT LIMITED TODAY BUT WE UNDERSTAND THAT IT SHOULD GET BETTER, SOON. NEW RADIOS YOU CAN BUY TODAY, INCLUDE HANDHELDS FROM TEMPO, ICOM AND A CRYSTAL TRANSCEIVER FROM YAESU. WE UNDERSTAND THAT YAESU IS TO BEGIN MARKETING A 220 HANDHELD IN EARLY 1983 AND THAT SOMETIME SHORTLY AFTER THAT, THEY WILL HAVE A MOBILE/BASE STATION RADIO FOR 220. RUMORS STILL CONTINUE TO INDICATE THAT ICOM WILL SOON INTRODUCE A 220 TRANSCEIVER MODELED AFTER THE IC25. THEY HAVE JUST ANNOUNCED A NEW 450 TRANSCEIVER IN THAT SERIES. OCCASIONALLY USED AND UNSOLD NEW MIDLAND 13-509 XTAL CONTROLLED TRANSCEIVERS, ARE AVAILABLE INDIVIDUALLY OR IN GROUPS. I'LL KEEP YOU INFORMED AS RADIOS BECOME AVAILABLE.

I LOOK FORWARD TO SHOWING AND DEMONSTRATING TO YOU, OUR NEW REPEATER SYSTEM. ALL OF ITS COMPONENTS ARE TO BE DELIVERED TO US BY MID DECEMBER. SEE YOU ON 220 !!......PETER, WA7FUS

AUXILIARY NEWS

THE NEXT MEETING OF THE LADIES AUXILIARY WILL BE NOVEMBER 17TH, (check that date, Dick) AT 7:30PM IN THE CLUBHOUSE AT 1249 SOUTH WASHINGTON.

OUR POTLUCK WASN'T A HUGE SUCCESS, AS REPORTED ELSWHERE BUT THOSE OF US, WHO WERE THERE, ENJOYED A GREAT MEAL.

WE'RE SORRY DONNA HATHAWAY HAD TO DODGE A CAR, COMING AT HER, WHICH RESULTED IN HER HITTING A BRIDGE ABUTMENT ON INTERSTATE 5. BOTH DONNA AND HER MOTHER, WERE INJURED. DONNA IS ON CRUTCHES WITH A LEG INJURY AND HER MOTHER SUFFERED A FRACTURED COLLAR-BONE.

HELEN DANISHER IS ALSO HOBBLING AROUND WITH A SPRAINED ANKLE, VIRGINIA WEIGHTMAN IS HOSPITALIZED, JOANIE MILLER AND CARMINE PERRY HAVE BEEN ON THE SHELF AND SEVERAL HAVE HAD THE FLU. WE HOPE ALL ARE MUCH BETTER BY THE TIME THIS IS READ.

CONGRATULATIONS TO KAREN AND BILL LYSTAD ON THE ARRIVAL OF A SON, OCTOBER 15TH..

RENO HAS BEEN VISITED BY SOME OF OUR GALS. VERNA RYAN AND FREYA HUTT LEFT SOME BUCKS THAT CARMINE PERRY BROUGHT HOME AND THEN VIVIAN HUNTLEY TOOK SOME BACK FOR THE NEXT ONE WHO GOES.

THE AWARD CEREMONY FOR CO THI PHOM AT THE AMVETS POST #1 ON OCTOBER 14TH., MADE THE TV CHANNEL 11, 10PM NEWS. DID YOU SEE IT AND FREYA? DON HUTT SAYS, "NEXT YEAR'S CONTEST WILL BE MUCH BIGGER AND BETTER."

START THINKING ABOUT THE RECIPE YOU WILL SHARE WITH US, WITH A SAMPLE AT OUR DECEMBER MEETING. IT COMES EARLY - 15TH OF THE MONTH.

COME TO CLUB....................ETHEL DEVISH

P.S.

Mark the 1st Saturdays for Pinochle ahead of each issue. (It comes before the Bark reminder) In October, Jeanie Bishop and Mary Wheeler were high and Marilyn Moore and Otho Smith were low.

POTLUCK

WHERE WERE YOU ON SUNDAY AFTERNOON, OCTOBER 24TH.? OUR USUAL BIG CROWD FOR A FREE MEAL DWINDLED DOWN TO A MERE 25. WE REALLY ATE WELL ON THE SUPPLY FOR 75 OR SO.

DONNA DIGHTMAN WAS ESPECIALLY DISAPPOINTED BECAUSE SHE WAS HOPING TO MEET SOME OF THE WIVES OF THE FELLOWS THAT STEVE SPENDS SO MUCH TIME WITH IN ORGANIZING RUNS AND RACES. SHE ARRIVED EARLY AND SET UP AND DECORATED TABLES. HAD THINGS READY FOR A GOOD CROWD. HER MACARONI AND CHEESE WAS DELICIOUS AS WAS THE 25 POUNDS OF HAM THAT JEAN WHEELER BAKED. THE STRING BEANS, SALAD AND DESERTS WERE VERY GOOD AND GOING BACK THREE TIMES FOR PIE AND CAKE, CAN'T BE BEAT.

LET US KNOW WHAT KEPT YOU FROM COMING SO WE WON'T MAKE THE SAME MISTAKE NEXT YEAR.

YL NEWS

CONGRATULATIONS TO LUCY KELLY, KA7JDV, ON HER UPGRADE TO ADVANCED ON OCTOBER 8TH.. THAT'S REALLY GREAT. WILL YOU HAVE A NEW CALL?

ANGELA, KC7EQ, IS AGAIN BUSY WITH NOVICE CLASSES AT THE CLUBHOUSE. INSTEAD OF DROP-OUTS SHE IS HAVING 'ADD-ONS'. SHE IS ALSO WORKING WITH A SHUT-IN SWL IN GIG HARBOR TO GET A TECHNICIAN LICENSE, SO SHE CAN ANSWER THE PEOPLE SHE ENJOYS LISTENING TO. WE COMMEND YOU ANGELA BECAUSE WE KNOW YOUR TIME IS IN DEMAND AT HOME AND IT IS A REAL EFFORT TO GIVE SO MUCH AWAY.

WE ARE GLAD TO HAVE IRMA, W7OVW, BACK AND ACTIVE AFTER HER RECENT SURGERY, WHICH WE SURELY HOPE WILL PUT AN END TO THE PROBLEMS PLAGUING HER ALL SUMMER AND FALL.

GRACE, AD7S, IS BUSY HAMMING AND GLAD TO BE ABLE TO GET TO THE RIG, NOW THAT THE CAST IS OFF. SHE IS THE WEST COAST CONTROL FOR YL,SSB ON WEDNESDAYS AND SATURDAYS AND MUST EXERCISE HER LEG THREE TIMES A DAY. SHE SAYS, IT IS COMING ALONG VERY WELL BUT IT TAKES TIME AND SHE IS TRYING TO BE PATIENT.

DON'T FORGET THE YL-AP CONTEST, NOVEMBER 3 AND 4, STARTING AT 1800 AND RUNNING 24 HOURS. A GOOD CHANCE TO COMPLETE WAS-YL OR YLCC.

33 - ETHEL, W7WLX

NOTE TO BARK

10/14/82

I HAVE SOME INFORMATION FOR THE CLUB MEMBERS AND YOURSELF, THAT MAY BE OF INTEREST.

I HAVE BEEN KEEPING A SCHEDULE WITH OUR BROTHER MEMBER IN JAPAN, KEN TAKAMURA JR3VII. HE ALWAYS ASKS ABOUT THE CLUB AND "DOC". KEN ENJOYS BEING A MEMBER AND IS ALWAYS LOOKING FOR LOGGER CONTACTS. HE INFORMED ME THAT HE DID NOT MAKE HIS TRIP TO ZL AND VK LAND THIS YEAR BECAUSE HE SPENT HIS TRIP MONEY ON A COMPUTER. THAT IS RIGHT, HE IS NOW A FULL FLEDGED RTTY OPERATOR! KEN TRANSMITTED TO ME HIS TIME AND FREQUENCY SO THAT ALL THE RTTY BUFFS CAN MAKE CONTACT. HE IS ON EVERY DAY, EXCEPT MONDAY AND TUESDAYS. (THAT IS USA TIME) THE FREQUENCY IS 21097 AT 0200 GMT.

HOPE TO GET MY OLD KLEINSCHMIDT GOING BUT AM STILL HAVING TROUBLE WITH THE FSK ON MY TS830.

THANKS FOR THE NEWS LETTER DICK, I ENJOY IT VERY MUCH BECAUSE I DO NOT SEE MANY MEMBERS SINCE I RETIRED, OUT HERE IN THE BOONDOCKS, HI!

LETTER FROM RCT MEMBER

TO: THE LOGGERS BARK:

AFTER ATTENDING THE RCT MEETING ON 13 OCT.,, WENT HOME AND OVER A CUP OF COFFEE I WAS THINKIN OF THE MEETING. THERE WAS A YOUNG VIS- ITOR WH SURELY MUST HAVE BEEN VERY INTERESTED IN AMATEU RADIO. HE HAD A SMALL CHILD TO ATTEND TO AND YE THRU IT ALL HE STAYED FOR THE COMPLETE MEETING I RECALLED MY FIRST THREE MEETINGS BE- FOR BECOMING A MEMBER AND A FEW MEETINGS AFTER BECAME A MEMBER. I RECALLED ALSO AT THE MEETING A YOUNG FELLOW APPLICANT SITTING BY HIMSELF THEN I RECALLED AN ARTICLE I HAD READ THAT MAD ME THINK THAT MAYBE ALL OF US RCT MEMBERS SHOUL REFRESH A LITTLE. HERE IT IS:

I'M A NEW MEMBER

I SEE YOU AT THE MEETING, BUT YOU NEVER SA "HELLO"
YOU'RE BUSY ALL THE TIME YOU'RE THERE WIT EVERYONE YOU KNOW.
I SIT DOWN WITH THE FELLOWS BUT I'M STILL LONESOME GUY.
THE NEW FISH ARE AS STRANGE AS I, YOU "OLD" ONE PASS US BY.
BUT DARN IT, YOU GUYS ASK US IN, AND YOU TALKE OF FELLOWSHIP.
YOU COULD JUST STEP ACROSS THE ROOM BUT YOU'V NEVER MADE THE TRIP.
WHY CAN'T YOU NOD AND SAY HELLO OR STOP AND SHAK MY HAND.
THEN GO AND SIT AMONGST YOUR FRIENDS, NOW THA I'D UNDERSTAND.
I'LL BE AT YOUR NEXT MEETING,
WHY DON'T YOU INTRODUCE YOURSELF? I WANT TO B YOUR FRIEND.

I CAN ONLY SAY TO YOU MEMBERS "BY GOSH IF YO TRY, SO WILL I". I AM NOT SIGNING MY CALL O NAME FOR I FEEL IT BEST, THIS COULD BE FROM AN OLD OR NEW MEMBER.

73'S YOU ALL

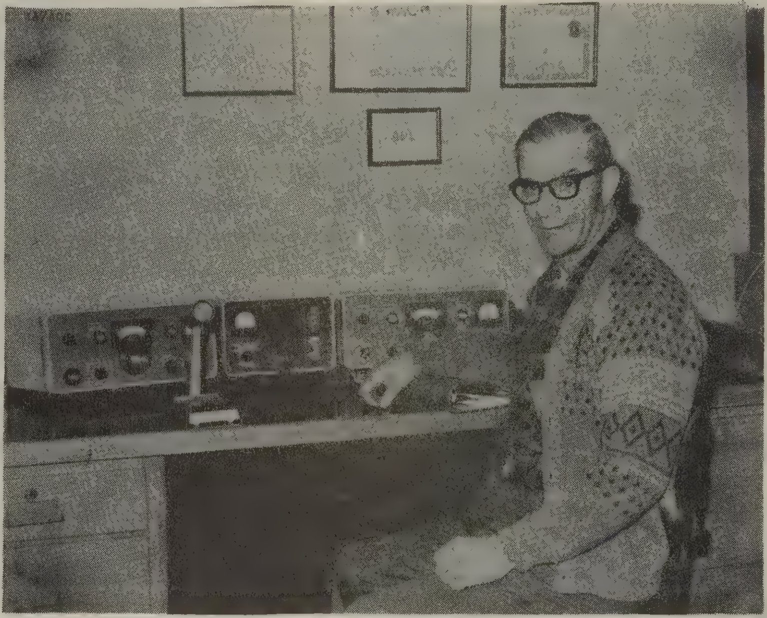
In Remembrance



ELMER R. RHOADS
WB7AQC

Elmer Rhoads WB7AQC was born in Harrisburg Pennsylvania February 8th, 1909 and passed away at Madigan General Hospital, October 23, 1982 at the age of 73 after quite a long illness of Diabetes culminated by a heart failure.

His youth was spent in Harrisburg Pa., graduating from high school there. His military service extended from 1931 to 1961, when he retired after 30 years service as a Sargeant 1st class. He specialized in (electronics) signal division having graduated from the U.S.Army Signal Corps at Fort Monmouth N.J. and was affiliated with the 7th Division Army Band in Europe and the 4th Infantry band at Fort Lewis. He played the French horn in the band. He served in the Pacific Area in WWII in Hawaii, Italy and Korea. Elmer moved to Tacoma in 1958.

Elmer joined the RCT on February 2, 1972.(RCT# 671) and was sponsored by Dennis Ranier WB7UBA and Don Grant WA7PIN. He was first licensed (Novice) as WN7SBC

Elmer always offered his help and talents whenever there was an activity or job to be done. He enthusiastically served and participated in all phases of the RCT.

Private services were held Tuesday, October 26th at the Firland Funeral Home. (Family only) Cremation followed.

Survivors include his wife Margaret, a son Peter Henry of Colorado Springs Colorado, a daughter Heidi Meredith of Tacoma, two sisters Grace Smith and Jane Cuddy of Harrisburg and three grand children.

A "Silent Key" memorial service was given by Dr. Spike W7OS to honor the memory of Elmer during the RCT meeting October 27,1982. We of the Radio Club of Tacoma will surely miss and remember Elmer and extend our sympathies to his xyl Margaret, Peter, Heidi and all of his family.

LIFE OF A RCT CONTROL OPERATOR

FIRST LET ME REMIND ALL RCT MEMBERS, WHO DO NOT MONITOR JUST HOW MUCH YOU ARE MISSING. IF YOU HAVE A TOUCHTONE PHONE, PLEASE SIGN UP. REMEMBER, UNCLE SAM'S WW II POSTER? YES WE NEED YOU!!

1800H - MADE CALL FOR CONTROL OPERATOR AND KA7FIG CAME BACK. I SEEM TO ALWAYS RELIEVE W7RGD OR KA7FIG, REGARDLESS OF WHEN I MONITOR. NEVER-THE-LESS WE ASSUMED THE "WATCH" AND CHECKED AUTOPATCH TO MAKE SURE WE'RE MONITORING A WORKING PATCH. CALLED TO DINNER AND PRESUME MY "WATCH" IS SET. (I REFER TO IT AS A WATCH FOR IT REMINDS ME OF NAVY BOOT CAMP AND STANDING A WATCH ON DRYING SKIVIES ON A CLOTHSLINE AT 2400-0400; ANOTHER REGULATION EH?)

1810H - KERCHUNK !! THEN SILENCE. FOUR OR FIVE MORE KERCHUNKS. SAME BACK GROUND NOISE, SO IT IS SAME FELLOW. I KEYUP AND ASK, "IS SOMEONE HAVING TROUBLES OUT THERE AND IF SO WE WILL TRY TO HELP YOU?" DEAD SILENCE. SO BACK TO MY COOLING DINNER BUT NOT COOLING WIFE, FOR DINNER IS READY.

1815H - MORE KERCHUNKING BUT NOW ONLY EVERY 10 TO 30 SECONDS BUT ALAS, SOMEONE IS MAKING A CALL ON AUTOPATCH. ALL WENT FINE AND MESSAGE PASSED. WIFE IS HAPPY TO KNOW HER HAM IS HEADED HOME. NOW THIS MAKES MY WATCH WORTHWHILE.

1830H - .-- --.. -.. -.- AND REPEATED EVERY FEW MINUTES. MUST BE OUR CODE PRACTICER OUT THERE SOMEPLACE. LOW AND BEHOLD, SOMEONE IS ACCESSING PATCH AND CALL COMPLETED AND CODE PRACTICE WAS INTERUPTED---CHEERS!

(continued next page)

CLUB MINUTES (cont.)

MRS. SPIKE NOW HOME BUT WILL NEED TO RETURN TO HOSPITAL LATER.

NEW MEMBER APPLICATIONS READ FOR LEONARD CARROLL W6LXH.

ANNOUNCEMENTS:1)PINOCHLE BEGINS AT 8PM AT CLUB OCT. 2. 2)SUNDAY OCT. 24 AUXILIARY IS SPONSORING A POTLUCK DINNER AT THE CLUBHOUSE. THOSE WHO COME ARE ASKED TO BRING SALAD OR DESSERT. SERVING FROM 4 TO 6 PM. 3) CLASSES PLANNED TO BEGIN AT NORTHWEST RADIO IN JANUARY. PRESIDENT STRESSED THAT THE CLUB NEEDS TO GET CLASSES GOING AND ALL ASKED TO CONSIDER HELPING OUT.

REPORTS

WA7ZZA REPORTED ON THE WESTERN WASH. FAIR AND CLUB BOOTH THERE. HE EXPLAINED WE ARE THE ONLY CLUB STILL ALLOWED IN THE HOBBY BUILDING. THE THEME USED ON PUBLIC SERVICE AND THE REPEATERS WAS WELL RECEIVED BY THE MANAGERS OF THE BLDG. THEY DID COMPLAIN OF THE LOUD CW OPERATION AND ASKED THAT IT NOT BE USED AGAIN OR USED VERY LOW VOLUME SINCE IT ECHOES ALL OVER THE HALL. BOB STATED WE COULD EASILY LOSE OUR SPOT IF WE IRRITATE THE HALL MANAGERS.

K7SSC REPORTED TOUR DE FOREST ROAD RALLY IS OCT.2 & 3 NEAR OLYMPIA. HE EXPLAINED HOW THE HAMS ARE USED IN THE RALLY.

WA7FUS REPORTS THE COMMITTEE FOR THE 220MHZ REPEATER HAVE COMPLETED THEIR EQUIPMENT SELECTION. TOTAL COST IS EXPECTED TO BE $2100. AUXILIARY HAS DONATED $200 TO THE FUND AND THEY NEED ABOUT $900 MORE. REQUESTED AN APPROPRIATION OF $600 FROM THE CLUB TREASURY WITH A LOAN OF ADDITIONAL $300. THE LOAN WOULD BE PAID BACK BY COMMITTEE ACTIVITIES. MOTION MADE BY WA7ZSR TO APPROVE A DONATION OF $600 & A LOAN OF $300 TO THE 220MHZ REPEATER COMMITTEE FROM THE CLUB. SECONDED BY WB7CRR. DISCUSSION FOLLOWED WITH QUESTION ON STATE OF TREASURY, SEC. RESTATED LAST REPORT OF LAST MEETING. QUESTION ALSO ON WHERE IT MAY BE LOCATED, NOT POSITIVE YET BUT WOULD LIKE TO COVER TACOMA AND SEATTLE. MOTION APPROVED BY MAJORITY OF MEMBERS.

KA7DCX AS AUTO/PATCH CONTROL COORIDINATOR NEEDS MORE HELP AND PASSED A SIGN UP SHEET.

W7BUN REPORTS THE ANNUAL SWEEPSTAKES CONTEST WITH THE BEARS CLUB IS COMING UP. THE BEARS CLUB INVITED A GROUP OF CLUB CONTESTERS TO COME UP THERE TO TALK ABOUT HOW TO WIN A CONTEST OCT. 2. CONTACT JERRY IF YOU CAN GO.

WA7RWK SPOKE ABOUT HIS CANDIDACY FOR ARRL NORTHWESTERN DIRECTOR AND ASKED THE CLUBS' SUPPORT. W7SFT STRESSED THAT THE ARRL IS OUR VOICE TO WASH. D.C. AND NEEDS ALL OUR SUPPORT.

WA7ENB AGAIN ASKED FOR MORE MEMBERS TO JOIN THE CLUB BOWLING TEAM. RECENTLY HAVE HAD PROBLEMS DUE TO ILLNESS OF SOME OF THE FORMER REGULARS.

WB7FHC REPORTED THE FIRST COMPUTER CLASSES ARE FILLED AND MAY LOOK AT POSSIBLE CLASS IN OCT. COST IS $15/SESSION OR $25/FOR 2 SESSIONS.

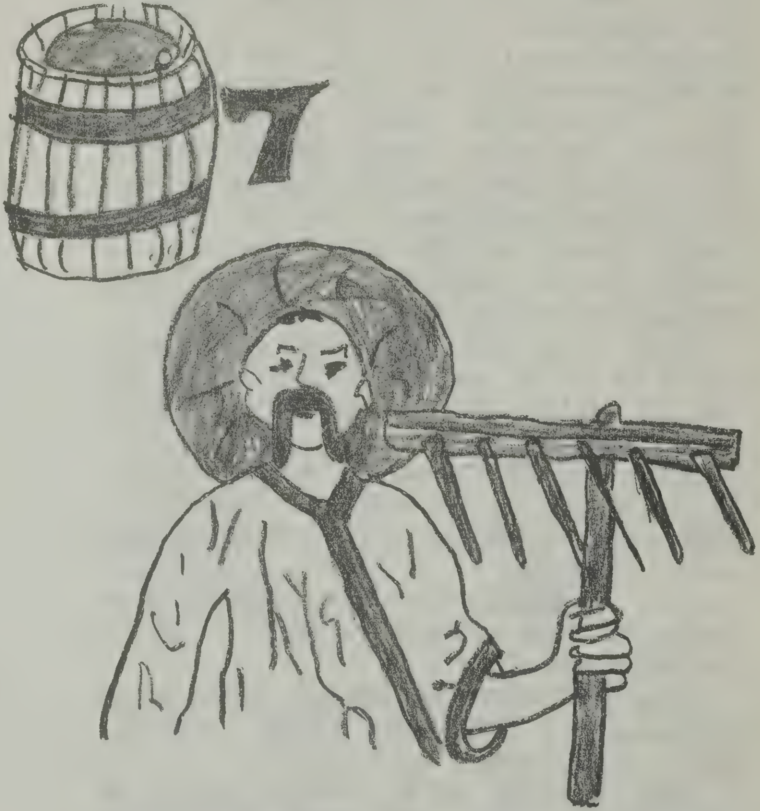
BE SURE TO HELP THE CLUB'S SCORES BY PARTICIPATING IN THE SS THIS YEAR. CW WEEKEND IS NOVEMBER 6 AND 7 AND PHONE WEEKEND IS NOVEMBER 20 AND 21. OPERATING TIME IS BETWEEN 1PM PDT ON SATURDAY AND 7PM PDT ON SUNDAY, BOTH WEEKENDS. YOU MAY OPERATE ANY 24 HOURS OUT OF THIS 30 HOUR PERIOD. READ THE RULES ON PAGE 73 OF OCTOBER QST, HAVE FUN IN THE CONTEST AND TURN YOUR LOG SHEETS IN TO THE SECRETARY. THE CLUB'S CONTEST COMMITTEE WILL CHECK YOUR ENTRY FOR ERRORS, ADD UP THE CLUB'S SCORE AND SEND ALL LOGS TO ARRL. THIS WAY YOU HELP THE CLUB "BEAT THE BEARS" AND THE CLUB WILL CHECK YOUR LOGS AND PAY THE POSTAGE! GOOD LUCK-KEEP THE RATE UP!

GUESS WHO? PICTURE PUZZLE

-K7CYZ-



THIS FEATURE OF THE LOGGERS BARK WILL TERMINATE WITH THIS ISSUE.

WE RE-RAN THE ABOVE PUZZLE TO CLEAR UP A MISUNDERSTANDING ABOUT IT A COUPLE OF MONTHS AGO. THE CORRECT ANSWER WAS K7CR. THE KEG, WITH THE 7 IS K7, NOT WATER BARREL 7 AS SOME PEOPLE THOUGHT. THERE IS ROOM FOR ARGUMENT, WHETHER IT IS A KEG OR A BARREL BUT WHEN IT WAS DRAWN, I HAD A KEG IN MIND. SO THE ANSWER WOULD BE KEG 7 CHINESE RAKE OR K7CR............................SCOTTY

AUTOPATCH (cont.)

1845H - THREE AUTOPATCH CALLS IN A ROW, WITH 100% RESULTS. MOTHER'S NOW KNOW WHEN TO EXPECT THEIR HANDSOME HAMS AND AND THAT HE'LL STOP AND PICK UP NEEDED GRITS AND EGGS. ONE MORE CALLER BUT HE CAN NOT BRING UP PATCH. WE ASSIST AND HE THANKS US. THAT "THANK YOU" IS ALL THE PAY US CONTROL OPERATORS EXPECT.

1900H - "AND NOW, HERE COMES JIM-IE(KA7-NSR) WITH THE W7DK-NET". GOOD, NOW I CAN LISTEN A SPELL AND CHECK IN FOR ROLL CALL. NICE NET AND CONSIDERABLE INFORMATION PASSED OUT. GOOD JOB JIM.

1922H - NET ENDS AND REPEATER GETS BUSY WITH USUAL AFTER NET CONTACT. NOW THE REPEATER WILL BE BUSY FOR A SPELL, SO I PICK UP SOME OLD 73'S AND SCAN THROUGH A FEW. READ AN ARTICLE ON HOW TO IMPROVE MY RINGO RANGER. THEN I READ THE FCC UP-DATE. AS I LISTEN TO THE REPEATER, I HEAR ALL THIS I-Ding.---SO HERE IS THE ARTICLE. EFFECTIVE 10-1-81 SECTION (a) OF 97.84 READS; EACH AMATEUR RADIO STATION SHALL GIVE ITS CALL SIGN AT THE END OF EACH COMMUNICATION AND EVERY TEN MINUTES DURING A COMMUNICATION. CHANGE, DELETES THE REQUIREMENT FOR GIVING THE CALL SIGN OF THE OTHER STATION EXCEPT KWHEN HANDLING THIRD PARTY TRAFFIC. SO FROM NOW ON N7BAA WILL BE JUST BILL, HI! SO ALL CONTACTS ARE MUCH EASIER, WHEN MOBILE, NO MORE OF THIS "DO I HAVE YOUR CALL CORRECT?" MORE TIME FOR CONVERSATION AND NOT SO MUCH I.D.ING.

2130H - 'OLE' REPEATER HAS GONE QUIET. MONITORING NOW IS LIKE WATCHING A BABY SLEEP. NOW AND THEN A SLIGHT NOISE BUT HEY! THAT NOISE IS MY KERCHUNKER!

2136H - TWO CONTACTS MADE ON REPEATER FOLLOWED BY SOME ONE OVER ON THE PENNINSULA TRYING TO CALL HOME. ABLE TO MAKE CALL TO HIS HOME AND SO ONCE AGAIN A THANK-YOU.

2200H - REPEATER VERY QUIET. ONE FEELS HE SHOULD JUST TURN AUTOPATCH OFF AND GO TO BED BUT NO, SOMEONE MAY NEED IT.

2300H - ONE ASSIST CALL AND ONE FELLOW CALLING HOME FOR WIFE TO BRING JUMPER CABLES. BOY! AM I GLAD I LEFT PATCH ON.

2400H - BEDTIME BUT AS ED KA7INX SAID OF THE PUYALLUP FAIR BOOTH, "FOR EVERY FIVE WHO ASK WHERE IS THE RESTROOMS, TWO ASK ABOUT AMATEUR RADIO." SO FOR EVERY FIFTEEN KERCHUNKS, WE HAD ONE OR TWO AND MADE SEVERAL QSOs NOW AND THEN.

0002H - WE START PUNCHING NUMBERS TO TURN AUTOPATCH OFF. WE ANNOUNCE WE'VE DONE SO BUTWHO IS OUT THERE AT 0002? YOU GUESSED IT, MY FRIEND MR. KERCHUNKER, WHO GAVE IT ONE MORE GO.

WAS THE "WATCH" WORTH IT? YOU BET!! IF WE ONLY HELPED ONE PERSON A LITTLE, IT WAS WORTH IT.

(concl.next col.)

AUTOPATCH (concl.)

I ONLY WISH MY KERCHUNKER WOULD TALK TO ME HELP MY WATCH GO FASTER. SO, PLEASE GIVE CALL MR. K. I'LL BE BACK NEXT TUESDAY EVE 1800 TO 2400 HOURS.......GOOD NIGHT AND 73,

THIS IS A SAMPLE OF YOUR CLUB EWSPAPER. THERE IS ONLY ONE WAY R YOUR PAPER TO BE A SUCCESS AND HAT IS FOR ALL OF THE MEMBERS TO RING OR PHONE THE LATEST NEWS TO MIL KOTH K7GPK OR MARGIE CHAVIS 7AMJ. WE WOULD LIKE TO HAVE NEWS ROM EVERYONE. WHO IS BUILDING HAT THESE DAYS? WHO HAS NEW UIPMENT? WE KNOW OUR CLUB MEM-ERS ARE ACTIVE IN ALL SORTS OF HINGS, BUILDING, EXPERIMENTING, TC. ALL IT TAKES IS ONE PHONE LL TO LET THE REST OF THE CLUB NOW.

IF THE NEWSPAPER IS TO BE A UCCESS IT WILL BE BECAUSE OF ALL HE CLUB MEMBERS AND THEIR NEWS. T'S MAKE THIS A REAL NEWSPAPER LKS AND START BRINGING IN YOUR SSIP AND OTHER ITEMS OF INTEREST D WE WILL SEE THEM IN PRINT.

FCC & ARRL NEWS

THIS IS ANOTHER ARTICLE WE ULD LIKE TO PRESENT TO THE CLUB THIS NEWSPAPER EACH MONTH. HIS IS ONE WAY TO LET ALL THE LUB MEMBERS KNOW WHAT IS GOING ON THE LEGAL END OF HAM RADIO.ARRL LLETINS WILL BE PUBLISHED AS HEY ARE RECEIVED. FCC NEW WILL SO COME TO YOU AS THEY ARE RE-EIVED OVER OUR TELETYPE TO YOU EWSPAPER.

......THAT OUTDATED, OUTMODED, D FASHIONED WAY OF COMMUNICATIONS HAT ALWAYS GETS THROUGH!!

PSCARC NEWS

THE PUGET SOUND COUNCIL OF AMATEUR RADIO CLUBS WILL HOLD THE DECEMBER MEETING JANUARY 3 AT THE BOEING EMPLOYEES AMATEUR RADIO CLUB.

ONE OF THE TOPICS TO BE DISCUSSED WILL BE "HOW TO HELP THE BLIND AMATEURS IN TECHNICAL ACHIEVMENT." THE TRACING OF CIRCUITS,CURRENT AND VOLTAGE MEASURMENTS AND GENERAL UNDERSTANDING OF WHAT A CIRCUIT IS AND HOW IT WORKS. FOR INSTANCE,A TRANSISTOR CIRCUIT, A WIRE CONNECTS TO THE EMITTER. THE BLIND AMATEUR ASKS THE QUESTION,"WHAT IS AN EMITTER?" THE COUNCIL IS SEEKING VARIOUS WAYS OF DESCRIBING CIRCUITS TO THE POINT WHERE THE BLIND AMATEUR CAN UNDERSTAND IT. THE DELEGATES WILL ALSO REPORT ON THE LOCATION OF THIS YEARS BANQUET...W7IKG DELEGATE.

AREC & CD NEWS

WE ARE HOPING THAT WITH THE HELP OF DENNY W7ZTG AND ROY K7USF WE WILL HAVE NEWS EACH MONTH OF THE HAPPENINGS IN AREC.

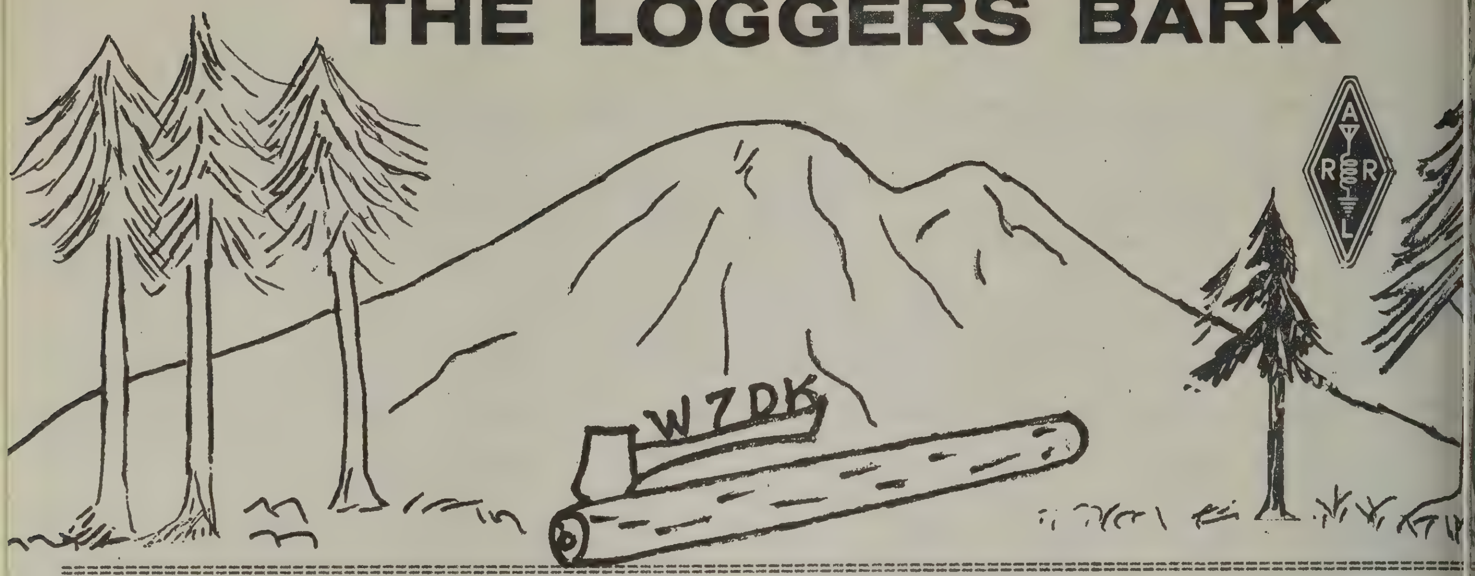
THE LOGGERS BARK



VOL XIX NR.12 W7DK DECEMBER, 1

HAPPY BIRTHDAY

THIS MONTH MARKS THE START OF THE TWENTIETH YEAR OF CONTINUOUS PUBLICATION OF YOUR LOGERS BARK. THE FRONT PAGE OF THIS ISSUE OF THE BARK, IS A COPY OF THE FIRST MIMEOGRAPH PAPER THAT WAS MAILED TO THE MEMBERSHIP TO TEST THE REACTION TO A CLUB PAPER RATHER THAN THE FORMER POST CARD THAT WAS MAILED EACH MONTH. WE LABELED IT VOLUME 0 NUMBER 0 AND THE MEMBERSHIP REACTED FAVORABLY WITH THE ISSUE. THE FOLLOWING MONTH JANUARY, 1964 WE PUBLISHED VOLUME 1 NUMBER 1 AND THE REST IS NOW HISTORY.

THE BARK WAS PRINTED (MIMEOGRAPHED) UNTIL THE JULY, 1964 ISSUE. STARTING IN JULY, THE BARK HAS BEEN PRINTED ON AN OFFSET PRESS. THIS MADE IT POSSIBLE TO PRINT PHOTOGRAPHS AND MADE THE ISSUE MORE PERSONAL WITH PICTURES OF MEMBERS AND ACTION SHOTS OF SOME OF THE CLUB'S ACTIVITIES.

STARTING WITH THE JANUARY ISSUE (VOL XX NR 1) WE WILL INCLUDE A COLUMN IN THE CURRENT PAPER ENTITLED, 20 YEARS AGO IN THE BARK. WE WILL INCLUDE COMMENTS AND MAYBE EVEN ONE OF THE ARTICLES OF THE ISSUE 20 YEARS PREVIOUS.

WE OF THE CURRENT STAFF OF THE LOGGERS BARK WANT TO THANK THAT ORIGINAL GROUP OF CLUB MEMBERS, WHO GOT TOGETHER AT THE HOME OF RALPH, W7COP AND PUT TOGETHER THAT FIRST ISSUE OF THE BARK. THEY WERE EMIL KOTH K7GPK (FIRST EDITOR), MARGIE BEECHIE K7AMJ (CO-EDITOR), DICK RYAN W7RGD (ADVERTISING/PUBLISHER), MERLE CHAVIS W7IKG (REPORTER). THANKS TO KTNT AND THEN MANAGER, MAX BICE W7AEA WHO FURNISHED THE MIMEOGRAPH EQUIPMENT TO MAKE POSSIBLE PRINTING THAT FIRST 6 MONTHS OF PUBLICATION.

SO FOR THE TWENTIETH TIME, WE OF THE STAFF OF THE LOGGERS BARK WISH YOU ALL A MERRY CHRISTMAS AND A HAPPY NEW YEAR. WE LOOK FORWARD TO KEEPING YOU ALL INFORMED OF THE RADIO CLUB'S ACTIVITIES IN THE COMING YEARS.................. ..STAFF

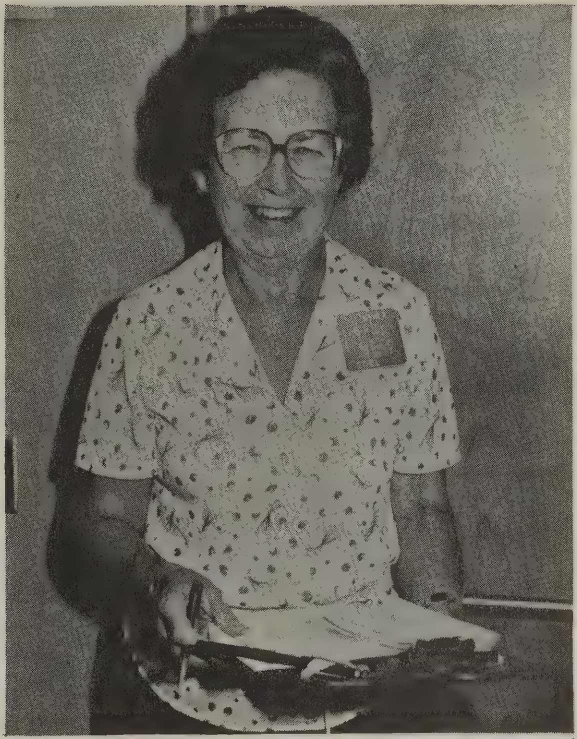
HAM OF THE MONTH



ETHEL DEVISH W7WLX

BORN IN CHARLESTON, WASHINGTON (NEAR BREMERTON) A FEW YEARS AGO AND LIKING THE PUGET SOUND AREA, ETHEL HAS LIVED IN THIS PART OF THE COUNTRY ALL OF HER LIFE.

BY PROFESSION, SHE WAS A BOOK KEEPER AND EMPLOYED BY THE TACOMA SASH AND DOOR COMPANY. IT WAS THERE THAT SHE MET ROY DEVISH AND IT DID NOT TAKE ROY VERY LONG TO KNOW A GOOD DEAL WHEN HE SAW ONE. THEY WERE MARRIED ONE COLD DAY IN JANUARY, 1937.

FOR A PERIOD OF TIME, THEY LIVED NEAR LINCOLN HIGH SCHOOL BUT ABOUT 1940 THEY MOVED INTO THE HOME THAT ROY'S FATHER BUILT IN 1917, IN THE EAST SIDE OF TACOMA AND ON ONE ACRE OF LAND. THIS HAS BEEN HOME EVER SINCE AND THEY RAISED TWO CHILDREN THERE, A SON, NOW 45 AND A DAUGHTER NOW 43. NOW THERE ARE SIX GRANDAUGHTERS AND HOW FORTUNATE THEIR WHOLE FAMILY LIVE NEARBY.

ROY WAS LICENSED BACK IN 1929 SO ETHEL WENT AFTER HER NOVICE LICENSE IN 1954 AND IN 1955 GOT HER GENERAL LICENSE. SHE HAS BEEN A VERY ACTIVE HAM EVER SINCE. SHE IS CURRENTLY WESTERN DIRECTOR OF THE QCWW (WOMEN'S CHAPTER OF THE QUARTER CENTURY WIRELESS ASSOCIATION), THE WESTERN NET CONTROL OFFICER OF THAT GROUP. SHE HAS BEEN ACTIVE IN THE YOUNG LADIES RADIO LEAGUE

(cont.next col.)

HAM OF MONTH (cont.)

(YLRL). ETHEL IS ALSO ON THE STAFF OF LOGGERS BARK AND IS INSTRUMENTAL IN PUTTING CLUB'S PAPER TOGETHER EACH MONTH.

IN ADDITION TO HER AMATEUR RADIO AND ALL DIFFERENT FACETS, SHE IS ASSOCIATED WITH IN RC ETHEL ENJOYS HER GARDENING AND THEIR GREENHOUS SHE IS AN EXCELLENT COOK AND ENJOYS PUTTING TOGETHER A GOURMET MEAL. RIGHT ROY?

ORGANIZATIONS SUCH AS OUR RADIO CLUB NEE CATALYSTS TO KEEP THE FIRE GOING AND OUR RAD CLUB IS VERY FORTUNATE TO HAVE AS MANY XYLs A YLs IN OUR GROUP, WHO SEEM TO HAVE THE KNACK FO HOLDING THINGS TOGETHER AND KEEP IT MOVING, ETHEL IS ONE OF THESE VERY SPECIAL YOUNG LADIES.

Pictured above, Ethel is pinning a visitor to th RCT meeting. One of her many Club activities

MANY THANKS ETHEL AND MERRY CHRISTMAS........
...........BUD WB7QCW

If you know anyone in the club that could a word of cheer, congratulations or condolenc please call Ethel Devish 472-4213 or Irma Dunc 531-0705.

We try to spread sunshine and we certainly don't want to overlook ANYONE.

COMPUTOR CLASS REPORT

 SECOND, SIX HOUR COMPUTER CLASS, WAS VERY EFFICIENTLY CONDUCTED BY BUDD CHURCHWARD, WB7FHC AT THE CLUB
CTOBER 26TH AND 28TH. BUDD ARRANGED FOR 10 OF THE TRS-80 COMPUTER MACHINES FOR THE STUDENTS TO WORK
ING THE SESSIONS. THERE WERE ABOUT 15 STUDENTS FOR EACH CLASS.
IC COMPUTER LANGUAGE WAS EXPLAINED AND SOME BINARY THEORY. THE CLASS WAS INSTRUCTED IN UNDERSTANDING
 A COMPUTER THINKS, WHAT IT CAN DO AND WHAT IT CANNOT DO. ANYONE AT ALL INTERESTED IN PUTTING A COMPUTER
 HAM SHACK, SHOULD CONFER WITH THE HAMS THAT HAVE COMPUTER FOR ASSISTANCE, IN SELECTION AND FOR WHAT YOU
 COMPUTER REQUIREMENTS. THIS IS A NEW FIELD FOR MOST OF US AND MOST SURELY, WE ALL WILL BE IN THE COM-
D OF HAM RADIO BEFORE VERY LONG.......................BUD WB7QCW

A BIG THANK YOU FROM
JOE WINTER WA7RWK

H TO THANK EVERYONE WHO EXERCISED THEIR
 VOTE IN THE RECENT ARRL ELECTION FOR
TERN DIVISION DIRECTOR. A SPECIAL THANKS
HO VOTED FOR ME AND TO MY WIFE, ADELINE,

WERE OFF TO ORLANDO, FLORIDA TO SEE WALT DISNEY WORLD AND THE NEW EPCOT CENTER. IT WAS AWE INSPIRING, SO MUCH PLANNING AND SO WELL EXECUTED. NOT ALL COMPLETED YET BUT MORE THAN YOU CAN SEE IN SEVERAL DAYS. WE DID IT IN ROTATION WITH A DAY ELSEWHERE. OUR RENTAL CAR WAS PART OF THE PACKAGE SO WE DROVE TO CYPRESS GARDENS, CAPE KENNEDY SPACE CENTER AT TITUSVILLE AND TO LAKELAND, FLORIDA IN BETWEEN THE LONG DAYS OF WALKING.

EPCOT IS GEARED TO ENTERTAIN ADULTS OR KIDS FROM 9 TO 90 AND NO EXPENSE HAS BEEN SPARED (NEARLY 1 BILLION) TO MAKE IT OUTSTANDING IN EVERY WAY. FABULOUS SLIDE AND MOTION PICTURE PRESENTATIONS IN WIDE SCREEN, 3-D AND SEVERAL 360 CIRCLE SPECTACULARS. SOME YOU RIDE THROUGH AND SOME THE FLOORS MOVE. EPCOT COVERS 260 ACRES SO THERE IS WIDE SPACES BETWEEN ATTRACTIONS AND LOTS OF WALKING. THERE ARE DOUBLE-DECKER BUSES TO TAKE YOU AROUND THE WORLD SHOWCASE WHICH IS THE SEPARATE COUNTRY DISPLAY AREA THAT SURROUNDS A LAKE. THERE ARE ALSO BOATS TO TAKE YOU TO THREE STOPS AROUND THE LAKE BUT YOU WALK OR WAIT MUCH OF THE TIME.

IT IS ALL WORTH IT THOUGH. A BIG WORLD'S FAIR, BUILT TO HANDLE THOUSANDS OF PEOPLE ALL OF THE TIME WITH THE GREATEST ARRAY OF TECHNIQUES ENGINEERED TO TURN SPECTATORS INTO EXCITED PARTICIPANTS AND THE PHYSICAL FACILITIES LAID OUT SO INGENIOUSLY AS TO PUT EACH MEMBER OF THE AUDIENCE AT CENTER STAGE OF EVERY ATTRACTION.

FLORIDA WEATHER WAS PERFECT ALL OF THE WEEK WE WERE THERE AND IT WAS HARD TO TRADE 75 DEGREES FOR THE 34 HERE AT HOME WHEN WE GOT BACK.

THE HOLIDAYS ARE AHEAD - HOPE YOUR'S ARE GLORIOUS.

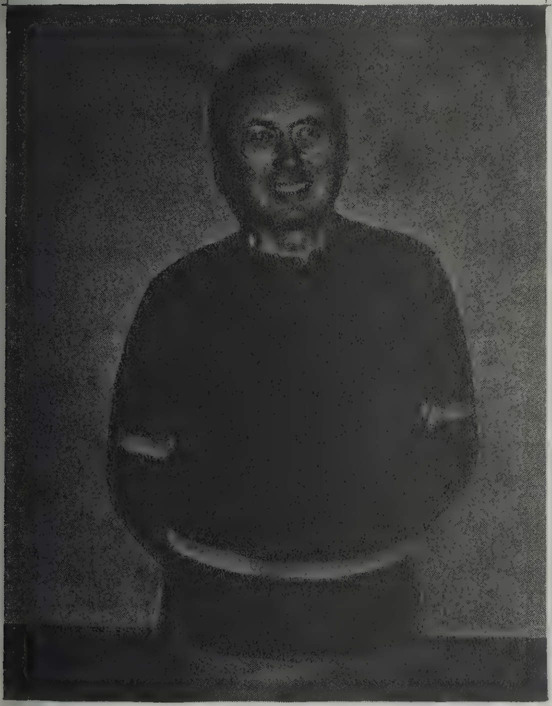
RADIO CLUB APPOINTEES

RADIO CLUB APPOINTEES ARE THOSE DEVOTED MEM-
S, WHO BECAUSE OF THEIR SPECIAL TALENTS, IN-
SE DESIRE TO SEE THE RADIO CLUB EXCEED AND
LINGNESS TO TAKE ON CERTAIN ASSIGNMENTS, ARE
OINTED BY THE BOARD OF THE RCT. THESE AP-
NTMENTS ARE NOT TIED TO THE YEARLY ELECTIONS
MORE TO THEIR WILLINGNESS AND ABILITY TO
VE.

WE HAVE FOUR SUCH APPOINTEES, WHICH WE WILL
RODUCE TO YOU:



CHRIS JENSEN WA7MJK

HRIS HAS SPENT ABOUT SEVEN YEARS WITH DOC,
LOPING THE "MEMBERSHIP HISTORY". THIS HAS
A TIME CONSUMING PROJECT, RECORDING EACH

NEWT GRIMES, OUR NEWLY APPOINTED LIBRARIAN, WILL TAKE CARE OF A LOT OF VERY VALUABLE RECORDS AND PUBLICATIONS, CONSISTING OF SUCH ITEMS AS THE NUMBER 1 QST DATED 1915, FIRST ISSUE OF THE PACIFIC RADIO NEWS OF SAN FRANCISCO (RECORDS RCT'S STARTING DATE), RCT'S ARRL CHARTER, MANY OTHER BOOKS AND MAGAZINES. HE WILL DEVELOP THE LIBRARY AND MAKE IT AVAILABLE TO ALL.

THERE ARE SEVERAL OTHER APPOINTEES WHO ARE CONTRIBUTING TO THE SENSATIONAL GROWTH AND HISTORY OF OUR RCT. I HAVE BEEN AWARE, FOR SOME TIME, THAT SOONER OR LATER WE MUST LOOK TO OUR SUCCESSORS TO KEEP THE VISION OF RCT GROWING. I AM PROUD OF THESE MEMBERS, AS I KNOW YOU ARE TOO AND WE WILL GIVE THEM OUR FULL SUPPORT IN THEIR ENDEAVORS............................DOC SPIKE

HAM OF THE MONTH - RALPH FULLER KA7FIG

BORN IN VANCOUVER, WASHINGTON, AUGUST 1936 AND
ENDING PUBLIC SCHOOLS IN CAMAS, WASHING- TON,
PH HAD A VERY PROMISING CAREER GOING FOR
SELF IN THE FIELD OF BASEBALL, FOOTBALL AND
CHING. HE ATTENDED THE UNIVERSITY OF WASH-
TON FOR TWO YEARS AND WAS ON THE ROWING CREW.
DUATING FROM WESTERN STATE IN BELLINGHAM,
PH CAME TO TACOMA AND TAUGHT SCHOOL AT FRANK-
PIERCE, LAKES AND CLOVER PARK. HE WAS VERY
IVE, WORKING WITH STUDENTS, COACHING BASEBALL,
TBALL AND WRESTLING.

THE WINTER OF 1975 RALPH'S CAREER CAME TO AN
JPT HALT, WHEN BENDING OVER TO GET SOMETHING
TE HEAVY OUT OF THE TRUNK OF HIS CAR. HE
PPED ON THE ICE AND BROKE HIS BACK. FOR EIGHT
THS HE HAD TO LAY ALMOST MOTIONLESS IN BED AND
ER TWO BACK OPERATIONS RALPH BECAME VERY DE-
NDENT. TWO DEAR FRIENDS, SCOTT AND SUE
GDON (N7AFY/N7AFZ), ARE CREDITED FOR GIVING
PH A NEW OUTLOOK ON LIFE. THEY GOT RALPH IN-
ESTED IN RADIO. FIRST CB AND MONITORING
NNEL 9, WHERE HE HANDLED OVER 2,000 EMERGENCY
LS FROM HIS BED. HE ALSO OPERATED A RADIO
NESS FROM HIS BED AND LATER HAD A RADIO STORE
L 1980.

N 1979 HE GRADUATED FROM THE CHICKEN BAND TO
AMATEUR BAND AND HAS BEEN VERY ACTIVE IN THE
WITH THE REPEATER'S AUTOPATCH MONITORING. HE
LLY GETS THE PATCH ON THE AIR AROUND 6AM FROM
WATER BED EACH MORNING AND WILL SOMETIMES
ITOR THE PATCH IN THE AFTERNOONS OR WHENEVER
S ABLE.

NEWS FROM ARRL & WESTLING REPORT

by: W7BUN

ARRL IS PETITIONING FCC TO DELAY ANY ACTION ON A "NO-CODE" LICENSE FOR 18 MONTHS. IT IS FELT THAT ADDING AN ADDITIONAL CLASS OF LICENSE AT THIS TIME MIGHT COMPOUND ANY PROBLEMS ASSOCIATED WITH TRANSFERRING THE ADMINISTRATION OF TESTING FROM THE FCC TO THE AMATEUR COMMUNITY.

IN ANOTHER PETITION TO FCC, ARRL IS ASKING FOR LICENSE TERMS OF TEN YEARS WITH AN EXTENDED GRACE PERIOD FOR RENEWALS OF CALLSIGNS OF TWO YEARS! ARRL WILL FILE COMMENTS SUPPORTING FCC's "NO-LOGGING" PROPOSAL (DOCKET 82-726) BUT SUGGESTING SOME RECORD KEEPING FOR INTERNATIONAL THIRD-PARTY TRAFFIC.

(cont. next page)

FOR PHILATELISTS, SRI LANKA'S GOVERNMENT WILL BE ISSUING AN AMATEUR RADIO STAMP ON JANUARY 17, 1983. FIRST DAY COVERS MAY BE OBTAINED BY SENDING 3 IRC's TO PHILATELIC BUREAU, CEYLINCI HOUSE, COLUMBO 1. (CONTACT W7BUN FOR FURTHER DETAILS)

A MAJOR EAST-COAST REPEATER IS BEING THREATENED BY BUREAUCRACY. IN MASSACHUSETTS, THE MT. GREYLOCK 2-M REPEATER, FAMOUS FOR ITS LONG--DISTANCE AND RELIABLE OPERATIONS, HAS BEEN ORDERED TAKEN DOWN BECAUSE THE STATE DEPARTMENT OF ENVIRONMENTAL MANAGEMENT SAID THAT THE TOWER AND ANTENNAS WERE UNSIGHTLY! THE LOCAL AMATEURS ARE ATTEMPTING TO HAVE A BILL PASSED IN THE MASSACHUSETTS LEGISLATURE THAT WOULD ALLOW THE REPEATER TO REMAIN ON STATE OWNED PROPERTY.

A RECENT RUMOR CIRCULATING THAT CURRENT TECHNICIAN-CLASS LICENSEES WOULD BE GRAND FATHERED TO GENERAL UNDER THE UPCOMING "NO-CODE" PROPOSAL IS FALSE. FCC's PERSONAL RADIO BUREAU STATES, THE DOCUMENT WILL NOT INCLUDE ANY "GRANDFATHERING" PROVISIONS.

THE PHASE 3-B LAUNCH IS NOW SCHEDULED FOR APRIL, 1983. AMSAT IS STILL $70,000 SHORT OF THE REQUIRED FUNDS TO ENSURE THE SUCCESS OF OUR NEXT OSCAR SATELLITE. THIS MAY BE THE LAST OF THE "FREE" LAUNCH SLOTS OFFERED TO THE AMATEUR COMMUNITY. FIERCE COMPETITIVE BIDDING FOR COMMERCIAL SPACE FOR SATELLITE LAUNCH FROM THE SAME ARIANNE SYSTEM HAS BROUGHT THE PRICE TO 20 TO 30 MILLION PER SATELLITE!

A PETITION ASKING FOR ASSIGNMENT OF SPECIFIC CALLSIGNS IN THE AMATEUR SERVICE WAS TURNED DOWN BY FCC. THE COMMISSION SAID SUCH A SYSTEM WOULD BE TOO COSTLY AND ALSO NOTED THAT THEIR CURRENT CALLSIGN ASSIGNEMT SYSTEM WAS IMPLEMENTED 4 YEARS AGO AT A SUBSTANTIAL COST. (NOTE: ISN'T IT STRANGE THAT 4 YEARS AGO WE WERE TOLD THE CALLSIGN ASSIGNMENT SYSTEM WAS BEING CHANGED TO SAVE MONEY?!)

NEW SUBJECT

IT HAS BEEN SUGGESTED TO THE LOGGERS BARK, HAT A NEW COLUMN BE INCLUDED WITHIN ITS PAGES EALING WITH COMPUTERS AND THE MYRIAD OF ASSOC- ATED EQUIPMENT. THERE ARE MANY MEMBERS, WHO RESENTLY HAVE COMPUTERS AND MORE IMPORTANT, MANY HO ARE CONTEMPLATING PURCHASING ONE. THE LATTER EED HELP IN THE SELECTION OF A SYSTEM. IT WAS UGGESTED THAT A LIST BE KEPT OF CLUB MEMBERS WHO AVE EQUIPMENT. THE LIST COULD CONTAIN INFORMA- ION ON THE TYPE OF COMPUTER, ACCESORIES (PRINT- RS, MODEMS, DISK DRIVES, ETC.). THIS WOULD PRO- IDE A POOL OF INFORMATION THAT OTHER MEMBERS, EEDING INFORMATION TO HELP DECIDE ON WHICH WAY O GET INTO COMPUTERS, COULD CALL UPON.

THERE ARE MANY THINGS TO CONSIDER BEFORE TARTING OFF INTO A NEW FIELD OF ELECTRONICS BE- IDES JUST THE FINANCIAL INVESTMENT. IF THERE IS NOUGH INTEREST AND WE CAN FIND A VOLUNTEER A- ONGST THE CLUB'S MEMBERSHIP TO KEEP A FILE AND RITE AN ARTICLE EACH MONTH, WE WILL INCLUDE SUCH COLUMN.

SLIVERS & SPLINTERS

Northwest Radio Supply
5240 SOUTH PUGET SOUND · TACOMA, WASHINGTON 98409 · (206) 475-2619

Due to economic reasons Northwest Radio Supply will close the doors of this business as of Feb. 18, 1983.

Most items of merchandise in store will be sold at 10%to 20% over cost.
I am sorry to have to do this as it will leave Tacoma without a amateur store. But at the present time I find it best to close with the possibilty of opening another store in the future.
Some of the items on hand are:
A E A Keyer trainer, A E A MBRO Reader, A E A Contest Keyer,
Tempo S4*T 440 hh , M F J Antenna Tuners, Freedom Phone 1500,
Clutter Free Desks, Antennas, Antenna Switches, Many Misc. Parts,
Vista 10 Amp. Supply's , C.B.'s And ANTENNAS , Many MIKES for both
C B & Amateur use , Marine VHF , Marine Anteenas, Antenna Mounts for
both Marine ,C B , And Amateur.
There is much, much more that will be priced to go at very reasonable prices.
So Stop in And LOOK LOOK ,, and BUY BUY BUY....******_____

Once again let me state how sorry I am to be forced to close at this time but maybe in the future the Economy will improve such that I will be able to Give the Olympia, Tacoma area another outlet for Amateur equipment.

SPECIAL TREASURER'S REPORT

AS WE ENTER 1983, THE BOARD WOULD LIKE TO STRESS OUR FINANCIAL POSTURE AND HAVE EVERY MEMBER INFORMED AS TO WHERE WE STAND. THE FOLLOWING IS A BREAKOUT OF EXPECTED RECEIPTS AND DISBURSMENTS FOR THE COMING YEAR.

RECEIPTS	
DUES	$3,000
DONATIONS	100
FIELD DAY BUS	300
ARRL DUES	75
MISCELLANEOUS	25
TOTAL	$3,500
DISBURSMENTS	$ 4,800
RECEIPTS	3,500
SHORTFALL	$ 1,300

DISBURSMENTS	
UTILITIES	$ 650
TELEPHONE	500
INSURANCE	525
RENT	500
FIELD DAY	400
TAXES	400
LOGGER'S BARK	300
POSTAGE	450
REPEATER	500
GENERATOR	200
MISCELLANEOUS	250
PRIZES	75
DUES TO OTHER CLUBS	50
DISBURSMENTS	$ 4,800

OBVIOUSLY, THIS IS A SHORTFALL OF $1,300 WHICH MUST BE MADE UP FROM HAMFAIR AND OTHER SOURCES. THESE FIGURES SHOW THAT WE MUST BE FRUGAL IN OUR EXPENDITURES AND EVALUATE AND CONSIDER OTHER SOURCES OF REVENUE.

MY COPY OF CQ MAGAZINE FOR FEBRUARY, IS VERY TERESTING. IT CONTAINS ARTICLES FOR ADDING THE AMATEUR BANDS TO OLDER TRANSCEIVERS. IT HAS FINE ARTICLE, WITH DIAGRAMS AND NOTES, FOR ANGING OVER TO THE NEW 10 METER BAND FOR MANY ANSCEIVERS THAT DO NOT HAVE THIS BAND. IT VERS YAESU, ICOM, KENWOOD, COLLINS, DRAKE AND N-TEC AS WELL AS GOOD INFORMATION ON ADDING 30 TER COVERAGE TO YOUR 20 METER BEAM.

A THIRD ARTICLE COVERS CONVERTING THE SWAN C TO 30 AND CHANGES TO THE HEATH SB20 AND 21 LINEARS FOR 10 METERS.

ALTOGETHER, IT SHOULD BE A GOOD ISSUE TO FILE Y FOR USING OLDER GEAR ON THE NEW HAM BANDS. YOU DO NOT SUBSCRIBE TO CQ, IT MAY BE POSSIBLE ORDER A COPY THROUGH YOUR LOCAL DRUG STORE, EWAY, PAY-N-SAVE OR CALL PACIFIC PERIODICALS TACOMA AT 581-1940.........................FRANK

MAJOR UPCOMING PUBLIC SERVICE ACTIVITIES

de:K7SSC

THIS SPRING, AS USUAL, WE ARE GOING TO BE AS BUSY AS EVER. THE MONTH OF APRIL IS GOING TO BE EXTREMELY ACTIVE. PLEASE RESERVE THE FOLLOWING DATES TO HELP AS MUCH AS POSSIBLE. THE ONLY QUALIFICATION FOR HELPING WITH THESE EVENTS IS A WILLINGNESS TO DO SO. IT DOES NOT NECESSARILY REQUIRE A 2 METER RIG. THERE ARE MANY JOBS THAT REQUIRE MORE THAN ONE PERSON PER RADIO. PLEASE LET ME (K7SSC, STEVE AT 475-4064) OR ERIC, WA7GHE AT 475-2297, KNOW IF YOU MIGHT BE ABLE TO HELP.

SAT.AM FEB. 5 ......BETHEL SCHOOL DIST. 10K RUN
SAT/SUN APR 12 ...NORWESTER RALLY (OLYMPIA H.Q.)
SAT.AM APR 12 ....DAFFODIL PARADE (TACOMA)
SAT. APR 16 .....OLYMPUS RALLY (OLYMPIA H.Q.)
SAT. APR 23 ....MARCH OF DIMES WALK-A-THON

WE WILL ALSO BE HELPING WITH MANY RUNNING EVENTS. I WILL HAVE A MORE COMPLETE SCHEDULE IN THE NEXT BARK.

I WISH TO THANK JERRY, KC7NA, FOR HIS HELP COORDINATING THE JANUARY 29TH NORPOINT 10KM RUN. THE FIRST PLACE RUNNER COMPLETED THE 10KM RUN IN 31 MINUTES, 48 SECONDS ON A VERY HILLY COURSE. AT THIS WRITING I HAVE NOT TALKED TO JERRY BUT BELIEVE THE CREW, FOR THIS EVENT CONSISTED OF: JIM KA7NSR, ROY N7BXI, ED WA3CPP, JACK K7AFU, RALPH KA7FIG, TOM W7PK, TOM N7DRT, GAIL N7BVS, DAN AJ7K, NEWT KA7CXU, HIRAM W7IIE AND WILL N7AZN. IT IS THROUGH EVENTS LIKE THIS THAT OUR FRIENDS AND NEIGHBORS ARE BEGINNING TO RECOGNIZE THE ASSET THAT AMATEUR RADIO IS TO OUR COMMUNITY.

PUBLIC SERVICE LETTER

MR. ERIC LANGLOW
AMATEUR RADIO EMERGENCY SERVICE
930 TACOMA AVE. SO. B-33
TACOMA, WA 98402

ALL A.R.E.S. MEMBERS:

I WOULD LIKE TO TAKE THIS OPPORTUNITY TO THANK EACH AND EVERY MEMBER OF YOUR ORGANIZATION WHO PARTICIPATED IN THE SEARCH FOR WALLACE GUIDROZ AT POINT DEFIANCE PARK ON JANUARY 10 AND 11. APPROXIMATELY 265 PEOPLE CONTRIBUTED TO THIS EFFORT.

THE RESPONSE AND ASSISTANCE WE RECEIVED WERE OVERWHELMING AND WE WERE PLEASED THAT SO MANY PEOPLE AND EQUIPMENT WERE AVAILABLE TO US IN OUR SEARCH EFFORTS ON SUCH SHORT NOTICE. ALTHOUGH THE LITTLE BOY WAS NOT FOUND AND WE ARE CONTINUING OUR EFFORTS TO LOCATE HIM, WE ARE ALMOST 100% SURE HE IS NOT IN THE PARK. THE AREA WAS COMBED VERY THOROUGHLY AND IT WAS BECAUSE OF THE CO-OPERATIVE EFFORTS OF YOUR GROUP AND OTHER ORGANIZATIONS THAT SUCH A LARGE TERRITORY WAS GONE OVER IN A RELATIVELY SHORT SPAN OF TIME.

YOUR INTEREST AND OFFER OF HELP WERE VERY MUCH APPRECIATED BY ALL THE MEMBERS OF THE TACOMA POLICE DEPARTMENT.

IT IS MOST ENCOURAGING TO KNOW THAT WE CAN COUNT ON YOU FOR LENDING YOUR TALENTS, MANPOWER AND TIME TO AID YOUR LAW ENFORCEMENT AGENCY WHEN THE OCCASION ARISES. IT IS THIS FEELING OF ESPRIT DE CORPS AND COMMUNITY INVOLVEMENT THAT ENSURES SUCCESS IN OUR MISSION.

SINCERELY,
/s/

TO: ALL AMATEUR RADIO EMERGENCY SERVI
PERSONNEL

DURING THE CALENDAR YEAR OF 1982 THE AMAT
RADIO EMERGENCY SERVICES WAS ACTIVE IN 26 TRA
ING FUNCTIONS WHICH INVOLVED 370 PERSONS, A TO
OF 3,612 HOURS, A TOTAL OF 348 VEHICLES
18,114 MILES DRIVEN.

ALSO, DURING THIS SAME PERIOD OF TIME, WE
SPONDED TO SEVEN ACTUAL SEARCHES AND PROVI
COMMUNICATIONS FROM THE SCENE BACK TO THE TAC
AREA. THERE WERE SO MANY PEOPLE INVOLVED FOR
TOTAL OF 351 HOURS, 28 VEHICLES USED FOR TRA
TO AND FROM THE SEARCH SITES AND A TOTAL OF 1,
MILES WERE DRIVEN.

IN ADDITION, WE HAD VOLUNTEER RIVER PATR
AND LOCAL ACTIVITIES THAT DID NOT COME UNDER
INVOLVMENT OF TACOMA CITY OR PIERCE COUNTY EM
GENCY SERVICES. UNLESS SOMEONE HAS KEPT TRACK
THEIR MILEAGE AND TIME DURING THESE LOCAL
VERY IMPORTANT EVENTS, WE CAN ONLY SURMISE T
THERE WERE ALSO SEVERAL HUNDRED HOURS AND LI
WISE ABOUT AS MUCH MILEAGE DONATED TO
COMMUNITY.

AS EMERGENCY COORDINATOR FOR THE AMATEUR RA
EMERGENCY SERVICES, I WANT TO SAY THANK YOU
EACH AND EVERY ONE OF YOU WHO HELPED OR J
STOOD BY IN TIME OF NEED. WITHOUT YOUR SUPP
AND HELP, THIS COUNTY COULD NOT HAVE EARNED
WASHINGTON STATE TRAINING AWARD FOR THE M
TRAINING CONDUCTED IN THE STATE DURING 1982.

AGAIN, I SAY THANK YOU, FOR A JOB WELL DONE.

HAM OF THE MONTH

JACK LENHART K7AFU

JACK WAS BORN IN SPOKANE, WASHINGTON 1929 AND TODDLED AROUND THAT AREA UNTIL THE AGE OF 4 YEARS WHEN HIS FAMILY MOVED TO BREMERTON. HIS SCHOOL YEARS WERE SPENT IN BREMERTON AND IN 1946 PUT IN A TWO YEAR HITCH WITH THE ARMY SIGNAL CORPS. IT WAS WHILE IN THE ARMY THAT JACK FIRST BECAME INTERESTED IN RADIO AND IT WAS ALSO HIS ARMY EXPERIENCES THAT LED TO HIS CAREER AS A RAILROAD AGENT, TELEGRAPH OPERATOR AND TOWER OPERATOR FOR THE NORTHERN PACIFIC/BURLINGTON NORTHERN RAILWAY.

JACK LIVES IN PUYALLUP NOW AND COMMUTES BETWEEN THERE AND U.P. JUNCTION TOWER IN DOWNTOWN TACOMA. HE HAS HELD THIS POSITION FOR THE PAST 10 YEARS OR SO AND JUST HOPES THE RIF PROGRAM, THE RAILROAD IS GOING THROUGH, WILL NOT CATCH HIM.

TWO AMATEURS CAN TAKE CREDIT FOR GETTING OUR VERY VALUABLE CLUB MEMBER STARTED. THEY ARE BILL LAWSON W7OIV (no misprint Irma) AND AL WOODBRIDGE W7MVF. JACK WAS A MEMBER OF THE OLD VALLEY AMATEUR RADIO CLUB FROM 1956 TO 1963 AND THEN JACK SORT OF SWITCHED OVER TO RCT ABOUT 1975 WITH DON SNYDER, W7ZMG.

JACK'S MANY CLUB ACTIVITIES INCLUDE THE RCT FIREWORKS STAND AND MANAGING THE COMMUNICATIONS FOR THE RIVER RUN. THE PUYALLUP FAIR HAS SORT OF BEEN JACK'S BABY FOR THE PAST FEW YEARS AND MANAGING THE SETTING UP OF THE RADIO CLUB'S BOOTH HAS BEEN A VERY TIME CONSUMING ASSIGNMENT AND HANDLED VERY WELL BY JACK, ESPECIALLY NOW THAT THE FAIR RUNS AS LONG AS IT DOES. ALSO, HE WAS CLUB TREASURER DURING THE YEARS 1079 AND 1980 AND IS ALSO ACTIVE IN PUBLIC SERVICE AND EMERGENCY WORK WITH THE RADIO CLUB AS TIME PERMITS.

IT WAS JACK THAT GOT YOURS-TRULY STARTED WITH RCT AND FOR THAT I WANT TO THANK HIM. YOU ARE A GOOD HAM, JACK AND OUR CLUB IS VERY FORTUNATE TO HAVE MEMBERS OF YOUR CALIBER.

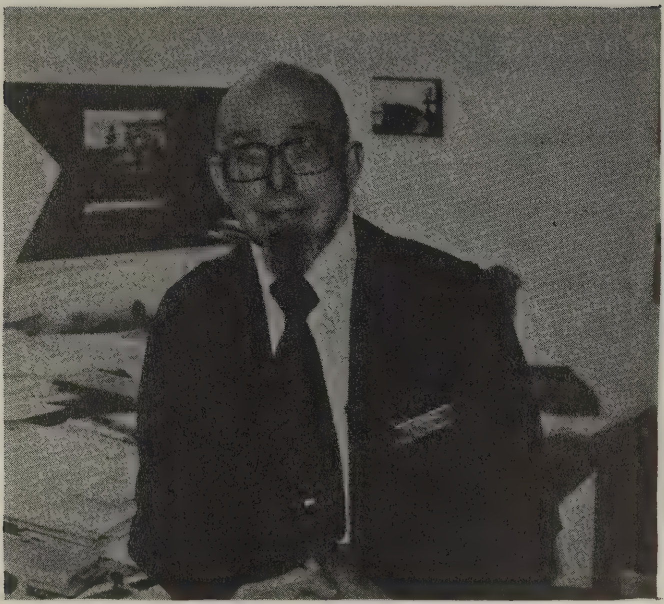
ALUMNI NEWS



JAMES CRANDAL W7SVV

JIM, YOU MAY RECALL, WAS DESPERATELY ILL THIS PAST SUMMER AND WINTER. WE REPORTED HIM HOME FROM THE HOSPITAL THE DAY BEFOR CHRISTMAS AND LATER THAT HE WAS BACK TO WORK FOR A FEW HOURS A DAY.

ON JANUARY 19TH WE WENT OUT TO LUNCH TOGETHER AND I HAD A WONDERFUL HOUR TO TALK WITH JIMMY AND HEAR MORE ABOUT THIS INTENSELY INTERESTING HAM.

FIRST OF ALL, HE LOOKS GREAT AND WHEN YOU THINK HOW REALLY ILL HE HAS BEEN, YOU REALIZE WHAT AN INTENSE INTEREST HE HAS IN LIFE. SURELY PEGGY, HIS WIFE, AND HIS TWO DAUGHTERS (ONE IN ANCHORAGE ALASKA AND THE OTHER IN LOS ANGELES CALIFORNIA) ARE HIS INSPIRATION. PEGGY HAS A DIFFICULT TIME TO GET ARROUND SO JIM HAS RIGGED UP ALL THE MODERN TECHNICS FOR CALLING AND ANSWERING THEIR TELEPHONE.

JIM WENT TO QUEEN ANNE HIGH SCHOOL IN SEATTLE AND GRADUATED IN ELECTRICAL ENGINEERING FROM THE UNIVERSITY OF WASHINGTON. HE ALSO HAS A BACKGROUND IN MECHANICAL ENGINEERING. HE JUST PASSED THE 60 YEAR OLD MARK AND FOR SOME YEARS HE HAS WORKED AS A DESIGN ENGINEER FOR THE 'TRES WEST ENGINEER COMPANY' OF TACOMA.

JIM WAS FIRST LICENSED AS AN AMATEUR WITH THE CALL W7SVV IN 1951. HE IS AFFILIATED WITH NORTH WEST CHAPTER QCWA AND ENJOYS OPERATING CW AND SSB. HE CHECKS INTO THE MORNING WEATHER NET AT 6AM. HE HAS MANY CLOSE FRIENDS IN THE NORTHWEST, TO NAME A FEW, W7IC GEORGE ON WHIDBY ISLAND, W7ETK OF PHOENIX ARIZONA, W7GRM OF SEATTLE AND MANY MEMBERS OF RCT, WITH DOC W7OS WHO HAS KEPT A DAILY RECORD OF HIS RECENT ILLNESS.

(continued next col.)

THE PICTURE TO THE LEFT WILL REFRESH THE M
ORY OF A GREAT HOST OF HAMS, WHO MET HIM AT
1983 RCT HAMFAIR.

WE WILL KEEP CLOSE TABS ON JIMMY AND JOIN W
HIS MANY FRIENDS IN WISHING CONTINUED GOOD HEA
AND HAPINESS TO HIM AND PEGGY.

NEWS FROM ARRL AND WESTLINK REPORT

by:W7BUN

ON JANUARY 20, FCC ADOPTED A NOTICE OF PROPOSED RULEMAKING ON THE SUBJECT OF A NO-CODE LICENSE. TWO ALTERNATIVES ARE PROPOSED. THE FIRST OULD REMOVE THE CODE REQUIREMENT FROM THE TECHNICIAN CLASS LICENSE, WITH PRIVILEGES LIMITED TO REQUENCIES ABOVE 50 MHz.. PRESENT TECHNICIAN OULD RETAIN THEIR ACCESS TO THE NOVICE BANDS. HE OTHER ALTERNATIVE WOULD BE A CODELESS DIGITAL LICENSE, SIMILAR TO CANADA'S DIGITAL RADIO OPERATOR CERTIFICATE, WHICH REQUIRES PASSING AN EXAMINATION OF DIGITAL THEORY. REMEMBER, THESE ARE PROPOSALS ONLY AND THERE WILL BE ADEQUATE TIME OR ALL INDIVIDUALS AND GROUPS TO SUBMIT OMMENTS.

THE PROPOSAL TO TURN HAM TESTING OVER TO THE MATEUR COMMUNITY BASICALLY FOLLOWS LAST YEAR'S RRL POSITION ON THAT SUBJECT. VOLUNTEERS WOULD REPARE AND ADMINISTER ALL EXAMS. "THREE PERSON EAMS" WOULD BE USED TO CONDUCT ALL TESTS WITH ACH TEAM, INCLUDING AT LEAST ONE EXTRA CLASS ICENSED HOLDER AS THE TEAM CHIEF. CW PORTION OF NY EXAM WOULD BE GIVEN BY AN EXTRA. THE PRO-OSAL INCLUDES MANY RESTRICTIONS AND QUALIFICA-IONS TO PREVENT ABUSE OF THE SYSTEM.

IN LATE DECEMBER, FCC RELEASED PROPOSALS FOR A REQUENCY ALLOCATIONS TABLE TO FOLLOW THE AGREE-ENTS OF GENEVA IN 1979. SOME ISSUES AFFECTING MATEURS ARE: 160 METERS - THE AMATEUR SERVICE ILL BE SECONDARY IN THE 1900 TO 2000KHz SEGMENT, 20MHz - AMATEUR, FIXED AND MOBILE SERVICES WILL E CO-EQUAL PRIMARY SHARING PARTNERS, 2300MHz - 310 TO 2390MHz DELETED, 80 METERS - EARLIER ROPOSALS OF CANADIAN BROADCASTING IN THE 3950 TO 000KHz BAND HAVE BEEN RESOLVED AND BROADCASTING N THIS SEGMENT IS DELETED, 1200MHz - 1215 TO 240MHz SEGMENT DELETED. COMMENTS ARE DUE MARCH 0, 1983.

FCC DISMISSED A PETITION FOR RULEMAKING BY 4MB, WHICH SOUGHT IMMEDIATE AMATEUR ACCESS TO HE 18MHz AND 24MHz BANDS. IN THE 18.068 TO 8.168MHz BAND THERE ARE CURRENTLY 33 GOVERNMENT ND 4 NON-GOVERNMENT ASSIGNMENTS AND IN THE 4.890 TO 24.990MHz BAND THERE ARE CURRENTLY 10 OVERNMENT AND 2 NON-GOVERNMENT ASSIGNMENTS. THE SE OF THE FREQUENCIES BY THE AMATEUR SERVICE IS UBJECT TO THE TRANSFER OF ALL CURRENT ASSIGN-ENTS FROM THESE BANDS.

THE ARRL HAS FILED COMMENTS WITH FCC SUPPORT-NG MOST OF THE DEREGULATION OF LOGGING REQUIRE-ENTS (DOCKET 82-726) BUT REQUESTING THAT RECORDS F INTERNATIONAL THIRD-PARTY TRAFFIC BE RETAINED. HE U.S. PRESENTLY HAS THIRD-PARTY AGREEMENTS ITH 33 COUNTRIES. IT WAS FELT THAT KEEPING ECORDS OF INTERNATIONAL THIRD-PARTY TRAFFIC OULD ENSURE THAT OPERATORS ARE KEPT AWARE OF ROHIBITED COUNTRIES AND WOULD ALSO HELP THE OMMISSION TO DETERMINE IF VIOLATIONS HAVE OC-URED. THE PROPOSED RELAXING OF LOGGING SHOULD

(cont. next col.)

ESPECIALLY BENEFIT REPEATER LICENSEES, SINCE THEY WOULD NO LONGER BE REQUIRED TO LOG DOMESTIC THIRD-PARTY TRAFFIC (e.g.,AUTO-PATCH TELEPHONE CALLS).

THE LATEST CALLSIGN ASSIGNMENTS INCLUDE: KY7Y, KD7FH, N7EUU AND KA7OXP.

ARRL WILL GENERALLY SUPPORT DOCKET 82-624, WHICH WOULD CHANGE THE METHOD OF POWER MEASUREMENT OF AMATEUR TRANMITTERS FROM THE PRESENT 2KW PEP INPUT TO 1.5 KW PEP OUTPUT. COMMENT DEADLINE WAS FEBRUARY 1, 1983, WITH REPLY COMMENTS DUE MARCH 1, 1983. THE LEAGUE DOES NOT FEEL THAT AMATEURS WHO OPERATE TRANSMITTERS INCAPABLE OF EXCEEDING THE LEGAL LIMIT SHOULD BE REQUIRED TO OWN INSTRUMENTS TO MEASURE OUTPUT POWER.

IN DECEMBER, THE FIRST-EVER SINGLE-YAGI 220MHz MOONBOUNCE QSO TOOK PLACE. THE CONTACT WAS BETWEEN K5FF IN NEW MEXICO, WHO HAD A 30' DISH AND K1WHS IN MAINE, WHO HAD A SINGLE CUSHCRAFT 220B "BOOMER" YAGI.

INDUSTRY NEWS:

TRIO-KENWOOD - - HAS A NEW TS-430S SOLID-STATE HF TRANSCEIVER, WHICH TRANSMITS ON HAM BANDS INCLUDING THE WARC BANDS AND RECEIVES FROM 150KHz TO 30MHz.

TRIO-KENWOOD - - ALSO HAS A NEW SOPHISTICATED ALL MODE RECEIVER WHICH COVERS HF IN 30 BANDS, HAS 10 MEMORIES AND SELLS FOR $600. THE MODEL NUMBER IS R-2000.

MIRAGE - - HAS A 220 ALL-MODE AMPLIFIER WHICH PUTS OUT 120 WATTS FOR 10 WATTS IN. THE MODEL C-1012 SELLS FOR $290. MIRAGE ALSO HAS A 450MHz HT AMPLIFIER, THE D-24, WHICH PUTS OUT 40 WATTS.

ENCOMM - - WILL HAVE A 220MHz SCANNING HT OUT BEFORE THIS SUMMER. THE MODEL WILL BE DESIGNATED ST-220MP.

NOTICE TO ALL CLUB MEMBERS

President Bob Teitzel, W7ZZA, appointed a Committee to study the lub's Constitution and By-Laws and recommend any changes or updates to he Club. The Committee consisted of W7BUN (Chairman), WA7RWK and KG7V.

The recommended changes were read to the Club at the January 26th eeting and modified in accordance with the wishes of the majority pre-ent at that meeting.

The Committee addressed four areas that required changing:

(1). A small dues increase from the present $10 annually to $12; amily membership increase from $1 to $2 annually; and dues remaining at 10 for Senior Citizens. these increases in dues would go into effect 1984 and are necessary to help pay for the costs of operating the adio Club.

(2). A new class of membership called "Associate Member" for those ho wish to join the Club but are unable to attend meetings due to shift ork or living long distances from the Club. This class of membership ould carry no voting privileges; dues would be the same as for full embers. This new class of membership was determined to be needed, ince several applications for membership had to be turned down by the oard of Directors recently, when the applicants failed to meet the iteria for full members.

(3). A change in the method of amending the Constitution and ByLaws make it less difficult in the future. Also, a change in the defini-on of a quorum at Club meetings is included. These changes were ecessary since the Constitution and By-Laws were written many years ago en the Club had less than 100 members. With over 360 members today, e wording is restrictive and impractical.

The Committee straightened up some of the wording in the onstitution and By-Laws such as re-numbering where necessary, deleting un-needed By-Law and deleting all references to Club members as "he".

THE FOLLOWING CHANGES TO THE CONSTITUTION AND BY-LAWS WILL BE VOTED PON IN APRIL, 1983. THERE WILL BE A BALLOT IN THE MARCH LOGGERS BARK R THOSE WHO ARE UNABLE TO ATTEND THE APRIL 13TH MEETING. PLEASE RE-EW THESE CHANGES AND SUBMIT YOUR BALLOT WHEN REQUESTED. WE NEED TWO-HIRDS OF THE FULL MEMBERSHIP TO VALIDATE - AT LEAST 250 VOTES! YOUR TE WILL BE CRITICAL, OR ALL THE WORK OF THE COMMITTEE WILL HAVE BEEN VAIN!

ANGES TO THE CONSTITUTION:

TICLE ONE, SECTION 1 (presently reads) All persons interested in Ama-ur Radio and having attended at least two regular meetings of the ub, shall be eligible to apply for membership. (proposed)....shall be igible to apply for full membership.

DE GROUNDS AT PUYALLUP, WHILE INSIDE THE
LLION THOUSANDS OF RC MODELS WERE ON DISPLAY.
OT BEING TOO FAMILIAR WITH RC'S, WE ASKED A-
D WHAT THE PRICES OF MOTORS, KITS AND RC UN-
WERE RUNNING? WHAT WE HEARD WAS ENOUGH TO GO
TO THE RUBBER BAND TYPE. FOR EXAMPLE; A
CYLINDER GLOW PLUG ENGINE CAN COST $1500 AND
IS JUST FOR THE ENGINE. SOME OF THE COM-
E KITS SUCH AS THE CHOPPERS AND MULTIPLE EN-
JOBS WERE WELL OVER $2000.

HAM OF THE MONTH

GRACE TEITZEL AD7S

RAISED IN ADNA, WASHINGTON (A SMALL LUMBER TOWN JUST SOUTH OF CHEHALIS), GRACE SPENT HER EARLY YEARS, THROUGH GRADE SCHOOL AND GRADUATION FROM HIGH SCHOOL THERE.

ELECTING NURSING TO BE HER PROFESION, SHE SPENT THE NEXT FEW YEARS AT TACOMA GENERAL HOSPITAL AND IN 1947 RECEIVED HER CAP AND RN RATING.

GRACE AND BOB TEITZEL WERE MARRIED IN CHEHALIS DURING 1947. THEY LEFT ALMOST IMMEDIATELY FOR GALVASTON TEXAS, WHERE BOB WAS STATIONED WITH THE COAST GUARD. AFTER BOB'S HITCH WITH THE COAST GUARD, THEY PACKED AND WERE OFF TO BELLINGHAM, WHERE BOB FINISHED HIS DEGREE WORK AT WESTERN STATE. DURING THIS PERIOD, GRACE WORKED AT HER NURSING PROFESSION TO HELP WITH THE EXPENSES. AFTER GRADUATION THEY MOVED ON TO SHELTON WHERE GRACE WORKED FOR DR. FOREMAN.

THEIR NEXT ACCOMPLISHMENT WAS TO HAVE AND RAISE TWO SONS AND ONE DAUGHTER. ROBIN, OLDEST SON, AND WIFE CARLA PROVIDED TWO GRANDSONS, ERIC AND DALE.

NUMBER TWO SON STEVE, A GRADUATE OF PACIFIC LUTHERAN UNIVERSITY AND EMPLOYED WITH IBM, PROVIDED A GRANDAUGHTER, SARA.

THEIR DAUGHTER, TRESS ANN, IS FINISHING HER EDUCATION AT WASHINGTON STATE UNIVERSITY.

GRACE'S INTEREST WAS DIRECTED TOWARD AMATEUR RADIO BY BOB. BOB STATED, "IT WOULD BE NICE TO BE ABLE TO TALK BACK AND FORTH WHILE MOBILE ON THE ROAD". SO, GRACE ENTERED CLAY FREINWALDS, K7CR, NOVICE CLASS AND TWO WEEKS LATER SHE HAD HER NOVICE TICKET AND THEN PASSED THE GENERAL TESTS. NEXT YEAR, 1978, SHE PASSED THE ADVANCED EXAM AND DURING THE SAME YEAR, PASSED THE EXTRA TESTS. (EVERYONE PLEASE STAND, REMOVE HATS AND BOW) ....(cont. next page)

HAM OF THE MONTH (cont.)

THE LIST OF MEMBERSHIPS AND CERIFICATES HELD BY GRACE, GOES ON AND ON AND HERE ARE A FEW LISTED. SHE IS ACTIVE ON ABOUT EVERY COMMITTEE IN RCT, MEMBER MINOWS, YLRL, THE HONEYBEES, THE 3.905, 40 METER GROUP, YL INTERNATIONAL, SSB GROUP, WORLD WIDE DX CLUB, 10X INTERNATIONAL (#20289), ARES, DES, MEMBER OF ARRL, CH GROUP. SHE HOLDS WAS 5 BAND CERTIFICATE, DXCC CERTIFICATE AND MEMBER OF THE INTERNATIONAL RADIO SOCIETY.

GRACE FELL LAST SEPTEMBER AND BROKE HER ANKLE. SHE HAD A TOUGH TIME, THIS WINTER, GETTING AROUND ON CRUTCHES. THE PINS HAVE JUST RECENTLY BEEN REMOVED AND WE SURE HOPE FOR A FULL RECOVERY. PLEASE! NO MORE APPLES.

THANKS TO GRACE FOR ALL THE WORK SHE HAS DONE FOR THE RCT.........................BUD WB7QCW

A VISIT TO NEWT'S PLACE KA7CXU

EW'S PLACE IS ON TOP OF A BLUFF, ON A COUPLE S OF LAND, WITH ENOUGH TREES TO STRING OUT A WIRE AND OVERLOOKING THE BAY JUST BEYOND POINT. HE, HIS WIFE, A CAT OR TWO AND A T HAIRED POINTER HAVE A BEAUTIFUL VIEW OF THE D AND VASHON ISLAND. THEIR HOUSE SPROUTS A BANDER AND A COUPLE OF DIPOLES FOR HIS RADIO ATION.

HIS ALL TAKES PLACE IN THE BASEMENT HAM K. HE RUNS A KENWOOD TS-530S ALONG WITH A 2M ABLE.

S SEEN IN THE ABOVE PICTURE, THE WALLS ARE RED WITH QSL CARDS FROM ALL OVER THE WORLD HIS LESS IMPORTANT QSLs ARE STATCHED AWAY IN BOXES. NEWT HAS BEE VERY BUSY WITH DX CON- S. HE HAS A VERY GOOD LOCATION FOR WORLD AGATION, GIVING HIS SIGNALS A GOOD KICK OFF THE WATER BELOW.

GUESS YOU COULD CALL NEWT A BORN AGAIN HAM. HAD A TICKET MANY YEARS AGO BUT IT HAS JUST THE LAST COUPLE YEARS THAT HE PICKED UP HIS ET AGAIN AND HAS REALLY GOTTEN INTO IT FULL

THE NEXT MEETING OF THE AUXILIARY WILL BE WEDNESDAY, MARCH 16TH AT 7:30PM IN THE CLUBHOUSE, 1249 SOUTH WASHINGTON STREET.

WE ARE CURRENTLY WORKING ON THE PROGRAM WE WILL PUT ON AT THE W7DK MEETING, APRIL 27TH. WE ARE REQUESTING THE LOAN OF ANY SNAPSHOTS YOU MAY HAVE THAT SHOW ANY OF THE AUXILIARY MEMBERS IN ACTION AT HAMFAIRS, FIELD DAYS OR CLUBHOUSE ACTIVITIES. WE WILL RETURN THEM AFTER TEMPORARILY ASSEMBLING THEM IN AN ALBUM FOR USE ON THE 27TH OF APRIL. YOU REALLY SHOULD ATTEND THE WORK SESSIONS AT THE CLUBHOUSE THE 2ND AND 4TH TUESDAYS AT 11:30AM TO 2:00PM - WE ARE REMINISCING THROUGH THE 30 YEARS OF "MINUTES OF THE MEETINGS" AND IT IS FUN.

FEBRUARY PINOCHLE WINNERS WERE VIVIAN HUNTLEY AND HARVEY BISHOP AND THE LOW SCORERS WERE MARILY MOORE AND ART INES. WE AGAIN HAD 5 TALBLES, SO REMEMBER THAT WE PLAY THE 1ST SATURDAY OF THE MONTH AND JOIN THE FUN.

FINALLY, WITH THE HELP OF MARVIN KG7V AND JEAN WA7OII, I MADE MY 10 LOGGER CONTACTS ON 15 METER CS. I DID STRING UP ON THE CEILING, A DIPOLE FOR 20 METERS. TRYING ALL DIFFERENT CONFIGURATIONS, THE BEST SWR I CAME UP WITH WAS 4:1. WITH THIS, I WORKED INTO ALASKA AND NEW MEXICO. DID HEAR BY8AA ON 14.130 WITH A BIG PILE-UP. THIS IS ANOTHER OF THE REPUBLIC OF CHINA STATIONS, LOCATED IN SOUTH WESTERN CHINA, CLOSE TO THE HIMALAYAS. QSL's FOR BY GO TO PO BOX 6106, BEIJING, PEOPLES REPUBLIC OF CHINA AND THEY DO ACCEPT IRC's. BY8AA CAN ALSO BE HEARD ON 21.015 - 21.055 EARLY EVENINGS HERE, WHEN CONDITIONS ARE GOOD.

FOR DX PROPAGATION PURPOSES, CQ NOTES BEACON STATIONS ON 20 METERS AT FREQUENCY OF 14.100. THEY ARE AS FOLLOWS:

NEW YORK (4U1UN), HAWAII (KH6O), CALIFORNIA (K6OPO), JAPAN (JA2IGY), ISRAEL (4X6TU), FINLAND (OH2B), MADEIRA ISLANDS (CT3B) AND S. AFRICA (ZS6DN). THESE BEACONS SHOULD HELP IN SPOTTING BAND OPENINGS. FEBRUARY WAS NOT TOO GOOD A MONTH FOR OPENINGS, EXCEPT FOR THE FIRST 3 DAYS. I CAUGHT AN EAST/WEST OPENING INTO MAINE AND NOVA SCOTIA AND NORTH/SOUTH INTO THE YUKON AND BOGOTA IN S. AMERICA. LIKE LONG WEATHER FORECASTS, IT IS HARD TO PREDICT OPENINGS TO A CERTAINTY.

INTERESTING CONTACTS IN MARCH ARE THE BRITISH COMMONWEALTH CW CONTEST ON THE 12TH AND 13TH., THE BERMUDA CONTEST ON THE 19TH AND 20TH AND FOR THE RTTY BUFFS AMONG OUR MEMBERS, THERE IS A BRITISH RTTY CONTEST FROM THE 19TH TO THE 21ST..

'BUZZY' GORSKY, KB8G, HAS A PROGRAM "THE COMPLETE TRS-80 RTTY SYSTEM". HE WILL SUPPLY THE PROGRAM ON DISK TO ANYONE WHO WILL MAIL HIM A BLANK DISK, A SASE FOR THE DISK'S RETURN AND A CHECK (IN ANY AMOUNT) PAYABLE TO AMSAT AS A DONATION TO THEIR WORK....(cont. next page)

FOR MORE DETAILS, CONTACT HIM AT HIS HOME QTH - 712 HILLSIDE DRIVE, CARLISLE, PA 17013.

GOT A SURPRISE, WHEN I WORKED KA9NRC, A NOVICE ON THE 15 METER BAND AND FOUND MYSELF WORKING AN 11 YEAR OLD YL WITH A FIST THAT WOULD PUT MANY AN OLD TIMER TO SHAME. QUITE A CONTRAST TO SOME OF THE STUMBLING KEYERS NOTED ON THE BAND.

MARCH CQ HAS A GOOD ARTICLE ON BUILDING A SIMPLE "INSTANT REPEATER CONTROL" AND USING "COAX SEAL" TO KEEP MOISTURE OUT OF THOSE ANTENNA CONNECTIONS AND FITTINGS.

WHERE ARE ALL THE NOVICES, TURNED OUT IN OUR CODE CLASSES?? DON'T HEAR ANY OF THEM ON THE 15 METER NOVICE BAND. COME ON IN, I WILL WORK 5 WPM WITH YOU.................................N7CZV

MY GREATFUL APRECIATION FOR ALL THE WONDERFUL CARDS, TELEPHONE CALLS, FLOWERS AND PRAYERS EXPRESSED BY SO MANY OF MY WONDERFUL FRIENDS. I COULDN'T HELP BUT GET WELL FAST. WORDS CAN'T TELL BUT OUR OFFICIAL PHOTOGRAPHER, BUD WB7QCW, MUST HAVE GOT IN BEFORE THE ANESTHETIC WORE OFF AND CAUGHT ME IN THE ACT LAST MONTH. MY ROOM WAS ON THE SAME FLOOR AS THE INTENSIVE CARE, SO THEY WOULD NOT PERMIT ME TO USE TWO METERS AND THE HEAD NURSE WAS SO UPSET SHE WOULDN'T EVEN LET ME USE THE RECEIVER PART OF THE HANDHELD.

SINCE I HAVE BEEN OUT OF THE HOSPITAL I HAVE SURE ENJOYED 04/64 AND AM GRATEFUL TO THE BOYS ON THAT REPEATER WHO MADE IT POSSIBLE TO TALK TO MY MERCER ISLAND FRIENDS WHO MEET ON 3900KHz AT 0830. I HAVEN'T BEEN ABLE TO GET DOWN TO MY LOW BAND GEAR, LOCATED IN THE BASEMENT. AGAIN, THANKS FOR THE USE OF 04/64 UNTIL I GET MY NEW KNEE GOING UP AND DOWN STAIRS AGAIN.

YARC/RCT QSO PARTY

THE YORK AMATEUR RADIO CLUB (YARC) AND THE RADIO CLUB OF TACOMA (RCT) WILL HAVE THEIR ANNUAL QSO PARTY DURING APRIL (AS REPORTED LAST MONTH). PLEASE, ALL OF YOU NEW MEMBERS OF RCT, TRY TO GET IN THERE AND GIVE THE YARC MEMBERS SOME NEW BLOOD, SO THEY CAN QUALIFY FOR OUR RCT CERTIFICATE AND/OR ENDORSEMENT.

WA7ZZA ASKED FOR A VOLUNTEER FOR FIELD CHAIRMAN. K7SSC AGREED TO TAKE IT IF A CHAIRMAN CAN BE RECRUITED. FIELD DAY WILL JUNE 25-26.

KG7V AND W7BUN WILL BE CO-CHAIRMAN FOR FAIR. THE FIRST HAMFAIR MEETING WILL BE JAN. 7:30PM AT KG7V'S RESIDENCE.

OTHER UPCOMING EVENTS MENTIONED BUT NOT CUSSED WERE: MOTHER'S DAY BREAKFAST, THE WES WASHINGTON FAIR, AND THE CHRISTMAS PARTY.

W7OS WILL WRITE TO THE YORK AMATEUR RADIO REGARDING A QSO PARTY THIS YEAR. HE THINKS WOULD PREFER A ONE TO ONE PARTY. W7OS WOULD TO GET A LIST AT THE NEXT FEW MEETINGS TO SEE IS INTERESTED. W7OS DOES NOT WISH TO BE CON PERSON FOR A WHILE. SUGGESTED W7FNC MIGHT IT.

K7QLC MENTIONED THAT MANNING IS NEEDED FOR CLUB STATION FOR SEVERAL EVENTS.

WA7ZZA STATED HE WOULD LIKE EVERYONE TO LIZE HOW MUCH MONEY THE CLUB NEEDS TO OPER K7QLC REPORTED THAT MEMBERSHIP LAST YEAR WAS INCLUDING FAMILY MEMBERS. K7QLC PRESENTED FOLLOWING BUDGET ESTIMATE FOR 1983:

RECEIPTS		DISBURSEMEN	
DUES	$3,000	UTILITIES	$ 650
DONATIONS	100	TELEPHONE	500
FIELD DAY BUS	300	INSURANCE	52
ARRL DUES	75	RENT	500
MISCELLANEOUS	25	FIELD DAY	400
		TAXES	400
		LOGGERS BARK	300
		POSTAGE	450
		REPEATER	500
		GENERATOR	200
		MISCELLANEOUS	250
		PRIZES	75
SHORTFALL	$1,300	DUES OTHER CLUBS	50
	------		-----
	$4,800		$4,800

K7QLC STATED THAT OBVIOUSLY THERE IS A SHO-FALL OF $1,300 WHICH MUST BE MADE UP FROM HAMF AND OTHER SOURCES. THESE FIGURES SHOW WE MUST FRUGAL IN OUR EXPENDITURES AND EVALUATE AND C-SIDER OTHER SOURCES OF REVENUE. WE NEED TO M AT LEAST $1,300 ON HAMFAIR. IN 1982 THERE APPROXIMATELY $2,700 EXCESS OF RECEIPTS O DISBURSEMENTS ON HAMFAIR.

KG7V COMMENTED THAT IT MAY BE TIME TO CONSI OTHER SOURCES OF REVENUE BESIDES HAMFAIR. TH WAS DISCUSSION OF THE MATTER.

W7BUN VOLUNTEERED TO CHAIR A COMMITTEE TO VIEW THE CLUB CONSTITUTION. WA7ZZA APPOINTED TO FORMULATE A RECOMMENDATION FOR REVISIONS.

AD7S SAID WE WILL HAVE TO START EARLY ON H FAIR AND WORK HARD SINCE WE HAVE TWO COMPETIT FOR THE SAME TIME.

QUESTIONAIRE-DOCKET 83-28

Have you studied the details of the no-code proposal in March QST or me other source ? YES ________ NO ________

Overall, are you in favor of a new class of Amateur license without de proficiency being required ? YES ________ NO ________

FCC has outlined two possible alternatives, a no-code Technician ass with all privileges above 30 MHz or an Experimenter class with a w written examination which would concentrate on digital techniques. e Experimenter would have all privileges above 144 MHz. If a no code cense becomes a reality, do you prefer, the chnician ? ________ Experimenter ? ________

FCC has proposed a lower frequency limit of 30 MHz for the new no de Technician class and a lower frequency limit of 144 MHz for the new perimenter class. If either of these classes of license becomes a ality, do you feel a different lower frequency limit should apply ? chnician ________ MHz Experimenter ________ MHz

Any other comments, thoughts or remarks that would help the Committee rmulate the Club's response in this matter would be welcome.

NOTICE TO ALL CLUB MEMBERS

President Bob Teitzel, W7ZZA, appointed a Committee to study the ub's Constitution and By-Laws and recommend any changes or updates to he Club. The Committee consisted of W7BUN (Chairman), WA7RWK, WB7RAX, 7QLC, and KG7V. The recommended changes were read to the Club at the anuary 26th meeting and modified in accordance with the wishes of the ajority present at that meeting.

The Committee addressed four areas that required changing:

(1). A small dues increase from the present $10 annually to $12; amily membership increase from $1 to $2 annually; and dues remaining at 0 for Senior Citizens. these increases in dues would go into effect 1984 and are necessary to help pay for the costs of operating the dio Club.

(2). A new class of membership called "Associate Member" for those o wish to join the Club but are unable to attend meetings due to shift rk or living long distances from the Club. This class of membership uld carry no voting privileges; dues would be the same as for full mbers. This new class of membership was determined to be needed, nce several applications for membership had to be turned down by the ard of Directors recently, when the applicants failed to meet the iteria for full members.

(3). A change in the method of amending the Constitution and ByLaws make it less difficult in the future. Also, a change in the defini- on of a quorum at Club meetings is included. These changes were cessary since the Constitution and By-Laws were written many years ago en the Club had less than 100 members. With over 360 members today, e wording is restrictive and impractical.

(4). The Committee straightened up some of the wording in the nstitution and By-Laws such as re-numbering where necessary, deleting un-needed By-Law and deleting all references to Club members as "he".

THE FOLLOWING CHANGES TO THE CONSTITUTION AND BY-LAWS WILL BE VOTED ON IN APRIL, 1983. THERE WILL BE A BALLOT IN THE MARCH LOGGERS BARK R THOSE WHO ARE UNABLE TO ATTEND THE APRIL 13TH MEETING. PLEASE RE- EW THESE CHANGES AND SUBMIT YOUR BALLOT WHEN REQUESTED. WE NEED TWO- HIRDS OF THE FULL MEMBERSHIP TO VALIDATE - AT LEAST 250 VOTES! YOUR TE WILL BE CRITICAL, OR ALL THE WORK OF THE COMMITTEE WILL HAVE BEEN VAIN!

ANGES TO THE CONSTITUTION:

TICLE ONE, SECTION 1 (presently reads) All persons interested in Ama- ur Radio and having attended at least two regular meetings of the ub, shall be eligible to apply for membership. (proposed)....shall be igible to apply for full membership.

ARTICLE ONE, SECTION 2 (presently reads) The membership shall con- st of three classes: Full members, Special members and Honorary mem- s. (proposed) ....four classes: Honorary members, Full members, ecial members and Associate members.

ARTICLE ONE, SECTION 3,4,5. Renumbered 4,5 and 3 respectively.

ARTICLE ONE, SECTION 5 (presently) Special members shall be those ble to regularly participate in Club activities due to absentee idency. (proposed) Special members shall be former full members ble to....

TICLE ONE, SECTION 6 (new) Associate members shall be those unable to ularly participate in Club activities. Associate members shall be ligible to hold Club office and shall not have voting privileges.

CONSTITUTION CHANGES (cont.)

ARTICLE FOUR, SECTION 1 (present) At all meetings one-third (1/3 of the Full members in good standing shall constitute a quorum for th transaction of business pertaining to the Corporation. (proposed) A all meetings, fifty (50) Full members.......

ARTICLE FIVE, SECTION 1 (present) This Constitution may be amende by a two-thirds (2/3) vote of the total Full membership, provided tha proposals for amendments are submitted in writing by three Full member at a regular meeting and that the membership has been notified thirt (30) days in advance of the meeting by the Secretary. (proposed) Thi Constitution may be amended by a majority vote of the total Full membership. Proposals for amendments must be submitted in writing by thre Full members at a regular meeting and the membership shall be notifie at least thirty (30) days in advance of the balloting.

CHANGES TO THE BY-LAWS:

BY-LAW 1 (present) Regular meetings shall be held on the second an fourth Wednesdays of each month at 8:00 pm at a place designated by th Club. (proposed) ....each month at a place and time designated by th Club.

BY-LAW 2 (present) The regular dues for all except students shal be ten dollars ($10) per calendar year except when more than one membe of the same family household is a member of the Club. In such cases one dollar ($1) additional per member per annum shall be levied. Due for full-time students, up to and including seniors in college, shall b five dollars ($5) per calendar year. All dues shall be paid in advance (proposed) The regular dues for all Full and Associate members, excep students, family members and Senior Citizens, shall be twelve dollar ($12) per calendar year. When more than one member of the same famil household is a member of the Club, an additional two dollars ($2) pe annum shall be levied. Dues for full-time students, up to and includin seniors in college, shall be one-half (1/2) the annual dues for Ful members. Dues for Senior Citizens, 65 and over, shall be ten dollar ($10) per calendar year. All dues shall be paid in advance.

BY-LAW 3 (present) Applications dated after June 30 of any yea must be accompanied by five dollars ($5); full-time students -- tw dollars and fifty cents ($2.50). (proposed) Applications dated afte June 30 of any year must be accompanied by one-half (1/2) of the annua dues.

BY-LAW 4 (present) Life membership for a spouse will be $20 whe accompanied with a regular Life membership. (proposed) Life membershi for a spouse will be twenty times the annual family membership dues whe accompanied with a regular Life membership.

BY-LAW 9 (present) The depository of the Club funds shall be designated by the Club in regular session. (proposed) The depository of th Club funds shall be designated by the Board of Directors.

OF POSSIBLE INTEREST ARE THESE BRIEF COMMENTS
SOME SELECTED ITEMS FROM THE INFORMATION SUR-
PASSED AROUND AT SEVERAL RECENT CLUB MEET-
S.

FORTY-TWO SURVEY RESPONSES WERE TURNED IN,
CH REPRESENTS ABOUT 40 TO 50% OF THE REGULER
ENDEES OF CLUB MEETINGS.

SEVEN MEMBERS MENTIONED OWNING COMPUTERS (WE
THERE ARE MORE) WITH THREE INDICATED AS BE-
INTERFACED WITH HAM RIGS.

NO EXOTIC ANTENNAS WERE LISTED BUT THERE WAS
MENTION OF SATELLITE AND EME ACTIVITY.

UNDER "ACTIVITIES" THE MAJOR PARTICIPATION

(cont. next col.)

SURVEY (cont.)

NEXT IN ACTIVITIES, CONTESTING, DX AND NETS SHARED ABOUT EQUAL INTEREST.

OUT OF 42 RESPONSES, 33 OR 78% REPORTED THEY ARE MEMBERS OF ARRL. ONLY TWO REPORTED BEING SUBSCRIBERS OF QEX, WHICH SUGGESTS THAT EITHER PEOPLE ARE NOT AWARE OF THE PUBLICATION OR IF THEY ARE, THEY HAVE NO INTEREST IN IT.

ON THE SUBJECT OF "PROGRAMS" THERE WERE 28 COMMENTS. OF THAT GROUP, 22 STATED A PREFERENCE FOR "TECHNICAL" TYPE PROGRAMS. AN EFFORT IS BEING MADE BY YOUR PROGRAM CHAIRMAN TO SATISFY THIS PREFERENCE BUT NO GUARANTEES FOLKS.

WITH REGARD TO A PREFERRED TIME FOR MEETINGS, THE MATTER WAS A STAND-OFF. FIFTY PERCENT OF THE RESPONSES WERE FOR LEAVING THE MEETING TIME AS IS AND 50 PERCENT FOR AN EARLIER TIME. TWO MEMBERS WOULD LIKE TO HAVE THE MEETINGS ON SOME OTHER DAY THAN WEDNESDAY.

THERE WERE SEVERAL WORTHY COMMENTS AND SUGGESTIONS THAT ARE NOT PRESENTED HERE FOR THE SAKE OF BREVITY BUT THEY WILL BE BROUGHT TO THE ATTENTION OF THE BOARD MEMBERS FOR APPROPRIATE CONSIDERATION.

WELL FRIENDS, YOU KNOW HOW POLLS ARE. YOU CAN ASK 100 REPRESENTATIVE PEOPLE ABOUT THEIR PREFERENCES ON FOOD AND CONCLUDE THEREFROM, THAT THE RESIDENTS OF PUGET SOUND COUNTRY LIKE BOILED OCTOPUS FOR DINNER ON FRIDAY NIGHTS. THANKS FOR RESPONDING TO THE INFORMATION SURVEY.

NEWS FROM ARRL & WESTLINK REPORT

by:W7BUN

ARRL AND THE FCC's PRIVATE RADIO BUREAU (PRB)
PROTESTING A DECISION BY AN FCC REVIEW BOARD
CH OVERTURNED AN AMATEUR'S LOSS OF HIS LICENSE
ER TRANSMITTING OBSCENITIES. DAVID HILDEBRAND,
HU, HAD HIS STATION AND OPERATOR LICENSES RE-
ED AFTER HE ADMITTEDLY USED FOUL LANGUAGE ON
TEUR FREQUENCIES BUT THE REVIEW BOARD ALLOWED
TO HAVE THEM BACK ON THE BASIS THAT AMATEUR
IO INVOLVES "PRIVATE" AND NOT "BROADCAST"
NSMISSIONS. THE PRB ARGUED THAT THIS WAS A
ROW VIEW AND WOULD CAUSE AN IRREPARABLE IMPACT
AMATEUR RADIO. THE LEAGUE ASKED FOR PERMIS-
N TO INTERVENE IN THIS MATTER, SAYING THIS
ISION SETS AN "UNLAWFUL AND INTOLERABLE PRE-
ENT." AT STAKE IS THE REPUTATION OF THE AMA-
R COMMUNITY AS A WHOLE.

THE ITU HAS ALLOCATED THE CALL SIGN SERIES
-T7Z TO AMATEURS IN THE REPUBLIC OF SAN
INO, WHO HAVE BEEN UN-OFFICIALLY USING M1
LS. THE T7 PREFIXES WILL BECOME EFFECTIVE
IL 20TH..

ARCH 1ST CALL-SIGN ASSIGMENTS INCLUDE: NB7K,
E, N7EZY AND KA7POH.

ARRL WANTS TO HEAR FROM YOU IF YOU HAVE EX-
IENCED RFI FROM "TOUCH-CONTROLLED" LAMPS.
SE HAVE BEEN CAUSING SEVERE INTERFERENCE TO 80
160 METERS AS WELL AS THE WHOLE AM BROADCAST
). IN THEORY, THE LAMPS SHOULD FALL UNDER THE
ULATORY SCOPE OF FCC RULES PART 15 BUT THE
MISSION WILL HAVE TO BE MADE AWARE OF HOW
ESPREAD THE PROBLEM IS.

ARTHUR GODFREY, K4LIB, A POPULAR RADIO AND TV
SONALITY OF THE '50's AND '60's, DIED MARCH
H. GODFREY HAD APPEARED IN SEVERAL ARRL
ES PROMOTING AMATEUR RADIO.

HIL "GIB" GIBSON, W7JIE, HAS BEEN NAMED TO
LACE VICE DIRECTOR MEL ELLIS, K7AOZ, WHO
SED AWAY LAST MONTH. GIB, FROM RENTON, IS
L KNOWN FOR HIS MANY ACTIVITIES, INCLUDING
DING UP THE ARRL INTRUDER WATCH PROGRAM.

INDUSTRY NEWS!

RRL HAS A NEW PUBLICATION, THE FCC RULE BOOK,

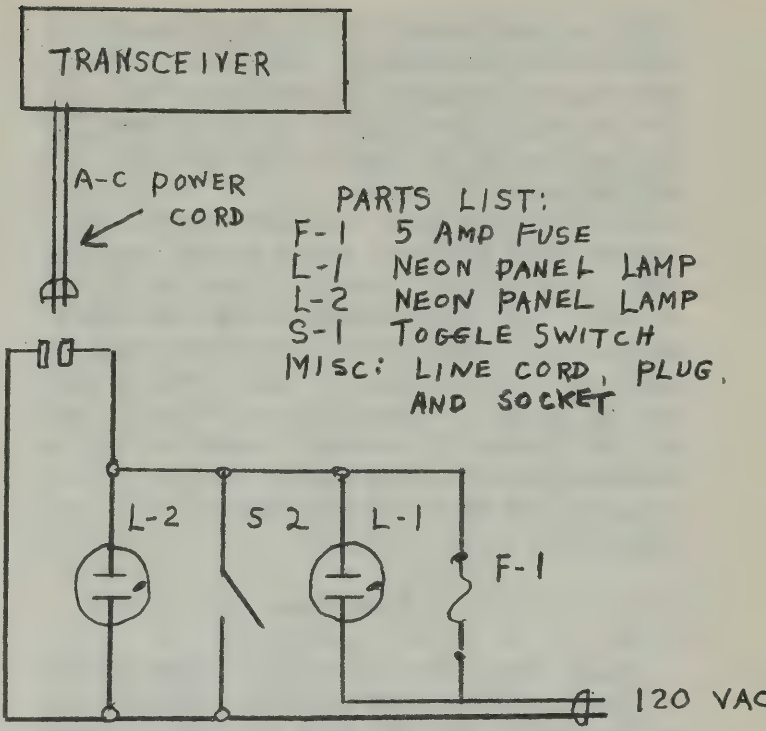
COLD WAR: MEDICAL SCIENCE STILL STRUGGLES
THE CAUSE OF THE COMMON COLD. OUR OWN IDEA
HAT IT IS CAUSED BY SAYING, "I HAVEN'T HAD A
ALL WINTER". (copied from the Ground Wave)



"GARBAGE" FILTER

THE ABOVE DIAGRAM IS CALLED A "GARBAGE FILTER" BECAUSE IT WILL CURE PRACTICALLY ALL TYPES OF UNDESIRED NOISE GETTING THROUGH THE RECEIVER AND INTO THE SPEAKER. UNLIKE MANY CONVENTIONAL NOISE FILTERS, WHICH ARE INSTALLED IN THE A.F. OR I.F. CIRCUITRY, THIS ONE IS WIRED AHEAD OF THE POWER CORD. THIS WILL BE ATTRACTIVE TO OWNERS OF NEW EQUIPMENT STILL UNDER WARRANTY, BECAUSE IT ISN'T NECESSARY TO OPEN UP THE EQUIPMENT. USE OF THIS FILTER IS SIMPLE: WHEN UNWANTED SIGNALS ARE HEARD, OPERATE SWITCH S-1. READY LAMP L-2 WILL GO OFF AND LAMP L-1 WILL ILLUMINATE, INDICATING THAT THE FILTERING ACTION HAS BEEN EFFECTIVELY AND PERMANENTLY APPLIED. THIS FILTER WORKS VERY WELL IN THE AUDIO RANGE OF MANY UNPLEASANT OR INTOLERABLE HUMAN VOICES. COST IS ABOUT $5.00.

(Ed's note: This article was copied from the W7AIA Newsletter from some time back. We purposely saved it for the April 1 edition of the Bark.) Thanks to KA7INX.

TICKING AWAY

IF YOU HAD A BANK THAT CREDITED $86,400 TO YOUR ACCOUNT EACH MORNING, CARRIED OVER NO BALANCE FROM DAY TO DAY, ALLOWED YOU TO KEEP NO CASH IN YOUR ACCOUNT AT THE END OF 24 HOURS, CANCELLED OUT WHATEVER PART OF THAT AMOUNT YOU FAILED TO USE, WHAT WOULD YOU DO?.

TRY TO SPEND EVERY CENT, OF COURSE. WELL, EVERYONE DOES HAVE SUCH A BANK AND ITS NAME IS TIME. EVERY MORNING, IT CREDITS YOU WITH 86,400 SECONDS. THE NEXT MORNING AT THE SAME HOUR IT RULES AS LOST, WHATEVER OF THIS YOU FAILED TO INVEST TO GOOD PURPOSE. IT CARRIED OVER NO BALANCE AND ALLOWS NO OVERDRAFTS. IF YOU DON'T USE THE DAY'S DEPOSIT, THE LOSS IS YOURS. THERE IS NO GOING BACK, NO DRAWING AGAINST TOMORROW.

HOW DID YOU SPEND YOUR TIME TODAY??

ALUMNI NEWS

de:W7OS

HOWARD TRUAX, W7SO, OF ALBANY OREGON AND ONE OF THE OLD TIMERS OF THE NORTH WEST, WAS ADMITTED TO THE ALBANY HOSPITAL A FEW DAYS AGO. HIS XYL, JANE W7RAX, REPORTED HE IS HOME BUT STILL VERY ILL. WE ALL HOPE HOWARD IMPROVES, AND SOON.

CHET LAMONT W7ALM, HONORARY AND CHARTER MEMBER OF RCT, IS NOT ON THE LOW BANDS BUT DOES ENJOY TWO METERS. HE DOES GET UP TO THE "ROUNDERS GROUP" LUNCHEON ONCE A MONTH, AT LONGVIEW. CHET LOVES TO CALL DOC ON THE TELEPHONE AND WE SURE ENJOY HEARING FROM HIM.

KEN & EVA ANDERSON (WB7QNT & WB7QNS), WE ARE GLAD TO REPORT, ARE BACK FROM FLORIDA WHERE THEY WERE VISITING WITH THIEIR FAMILY. HAPPY TO SEE THEM BACK SAFE AND SOUND.

DOC, W7OS, BELIEVES HE WILL BE BACK ATTENDING MEETINGS REGULARLY AGAIN, SOON..........73 W7OS

YARC/RCT QSO PARTY

THE YORK AMATEUR RADIO CLUB AND THE RADIO CLUB OF TACOMA WILL BE HOLDING THEIR ANNUAL QSO PARTY ON THE DATES OF APRIL 7 & APRIL 14 (THURSDAYS) AT 5PM LOCAL TACOMA TIME. THE FREQUENCY OF 21410 (PLUS OR MINUS QRM) HAS BEEN SELECTED TO USE FOR THE CONTACTS.

BOTH CLUB MEMBERS HAVE THE OPORTUNITY OF GETTING OUR RESPECTIVE CERTIFICATES, THE YARC WHITE ROSE CERITIFATE AND THE RCT'S LOGGERS CERTIFICATE AND/OR ENDORSEMENTS.

WE HAVE BEEN ENJOYING THESE CONTACTS FOR SEVERAL YEARS NOW. WE URGE ALL MEMBERS, ESPECIALLY THOSE WHO HAVE NOT PARTICIPATED BEFORE, TO GET IN THERE (ONLY 1 HOUR INVOLVED).

THE WHITE ROSE AWARD REQUIRES 5 QSL CARDS. GIVE THEM TO DOC SPIKE, W7OS AND HE WILL SEE THAT THEY GET MAILED BY MAY 1ST.

REMEMBER THE DATES! APRIL 7 AND 14.....W7OS

YL NEWS

THE TUOLA NET HELD THEIR QUARTERLY MEETING SATURDAY, MARCH 19TH AT LESLIE'S RESTAURANT BUT THE TURNOUT WAS SMALL. THIS WAS THE ELECTION MEETING AND ALL THE OFFICERS FOR THIS YEAR WILL BE; PRESIDENT BOBBIE KINTER WB7TGF; VICE PRESIDENT MARION O'NEAL WB7SQU; SECRETARY/TREASURER ARLENE SMITH KA7DGX AND SERGEANT AT ARMS BARBARA MURPHY KA7FZQ. THE NET DECIDED TO AGAIN HOSTESS THE YL OPERATORS COFFEE HOUR AT THE RADIO CLUB'S HAMFAIR ON SUNDAY MORNING, AUGUST 14TH.

CHECK-INS ON THE MONDAY NIGHT (8PM) 145.25 MACHINE HAVE BEEN PRETTY GOOD BUT WE'RE ALWAYS GLAD TO HAVE NEW YLs JOIN US.

EVA ANDERSON, WB7QNS, HAD A NICE TRIP TO LAKELAND FLORIDA WHERE SHE VISITED HER MOTHER AND TWO SISTERS. TOO MUCH VISITING AND TOO MUCH RAIN TO PUT THE METAL DETECTOR TO WORK BUT I'M SURE THE VISITING WAS JUST AS REWARDING.

MARION O'NEAL KEEPS THE MILES PILING UP ON HER LITTLE CAR WITH TRIPS TO SPOKANE TO SEE HER 96 YEAR OLD DAD ABOUT EVERY 3 WEEKS.

ANGELA KORN, KC7EQ, HAS BEEN RIPPED OFF STILL ANOTHER TIME. THIS TIME THEY GOT THE GEAR INSIDE THE HOUSE.

I MUST BE SCANNING THE WRONG FREQUENCIES OR OUT OF EAR-SHOT OF THE SCANNER TOO MUCH. AT ANY RATE, I'M MISSING HEARING PAT N7CAK, GRACE AD7S, SUE N7AFZ, DORIS W7BHI AND DIANA WA7BLF. ALL OK I HOPE.

GRACE AD7S WAS AT THE FRIDAY MORNING BREAKFAST MARCH 18TH CARRYING HER CRUTCH AND WALKING FINE. IT HAS BEEN A LONG TOUGH FIGHT, HASN' IT GRACE?

MARY KELLEY, W7SKR, IS ENJOYING THE SUNSHINE IN ARIZONA AT THIS WRITING.

BARB MURPHY, KAYFZQ HAD A NICE CRUISE THROUGH THE CARIBBIAN BY WAY OF THE PANAMA CANAL ALONG WITH OM MILES K7ENS. THEY HAVE SOME GOOD PICTURES THAT WE HOPE TO SEE SOME DAY.

MARGARET EGERER, WA7RBR AND OM BARNEY W7GR SPENT 10 DAYS TOURING DISNEY WORLD, EPCAT CENTER, THE KENNEDY SPACE CENTER, SEA WORLD AND OTHER SITES IN FLORIDA. THEY HAD VERY GOOD WEATHER AND COUNTED THEMSELVES LUCKY SINCE IT WAS RAINING WHEN THEY ARRIVED AND DID IT AGAIN, ONLY AS THEY BOARDED THE PLANE FOR HOME.

THE MINOW NET MEMBERS ARE LOOKING FORWARD TO THEIR ANNUAL GET-TOGETHER ON MAY 21 AND 22 IN SEATTLE THIS YEAR. WE WELCOME ALL YL's WHO CAN CHECK IN ON 3.913 ON FRIDAYS AT 8:00AM. NET CONTROL CHANGES EACH MONTH BUT BREAK-INS ARE WELCOME. SURPRISE US!

33, ETHEL, W7WLX

A COPY OF THIS MONTH'S BARK WILL BE SENT TO THOSE WHO HAVE FORGOTTEN TO PAY THEIR DUES. GET THOSE DUES IN & WE WILL BE BACK WITH YOU NEXT MONTH.

THE RECENT 2 METER TRANSMITTER HUNT THAT WAS HELD, WAS A GREAT SUCCESS. THERE WERE 5 CARS FOR THE HUNT. WE HELD A SHORT HUNT, WHERE EVERYONE WAS TOLD WHERE THE HIDDEN TRANSMITTER WAS, SO THEY COULD LEARN TO USE THEIR LOOPS. AFTER THAT, THERE WAS A FULL BLOWN, NO HOLDS BARRED, HUNT. THE HIDDEN 'BUNNY' (DICK WB7CRR) WAS DOWN WHERE THE OLD SOUTH TACOMA AIRPARK WAS. THIS LOCATION PROVED INTERESTING IN THAT YOU COULD GET VERY CLOSE ON TYLER STREET BUT HOW TO GET TO WHERE THE 'BUNNY' WAS ANOTHER PROBLEM. THE ONLY WAY IN WAS FROM THE SOUTH.

THE WINNER WAS ROBBY KA7LPJ, WHO WAS OPERATING THE DIRECTION FINDING EQUIPMENT AND TELLING HIS DAD, STEVE K7SSC WHERE TO GO. IT WAS A GOOD HUNT AND ALL HAD A GOOD TIME. THE NEXT HUNT WILL BE PUBLISHED WELL IN ADVANCE, AFTER THE ROAD RALLYS AND WALK-A-THONS.

REMEMBER, THERE IS LOTS OF HELP NEEDED ON THE 2 ROAD RALLYS IN OLYMPIA AND THE OTHER PUBLIC SERVICE EVENTS. CONTACT STEVE K7SSC TO DONATE YOUR TIME, EQUIPMENT AND SERVICE. 73, DICK WB7CRR

AUTOPATCH GUIDLINES

(1) KEEP YOUR AUTOPATCH CALLS BRIEF. THE REPEATER AND AUTOPATCH SYSTEM IS LIKE A HUGE PARTY LINE. DON'T TIE IT UP.

(2) THE AUTOPATCH IS AN 'OPEN' AUTOPATCH TO ALL HAMS.

(3) USE OF THE AUTOPATCH TO MAKE BUSINESS CALLS IS NOT PERMITTED BY FCC RULES. THIS MEANS THAT YOU MAY NOT USE THE AUTOPATCH TO CALL A BUSINESS FOR THE PURPOSE OF INQUIRING ABOUT AND OR ARRANGING TO PURCHASE A PRODUCT OR SERVICE. IT IS OK TO CALL A BUSINESS FOR THE PURPOSE OF HAVING A PERSONAL CONVERSATION WITH A FRIEND OR SPOUSE.

(4) THE AUTOPATCH HAS A 3 MINUTE TIMER. IF YOU HAVE NOT COMPLETED YOUR CALL IN THAT TIME PERIOD, THE PATCH WILL HANG UP FOR YOU. IN CASE OF AN EMERGENCY, THE 3 MINUTE TIME PERIOD CAN BE RESET 1Y USING THE (*) BUTTON. THIS RESETS TO 3 MINUTES.

(5) THE AUTOPATCH HAS BEEN PROGRAMMED NOT TO ACCEPT 1's OR 0's AS THE FIRST DIGIT OF PHONE NUMBERS. THIS MEANS THAT NO LONG DISTANCE PHONE CALLS CAN BE PLACED.

(6) IF YOU ARE IN A PLACE WHERE YOU CANNOT COPY THE REPEATER WELL, DON'T ATTEMPT TO USE THE AUTOPATCH, RATHER, ASK SOMEONE ELSE TO MAKE A CALL FOR YOU OR WAIT TILL YOU ARE IN A BETTER LOCATION BEFORE YOU TRY IT. REMEMBER THAT YOUR EARS ARE MORE USED TO DIGGING INTELLIGENCE OUT OF A NOISY SIGNAL THAN THOSE OF A NON-HAM. EXTREMELY NOISY SIGNALS MAY ALSO CAUSE MISDIALED NUMBERS. PLEASE CHECK WITH ANYONE LISTING TO VERIFY IF AUDIO IS STRONG ENOUGH.

(7) THE AUTOPATCH WILL BE AVAILABLE FOR USE WHENEVER THE REPEATER IS BEING MONITORED BY A CONTROL OPERATOR. IF THERE SEEMS TO BE TIMES OF THE DAY WHEN YOU WOULD LIKE THE PATCH TO BE AVAILABLE BUT NO CONTROL OPERATOR IS ON DUTY, MAYBE YOU SHOULD BE THE VOLUNTEER WHO CONTACTS THE AUTOPATCH COORDINATOR TO APPLY FOR A CONTROL OPERATOR APPOINTMENT.

(8) REMEMBER...THE HAM USING THE AUTOPATCH HAS CONTROL OVER THE PERSON ON THE TELEPHONE BEING REBROADCASTED BY THE REPEATER. SIMPLY BY PUSHING HIS MIKE BUTTON, HE MAY SUBSTITUTE HIS AUDIO FOR THAT OF THE PERSON ON THE TELEPHONE. THUS, THE HAM HAS CONTROL OVER THE UNLICENSED THIRD PARTY WHOM HE ALLOWED ON THE REPEATER. THE PRESENCE OF A SIGNAL ON THE RECEIVE FREQUENCY WILL PREVENT AUDIO FROM THE TELEPHONE FROM BEING TRANSMITTED BY THE REPEATER. (cont. next col.)

AUTOPATCH GUIDLINES (cont.)

(9) REMEMBER...THE CONTROL OPERATORS HAVE BEEN EMPOWERED WITH THE RESPONSIBILITY OF SEEING THAT W7DK/R IS OPERATED ACCORDING TO FCC PART 97 RULES. THIS MEANS THAT THEY HAVE THE RIGHT TO DECIDE WHETHER WHAT IS BEING REBROADCASTED BY THE REPEATER IS ACCEPTABLE OR WHETHER THEY SHOULD TERMINATE THE OPERATION OF THE AUTOPATCH AND/OR THE REPEATER IF NECESSARY. THE FCC HAS MADE IT VERY PLAIN RECENTLY THAT THE LICENSEE OF A REPEATER HAS FULL RESPONSIBILITY FOR WHAT IS REBROADCASTED BY THEIR REPEATER. OUR CONTROL OPERATORS ARE WORKING TO PROTECT THE CLUB'S LICENSE. CONTROL OPERATORS WILL CUT OFF CALLS WHICH APPEAR TO VIOLATE FCC RULES RATHER THAN RISK THE CLUB'S LICENSE. IF YOU ARE EVER CUT OFF OR HAVE YOUR OPERATING PRACTICES QUESTIONED BY ONE OF THE CONTROL OPERATORS, DON'T TAKE IT PERSONALLY, SIMPLY MAKE SURE THAT YOU UNDERSTAND AND OBEY THE FCC RULES. DON'T DISCUSS YOUR DIFFERENCES OF OPINION ON SUCH ISSUES ON THE AIR WITH A CONTROL OPEREATOR, CONTACT THEM BY PHONE.

(10) REMEMBER..PERSONS BEING CALLED ON AN AUTOPATCH FOR THE FIRST TIME, MAY NEED OREINTATION. THEY MAY NOT UNDERSTAND THE ONE WAY CONVERSATION SYSTEM AT FIRST AND SOME MAY NEED TO KNOW WHAT TYPE OF LANGUAGE AND SUBJECT MATTER THAT IS NOT ALLOWED BY THE FCC.

WE ARE REPRINTING A COPY OF THE GUIDELINES FOR USE OF THE AUTOPATCH TO REFRESH EVERYONES MEMORY.

ALSO, THE USE OF THE "#" SIGN BEFORE ACCESSING WILL CLEAR THE DECODER BEFORE DIALING "7DK" (735). THE '#' SIGN IS ALSO THE CLEAR WHEN YOU HAVE FINISHED THE PHONE CALL TRANSACTION.

IN CASE OF AN EMERGENCY AND THE TIME IS RUNNING OUT (3 MINUTES) THE TIMER CAN BE 'RESET' BY USING THE (*) BUTTON.

THANK YOU FOR YOUR COURTEOUS USE OF THE AUTOPATCH.......................73,

JOE, KA7DCX

LOGGER OF THE MONTH

TOM SUTTON, N7DRT

TOM HAS HAD A VERY INTERESTING AND PRODUCTIVE LIFE. BORN IN TENNESSEE 1930 AND LIVED THERE THE FIRST SIX YEARS OF HIS LIFE. FROM THERE HE AND HIS FAMILY MOVED TO NEW MEXICO, WHERE TOM SPENT HIS EARLY SCHOOL YEARS AND THEN ON TO ALABAMA TO FINISH HIGH SCHOOL. HE EARNED AND RECEIVED HIS DEGREE IN CHEMISTRY/MATHAMATICS AT THE UNIVERSITY OF ALABAMA. ROTC HELPED PAY EXPENSES AT THE U OF A AND HE RECEIVED HIS 2ND LT. COMMISSION UPON GRADUATION AND STAYED IN THE SERCICE AS AN ORDINANCE OFFICER IN THE ARMY.

HIS ARMY CAREER TOOK HIM FOR A TOUR OF DUTY IN EUROPE, KOREA, VIET NAM AND SPECIALIZED IN MATERIAL GUIDANCE AND SPECIAL WEAPONS AND MISSLES. HE WAS WOUNDED DURING THE VIET NAM CONFLICT AND RECEIVED THE PURPLE HEART DECORATION.

AFTER 23 1/2 YEARS SERVICE IN THE MILITARY, TOM RETIRED IN 1974 WITH THE RANK OF LT.COL. AND WENT ON TO THE PACIFIC LUTHERAN UNIVERSITY AND FINISHED HIS MASTERS DEGREE. HIS HOME IS IN THE NORTH END OF TACOMA AND HE NOW HAS A POSITION AS ASSISTANT TO THE PRESIDENT FOR FINANCIAL AFFAIRS N.W. BAPTIST.

MARRIED IN 1950, TOM AND WIFE GLADYS, HAVE THREE CHILDREN AND ONE GRANDCHILD. THE CHILDREN WERE RAISED ON ARMY BASES THROUGHOUT THE WORLD, AN EDUCATION IN ITS SELF.

TOM HAS ALWAYS BEEN INTERESTED IN ELECTRONICS BUT JUST NEVER GOT AROUND TO GETTING A HAM TICKET. IT WAS THROUGH A BUSINESS ASSOCIATION WITH DON PERRY, K7QLC, THAT HE WAS INTRODUCED TO THE RCT AND PUT A LITTLE EFFORT INTO GETTING A TICKET. NOW TOM IS ONE OF OUR MOST ACTIVE MEMBERS. AS CLUB TREASURER, HE WORKS EVERY EVENT HE CAN PARTICIPATE IN. LICENSED A NOVICE IN 1981 AND UPGRADED TO GENERAL IN 1983. RCT IS PROUD TO HAVE A NEW AND VALUABLE MEMBER..........WB7QCW

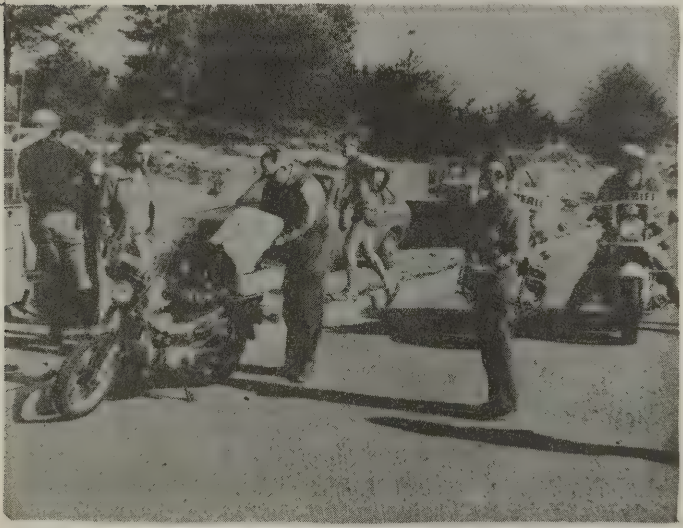
ONE OF THE MANY DAFFODIL FLOATS

ON APRIL 9, 1983, RCT HANDLED THE COMMUNICATIONS FOR THE ANNUAL DAFFODIL PARADE. MARVIN K67V AND WA7OII COORDINATED THE 146.52 NET AND DON WB7BLQ MANAGED THE DOME END. OTHER CLUB MEMBERS STATIONE VARIOUS POINTS ALONG THE PARADE ROUTE WERE; DON K7QLC, SCOTTY K7CYZ, JACK WA7ENB, GAIL N7BVS, WORTH W JERRY KC7NA, RAY W7FNC, TOM N7DRT, JOHN W7KKN, BOB WA7ZZA, HAL WB7OTY, SMITTY K7ATD, RALPH WA6QBK, E WA7UZE, TIM KA7DGV (VISITOR) ROD WA7ZSR, JOHN N7AHX, MIKE K8YDV, JOE WB7OXA, LEN WB7CFH, PETER WA7FUS, K7TVO, JACK K7AFU, PARKER K7GYP AND BUD WB7QCW.(SURE HOPE I HAVEN'T LEFT ANYONE OUT) THANKS EVERYONE ENDURING THE COLD AND WINDY DAY. OTHERWISE, THE PARADE WENT OFF ABOUT AS EXPECTED. ONE FLOAT BROKE SOON AFTER LEAVING THE NEW DOME. ONE LITTLE GIRL, TWO YEARS OLD OR LESS, FOLLOWED THE MICKEY MOUSE FLOAT BECAME LOST. RCT MADE THE RIGHT PARENT LATCH UP.

JEAN, JUST HOW COLD WAS IT??...WB7QCW



SUNDAY, APRIL 17TH., RCT MEMBERS HANDLED COMMUNICATIONS FOR THE BRIDGE RUN. THIS IS ONE OF THE FIRST OF THE SEASON. MIKE COLE WB7BVW WAS STATIONED AT THE FINISH LINE. RALPH KA7FIG, ON MOROTR BIKE, WENT AL WITH THE PACK AND BUD WB7QCW BROUGHT UP THE REAR AND STRAGGLERS, ALONG WITH THE RED CROSS MEAT WAGON.

THE ROUTE WAS 10 km FROM NORTH 37TH AND VASAULT TO THE RACQUET CLUB NEAR GIG HARBOR VIA THE NAR BRIDGE. A BEAUTIFUL DAY, NICE AND WARM WITH NO CASUALTIES EXCEPT FOR A LITTLE RADIO PROBLEM. JOE WB INTENDED TO GO ALONG BUT HIS HAND HELD GAVE OUT. RALPH'S ONE RADIO HAD A BAD MIKE WIRE BUT HE HAD A SP OTHER THAN THAT IS WAS A FINE RUN........................WB7QCW BUD

MY DEAR MR. HARVEY (W6UBX)

IT WAS A PLEASURE TO HAVE A QSO WITH YOU AND I REALLY ENJOYED TALKING TO YOU.

WELL, I HAVE A FAVOR TO ASK OF YOU. I'M NOW LOOKING FOR AN AMERICAN PEN PAL (WHO IS ABOUT 15-20 YEARS OLD) SO, I WANT YOU TO INTRODUCE SOME SUITABLE PERSON FOR ME IF THERE IS AROUND YOU BUT IN CASE THERE IS NOT, I'LL BE RESIGNED. I DON'T RESTRICT THE AGE SO STRICTLY.

I CONTAINED TWO QSL CARDS IN THIS ENVELOPE. ONE IS A PICTURE CARD I TOOK. I'M LOOKING FORWARD TO YOUR LETTER.

YOURS SINCERELY,
KAZUHIRO ASARI

LETTER RECEIVED FROM RCT MEMBER

Eds note:Thanks to WB7QNT & WB7QNS for allowing us to print this letter received from club member Dennis KA7IYH.

MARCH 20, 1983

DEAR KEN & EVE

YOU MAY OR MAY NOT REMEMBER ME AND MY WIFE. MY NAME IS DENNIS STORY KA7IYH MY GERMAN CALL IS DA2VM. MY WIFE IS SUE STORY KA7IYI HER GERMAN CALL IS DA2OX. WE LEFT TACOMA LAST AUGUST. WE ARE NOW STATIONED AT ZWEIBRUCKEN AFO GERMANY. WE ARE BOTH MEMBERS OF THE RCT. I WOULD LIKE TO KNOW IF YOU COULD SEE THAT OUR ADDRESS GETS CHANGED IN THE CLUB RECORDS AND ALSO FOR THE LOGGER'S BARK. MY ADDRESS IS: DENNIS L. STORY P.O. BOX 1616 26EMS, APO NY 09860.

WE HAVE BEEN GETTING THE LOGGERS BARK OFF AND ON (IT IS BEING FORWARDED FROM OUR OLD ADDRESS). SO SOMETIMES WE GET IT AND SOMETIMES WE DON'T. BEFORE I LEFT TACOMA I WAS TOLD THAT THERE WAS A CERTAIN MEMBERSHIP THAT WE COULD GET WHILE WE WERE GONE, WHICH WOULD RETAIN OUR MEMBERSHIP IN THE CLUB, UNTILL WE RETURN TO TACOMA. WILL YOU PLEASE CHECK INTO IT FOR ME AND LET ME KNOW WHAT HAS TO BE DONE?

IF WE WILL BE REQUIRED TO PAY ANY DUES AND HOW MUCH? IF WE DON'T HAVE TO PAY ANY DUES, THEN HOW MUCH WOULD IT BE FOR THE LOGGERS BARK. WE WOULD REALLY LIKE TO RETAIN OUR MEMBERSHIP UNTILL WE GET BACK.

THE ZWEIBRUCKEN AREA RADIO CLUB IS SMALL. WE HAVE ABOUT 15 MEMBERS. THE CLUB CALL IS DA2OV. DURING THE ARRL DX PHONE CONTEST ON THE 5TH AND 6TH OF MARCH, WE HAD SOME CONTACTS FROM WASHINGTON STATE. IT SURE WAS NICE TO HEAR THOSE 7 AREA CALL SIGNS. HERE IN GERMANY, SINCE THE HOLDER OF THE CLUB LICENSE WAS AN ADVANCED HAM, THE CLUB LICENSE WAS A CLASS B LICENSE. IF YOU ARE A HOLDER OF A GERMAN HAM LICENSE, NO MATTER WHAT YOUR CLASS LICENSE IS, YOU CAN OPERATE ON THE FREQUENCY AUTHORIZED TO THE HOLDER OF THE CLUB LICENSE. SO I WAS ABLE TO OPERATE ON 20 METERS. WOW! HERE I WAS IN MY FIRST D.X. CONTEST. MY FIRST TIME ON 20 METERS AND LOW AND BEHOLD, MY FIRST CONTACT WAS W1AW. I COULDN'T BELIEVE IT. SCOTT, THE CLUB LICENSE HOLDER, SAID HE HAD NEVER TALKED TO W1AW AND TOLD ME NOT TO RUB IT IN. HI HI.

MY WIFE AND I HAVE A CLASS "A" LICENSE WHICH GIVES US THE FOLLOWING FREQUENCY AUTHORITY.

80M	3.520 - 3.700 MHz	(PART C/W & PART PHONE
15M	21.090 - 21.150MHz	C.W.
10M	28.000 - 29.700MHz	ALL MODES
2M	144.000MHz AND UP	ALL MODES.

SO, RIGHT NOW, WE ARE USUALLY ON 10 METERS, WHEN THE BAND IS OPEN. WE USUALLY STAY AROUND 28.400 TO 28.600MHz..

(cont. next col.)

THE CLUB HERE DOESN'T HAVE A 2 METER RE
ER, SO MOST OF US JUST USE SIMPLEX. THERE
GERMAN REPEATERS HERE THAT WE USE IF THERE
GREAT DISTANCE BETWEEN US BUT WE DON'T U
THAT MUCH.

IF ANYONE THERE WANTS TO KNOW ABOUT TH
CIPROCAL LICENSE HERE, A NOVICE OR A TECHN
TICKET WILL GET A CLASS "A" GERMAN TICKET.
GETS THE FREQUENCIES THAT I ALREADY TOLD Y
BOUT. A GENERAL CLASS OR ABOVE WOULD GET A
"B" LICENSE, WHICH WOULD GIVE YOU ALL THE A
ABLE FREQUENCIES IN REGION 1. THEY ALSO H
CLASS "C" LICENSE BUT IT DOESN'T REQUIRE ANY
AND IT ONLY GETS YOU FROM 144MHz AND ABOVE (
FREQUENCIES). MY SUGGESTION, IF ANYONE IS
ING OVER HERE, BE SURE TO GET AT LEAST A GE
TICKET. IF YOU CAN'T, DON'T WORRY, YOU
STILL BE ABLE TO USE SOME FREQUENCIES WI
NOVICE OR TECHNICIAN LICENSE.

IT IS REALLY DIFFERENT, HEARING THESE C
RIES HERE IN EUROPE, AS LOCAL CONTACTS AND
USA AS DX.

WELL, GUESS I HAVE RAMBLED ON ENOUGH FOR
IF ANYONE HAS ANY QUESTIONS ABOUT GERMAN
CIPROCAL LICENSING, LET ME KNOW AND I'LL BE
THAN GLAD TO HELP THEM.

PLEASE GIVE OUR 73'S TO ALL OUR FRIENDS A
RCT. WE WILL BE WAITING TO HEAR FROM YOU.

SINCERELY 73's,
DENNIS & SUE

P.S. CATCH YOU ON 10M

THE ARRL BOARD OF DIRECTORS MET IN HARTFORD, CT, APRIL 21 AND 22, 1983. THE BOARD, AFTER EXTENSIVE DISCUSSION, CONSIDERING THE OVERWHELMING OPPOSITION OF LEAGUE MEMBERS TO THE NO CODE LICENSE AND FINDING LITTLE EVIDENCE THAT THE REQUIREMENT FOR A KNOWLEDGE OF MORSE CODE IS A SIGNIFICANT BARRIER TO ENTRY INTO AMATEUR RADIO, UNANIMOUSLY VOTED TO FILE COMMENTS WITH FCC OPPOSING IN THE STRONGEST POSSIBLE MANNER THE CREATION OF AN AMATEUR LICENSE CLASS THAT DOES NOT REQUIRE DEMONSTRATION OF KNOWLEDGE OF THE

MORSE CODE. THE BOARD ADOPTED THE POSITION STATEMENT, WHICH IS THE SUBJECT OF ARRL BULLETIN 32.

IN OTHER REGULATORY MATTERS, THE BOARD DIRECTED THAT FAVORABLE COMMENTS BE FILED IN THE FCC PROPOSAL TO ESTABLISH 10 YEAR LICENSE TERMS AND 2 YEAR GRACE PERIODS. THE BOARD REAFFIRMED ITS SUPPORT OF THE HF PHONE BAND EXPANSION PROPOSED BY FCC FOR THE 80, 15 AND 10 METER BANDS WHICH IS CONSISTENT WITH THE ARRL PROPOSAL AS OUTLINED ON PAGE 51 OF OCTOBER 1982 QST.

THE BOARD APPROVED A REVITALIZATION PLAN FOR THE INTRUDER WATCH AND ADOPTED THE RECOMMENDATION OF THE BOARD THAT 2 METER SPLINTER REPEATER CHANNELS BE UPRIGHT EAST OF THE CONTINENTAL DIVIDE TO BE PHASED IN OVER A FIVE YEAR PERIOD. IT WAS VOTED THAT MEMORANDUMS OF UNDERSTANDING BE EFFECTED BETWEEN THE LEAGUE AND THE NATIONAL COMMUNICATIONS SYSTEM AND REACT INTERNATIONAL RESPECTIVELY.

PLANS WERE APPROVED FOR A MORE CONTINUOUS WASHINGTON, DC PRESENCE AND FOR THE EVENTUAL AUTONOMY OF THE CRRL OVER A FIVE YEAR PERIOD. AN ARRL SCHOLARSHIP ENDOWMENT FUND HONORING SENATOR BARRY M. GOLDWATER, K7UGA, WAS ESTABLISHED. A PILOT PROGRAM TO HOLD GENERAL ARRL MEMBERSHIP MEETINGS AT THE 1983 AND 1984 ARRL NATIONAL CONVENTIONS WAS ADOPTED. DIRECTORS GRAUER, HOLLADAY, MILIUS AND NATHANSON WERE ELECTED TO THE ARRL EXECUTIVE COMMITTEE.

THE FULL MINUTES WILL APPEAR IN JUNE 1983 QST AR

FOLLOWS A SUMARY OF THE ARRL BOARD OF DIRECTORS POSITION ON DOCKET 83 28 THE SO CALLED NO CODE DOCKET.

1. THE BOARD INITIALLY REGISTERED OPPOSITION TO THE CONCEPT OF A CODELESS LICENSE WHEN IT WAS FIRST RAISED, CITING AMATEUR OPINION DISCLOSED BY THE LRPC FLORIDA STATE SURVEY.

2. FOLLOWING ISSUANCE OF DOCKET 83 28 AND UP TO THE TIME OF THIS BOARD MEETING, ARRL HAS MAINTAINED AN ESSENTIALLY NEUTRAL STANCE, EDITORIALLY IN CORRESPONDENCE AND IN DISCUSSIONS. ARRL LEADERSHIP, TO THIS POINT, HAS REFRAINED FROM ATTEMPTS TO DIRECT OR PREJUDICE MEMBERSHIP RESPONSE.

(cont. next col.)

3. MEMBERSHIP OPINION CONTINUES TO BE
WHELMINGLY OPPOSED TO DROPPING THE CODE RE
MENT. ANY TOLERANCE FOR A NO CODE LICEN
PEARS TO ARISE MORE FROM ACCEPTANCE OF IT
SUMED INEVITABILITY THAN ACKNOWLEDGEMENT
INTRINSIC BENEFITS PERCEIVED FOR THE A

THE FORESEEABLE FUTURE. CONSIDERING THE O
TION OF THE AMATEUR RADIO SERVICE TO ITS
SERVICE AND COMMITMENTS AND DISCIPLINED U
THE RADIO SPECTRUM, THE BOARD HAS NO ALTER
BUT TO REJECT THE PROPOSAL.

5. THE BOARD IS KEENLY AWARE OF THE DESIRA
OF ENCOURAGING MORE PEOPLE, PARTICULARLY
PERSONS, TO JOIN THE RANKS OF AMATEUR RADI
IS ONLY THE METHOD PROPOSED BY THE COMM
THAT IS UNACCEPTABLE. FOR ITS PART THE
WILL CONTINUE TO SEEK TO IMPROVE AND EXTEN
PROGRAMS TO REACH AND SUPPORT THE ENTRY O
COMERS TO AMATEUR RADIO.

THEREFORE THE ARRL BOARD OF DIRECTORS MEETI

YL NEWS

Ethel, W7WLX

THE BIG NEWS IS FREYA HUTT's UPGRADE. CONGRATULATIONS FREYA AND LET'S HEAR YOU ON THE AIR! ALSO CONGRATULATIONS TO MARION, WB7SQU, TO GENERAL!

THE MINOW PICNIC WAS A GREAT SUCCESS AS USUAL. AT NINE AM SUNDAY, MAY 22, WE GATHERED AT THE BEACH FRONT HOME OF RUTH BENNETT, WA7RVA, WITH 13 PRESENT. LOCAL AREA GALS WERE RUTH WA7RVA, MARGARET WA7RBR, MARION WA7TLL, ORISSA K7KHU, MARY W7QGP, BETTY WA7CBU, FLO KU7F AND ETHEL W7WLX. LUCILLE W7GNV CAME FROM COOS BAY OREGON. BETH W7NJS CAME FROM MILWAUKIE OREGON, JUNE WA7FRM CAME FROM COLVILLE WASHINGTON AND FRIEDA K7PVG AND BERNICE WA7TPU BOTH CAME FROM RICHLAND WA. THERE WERE 10 OMs, WHO ENJOYED THE VISITING, THE POTLUCK DINNER AND SHARING THE $5.00 PRIZE DRAWINGS.

THE SATURDAY NIGHT GET TOGETHER AT THE COUNTRY VITTLES RESTAURANT WAS PRETTY MUCH THE SAME CROWD WITH THE ADDITION OF GERRY K7YDO AND GRACE AD7S, WHO COULDN'T COME ON SUNDAY.

WE LOOK FORWARD TO THE WALLA WALLA HAMFEST IN SEPTEMBER, WHERE WE WILL HAVE OUR USUAL BAZAAR AND ANOTHER CHANCE TO VISIT.

If you know anyone in the club that could use a word of cheer, congratulations or condolences, please call Ethel Devish 472-4213 or Irma Duncan 531-0705.

We try to spread sunshine and we certainly don't want to overlook ANYONE.

RCT HAM OF THE MONTH

KATHY WOOD, N7DVS

KATHY WOOD WAS BORN KATHY ROBERTA McCURDY IN REDDING CALIFORNIA ON NOVEMBER 21, 1949. ALTHOUGH SHE IS DECENDED FROM PIONEER OREGON FAMILIES SHE SAYS SHE HAD THE MISFORTUNE TO BE BORN IN CALIFORNIA BECAUSE HER FATHER WAS WORKING ON THE SHASTA DAM PROJECT.

KATHY'S FIRST CONTACT WITH AMATEUR RADIO CAME THROUGH HER ACTIVATION OF HER FATHER'S HAM RIG AT ABOUT 18 MONTHS OF AGE, WHICH RESULTED IN A PINK SLIP FROM THE FCC FOR HER FATHER! SHE GREW UP LISTENING TO CODE, HELPING DAD SORT TUBES, WATCHING THE WAVY LINES ON AN OSCILLOCSCOPE AND GENERALLY MAKING A NUISANCE OF HERSELF WHILE DAD WAS TRYING TO DX. HER FATHER, RUSS McCURDY, WAS AN ELECTRONICS TECHNICIAN WITH THE FAA UNTIL HIS DEATH IN 1968. HE HELD THE CALLS OF KL7ATC, W6ABO AND FINALLY W7WVS.

KATHY GRADUATED FROM MEDFORD HIGH SCHOOL, MEDFORD, OREGON IN 1967 AND ATTENDED SOUTHERN OREGON COLLEGE IN ASHLAND, OREGON FROM 1967-1969. SHE ALSO ATTENDED OREGON INSTITUTE OF TECHNOLOGY FROM 1973-1975. KATHY AND HER HUSBAND TOM WOOD HAVE THREE SONS, TIMOTHY, DAVID AND JAMES.

MUCH OF HER WORK CAREER WAS SPENT IN REAL ESTATE ESCROW WHERE SHE WAS ESCROW SUPERVISOR FOR TRANSAMERICAN TITLE INSURANCE COMPANY BOTH IN KLAMATH FALLS, OREGON AND IN FEDERAL WAY, WASHINGTON. SHE QUIT ESCROW TO TAKE A POSITION WITH PIERCE COUNTY EMERGENCY SERVICES IN 1980. SHE SAYS IT WAS NOT A HARD DECISION TO MAKE SINCE SHE HAD WORKED FOR JACKSON COUNTY EMERGENCY

NEWS FROM ARRL & WESTLINK REPORT

by W7BUN

EFFECTIVE MAY 22, THE 20-METER BAND HAS BEEN PANDED AS FOLLOWS: 14,150 TO 14,175KHz - EXTRA LY; 14,175 TO 14,225KHz - ADVANCED AND EXTRA; 225 TO 14,350KHz - GENERAL, ADVANCED AND EX- A. THE FCC IS PRESENTLY EXPLORING THE EXPANSION OTHER HF PHONE BANDS AND PROPOSING A 10-YEAR CENSE TERM FOR AMATEUR LICENSES.

IN A RECENT PUBLIC NOTICE, FCC SAYS IT DOES INTEND TO REISSUE UNASSIGNED CALL SIGNS IN FORSEEABLE FUTURE (SUCH AS W OR K 1x3 OR 1x2 LLS). THE NOTICE ALSO EXTENDS TO TWO YEARS THE IE IN WHICH AN EXPIRED CALL SIGN CAN BE RENEWED DURING WHICH A SECONDARY CALL SIGN CAN BE NSFERRED TO A PRIMARY LICENSE.

NASA HAS GIVEN PERMISSION FOR THE FIRST AMA- JR RADIO STATION IN SPACE. DR. OWEN GARRIOTT, FL, WILL OPERATE A 2-METER FM STATION ABOARD NEXT SPACE SHUTTLE MISSION, SCHEDULED FOR PTEMBER, 1983. AMSAT AND ARRL ARE PROVIDING THE ACK BOX TRANSCEIVER" AND THE OPERATING PRO- COL WHICH WILL BE NEEDED IN RDER TO ALLOW AS NY HAMS AS POSSIBLE TO WORK THIS FIRST DXPEDI- ON INTO SPACE. MUCH DISCIPLINE WILL BE REQUIRED AVOID QRM AND "20-METER-TYPE DX PILEUPS". N'S OPERATING WILL BE LIMITED TO 1 HOUR PER .

RESPONDING TO THE OVERWHELMING OPPOSITION TO A -CODE LICENSE BY ITS MEMBERSHIP, ARRL WILL BE ING COMMENTS TO FCC STRONGLY OPPOSING THIS CEPT. THE LEAGUE STATES THAT THERE IS LITTLE DENCE THAT KNOWLEDGE OF CODE PROVIDES A SIG- ICANT BARRIER TO THE ENTRY INTO THE AMATEUR KS AND IT IS CONCERNED THAT THERE BE NO

REDUCTION IN THE LONG-ESTABLISHED ENTRY STANDARDS. COMMENT DEADLINE IS JUNE 28TH AND ALL HAMS ARE URGED TO FILE THEIR OPINIONS WITH FCC. (THE RADIO CLUB WILL BE FILING COMMENTS BUT IT WILL TAKE A CONCERTED EFFORT BY EVERYONE IF WE ARE GOING TO EXPECT TO MODIFY FCC'S PROPOSAL). ON MAY 26TH., FCC DELETED MOST LOGGING REQUIREMENTS INCLUDING THOSE FOR THIRD-PARTY TRAFFIC (SUCH AS AUTOPATCHES). THE NEW RULES WILL GO INTO EFFECT 30 DAYS AFTER PUBLICATION IN THE FEDERAL REGISTER. ALSO SOME MINOR CHANGES WERE MADE IN HF AND 2-METER RACES FREQUENCIES.

LATEST CALL SIGN ASSIGNMENTS INCLUDE: NC7K, KD7JP, N7FEQ AND KA7QCI.

FCC HAS RELEASED A NOTICE OF PROPOSED RULEMAKING (P.R.DOCKET 83-485) CONCERNING EXPANSION OF THE 10-METER REPEATER SUBBAND. A PETITION BY KE7C REQUESTED 29.0 TO 29.7MHz FOR REPEATER OPERATION INSTEAD OF THE PRESENT 29.5 TO 29.7 MHz. THE IMPACT ON SATELLITE USERS LISTENING TO 10 METER DOWNLINKS (29.3 TO 29.5 MHz) AND SIMPLEX OPERATIONS ON 29.6 MHz MUST BE ADDRESSED. COMMENT DEADLINE IS JULY, 1983.

JAMES McKINNEY, CHIEF OF FCC's PRIVATE RADIO BUREAU, ANNOUNCED THAT FCC WILL BACK LEGITIMATELY COORDINATED REPEATERS IN ANY DISPUTES WITH RENEGADE REPEATERS. OPERATORS OF REPEATERS, WHICH ARE CAUSING INTERFERENCE TO REPEATERS WHICH HAVE GONE THROUGH THE FREQUENCY COORDINATING PROCESS, MAY BE CITED FOR "NOT OBSERVING GOOD AMATEUR PRACTICES". IF THEY PERSIST, THEY WILL BE CITED "FOR DELIBERATE AND MALICIOUS INTERFERENCE". FCC WILL RELY ON NATIONAL BANDPLANS, COORDINATION RECORDS AND THE ARRL REPEATER DIRECTORY AS GUIDANCE IN SUCH DISPUTES.

ARRL & WESTLINK REPORT (cont.)

THE EUROPEAN SPACE AGENCY ANNOUNCED THE LAUNCH OF PHASE III B IS SCHEDULED FOR JUNE 16 FROM FRENCH GUIANA. AFTER LAUNCH, IT WILL TAKE FROM 10 DAYS TO 6 WEEKS TO MOVE THE SATELLITE INTO THE PROPER ORBIT AND PREPARE IT FOR USE. IF ALL GOES WELL, WE MAY HAVE OSCAR 10 OPERATIONAL BY THE END OF JUNE!

THE FCC HAS ELIMINATED THE NEED FOR LICENSES FOR CB AND RADIO CONTROL (R/C). ALSO ELIMINATED IS THE NEED FOR CB STATION IDENTIFICATION AND THE MINIMUM AGE REQUIREMENT. CB AND R/C OPERATORS WILL STILL BE BOUND BY FCC RULES AND THE COMMUNICATIONS ACT.

THE FCC HAS ISSUED A NOTICE OF PROPOSED RULE-MAKING (GENERAL DOCKET 83-322) WHICH PROPOSES ABOLISHING THE NEED FOR COMMERCIAL RADIOTELEPHONE LICENSEES. IF THE CHANGES ARE APPROVED, ANY INDIVIDUAL WOULD BE PERMITTED TO PERFORM DUTIES IN THE BROADCASTING INDUSTRY UNDER A LICENSE GRANTED THE STATION OWNER. EQUIPMENT MAINTENANCE IN THE GMRS, BUSINESS, CB AND OTHER SERVICES WOULD BE SIMILARLY AFFECTED.

THE GOVERNMENT OF POLAND HAS ALLOWED AS MANY AS 250 OPERATORS TO RESUME THEIR AMATEUR ACTIVITIES. AT THIS POINT NO ONE SEEMS TO KNOW IF, WHEN OR HOW MANY OF THE 6700 OTHER HAMS LICENSED BEFORE MARTIAL LAW WILL BE BACK.

(cont. next col.)

ARRL BULLETIN NR 40 FROM ARRL HEADQUARTERS
NEWINGTON CT JUNE 2, 1983
TO ALL RADIO AMATEURS BT

THE FCC HAS LIFTED CERTAIN AMATEUR RULE RESTRICTIONS. EFFECTIVE JUNE 15, 1983, AMATEURS USING RADIOTELEPRINTER CODES OR FAST SCAN TV WILL NO LONGER BE REQUIRED TO IDENTIFY IN INTERNATIONAL MORSE CODE OR PLAIN LANGUAGE VOICE. IF USING BAUDOT, ASCII OR AMTOR, STATIONS MAY IDENTIFY USING THE PARTICULAR DIGITAL CODE BEING USED FOR THE COMMUNICATION. IF USING OTHER DIGITAL CODES ABOVE 50 MHZ, STATIONS MAY IDENTIFY USING BAUDOT, ASCII OR AMTOR. FAST SCAN TV TRANSMISSIONS MAY BE IDENTIFIED IN VIDEO USING THE U.S. 525 SCAN LINE STANDARD DESCRIBED IN PART 73 OF THE FCC RULES. THE CW OR PLAIN LANGUAGE VOICE IDENTIFICATION REQUIREMENT WILL STILL APPLY TO FACSIMILE AND SSTV TRANSMISSIONS. AMATEURS WILL HAVE THE OPTION TO CONTINUE USING CW OR VOICE ID AS AT PRESENT FOR RADIOTELEPRINTER OR FAST SCAN TV. ALSO, THE MAXIMUM FREQUENCY SHIFT FOR DIGITAL COMMUNICATION WILL BE RAISED FROM 900 TO 1000 HZ IN THE HF BANDS. ABOVE 50 MHZ THE MAXIMUM SHIFT WILL DEPEND OF THE SIGNALLING RATE USED. THESE CHANGES DO NOT BECOME EFFECTIVE BEFORE JUNE 15. DETAILS WILL APPEAR IN THE LEAGUE LINES FOR JULY QST AR

TUOLA NET HAD THEIR QUARTERLY LUNCHEON ON TH AT THE DOG HOUSE IN SEATTLE THIS TIME. TO THE NORTH TO ACCOMODATE THE GALS LIVING T WAY BUT THE SIX THAT CAME WERE FROM WAY AND POINTS SOUTH TO OLYMPIA.

(cont. next col.)

YL NEWS (cont.)

WE HAD BOBBIE KA7TGF, BARBARA KA7FZQ, MARION WB7SQU, MILDRED K7WQA, ANGELA KC7EQ AND ME W7WLX. THERE WERE ALSO BOBBIE'S OM K7KNZ AND MILDRED'S OM K7WQB.

THE BUSINESS SESSION FIRMED UP THE HOSTING OF THE YL COFFEE HOUR FOR HAMFAIR, SETTING OCTOBER 8TH FOR FALL LUNCHEON AND THE FORMAL NET VACATION UNTIL SEPTEMBER 12TH. FIVE-TWO-FIVE WILL BE ACTIVATED AT 8 P.M. BY ANY OF THOSE WISHING TO TAKE PART IN AN INFORMAL ROUNDTABLE.

PAT MORGAN, N7CAK, IS COMING ALONG NICELY AFTER SURGERY AND WILL BE RECOOPERATING IN THE NICE NEW RV TRAILER THAT ARRIVED WHILE SHE WAS HOSPITALIZED. A VERY NICE WAY TO TAKE IT EASY - REST AND RECOVER, PAT.

CONGRATULATIONS TO CAROL DAHL WHO HAS UP--GRADED TO TECHNICIAN AND IS NOW KA7OCE. ALSO TRACY HANSEL KA7DKX HAS MADE TECHNICIAN AND ANGELA KORN KC7EQ HAS PASSED HER 20wpm CODE ON HER WAY TO EXTRA.

SUNSHINE REPORT

SINCE THE FIRST OF MAY WE HAVE HAD QUITE A FEW OF OUR PEOPLE DOWN AND WE TRIED TO SEND MESSAGES OF CHEER TO THOSE WE KNEW ABOUT. SICK OR INJURED WERE ERIC LANGLOW WA7GHE, HUNT MITCHELL WA7AKW, MEL PRUIT K7ATF, JOHN LOIDHAMER K7ASZ AND ALEX ETHERINGTON KA7JGC.

THOSE HAVING HAD SURGERY OR OTHERWISE HOSPITALIZED WERE VIRGINIA WEIGHTMAN WILMA KANZLER K7OSN, JONAS ASPLUND W7IG, RALPH W7IJJ, JERRY SELIGMAN W7BUN, DICK HAZELMYER WB7CRR, AL AMBROGIO W7DUK, MARJE HAZELMYER, FRANK MOORHEAD W7DWW, LEN GOODWIN WA7HHI AND PAT MORGAN N7CAK. WE ALL SINCERELY HOPE ALL OF THESE GOOD PEOPLE ARE RECOVERED OR NEAR RECOVERY.

WE ARE ALWAYS SORRY TO REPORT 'SILENT KEYS' BUT DID LOSE OUR MEMBER ELMER WRIGHT W7MSI AND FORMER MEMBER GEORGE BIELSKI W6HNM (FORMERLY W7QPM).

WITH THE INCREASED MEMBERSHIP AND THE INCREASED EXPENSE OF FLOWERS, WE ARE CONSIDERING MAKING SOME CHANGES IN OUR AUXILIARY BY-LAWS IN REGARD TO THESE EXPENDITURES. EVEN CARDS ARE BECOMING AN ITEM BUT WE WILL AT LEAST DO THAT BECAUSE WE DO WANT OUR MEMBERS TO KNOW THAT WE SINCERELY CARE ABOUT THEIR GOOD HEALTH. NEWS FROM ARRL & WESTLINK REPORT

de:W7BUN

A THIRD PARTY TRAFFIC AGREEMENT IS NMOW IN EFFECT BETWEEN AMATEURS IN THE U.S. AND THOSE IN SWAZILAND (PREFIX 3D6).

FCC HAS RUN OUT OF COMPUTER PAPER AND THERE HAVE BEEN LONG DELAYS IN ISSUING NEW NOVICE LICENSES! IF YOU OR SOMEONE YOU KNOW, HAS BEEN WAITING FIVE OR MORE WEEKS FOR A NOVICE LICENSE, CALL THE FCC IN GETTYSBURG AT (717) 337-1212. IF A CALL SIGN HAS ALREADY BEEN ISSUED BY THE COMPUTER, YOU WILL RECEIVE PERMISSION TO COMMENCE OPERATING IMMEDIATELY.

ARRL WILL START A MEMBERSHIP REFERRAL PROGRAM IN JULY. FOR EACH NEW MEMBER YOU BRING IN, YOU WILL RECEIVE A CERTIFICATE GOOD FOR A FREE BOOK. THE BOOKS RANGE FROM THE NEW "FCC RULE BOOK" (ONE CERTIFICATE) TO A CURRENT "RADIO AMATEUR HANDBOOK" (THREE CERTIFICATES). DETAILS WILL BE IN JULY "QST".

FCC AND ARRL ARE WORKING TOGETHER TO TEST RFI FILTERS BEING SOLD TO CONSUMERS. THE FILTERS WILL BE TESTED AT THE FCC LAB IN LAUREL, MD. WITH ASSISTANCE OF THE ARRL TECHNICAL DEPARTMENT. THE RESULTS WILL BE PUBLISHED IN "QST" AS A SERVICE TO MEMBERS WHO HAVE TVI PROBLEMS.

WITHIN THE NEXT FEW WEEKS, NASA WILL PROVIDE ARRL WITH THE TIMETABLE OF DR. DAVE GARRIOTT'S, W5LFL, FIRST-HAM-IN-SPACE ORBITS IN WHICH HE WILL BE OPERATING. UPLINK (GROUND TO SPACE SHUTTLE) FREQUENCIES WILL BE 144.910 TO 145.470MHz IN 20KHz INCREMENTS. DOWNLINK (SHUTTLE TO GROUND) WILL BE 145.510 TO 145.770MHz IN 20KHz INCREMENTS. THE MODE WILL BE FM..

THERE ARE SOME INTRIGUING INCONGRUITIES IN THE STORY OF THE SURVIVORS OF THE DJ6SI DXPEDITION TO SPRATLY ISLAND. AFTER THEIR BOAT WAS SUNK BY VIET NAMESE GUNS, THEY DRIFTED IN A 14 FOOT DINGHY WITHOUT FOOD, WATER, SHELTER OR PROTECTIVE CLOTHING FOR 10 DAYS. DURING THIS TIME, THERE WAS NO RAIN AND FEW CLOUDS AND TEMPERATURES REACHED 104 DEGREES F. MEDICAL EXPERTS, CITED BY THE GERMAN PRESS, FELT THE MAXIMUM SURVIVAL TIME UNDER THESE CONDITIONS TO BE THREE OR FOUR DAYS. NOT ONLY DID THE GROUP SURVIVE 10 DAYS BUT THEY REQUIRED LITTLE MEDICAL ATTENTION. IT IS ALSO STRANGE THAT IN SPITE OF THE FACT THAT THE WIND WAS BLOWING NORTH AND THE CURRENTS WERE CONSTANT TO THE NORTHEAST, THE BOAT DRIFTED 230 NAUTICAL MILES IN THE APPOSITE DIRECTION DURING THE 10 DAYS. TO ADD TO THE MYSTERY, DJ6SI IS A COUNTER ESPIONAGE AGENT FOR THE GERMAN GOVERNMENT AND THE OTHER MEMBERS OF THE CREW SEEM TO HAVE TIES TO THE INTELLIGENCE COMMUNITY.

WOMEN'S AUXILIARY

THE NEXT MEETING OF THE AUXILIARY WILL BE JULY TH AT 7:30 PM. IN THE CLUBHOUSE LOCATED AT 1249 UTH WASHINGTON STREET.

THIS MEETING WILL FINALIZE HAMFAIR PLANS, THER IN TICKET SALES, ASSEMBLE BINGO PRIZES AND HEDULE PROGRAMMING AND WORK CREWS. WE NEED ALL E HELP WE CAN GET BECAUSE IT IS A LARGE ORDER R OUR 10 TO 12 ACTIVE MEMBERS. DON'T FORGET E ITEMS YOU CAN CONTRIBUTE FOR OUR FREE BINGO IZES. IT TAKES MANY KNICK-KNACKS TO KEEP OUR SITING LADIES HAPPY.

AT THE JUNE MEETING WE LEARNED THAT THE WINNER CHOSE IN THE AMVET JPOST #1 ESSAY CONTEST A- NG THE 6TH GRADERS, WENT ON TO WIN FOR THE ATE TOO. SHE WAS COLLEEN BOYLE, JUST TURNED 11 ARS OLD AND SHE WAS PRESENTED $100.00 FROM POST $100 FROM WASHINGTON STATE AMVETS, PLUS A QUE, A FLAG, A CERTIFICATE AND THE CHANCE TO NATIONALLY, AT THE AMVETS MEETING JUNE 23RD.

THE 1982/1983 PINOCHLE SESSION CAME TO A CLOSE JUNE 4TH WITH 19 PLAYERS AND MARILYN MOORE AND O SMITH WERE HIGH SCORERS FOR THE EVENING. ION STOLL AND GENE STOLL WERE LOW. THE TOUR- ENT WINNERS WERE RENE SMITH AND HARVEY BISHOP THEY WILL ENJOY AN OUTING AND DINNER AT THE STER SHOP SOUTH WITH THEIR SPOUSES.

MARILYN MOORE AND MARV WHEELER CAN ENJOY USING IR VALUE COUPON BOOKS FOR MORE THAN 6 MONTHS HEAL THE WOUNDS OF BEING LOW FOR THE YEAR. WE WIN WITH THE FUN WE HAVE.

FIELD DAY IS PAST HISTORY AGAIN AND THE GALS THEIR USUAL GOOD JOB OF PUTTING OUT THE LS. IT ALL WENT SMOOTHLY THANKS TO VIVIAN TLEY, TYKIE RAWLINGS, JOYCE LEARY, FREYA HUTT CY HANSEL, SIS SMITH, JAN ROBINSON AND LETTE LEONARD. NICE FACILITIES, NICE WEATHER, UGH FOOD AND ENOUGH HELP MADE A GREAT FIELD .

AT THE JUNE MEETING, FREYA READ A LETTER FROM K THANKING THE AUXILIARY FOR THE PAINTING DONE THE CLUBHOUSE AND GENERAL APPRECIATION OF ALL OUR EFFORTS. IT IS NICE TO HAVE IT IN WRITING N THOUGH WE KNOW THEY APPRECIATE US AND DON'T LLY TAKE US FOR GRANTED. THANKS FELLOWS.

MARJE HAZELMYER HAS HAD COMPLICATIONS RECOV- NG FROM HER RECENT SURGERY AND A WEDDING ON OF IT. SON MIKE WAS MARRIED JUNE 25TH SO JE WAS PRETTY BUSY AND WILL NEED LOTS OF TIME REST AND RECOVER. BEST WISHES MARJE.

FREYA IS ORDERING NAME TAGS ESPECIALLY FOR ILIARY MEMBERS WHO ARE INTERESTED, SO COME GET R NAME ON THE LIST. SEE YOU AT THE MEETING Y 20TH.. ....ETHEL DEVISH

SUM THOTS

de:N7CZV

FOR THE EXPERIMENTER, THE JUNE CQ HAD MANY GOOD PROJECTS FOR QRP. THERE WERE PLANS FOR A TRANSCEIVER FOR THE NEW 30 METER BAND, A TTL XMTR AND 80 METER QRP/QSK CW TRANSCEIVER. AS FOR RECEIVERS, A SIMPLE DIRECT CONVERSION RECEIVER AND A GOOD RECEIVER PRE-SELECTOR

THE 20 METER BAND SEEMS TO BE VERY GOOD THESE PAST MONTHS. PLENTY OF DX FROM EUROPE AND ALL OVER THE PACIFIC. FINALLY TUNED MY CEILING DIPOLE ON 20 TO A 2:1 swr AND SNAGGED CHILE, ZL AND VK FOR SUM DX - THAT IS WHEN I COULD SNEAK AROUND KG7V, MARV AND KL7UR, BOB WHO DX HUNT ON THIS BAND. PERHAPS LATER IN SUMMER I WILL GET A CHANCE TO BUILD A TUNER AND USE A LONG WIRE, JOHN KA7KZO LEFT TO ME, WHEN HE MOVED FROM THE APARTMENT COMPLEX HERE. THEN TOO, I HAVE BEEN THINKING OF BUILDING A QRP RIG THIS FALL FOR 40 METERS.

IT SEEMS TO ME, WITH ALL THE SPOTS NOW APPEARING ON LOCAL TV, OUR CLUB SHOULD CASH IN ON THIS FREE ADVERTISING. HAD A CHAT A FEW WEEKS AGO WITH CORLIN CHARNEL, DISTRICT MANAGER FOR RADIO SHACK STORES IN OUR AREA. I WONDERED WHY WE COULDN'T GET A PLUG IN THE LOCAL STORES. HE HAD NEVER BEEN APPROACHED BEFORE BUT SAID HE WOULD CONSIDER A SMALL QSL SIZE CARD AT THE COUNTERS OF HIS STORES. PASSED THE WORD ALONG TO OUR PRESIDENT FOR CONSIDERATION AT THE NEXT BOARD MEETING. IF WE KEEP IT TO ADVERTISING OUR MEETING TIMES AND PLACE, THAT WE SPONSOR CODE AND THEORY CLASSES AS WELL AS PUBLIC SERVICE WORK. FORGET HOW OLD WE ARE AND ALL THE REST, JUST A SIMPLE MESSAGE WITH A PUNCH TO ATTRACT HAMS IN THE PUGET SOUND AREA. CLUB MEMBERS COULD USE A FEW TO PASS ALONG WHERE THEY WOULD DO THE MOST GOOD. IF WE PRINTED ENOUGH, THEY COULD BE PASSED OUT TO THOSE FOLK INTERESTED IN HAM RADIO AT HAM FAIR AND PUYALLUP FAIR THIS FALL.

I AM WRITING, THIS MONTH, FROM DEEP DOWN IN SOUTH TEXAS. VERA AND I ARE VISITING A DAUGHTER HERE IN SAN ANTONIO. I ALSO TOOK TIME TO VISIT WITH MANY OF MY FRIENDS IN THE SA RADIO CLUB, AT FIELD DAY. SPENT MOST OF MY TIME WITH N5RA, ROY ALLBRIGHT, FOR MANY YEARS, DIRECTOR OF WEST GULF DIVISION, ARRL. ALL IN ALL, IT WAS A FINE FIELD DAY HERE IN TEXAS. .... FRANK

NOTE!

JERRY, W7BUN, HAS QSL CARDS FROM THE QSL BUREAU FOR THE FOLLOWING MEMBERS:
AJ7P - KJ7M - W7IIE - AJ7K - AJ7Y - N7CFI - K7JA

THE FOURTH GRADER CAME HOME AND ANNOUNCED "GUESS WHAT! OUR TEACHER SHOWED US THERE'S A WAY TO DO ARITHMETIC WITHOUT A CALCULATOR."

RE: COMMENTS IN RESPONSE TO NPRM, PR DOCKET 83-28

THE COMMISSION

LOSED HEREWITH YOU WILL FIND AN ORIGINAL AND ELEVEN COPIES OF OUR COMMENTS IN RESPONSE TO PR DOCKET 83-28,
MITTED ON BEHALF OF THE 320 MEMBERS OF THE RADIO CLUB OF TACOMA, INC.

WILL APPRECIATE YOUR CONSIDERATION OF THESE COMMENTS AND WOULD LIKE TO BE INFORMED OF THE FINAL DISPOSITION
THIS MATTER.

YOURS TRULY,
/s/
GERALD N. SELIGMAN
CHAIRMAN, LEGAL AND REGULATORY COMMITTEE
RADIO CLUB OF TACOMA, INC

COMMENTS IN RESPONSE TO
NOTICE OF PROPOSED RULE MAKING

THE RADIO CLUB OF TACOMA, INC., REPRESENTING 320 AMATEUR RADIO OPERATORS IN THE TACOMA, WASHINGTON, AREA,
PECTFULLY SUBMITS THE FOLLOWING COMMENTS IN RESPONSE TO THE NOTICE OF PROPOSED RULE MAKING RELEASED FEBRUARY
1983.

THE MEMBERS OF THE RADIO CLUB OF TACOMA, INC., BELIEVE THAT THE PROPOSAL TO ESTABLISH AN AMATEUR RADIO
ENSE CLASS WITHOUT THE REQUIREMENT TO DEMONSTRATE A PROFICIENCY IN THE INTERNATIONAL MORSE CODE WOULD IR-
OCABLY CHANGE THE NATURE OF THE AMATEUR RADIO SERVICE TO THE DETRIMENT OF THE SERVICE AND TO THE AMERICAN
LIC. WHILE THE PURPOSE OF CREATING MORE INTEREST IN AMATEUR RADIO OPERATION IS CERTAINLY A WORTHWHILE GOAL,
BELIEVE THAT A MINIMUM CODE PROFICIENCY HAS NEVER BEEN AN OBSTACLE TO THOSE INDIVIDUALS TRULY INTERESTED IN
OMING LICENSED AMATEUR RADIO OPERATORS. WE ARE DEEPLY CONCERNED THAT THE INTEGRITY AND THE PRESENT HIGH
NDARDS OF THE AMATEUR SERVICE NOT BE COMPROMISED NOW OR IN THE FUTURE. THEREFORE, THE MEMBERS OF THE RADIO
B OF TACOMA, INC., STRONGLY OPPOSE THE COMMISSION'S PROPOSAL TO IMPLEMENT A "CODELESS" AMATEUR OPERATOR
ENSE, AND SET FORTH THE FOLLOWING FACTS IN SUPPORT OF THEIR POSITION.

1. LEARNING THE INTERNATIONAL MORSE CODE, EVEN WITH A MINIMUM SPEED REQUIREMENT, REQUIRES AN INDIVIDUAL TO
ONSTRATE SELF-DISCIPLINE AND A CERTAIN AMOUNT OF MOTIVATION. FOR SEVENTY YEARS THESE DISCIPLINED INDIVIDUALS
E PROVIDED THE UNITED STATES WITH THE ONLY NATIONAL RESERVE OF TRAINED COMMUNICATOR/TECHNICIANS. IN FACT,
S CONCEPT IS PROMULGATED IN THE COMMISSIONS REGULATIONS GOVERNING THE AMATEUR RADIO SERVICE.(*1) IN THE IN-
ESTS OF MAINTAINING THE HIGH STANDARDS OF THE AMATEUR SERVICE, AND THE CONTINUANCE OF A POOL OF TRAINED OP-
TORS ABLE TO PROPERLY PERFORM PUBLIC SERVICE ACTIVITIES AND PROVIDE EFFICIENT EMERGENCY COMMUNICATIONS, IT IS
ERATIVE THAT ONLY MOTIVATED AND DEDICATED PERSONS BE ADMITTED TO THE AMATEUR RANKS.

2. IN THE INSTANT PROPOSAL, THE COMMISSION STATES THE BELIEF THAT PROFICIENCY IN THE INTERNATIONAL MORSE
E IS AN UNNECESSARY OBSTACLE FOR THOSE WHO HAVE NO INTEREST IN COMMUNICATING WITH THIS MODE. IT SHOULD BE
NTED OUT, HOWEVER, THAT AMATEUR RADIO IS A SELECTIVE SCIENTIFIC AVOCATION, AND LIKE FLYING OR COMPUTING, IT
NOT, NOR WAS IT EVER INTEDNDED TO BE A FOLLOWING FOR EVERYONE. A GREATER INFLUX OF BEGINNERS WOULD BE WEL-
ED ONLY IF THE ENTRY STANDARDS WERE NOT LOWERED TO ACHIEVE THIS GOAL. THE STATED CONCEPT THAT YOUNGER PEOPLE
ARE FASCINATED BY COMPUTER TECHNOLOGY WOULD ALSO BE ATTRACTED TO A "CODELESS" AMATEUR RADIO SERVICE IS NOT
ESSARILY TRUE. COMPUTER PROGRAMMING AND AMATEUR RADIO ARE TWO ESSENTIALLY DIFFERENT FIELDS OF ENDEAVOR; AN
IVIDUAL ATTRACTED TO ONE IS NOT NECESSARILY LIKELY TO BE ATTRACTED TO THE OTHER.

)
C REGULATIONS: PART 97.1 BASIS AND PURPOSE.
EXPANSION OF THE EXISTING RESERVOIR WITHIN THE AMATEUR RADIO SERVICE OF TRAINED OPERATORS, TECHNICIANS, AND
ELECTRONIC EXPERTS.

3. PAST HISTORY HAS PROVEN THAT WHEN THE STANDARDS OF A RADIO SERVICE ARE LOWERED AND VAST NUMBERS O DISCIPLINED INDIVIDUALS HAVE BEEN GIVEN THE PRIVILEGE OF OPERATING IN THAT SERCICE, THE FCC HAS BEEN UNAB PROPERLY REGULATE AND MONITOR FOR RULES VIOLATIONS, AND THE SERVICE BECOMES LESS USEFUL FOR THOSE USING IT PERLY. THE NO-CODE PROPOSAL IS A GAMBLE ON THE PART OF THE COMMISSION WITH THE VERY FUTURE OF THE AMATEUR SERVICE. IF THIS PROPOSAL WERE IMPLEMENTED AND THE PROGRAM WAS NOT SUCCESSFUL, IRREPARABLE DAMAGE TO THE VICE WOULD RESULT. IT IS CONCEIVABLE THAT SUCH A RECKLESS ACTION COULD RESULT IN A VALUABLE NATIONAL RES BEING DESTROYED FOREVER. TRADITIONALLY, AMATEUR RADIO HAS BEEN A SELF-POLICING SERVICE WITH A LOW PERCENTA FLAGRANT RULES VIOLATORS, BECAUSE AMATEURS VALUE THEIR LICENSE AND HAVE PRIDE IN THE ACCOMPLISHMENT OF ACHI A PROFICIENCY IN CODE AND RADIO THEORY IN ORDER TO OBTAIN THAT LICENSE. IT IS A KNOW FACT THAT REDUCTION O REQUIREMENTS TO REACH A GOAL WILL REDUCE A PERSON'S RESPECT FOR THAT GOAL. IT IS OF GREAT CONCERN THAT SOMETHING-FOR-NOTHING TREND, WHICH SEEMS TO BE SYMPTOMATIC OF OUR SOCIETY TODAY, MIGHT WELL BE THE DOWNFALL RESPECTABLE AMATEUR RADIO SERVICE. THE COMMISSION MUST BE QUITE AWARE OF THE SIMPLICITY OF COMPROMISING WR EXAMINATION ELEMENTS, WHICH NOW GUARANTEES THAT ANY INDIVIDUAL CAN SUCCESSFULLY PASS AN FCC EXAMINATION BY MEMORIZING THE ANSWERS PUBLISHED IN A NATIONALLY AVAILABLE BOOK. THE CONTINUANCE OF A MINIMAL CODE PROFIC IS AN ESSENTIAL PROOF-OF-MOTIVATION TO ENSURE THAT ONLY THOSE DEDICATED TO THE ADVANCEMENT OF THE CRAFT CA COME RADIO AMATEURS.

4. THE COMMISSION HAS ISSUED CONSTANT REMINDERS OF ITS LACK OF AVAILABLE RESOURCES FOR ENFORCEMENT O RULES AND REGULATIONS. THE NO-CODE PROPOSAL, IF IMPLEMENTED, WOULD GREATLY INCREASE THE PROBLEM AND EXPEN POLICING THE AMATEUR RADIO BANDS. NOW THE COMMISSION IN ANOTHER PENDING ACTION, DOCKET 83-27 (*2) PROPOS UTILIZE VOLUNTEERS FROM WITHIN THE AMATEUR RANKS TO MONITOR FOR RULES VIOLATIONS. IF THIS "CODE-LESS" LI PROPOSAL WERE IMPLEMENTED, AN UNFAIR SITUATION WOULD EXIST IN WHICH PRESENT LICENSEES, WHO HAVE DEMONST THEIR MOTIVATION BY PASSING A CODE TEST TO BECOME LICENSED, WOULD BE PLACED IN A POSITION OF MONITORING NUMBERS OF NON-MOTIVATED PEOPLE.

5. THERE IS A PRESENT TREND AMONG GOVERNMENT AGENCIES TO LISTEN MORE TO THOSE WHOM THEY REGULATE. AMATEUR SERVICE IS THE LARGEST BODY OF FEDERALLY LICENSED INDIVIDUALS PERFORMING PUBLIC SERCICE AND PROV EMERGENCY COMMUNICATIONS AND THE COMMISSION MUST LISTEN TO COMMENTS AND THE WARNINGS OF AMATEUR OPERATO THIS MATTER. VOLUNTARY EMERGENCY SERVICES WITHOUT GOVERNMENT EXPENSE MUST BE MAINTAINED AT THE PRESENT LEV EFFICIENCY WITHOUT DILUTION OF ACTIVITIES BY NON-MOTIVATED INDIVIDUALS. AN EXAMPLE OF THE RESULTS THAT CA EXPECTED WHEN PRIVILEGES ARE UNEARNED, IS THE PRESENT STATE OF THE CITIZENS RADIO SERVICE, WHERE EMERGENCY MUNICATIONS ARE UNRELIABLE AND OFTEN IMPOSSIBLE. THE USE OF INTERNATIONAL MORSE CODE HAS ALWAYS BEEN EFFE IN EMERGENCY SITUATIONS, OR AS USEFUL BACKUP MODE FOR ANY OTHER FORM OF RADIO COMMUNICATIONS. IN ORDER FO AMATEUR RADIO SERVICE TO CONTINUE ITS EXISTENCE FOR THE "PUBLIC INTEREST, CONVENIENCE, OR NECESSITY", (*3 ENTRY STANDARDS MUST NOT BE LOWERED.

6. THE EMERGENCE OF NEW COMMUNICATIONS MODES, SUCH AS DIGITAL TECHNIQUES, ARE IMPORTANT ADJUNCTS TO ESTABLISHED METHODS, HOWEVER, IF THE COMMISSION IS INSISTENT ON PROVIDING A "CODELESS" DIGITAL CLASS OF LI FOR ADVOCATES OF THESE MODES, IT MIGHT WELL CONSIDER A 900 MHz "PERSONAL RADIO SERVICE" ALLOCATIO "CODELESS" DIGITAL LICENSE FOR AMATEURS PROVIDES VERY LITTLE INCENTIVE TO UPGRADE TO A HIGHER LICENSE C SUCH A CLASS OF LICENSE WOULD TEND TO BE PERMANENT AND COULD NOT BE CONSIDERED AN ENTRY LEVEL AS THE IN PROPOSAL SUGGESTS. THE CANADIAN PROGRAM WHICH ESTABLISHED A DIGITAL OPERATOR PERMIT FOR THE CANADIAN AM SERVICE HAS BEEN UNSUCCESSFUL WITH AN EXTREMELY LOW NUMBER OF LICENSEES. THERE IS NO REASON TO ASSUME T SIMILAR PROGRAM IN THE UNITED STATES WOULD FARE ANY BETTER.

7. THE COMMISSION'S PROPOSAL TO AID HANDICAPPED APPLICANTS BY MEANS OF A NO-CODE LICENSE IS COMMEND HOWERVER, THE MAJORITY OF HANDICAPPED INDIVIDUALS HAVE A GREAT AMOUNT OF SELF-RESPECT AND PRIDE AND DO NO SIRE SPECIAL PRIVILEGES. IF THE COMMISSION THINKS THAT THIS IS A SIGNIFICANT STEP TO ENCOURAGE BONA HANDICAPPED PERSONS TO APPLY FOR AN AMATEUR LICENSE, WE WOULD NOT OBJECT TO SUCH A PROVISION IN THE REGULATI

WHEREFORE, THE PREMISES CONSIDERED, THE RADIO CLUB OF TACOMA, INC., STRONGLY URGES THE COMMISSION TO INATE THE PROCEEDINGS IN PR DOCKET 83-18, AND NOT TO ESTABLISH A "CODELESS" CLASS OF AMATEUR RADIO OPERATO CENSE.

RESPECTFULLY SUBMITTED,
THE RADIO CLUB OF TACOMA, INC.

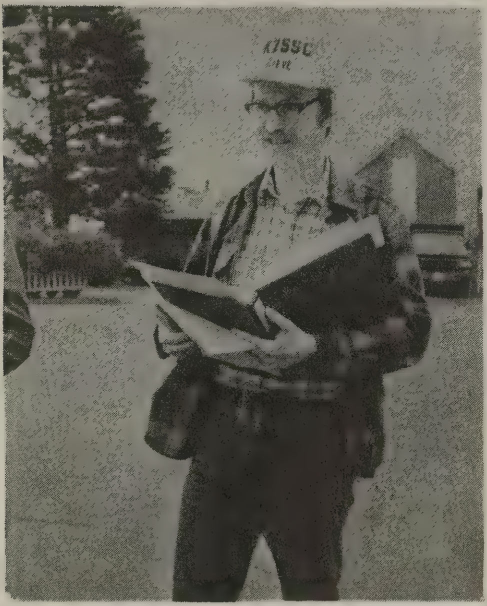
LOGGER OF THE MONTH



STEVE DIGHTMAN K7SSC

STEVE IS A NATIVE OF TACOMA. HIS FAMILY LIVED IN THE NORTH PART OF TOWN AND HE COMPLETED HIS SCHOOLING AT MASON JR. HIGH AND FINALLY GRADUATING FROM STADIUM HIGH. HE ROUNDED OUT HIS FORMAL EDUCATION AT EVERGREEN COLLEGE, BREMERTON.

FROM A YOUNG AGE, STEVE WAS TINKERING AROUND WITH ELECTRONIC HARDWARE, WINDING COILS AND MAKING CRYSTAL SETS WORK. WHEN HE WAS ABOUT 17 YEARS OLD, HE ATTENDED THE TACOMA VOCATIONAL SCHOOL IN THE EVENINGS AND THERE HE MET A PERSON WHO WAS VERY INFLUENTIAL IN HIS LIFE. IT WAS THERE THAT HE MET JERRY, W7BUN, (THEN W5YFS) WHO WAS THE ELECTRONICS INSTRUCTOR. STEVE OBTAINED HIS NOVICE LICENSE AND ABOUT SIX MONTHS LATER, HE UPGRADED TO GENERAL. JERRY TOOK STEVE TO HIS FIRST RCT FIELD DAY AND TO HIS FIRST RCT CLUB MEETING. FROM THAT TIME ON, STEVE WAS HOOKED TO AMATEUR RADIO OPERATING.

BOEING COMPANY WAS STEVE'S FIRST GAINFUL EMPLOYER. HE STAYED THERE FOR FIVE YEARS AND THEN WENT TO WORK FOR A CLOSED CIRCUIT AND PROFESSIONAL SOUND COMPANY. HERE, HE LEARNED MORE ELECTONICS AND THEN BOEING HIRED STEVE AS A TEACHER OF ELECTRONICS, COMPUTER MAINTAINANCE AND COMPUTER PROGRAMMING, WHICH IS HIS PRESENT PROFESSION.

STEVE AND DONNA SELLE WERE MARRIED FOURTEEN YEARS AGO AND HAVE TWO CHILDREN, DEBBORAH 13 AND ROBBIE 11. BOTH ATTENDED ANGELA'S (KC7EQ) NOVICE CLASS LAST YEAR AND BOTH HAVE THEIR NOVICE LICENSE.

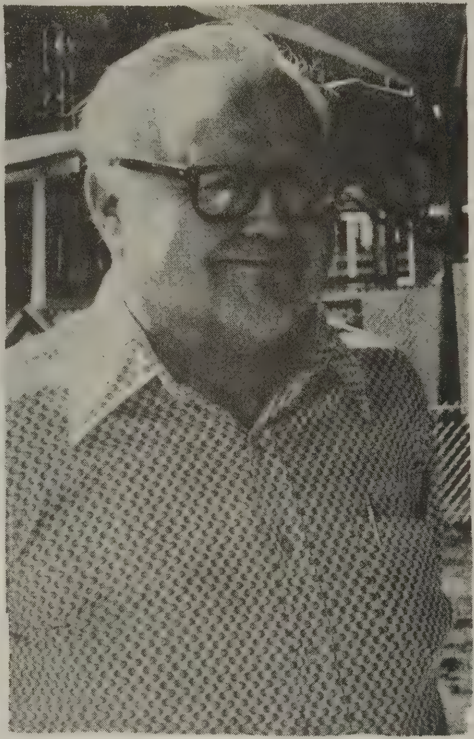
In Remembrance



RODNEY RAY REVER
WA7ZSR

Rod was born April 14, 1919 in Bradshaw Nebraska and died in Dover, England on June 26, 1983 at the age of 64.

Rod moved to Tacoma in 1962 and resided at 951 Skyline Drive. He was a graduate of UPS in 1965. He served in the U.S. navy 21 years, retiring from same with the rank of Lieutenant Commander. He was employed, currently, as a Quality Control Officer for the State Department of Social and Health Services.

Rod joined the Radio Club of Tacoma on March 12, 1975 (RCT #731)and was active in most of the club's activities.

He was also a member of the Tacoma Elks Lodge, The National Sojourners, Masonic Blue Lodge #216 of Bethesda Maryland, The Tacoma Scotish Rite and the Affi Temple of the Shrine. He worked with the stage crew at the Scotish Rite with Don K7QLC and Roy W7AZI.

Rod and his XYL, Phyllis, traveled extensively in the orient and on this, his last trip in Europe he became ill in Dover England and passed away.

Memorial services were held on July 9 by Rose Croix a very appropriate service at the Brookside Buckley King funeral home. Survivors include his wife Phyllis, two sons Roger and Larry both of Tacoma, a daughter Marsha of Tacoma and a brother Stanley of Midland Texas.

The members of the Radio Club of Tacoma extend our sympathies to Phyllis and the members of her family. Rod will be missed greatly by all of us. 73.......by Doc Spike, W7OS

NEWS FROM ARRL & WESTLING REPORT

de:W7BUN

EFFECTIVE AUGUST 31ST., FCC WILL BEGIN NEW PROCEDURES FOR CONDUCTING NOVICE EXAMS. AFTER THE APPLICANT PASSES THE CW EXAM (ELEMENT 1A) THE VOLUNTEER EXAMINER WILL ADMINISTER A 20 QUESTION TEST TAKEN FROM A LIST OF 200 QUESTIONS FURNISHED BY FCC IN PR BULLETIN 1035A. AFTER THE APPLICANT SUCCESSFULLY PASSES THE WRITTEN EXAM (ELEMENT 2), THE EXAMINER WILL SEND FORM 610 TO FCC IN GETTYSBURG. IN ADDITION TO PRESENT RULES WHICH PROHIBIT EXAMINERS FROM BEING RELATED TO AN APPLICANT, FCC NOW FORBIDS AN EMPLOYER/EMPLOYEE OR EMPLOYEE/EMPLOYEE RELATIONSHIP BETWEEN EXAMINER AND APPLICANT. (NOTE: SEE W7BUN FOR COPIES OF PR BULLETIN 1035A AND FCC FORM 610)

FCC REPORT THE LICENSE FORM SHORTAGE HAS BEEN CLEARED UP AND ALL BACKLOGGED LICENSES HAVE BEEN ISSUED. IT IS NOW TAKING 20-25 WORKING DAYS TO PROCESS ROUTINE APPLICATIONS.

FCC HAS CLARIFIED ITS PROHIBITION AGAINST BUSINESS COMMUNICATIONS IN THE AMATEUR SERVICE. A NEW SECTION IN PART 97 EXPLICITLY PROHIBITS BUSINESS COMMUNICATIONS IN GENERAL. THIS INCLUDES ALL TYPES OF COMMUNICATIONS INTENDED TO FACILITATE THE REGULAR COMMERCIAL AFFAIRS OF ANY PARTY, INDIVIDUAL OR ORGANIZATION. MEDICAL EMERGENCY COMMUNICATIONS ARE EXEMPT FROM THIS RULE. ANOTHER NEW SECTION EMPHASIZES THAT INTERNATIONAL AMATEUR COMMUNICATIONS MUST BE LIMITED TO PERSONAL REMARKS AND TECHNICAL EXCHANGES.

JUNE 1ST STATISTICS FOR THE AMATEUR SERVICE LOOK LIKE THIS: EXTRA CLASS-32,922; ADVANCED-95,353; GENERAL-119,100; TECHNICIAN- 76,040; NOVICE-91,558; TOTAL INDIVIDUAL OPERATORS-414,973; CLUB STATIONS-2,592; MILITARY RECREATION-203; SECONDARY STATIONS-256; RACES-535; TOTAL STATIONS -418,559.

DR. OWEN GARRIOTT, W5LFL, NOW HAS THE OFFICIAL AUTHORIZATION FROM FCC TO OPERATE 2 METERS ABOARD THE STS-9 SPACE SHUTTLE MISSION NEAR THE END OF SEPTEMBER. FREQUENCY RANGES WILL BE: SPACE TO EARTH-145.510 TO 145.770MHz AND EARTH TO SPACE-144.910 TO 145.470MHz. ALL OPERATIONS WILL BE F3 (FM) AND WILL AVOID REPEATER INPUTS AND OUTPUTS. FULL DETAILS ON HOW TO WORK THE SHUTTLE ARE IN AUGUST QST.

ARRL HAS FILED SUPPORTIVE COMMENTS ON FCC's PHONE-BAND EXPANSION, DOCKET 82-83. PROPOSED ARE THE FOLLOWING: 3750-3775 EXTRA; 3775-3850 ADVANCED; 3850-4000KHz GENERAL; 21,200-21,225 EXTRA; 21,225-21,300 ADVANCED; 21,300-21,450 GENERAL AND 28,300-29,700 EXTRA, ADVANCED AND GENERAL.

HAMFAIR '83

T HAS BEEN A LONG TIME SINCE THE DAYS OF THE
EST AT THE SPORTSMAN'S CHATEAU AND HAMFAIR
CHANGED AS MUCH AS THE RATE OF INFLATION.
E DAYS ARE NOT TO BE FORGOTTEN BUT USED AS
STICKS AND LESSONS FOR OUR CURRENT VENTURES.

AMFAIR '83 HAS BEEN VIEWED BY MANY AS A
ING SUCCESS AND SEVERAL LETTERS HAVE BEEN
IVED BY THE CLUB WITH FAVORABLE COMMENTS.
REGISTERED ATTENDANCE INCREASED BY 40 % OVER
YEAR AND APPROXIMATELY 1750 ATTENDED. MOST
D AN ASSORTMENT OF THINGS TO DO AND THE COM-
WAS MADE BY MORE THAN ONE, "HOW DO YOU DE-
WHAT TO DO". JERRY W7BUN, ARRANGED FOR A
INTERESTING ASSORTMENT OF SEMINARS AND PRO-
S. THIS, IN CONJUNCTION WITH THE LARGE NUM-
OF FLEA MARKET TABLES AND COMMERCIAL EX-
TS, KEPT MOST BUSY FOR THE ENTIRE TIME.

HE PRIZES, SELECTED BY BOB WA7ZZA AND HIS
, WOULD HAVE MADE ANY OF US HAPPY TO WIN BUT
RE WAS NOT MANY LUCKY PERSONS IN THE CLUB.
LARGEST PRIZE WON BY A DK MEMBER WAS A 2
R HANDHELD WON BY DAVID THOMPSON (HIS DAD
IS LUCKY).

AMFAIR '83' DID NOT JUST HAPPEN. MANY PEOPLE
IN A LOT OF HOURS DREAMING, SCHEMEING, PLAN-
AND WORKING TO PUT THE PACKAGE TOGETHER THAT
HAMFAIR '83' AND I WOULD LIKE TO THANK EACH
HEM FOR THEIR EFFORTS.

T IS NEVER TOO EARLY TO START THE PROCESS A-
FOR '84. THE HAMFAIR COMMITTEE WILL BE
ING IN THE NEAR FUTURE AND YOUR INPUT IS
ED.

ROSTER BOOK

THE NEW ROSTER BOOK HAS BEEN COMPLETED. THE FIRST COPIES WERE DISTRIBUTED AT THE LAST MEETING OF AUGUST. THERE WAS A MAJOR ERROR IN THE PRINTING. PAGE 19 WAS PRINTED IN ERROR, WHICH IS A DUPLICATION OF PAGE 20. WILL BLAME IT ON THE COMPUTER. ANYWAY, THE PAGE DUPLICATED SHOULD HAVE BEEN PRINTED WITH THE INFORMATION ON HATHAWAY TO HOFFMAN. THE CORRECTED PRINTING WILL BE IN THIS ISSUE ON ANOTHER PAGE. IT CONTAINS THE CORRECTED PAGE INFORMATION AND SHOULD BE CUT OUT AND STAPLED, PASTED OR SCOTCH TAPED OVER THE INCORRECT PAGE. THE PRINTS PICKED UP FROM THE SEPTEMBER MEETING ARE CORRECT AND ALL FUTURE COPIES PICKED UP AT CLUB MEETINGS WILL BE CORRECT.

THERE ARE OTHER ERRORS IN THE PRINTING AND THEY ARE LISTED ON THE USUAL 2ND PAGE OF THIS BARK. THEY WILL BE LISTED BY PAGE NUMBER AND ENTRY NAME OR CALL.

ALSO THE NEWEST MEMBERS OF RCT SINCE THE CUT-OFF DATE FOR ENTRY, UP TO THIS DATE, ARE LISTED.

PLEASE NOTE THE INFORMATION LISTED FOR YOU IN THE PAGES AND LET US KNOW IF THERE IS A MISPELLING OR INCORECT INFORMATION LISTED. REMEMBER, THESE ARE THE LISTINGS AS KEPT BY THE CLUB FOR FUTURE REFERENCE AND WE DO WANT TO HAVE THE CORRECT INFO ON YOU, OUR VERY IMPORTANT AND NEEDED MEMBER.

THANKS TO SEVERAL MEMBERS WHO HAVE BROUGHT THE ERRORS LISTED TO OUR ATTENTION. SOME ERRORS WERE BROUGHT TO OUR ATTENTION BY MEMBERS, OTHER THAN THE ONE WHOSE LISTING WAS INCORECT.

WOMEN'S AUXILIARY

THE NEXT MEETING OF THE AUXILIARY WILL BE EPTEMBER 21ST AT 7:30PM AND WILL BE HELD IN THE LUBHOUSE AT 1249 SOUTH WASHINGTON STREET.

WE HAVE SCHEDULED A POTLUCK DINNER AT THE LUBHOUSE, FOR OCTOBER 16TH AND WE WILL FINALIZE UR PLANS FOR THAT AT THIS MEETING. PLAN TO COME ND BRING A SALAD OR A DESSERT AND WE WILL OCIALIZE AND GET BETTER ACQUAINTED. WE WOULD SPECIALLY LIKE THE NEW MEMBERS TO BRING THE AMILY AND ATTEND.

ALL NINE OF US AT THE AUGUST MEETING FELT AMFAIR WENT WELL AND WE WERE PLEASED WITH THE AVORABLE COMMENTS FROM THE OUT-OF-TOWN LADIES. HE LOTTERY TICKET RAFFLE WAS WON BY A FRIEND OF LICE WHEELOCK AND THE REPORT CAME IN THAT IT ETTED THE GUARANTEED $60.00 - NO MORE! THE RE-OTE PHONE WENT TO A CLUB MEMBER.

PINOCHLE STARTED ON SEPTEMBER 10TH WITH 25 LAYERS - NEW CARDS - NO BETTER LUCK BUT LOTS OF OOD FOOD AFTERWARDS. HIGH SCORERS FOR THE EVE-ING WENT TO IRMA DUNCAN AND MARVIN WHEELER. LOW ONORS WENT TO MARIAN STOLL AND DON HUT. IT IS EVER TOO LATE TO JOIN IN AND THE NEXT SESSION ILL BE ON OCTOBER FIRST AT 8 PM. WE WILL PLAY ACH 1ST SATURDAY OF THE MONTH, THROUGH JUNE, AT HE CLUBHOUSE. SINGLES ARE WELCOME, TOO.

HOPE TO SEE YOU AT OUR SEPTEMBER 21ST MEETING.

HAM FAIR HAS COME AND GONE FOR ANOTHER YEAR. WAS BUSY MOVING MY QTH UP STREET AWAYS, SO IDN'T SPEND BUT A FEW HOURS THERE. HOWEVER, I NJOYED EVERY MINUTE OF THE TIME SPENT THERE ROUSING ABOUT THE FLEA MARKET. THE XYL's ARE TO E CONGRATULATED ALSO ON THE FINE JOB THEY DID ITH THE EATING. THE SANDWICHES AND ALL WERE FB.

RECEIVED A CARD FROM JR3VII, KEN, THE OTHER AY. HE REPORTS THAT HE HAD SOME HEART DISEASE. IS DOCTOR SAID IT'S NOT SERIOUS SICK SO HE IS Q-ING ALONG AS USUAL. HE REPORTS THAT CONDITIONS HAVE BEEN VERY POOR THE PAST 5 MONTHS SO HAT HE HAS NOT HEARD SIGNALS OF KA7X, ROY OF OY, SINCE APRIL. HOWEVER, THE CONDITIONS BE-WEEN W AND J SEEMS TO BE CHANGING AND IMPROVING INCE MID AUGUST. HE MADE A QSO WITH A STATION N OAK HARBOR, WASHINGTON. HE IS ON EVERY MONDAY VENING; FREQUENCY 21.068 AT 7:20 PST OR 6:20 DT. IS ANXIOUS TO WORK CLUB MEMBERS FOR LOGGERS ONTACTS, AS HE IS A MEMBER OF OUR CLUB.

ALSO AT HAND IS A CARD FROM MY OLD FRIEND A0HR, JACK FROM APELDOORN IN HOLLAND. HE RE-ORTS, 20 AND 15 METER BANDS ARE VERY POOR AT HIS OCATION, WITH MUCH QRM FROM GERMAN AND RUSSIAN TATIONS.

(cont. next col.)

SUM THOTS (cont.)

JACK IS AN OLD TIME CW MAN AND MANAGED THE DUTCH QSL BUREAU (OUT OF ROTTERDAM) FOR MANY YEARS. I MET HIM AFTER WW II, WHEN HE LOST ALL HIS GEAR IN THE BOMBING OF ROTTERDAM. I MANAGED TO RALLY THE GENERAL RADIO GANG, WHERE I WAS WORKING IN CAMBRIDGE, MA., AND WE SCROUNGED UP SURPLUS GEAR TO PUT HIM BACK ON THE AIR.

I SURE HOPE THE BANDS WILL IMPROVE SOON, AS I AM ANXIOUS TO GET ON THE AIR AGAIN. NEW QTH IS FACING 40TH ST W AND HAS ACCESS TO AN ATTIC. THE XYL WILL BE GLAD TO GET ALL THOSE DIPOLES OFF THE BEDROOM CEILING AND HAVE THE CHANCE TO IMPROVE THE DECOR OF OUR APARTMENT. HOWEVER, I SURE GOT A LOT OF GOOD DX CONTACTS OUT OF THEM.

CQ, FOR SEPTEMBER, HAS ARTICLES WHERE WITH A LITTLE EFFORT AND NOT MUCH MONEY, YOU CAN INCREASE THE MEMORY OF YOUR TRS-80, MODEL 1, TO INCLUDE RTTY AND OTHER SOPHISTICATED MODES. UPDATING TO 48 K OF MEMORY WITH 64 K CHIPS. ARTICLE COMES FROM W1ICP, LEW McCOY, EX QST WRITER AND EXPERIMENTER.

YL's DON'T FORGET THE UPCOMING "HOWDY DAYS" ON SEPTEMBER 10TH AND 11TH. ALL LICENSED WOMEN OPERATORS, THROUGHOUT THE WORLD, ARE INVITED TO JOIN THE PARTY. THE B.E.A.R.S. WASHINGTON STATE QSO PARTY SHOULD SEE MANY OF OUR CLUB MEMBERS ON THE AIR ON THE WEEK-END SEPTEMBER 17 TO 19. I NOTE THERE IS PLENTY OF ROOM IN THIS CONTEST FOR NOVICES.

DURING SEPTEMBER AND EARLY OCTOBER, THERE SHOULD BE A NOTICEABLE INCREASE IN 10 METER DX OPENINGS DURING DAYLIGHT HOURS. ALSO SOME IMPROVEMENTS IN THE 15 AND 20 METER BANDS SHOULD BE NOTED. 73,................N7CZV

YL NEWS

THE TUOLA 2 METER YL NET WILL START UP AGAIN ON SEPTEMBER 12 AND MEET EACH MONDAY EVENING AT 8 PM ON 145.470 (INPUT 144.870). THIS NEW FREQUENCY WILL BE MUCH BETTER AND SHOULD GET AWAY FROM CABLE TV INTERFERENCE AT LAST. WE INVITE ALL YL's TO CHECK IN. WE HAVE HAD 40 GALS ON THE NET AT ONE TIME OR ANOTHER AND IT IS A GOOD PLACE TO GET ACQUAINTED.

THE TUOLA PRESIDENT, BOBBIE KINDER WB7TGF, IS OFF ON A VACATION TRIP BUT VICE PRESIDENT, MARION O'NEIL WB7SQU, WILL FILL IN WHILE SHE IS AWAY.

IT WAS NICE TO SEE INEZ COMBS KA7FMV, AT THE REBELS CAMPOUT. SHE LIVES IN CALIFORNIA THESE DAYS.

AMONG THE UP-GRADES AT HAMFAIR WAS ANGELA KORN KC7EQ, WHO FINISHED UP HER EXTRA. CONGRATULATIONS!

MARY HIEB KA7LYG, HAS BEEN APPOINTED TO THE FRANKLIN PIERCE SCHOOL BOARD AND IS A CINCH TO BE ELECTED TO A 4 YEAR TERM, SINCE SHE IS THE ONLY CANDIDATE. GOOD FOR YOU, MARY!

LETTER TO RCT

JULY 18, 1983

RADIO CLUB OF TACOMA,

PLEASE ACCEPT MY THANKS FOR YOUR CONTRIBUTION TO THE SHRINER'S HOSPITAL FOR CRIPPLED CHILDREN. THIS WAS MOST DEAR TO ROD'S HEART SINCE BECOMING A SHRINER. I APPRECIATE YOUR THOUGHTFULNESS VERY MUCH.

I AM SORRY I COULD NOT ATTEND THE MEETING ON THE 13TH OF JULY. I HEAR DOC SPIKE HAD A VERY NICE MEMORIAL TO HIM (ROD).

THANK YOU ALL FOR THE MANY YEARS ROD HAD WITH YOUR ORGANIZATION. HE CERTAINLY ENJOYED EVERY MEETING AND HIS ASSOCIATION WITH ALL OF YOU.

SINCERELY,
PHYLLIS REVER

LOGGER OF MONTH (cont.)

BILL CREDITS HIS RADIO EXPERIENCE BACK IN 1930 TO 1935 FOR HELPING HIM IN HIS WORK IN THE CIVIL SERVICE AND NATIONAL GUARD.

THINKING BACK TO HIS DAYS AT ST MARTIN'S COLLEGE, HE RELATED TO THE STORY OF THE STUDENTS BUILDING CRYSTAL SETS AND HOOKING THEM UP TO THEIR BED SPRINGS FOR ANTENNAS SO THAT THEY COULD LISTEN (AFTER LIGHTS OUT) TO FATHER SEBASTION RUTH'S RADIO PLAYING MUSICAL RECORDS.

IT IS GREAT TO HAVE BILL ANTES KA7IQQ BACK IN THE RADIO CLUB............................W7OS

AL WALLACE, WA7BZY (RCT #553)

RAN INTO AL AT DENNEY'S RESTAURANT A COUPLE OF WEEKS AGO. HE JUST CAME FROM THE HOSPITAL, WHERE HE AND HIS DAUGHTER HAD BEEN VISITING HIS WIFE, WHO HAS BEEN ILL. AL JOINED THE RCT BACK IN FEBRUARY 1966. WE WISH HIS XYL A SPEEDY RECOVERY

LLOYD SHALLENBERGER, WB7WPQ (RCT #1013)

I CAUGHT UP WITH LLOYD AS HE WAS STROLLING ABOUT AT HAMFAIR. WHEN I INQUIRED, "WHAT'S UP?" HE REPLIED, "I JUST GOT MY GENERAL LICENSE." CONGRATULATIONS LLOYD! LLOYD JOINED RCT IN AUGUST 1981.

HOWARD NICHOLS, W7HWD

HOWARD IS MAKING WONDERFUL PROGRESS AT ORCHARD PARK CONVALESCENT & REHABILITATION CENTER. HE HAS BEEN SO WELL THAT HE WAS TRANSFERED TO ORCHARD VILLAGE RETIREMENT APARTMENTS WHERE HE WILL HAVE HIS OWN APARTMENT AND I HOPE TO PAY HIM A VISIT SOON. HE HAS HIS 2 METER HAND HELD GOING.

ESTELLA MITCHEL, WB7EZP

ESTELLA, XYL OF HUNT MITCHEL, WA7AKW, IS IN MADIGAN GENERAL HOSPITAL AT FORT LEWIS. THE DOCTORS WERE FEARFUL OF PNEUMONIA. NO VISITORS FOR A WHILE. WE ARE ALL WISHING HER A SPEEDY RECOVERY.

RALPH WESTGRUND, W7IJJ (RCT #254)

ALTHOUGH NOT A CURRENT MEMBER OF RCT, RALPH JOINED THE CLUB BACK IN SEPTEMBER, 1946. SEVERAL MONTHS AGO HE SUFFERED A STROKE AND WAS IN THE ORCHARD PARK CONVALECENT CENTER. HE HAS BEEN MOVED FROM THERE AND HAVE NOT BEEN ABLE TO DETERMINE WHERE HE IS PRESENTLY LOCATED. HANK, W7UD HAS BEEN TAKING CARE OF RALPH'S PERSONAL MATTERS AND AT THIS TIME I HAVE NOT BEEN ABLE TO GET IN CONTACT WITH HANK. HOPE TO HAVE SOME INFORMATION FOR THE NEXT ISSUE OF THE BARK.

If you know anyone in the club that could use a word of cheer, congratulations or condolences, please call Ethel Devish 472-4213 or Irma Duncan 531-0705.

We try to spread sunshine and we certainly don't want to overlook ANYONE.

NOW WE HAVE A THIRD ENTRY INTO THE CALL BOOK MARKET. NONE OTHER THAN ARRL, NOW PUBLISHING A CALL BOOK DIRECTORY.

NEXT TO COME OUT IS A NEW SOLID STATE DIGITAL LED POCKET SCOPE. FEATURES ARE; ALL SOLID STATE DESIGN FOR HAND HELD OR BENCH OPERATION WITH A HIGH RESOLUTION 210 POINT, 1.5" SQUARE DISPLAY, AUTOMATIC FULL HORIZONTAL SWEEP CIRCUIT, WITH A 5 MHz BANDWIDTH, A TIME BASE OF .1ms TO .5 SECOND. PRICE CLASS IN THE $250 RANGE AND A 9 VOLT BATTERY SUPPLY OR A/C OPERATION WITH AN ADAPTOR.

HAVE A 15 METER DIPOLE UP INDOORS. GOT A CARD FROM A QSO BACK IN APRIL - ZL1NO FROM AUKLAND, N.Z. RST OF 5-3-9 WITH THE 20 METER ANTENNA ON CEILING WITH A 2:1 SWR. 15 METERS, EXCEPT FOR SPOTS IN EARLY AND MID MONTH, DIDN'T TURN OUT SO GOOD. CQ's '83' WORLD WIDE CONTEST (PHONE SECTION) SHOULD HAVE GOOD OPENINGS ON THE LAST WEEK END OF OCTOBER. NO SIGN IN SEPTEMBER OF KEN, JR3VII.

CQ, FOR OCTOBER, CONTINUES WITH ARTICLES ON ANTENNAS. ONE, A QUARTER WAVE 'TRIBAND SLOPER' ANTENNA, SHOULD INTEREST OWNERS OF A TOWER.

30 METERS IS GRADUALLY GAINING ACTIVITY AND MAY, IN THE FUTURE, TAKE THE PLACE OF 40 METERS. WITH A POWER LIMITATION OF 250 WATTS, THERE IS AGOOD CHANCE THAT IT COULD BECOME YOUR FAVORITE BAND FOR CW AND RTTY. A REAL GOOD BAREFOOT BAND IF YOU ARE LOOKING FOR A HAVEN FROM MERE SIGNAL REPORTS, QTH EXCHANGES AS WELL AS DUCKING THE POPULAR CONTEST/AWARDS PROGRAMS, THIS BAND SHOULD BE WELL WORTH TRYING.

ILITARY RECREATION	197
ECONDARY STATIONS	253
ACES	535

OTAL STATIONS	413,405

JULY AND AUGUST, 1984, CALIFORNIA HAMS WITH ND CALLSIGNS WILL BE PERMITTED TO SUBSTITUTE THE 6 IN THEIR CALL, EITHER "23" (AS IN 23RD PIC GAMES) OR "84" (AS IN 1984 OLYMPIAD) ON A NTARY BASIS.

RRL HAS FILED A MOTION FOR EXPEDITED ACTION M-1040, WHICH REQUESTS THAT CABLE TV OPERAT- BE REMOVED FROM CHANNELS E (144-150MHz) AND 222-228MHz). THE ORIGINAL PETITION WAS FILED ANUARY 1982 BUT THE LEAGUE CONTENDS THAT THE E INDUSTRY HAS NOT NEGOTIATED IN GOOD FAITH. HOUGH THE AMATEUR RADIO COMMUNITY HAS DONE YTHING IN ITS POWER TO ACHIEVE A WORKABLE TION WITH THE CABLE INDUSTRY, THE CABLE IN- RY HAS DONE LITTLE MORE THAN DRAG ITS FEET."

(cont. next col.)

REPEATER OPERATORS/OWNERS SHOULD REQUEST A REPEATER REGISTRATION FORM, CD 240, FROM ARRL (INCLUDE s.a.s.e.) OR FROM LOCAL ARRL OFFICIALS. THE DEADLINE FOR INCLUDING REPEATER INFORMATION IN THE 1984/85 ARRL REPEATER DIRECTORY IS NOVEMBER 1.

SERIOUS EXPERIMENTERS WHO ARE INTERESTED IN CONDUCTING PROPOGATION OR OTHER STUDIES ON THE 18, 24 OR 902MHz BANDS, CAN OBTAIN AN EXPERIMENTAL CLASS LICENSE FROM FCC. FORM 442 IS USED TO APPLY. THE PRICE FOR THE LICENSE: A COMPLETE REPORT OF THE EXPERIMENTS.

ARRL HAS FILED A PETITION FOR PARTIAL RECONSIDERATION IN DOCKET 82-727, THE NOVICE EXAMINATION MAILBACK PROCEEDING. THE REPORT AND ORDER RELEASED JUNE 12 PROHIBITS AN AMATEUR FROM ADMINISTERING THE NOVICE TEST TO ANOTHER PERSON EMPLOYED BY THE SAME COMPANY. THE LEAGUE CONTENDS THAT AN EMPLOYEE-EMPLOYEE RELATIONSHIP DOES NOT INCREASE THE POTENTIAL FOR IMPROPRIETY AND MAY PRESENT A HARDSHIP FOR "COMPANY" RADIO CLUBS, ESPECIALLY WHERE EMPLOYEES ARE CONDUCTING LICENSING CLASSES FOR OTHER EMPLOYEES.

THE 1983/84 EDITION OF THE ARRL NET DIRECTORY, LISTING OVER 1200 PUBLIC SERVICE NETS, IS AVAILABLE WITHOUT CHARGE. SEND A 9"x12" ENVELOPE WITH 88 CENTS POSTAGE TO ARRL NET DIRECTORY, 225 MAIN STREET, NEWINGTON, CT 06111.

THIS NOVEMBER MARKS THE 50TH ANNIVERSARY OF THE ARRL SWEEPSTAKES CONTEST. TO SPUR GREATER INTEREST BY SMALLER STATIONS, A 200-QSO CERTIFICATE WILL BE OFFERED. FOR MODEST STATIONS, A 500-QSO/50-SECTION AWARD WILL BE OFFERED. THOSE WHO MANAGE THE CLEAN SWEEP (WORKING ALL 74 ARRL SECTIONS), WILL BE ELIGIBLE TO GET A SPECIAL COMMEMORATIVE WHISK-BROOM WITH AN APPROPRIATE 50TH ANNIVERSARY TAG. THE CW SWEEPSTAKES WILL BE NOVEMBER 5TH AND 6TH. THE PHONE SWEEPSTAKES WILL BE NOVEMBER 19TH AND 20TH. (W7BUN WILL HAVE LOG SHEETS AND RULES AT THE OCTOBER CLUB MEETINGS).

AMATEUR RADIO HAS SUFFERED A DRASTIC DECLINE IN THE NUMBER OF PEOPLE LICENSED UNDER THE AGE OF 20. IN AN EFFORT TO REVERSE THIS TREND, ARRL WILL KICK-OFF A NEW NATIONAL PROGRAM TO BRING EXCITING AMATEUR RADIO DEMONSTRATIONS TO YOUNG PEOPLE AND TRANSLATE THAT EXCITEMENT INTO ACTION THROUGH SOON-TO-FOLLOW LICENSING CLASSES. THE PROGRAM, CALLED HAM RADIO ON THE ROAD (HROTR), WILL BE PROMOTED PRIMARILY WITHIN CLUBS. FULL DETAILS ARE IN OCTOBER QST.

ARRL WILL BE INITIATING A DRIVE FOR CONGRESSIONAL ACTION TO ALLOW VOLUNTEER EXAMINATION COORDINATORS TO RECOUP REASONABLE EXPENSES IN ADMINISTERING THE SOON-TO-BE VOLUNTEER EXAM. PROGRAM. THE ARRL ESTIMATES A COST TO THE LEAGUE OF $200,000 PER YEAR TO FULLY PARTICIPATE IN THIS PROGRAM AND IT IS FELT THAT IT WOULD BE FAIR FOR ALL THE MEMBERS TO HAVE TO SHARE THIS COSTLY BURDEN.........cont.next col.

ARRL AND WESTLINK REPORT (cont.)

AMONG THE CREW MEMBERS WHO WERE CASUALTIES OF THE DOWNING OF KOREAN AIR LINES FLIGHT 007 ON SEPTEMBER 1, WAS LIM SANG KI, HL1IJ, OF SEOUL.

THE SPACE SHUTTLE, STS-9, WILL BE LAUNCHED 8:30 AM PDT, OCTOBER 28. THE ENTIRE MISSION SCHEDULE IS BASED ON ELAPSED TIME FROM LIFT OFF, SO IF THERE IS A DELAY IN LAUNCH THE FOLLOWING SCHEDULED AMATEUR RADIO OPERATIONS WILL BE DELAYED BY THE SAME TIME. ASSUMING THE PLANNED LAUNCH TIME, THE TIMES FOR ACQUISITION OF SIGNAL (AOS) FOR OUR AREA ARE:

ORBIT#	DATE	CITY/AREA	TIME
39	10-30	SPOKANE/DENVER	1800PDT
40	10-30	N.CALIF/L.A.	1930PDT

THE FREQUENCIES WILL BE: UPLINK (FROM THE GROUND) 20KHz SPACES BETWEEN 144.91 AMD 145.09MHz (NOT TO INCLUDE REPEATER INPUTS); DOWNLINK (FROM THE STS-9) 144.55MHz PRIMARY, WITH 145.25, 145.53 AND 145.57 AS ALTERNATES. ALSO, MONITOR 145.35 AND 145.45MHz. FCC HAS GRANTED A BLANKET WAIVER OF THE BROADCAST PROHIBITIONS IN PART 97 AND HAS AUTHORIZED RADIO AMATEURS TO RETRANSMIT AUDIO AND VIDEO FROM ALL UPCOMING SPACE SHUTTLE FLIGHTS. EACH AMATEUR MUST FIRST GET PERMISSION FROM NASA, AND MUST LIMIT RETRANSMITTED SIGNALS TO THE AMATEUR SERVICE. CUSHCRAFT HAS ANNOUNCED AN ANTENNA TO CONTACT W5LFL AS HE PASSES OVER IN THE STS-9. CALLED THE ATS-1 "SHUTTLE TURNSTILE ANTENNA", IT IS AVAILABLE FOR $39.95 FROM CUSHCRAFT DEALERS.

IN DX, CHINA, BY1PK, IS SUPPOSED TO APPEAR ON PHONE OCTOBER 4 AT 0100z ON 14,145KHz. ALSO, A NEW STATION FROM SHANGHAI, BY4AA, IS SUPPOSED TO APPEAR OCTOBER 12, WITH JH1ZCT OPERATING OCTOBER 12-15, 40 THROUGH 10 METERS, CW AND SSB.

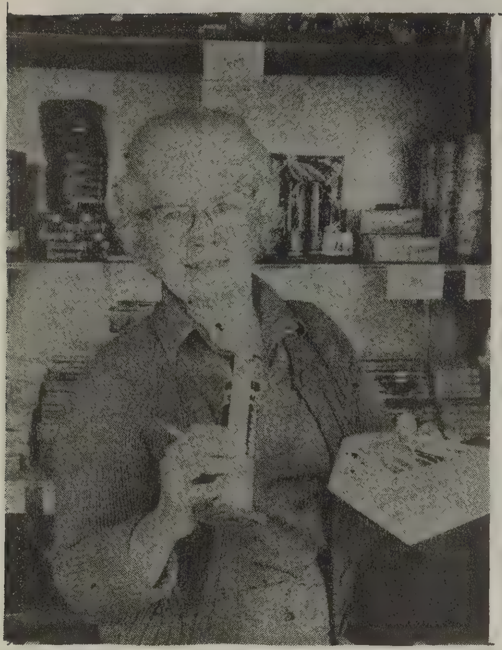
We try to spread sunshine and we certainly don't want to overlook ANYONE.

LOGGER OF THE MONTH



EVA ANDERSON, WB7QNS

WITH GREAT PLEASURE WE FEATURE EVA ANDERSON AS OUR LOGGER OF THE MONTH FOR NOVEMBER. BEFORE WE GET INTO OUR STORY, THAT IS A PENCIL EVA IS HOLDING, WHILE WORKING AT THE RCT FIREWORKS STAND. WE HAVE A VERY KNOWLEDGEABLE AND INTELLIGENT YOUNG LADY HERE.

BORN ON AN EIGHTY ACRE FARM IN TERRIL, IOWA (NOT TOO MANY YEARS AGO) EVA HAD A VERY UNEVENTFUL LIFE. HER SCHOOLING WAS AT THE NEARBY TOWN OF ESTERVILLE, IOWA. IT WAS HERE SHE MET KEN. NOW HER LIFE BECAME EVENTFUL.

IT WAS IN 1939 THAT KEN SET THE LADDER AGAINST THE FARM HOUSE AND WITH SUITCASE IN HAND, EVA AND KEN SCAMPERED OFF TO SIOUX CITY AND WERE MARRIED. THEY STAYED IN ESTERVILLE FOR ONE YEAR WHERE KEN WORKED FOR THE CITY. KEN'S BROTHER WAS WORKING IN TACOMA AND IT WAS HE THAT INFLUENCED THEM TO GIVE IT A TRY OUT HERE. SO THEY PULLED THEIR ROOTS OUT OF THE FARM LAND AND MOVED TO TACOMA. EVA AND KEN WERE EMPLOYED AT THE TACOMA SHIPYARDS UNTIL 1944, WHEN KEN WAS INDUCTED INTO THE NAVY AND SHIPPED OFF TO SAN DIEGO. EVA FOLLOWED AND THEY WERE BOTH THERE UNTIL HIS RELEASE IN 1945. THEY MOVED BACK TO TACOMA AND STARTED THEIR LIFE OVER AGAIN.

THEY HAVE TWO SONS, FRED BORN IN 1946 AND NOW DIRECTOR PIERCE COUNTY. SON NUMBER TWO, RICK, BORN 1960 IS IN HIS THIRD YEAR AT WESTERN WASHINGTON STATE, BELLINGHAM AND MAJORING IN DRAMA.

(cont. next column)

LOGGER OF MONTH (cont.)

EVA IS A MONITOR OF THE TWO METER 146.04/64 REPEATER AND HAS BEEN SO VERY HELPFUL WITH PHONE CALLS FOR HAMS IN TROUBLE OR JUST IN NEED OF SOMEONE TO TALK TO. SHE HOLDS A GENERAL LICENSE FROM 1978, GETS ON THE HF BANDS OCCASIONALLY, INBETWEEN HER NEEDLEWORK AND HOUSE HOLD CHORES.

ONE OF EVA'S HOBBIES IS METAL DETECTING. SHE IS A MEMBER OF THE PUGET SOUND METAL DETECTORS CLUB AND ON NICE SUNNY DAYS SHE WILL BE LOOKING FOR OLD COINS, RINGS AND MAYBE A PULL-TAB.

BOTH EVA AND KEN WERE INTO CB RADIO BUT LIKE SO MANY OF US, JUST COULDN'T TAKE IT ANY LONGER. THE NOVICE CLASS OF JANUARY, 1977 WITH BUD CHURCHWARD, WB7FHC AND JOE WINTER, WA7RWK AS INSTRUCTORS, WAS THEIR INTRODUCTION TO THIS FACINATING HOBBY OF AMATEUR RADIO.

EVA AND KEN, ALONG WITH ROY KA7X AND CARL WERE THE INSTIGATERS OF THE 10AM FRIDAY MORNING BREAKFAST AT THE FLAME II RESTAURANT. (92ND AND PACIFIC AVENUE) EVA WANTS ALL OF THE CLUB MEMBERS AND THEIR FRIENDS TO UNDERSTAND THIS IS AN OPEN WEEKLY GATHERING, FOR NO OTHER REASON THAN TO ENJOY EACH OTHERS COMPANY. EVERYONE IS INVITED.

EVA, I'LL SAY IT FOR ALL THE CLUB MEMBERS, THANK YOU, YOU ARE A DOLL..........BUD WB7QCW

SOCIABILITY AWARD PRESENTATION

Ed's note: (A Sociability Award was presented to a RCT member at the October 26th meeting by 2 RCT members with the following announcement.)

BILL, N7BAA, INVITED ME (N7AZN) TO MY FIRST RADIO CLUB OF TACOMA MEETING. BETWEEN BILL AND THE FELLOW WE WILL BE SPEAKING OF, THEY WERE THE DIRECT CAUSE I JOINED THE RADIO CLUB. NOW, ONCE IN A WHILE, I RAISE MY HAND TO VOLUNTEER TO HELP PARADES, FAIRS AND HAM FAIR (INCLUDING SCOTTY'S LOGGERS BRAKFAST).

I AM HERE TODAY TO HELP PRESENT A SMALL TOKEN OF OUR APPRECIATION TO A PERSON WE WILL CALL MR. SOCIABILITY. ON MY FIRST MEETING NIGHT, THIS GENTLEMAN CAME OVER, SHOOK MY HAND AND WELCOMED ME TO THE RADIO CLUB OF TACOMA. HE TALKED OF CLUB ACTIVITIES, THE NEED FOR HELP, LOGGERS CERTIFICATES, AS A WAY OF MEETING RADIO CLUB MEMBERS. I SET A SMALL GOAL JUST FOR THIS GENTLEMAN, OF GETTING 200 LOGGERS OR RADIO CONTACTS. I HAVE EITHER 210 OR 220 NOW BUT I SET NO RECORD IN GETTING THEM (ONE A WEEK AVERAGE SINCE JOINING, HI).

THIS GETLEMAN, WE ARE HONORING WITH THIS TROPHY OF APPRECIATION, WELCOMES ALL NEW MEMBERS BY MAKING THEM FEEL WELCOME AND NEEDED IN THIS CLUB. THIS SETS A LASTING IMPRESSION ON THE VISITOR OR NEW MEMBER.

BILL WILL PRESENT THE TROPHY AND READ THE INSCRIPTION ON THE TROPHY.....

(The award printed on the trophy is on page 5)

HAL BOYD, ZL1CH
AUCKLAND, NZ

HAROLD BOYD, ZL1CH IS A LIFE TIME RESIDENT OF AUCKLAND, NEW ZEALAND, WHERE HE NOW RESIDES WITH HIS WIFE, HELEN. HE WAS FIRST LICENSED AS AN AMATEUR RADIO OPERATOR IN 1930 WHEN HE WAS 18 YEARS OF AGE. ON 75 METERS SINCE 1930, WITH THE EXCEPTION OF THE WAR YEARS, HE HAS WORKED ALL OF THE AMATEUR BANDS BETWEEN 2 AND 160 METERS USING BOTH CW AND PHONE.

HE HAS BEEN A MEMBER OF THE NEW ZEALAND AMATEUR TRANSMITTER (INC) SINCE THE EARLY 30'S AND HAS SERVED AS COUNSELOR AND VICE PRESIDENT OF THE NATIONAL ORGANIZATION. HE HAS BEEN CHAIRMAN OF THE AUCKLAND BRANCH AND HAS SERVED AS DISTRICT SECTION LEADER OF THE AMATEUR RADIO EMERGENCY CORPS. FOR 15 YEARS.

HAL IS A MEMBER OF THE OLD, OLD TIMERS CLUB, WHICH IS COMPARABLE TO OUR QUARTER CENTURY WIRELESS ASSOCIATION (QCWA). HE HOLDS A FIRST CLASS COMMERCIAL LICENSE AND HE HAS WORKED AS A SHIP'S RADIO OFFICER UNTIL JUST RECENTLY.

HAL WAS A HOUSE GUEST FOR A FEW DAYS DURING THE WEEK OF OCTOBER 12TH. WITH JACK SHEPPARD, W7VOV.

WOMEN'S AUXILIARY

THE NEXT MEETING OF THE AUXILIARY WILL BE WEDNESDAY, NOVEMBER 16TH AT 7:30PM IN THE CLUBHOUSE AT 1249 SOUTH WASHINGTON STREET. DURING THIS MEETING, PAT MULLEN WILL PRESENT DIVERSA - GIFTS AND ITEMS FROM MEXICO.

PLEASE MARK YOUR CALENDARS NOW FOR THE DECEMBER MEETING. BECAUSE OUR USUAL MEETING DATE IS SO CLOSE TO CHRISTMAS, WE ARE MOVING THIS ONE MEETING TO DECEMBER 15TH. (THIRD THURSDAY). WE WANT TO HAVE TIME TO USE SOME OF THE COOKIE AND GOODIE RECIPES WE GAIN FROM THIS MEETING.

DID YOU RECEIVE THE FLYER ABOUT SATURDAY, NOVEMBER 12TH.? OUR PRESIDENT, FREYA, PASSED THEM OUT AT THE RADIO CLUB MEETING HOPING THEY WOULD MAKE IT HOME AND BE READ BY THE WIVES. WE WOULD LIKE TO HAVE A VISITING SESSION DURING THE DAY, ANYTIME BETWEEN 9 AND 3, WHEN THE FELLOWS MAKE USE OF THE CLUB STATION AND GET TOGETHER TO RAG CHEW. BRING SOME HANDWORK AND WE WILL GET BETTER ACQUAINTED AND HAVE A SANDWICH AND SALAD LUNCH. WE WILL INVITE OUR HUSBANDS TO JOIN US FOR LUNCH BETWEEN 12:00 AND 2:00. THE CLUBHOUSE HAS A TELEPHONE (759-2040) SO CALL AND SEE WHAT'S GOING ON IF YOU CAN'T MAKE IT IN PERSON.

WE ALL ENJOYED THE POTLUCK GET ACQUAINTED HAM DINNER ON OCTOBER 16TH AND WE WERE PLEASED TO HAVE 75 ATTEND. (SEE PICTURES ELSEWHERE IN THIS ISSUE) WE REALLY DID HAVE SOME NEW FACES AND ENJOYED MEETING EACH OTHER AND HOPE THE ALL FEEL THE SAME. WE ARE PLANNING TO DO IT AGAIN IN THE SPRING, EVEN IF WE HAVE TO RENT A HALL.

WE LIKE TO THINK THE DINNER HELPED TO HAVE SUCH A NICE ATTENDANCE AT THE OCTOBER AUXILIARY MEETING. WE HAD 18 AND AFTER THE MEETING AND PROGRAM, ENJOYED EVELYN BUTLER'S DELICIOUS APPLE CAKE AS A FINE FINISH TO THE EVENING.

DON'T FORGET PINOCHLE ON NOVEMBER 5TH AND DECEMBER 3RD ....ETHEL DEVISH

NEWS FROM ARRL & WESTLINK REPORT

by W7BUN

THE 10-YEAR AMATEUR LICENSE IS NOW A REALITY AND WILL BE PHASED IN AS CURRENT LICENSEES APPLY FOR RENEWAL. AT THE SAME TIME, THE GRACE PERIOD FOR RENEWING AN EXPIRED LICENSE HAS BEEN CHANGED FROM THE CURRENT 12 MONTHS TO 24 MONTHS.

THE ARRL BOARD OF DIRECTORS, MEETING IN HOUSTON, TEXAS, ON OCTOBER 6TH., AMENDED THE BY--LAWS TO ALLOW THE ELIGIBILITY OF TECHNICIAN CLASS HAMS TO HOLD ELECTIVE ARRL OFFICES, SUCH AS DIRECTOR, VICE DIRECTOR AND SECTION MANAGER. THE BOARD ALSO EXPRESSED ITS DESIRE THAT THE LEAGUE PARTICIPATE IN THE VOLUNTEER EXAMINER PROGRAM, ONLY TO COMMENCE UPON GOVERNMENTAL AUTHORIZATION FOR RECOUPMENT OF EXPENSES. IT WAS FELT THAT THE FINANCIAL SUPPORT FOR THE VOLUNTEER EXAMINER CO-ORDINATOR (VEC) SHOULD NOT BE FROM THE LEAGUE (AND THEREBY THE MEMBERS) BUT FROM THOSE WHO WOULD RECEIVE THE DIRECT BENEFIT; i.e.,THOSE TAKING THE TESTS. SENATOR GOLDWATER WILL BE INTRODUCING LEGISLATION THAT WOULD PERMIT VEC's TO COLLECT A FEE OF $4.00 PER EXAM PER APPLICANT.

WE MAY HAVE ANOTHER BATTLE TO RETAIN OUR AMATEUR FREQUENCIES! MANY EMERGING NATIONS ARE DISPLEASED WITH THE OUTCOME OF THE WORLD ADMINISTRATIVE RADIO CONFERENCE IN 1979 (WARC'79) AND ARE DEMANDING A NEW WARC AS EARLY AS 1990. ONE OF THE CONCERNS OF THESE THIRD WORLD NATIONS IS THE AMOUNT OF SPECTRUM GRANTED TO THE AMATEUR SERVICE, WHICH MANY GOVERNMENTS FEAR GIVES ACCESS TO RADIO COMMUNICATIONS TO DISSIDENTS. REPORTS ARE CIRCULATING THAT SUCH A NEW CONFERENCE COULD HAVE AN ADVERSE IMPACT ON WORLDWIDE AMATEUR RADIO FREQUENCY ALLOCATIONS AND COULD LEAD TO THE TOTAL ABOLITION OF CITIZENS RADIO (CB) COMMUNICATIONS.

(cont. next page)

WEST LINK & ARRL REPORT (cont.)

W5LFL's "HAM IN SPACE" MISSION HAS BEEN DELAYED UNTIL AT LEAST NOVEMBER 28TH., DUE TO PROBLEMS WITH EXHAUST NOZZLES ON THE ROCKET BOOSTER ENGINES. THE DELAY SHOULD NOT HAVE ANY EFFECT ON DR. GARRIOTT'S HAM RADIO PLANS, ONCE THE SPACELAB IS IN ORBIT.

THE FCC SAYS IT WILL SEEK LICENSE REVOCATIONS AGAINST AMATEURS WHO PLACE UNCOORDINATED REPEATERS ON THE AIR IN DEFIANCE OF LOCAL OR REGIONAL COORDINATION POLICIES IF THEY CAUSE INTERFERENCE TO THE OPERATION OF PREVIOUSLY EXISTING REPEATER SYSTEMS. FCC SPECIAL SERVICES CHIEF, RAY KOWALSKI, SAID THAT COORDINATED REPEATERS HAVE A RIGHT TO EXIST ON THE FREQUENCY TO WHICH THEY HAVE BEEN COORDINATED. ANOTHER REPEATER OPERATOR HAS TO HONOR THAT AND IF THEY TRY TO MAKE A POINT THAT THEY HAVE A RIGHT TO THAT FREQUENCY, THE ANSWER FROM THE COMMISSION IS THAT THEY DO NOT.

ARRL WILL BE REQUESTING SPEEDED UP ACCESS TO THE 18, 24 AND 902MHz WARC BANDS, AS WELL AS FORMALIZING THE 10MHz BAND. THE LEAGUE WILL ALSO ASK FCC FOR RTTY PRIVILEGES ON 160 METERS.

DXers TAKE NOTE: THE CANADIAN GOVERNMENT HAS ASSIGNED PERMANENT CALL SIGNS FOR DXPEDITIONS TO ST. PAUL'S ISLAND (CY0SPI) AND SABLE ISLAND (CY0SAB).

THE MILITARY HAS AWARDED A $260 MILLION CONTRACT TO HUGHES TO DEVELOP AND PRODUCE A NEW "POSITION LOCATION AND REPORTING SYSTEM" (PLRS), WHICH WILL ALLOW DIGITAL COMMUNICATIONS FOR TROOPS IN THE FIELD. THE INTENDED USE IS IN THE 420-450MHz AMATEUR BAND. IN ANOTHER THREAT TO AMATEUR RADIO, THE NATIONAL MULTI-POINT DISTRIBUTION INDUSTRY HAS PLANS TO GO AFTER THE AMATEUR 2.3GHz ALLOCATION, BLAMING AMATEURS AS THE CAUSE OF "PAY-TV PIRACY".

ACTION ON THE PROPOSED NO-CODE LICENSE IS NOT EXPECTED UNTIL LATER THIS YEAR OR EARLY 1984. THERE IS SUBSTANTIAL SPECULATION THAT THE PRO NO-CODE VIEWS WILL PREVAIL. THE WIDELY HERALDED AIR FORCE LETTER OPPOSING NO-CODE WAS APPARENTLY ONLY A STATEMENT BY SOME AIR FORCE MARS PEOPLE, AND THE FCC SAID MOST OF THE COMMENTS RECEIVED FROM ELECTED REPRESENTATIVES WERE THE RESULT OF EMOTIONALLY GENERATED SOURCES AND WOULD BE MOSTLY IGNORED.

SUNSHINE FUND: MINUTES OF THE AUGUST MEETI
OF THE RADIO CLUB OF TACOMA WERE READ TO REVI
THE BOARD ON THE MOTION TABLED AT THAT MEETI
FOR ACTION BY THE BOARD. SAID MOTION WAS FOR T
RCT TO TAKE OVER THE EXPENSE OF OPERATING T
SUNSHINE FUND, INCLUDING PRUCHASING OF FLOWERS
FROM THE LADIES AUXILIARY. N7DRT ASKED HOW MU
MONEY IS SPENT PER YEAR PROVIDING FLOWERS. ETH
W7WLX STATED THAT IN EXCESS OF $360 IS SPENT EA
YEAR FOR FLOWERS ALONE. IT IS HELD DOWN TO THA
AMOUNT ONLY BECAUSE SHE SHOPS FOR AND DELIVER
INEXPENSIVE PLANTS TO THE HOSPITALS HERSELF
THERE ARE CONTINOUS PROBLEMS WITH NOT BEING AB
TO DELIVER TO OUT OF TOWN PATIENTS, EARLY DIS
CHARGE OF PATIENTS, AND THE LARGE MEMBERSHIP O
THE CLUB MAKES IT VERY DIFFICULT TO KEEP UP WIT
WHO IS SICK. WB7RAX COMMENTED THAT THE LADIE

I'LL TELL YOU RIGHT OFF, I'M NO COMPUTER EXPERT. I HAVE HAD A LITTLE EXPERIENCE ON SEVERAL PCs (PERSONNAL COMPUTERS) THO AND AM CURRENTLY TAKING A FOUR YEAR HOME STUDY COURSE ON MICRO-PROCCESSORS/MICRO-COMPUTERS. HAVE JUST FINISHED THE BASIC ELECTRONICS PORTION AND NOW STARTING ON THE DIGITAL ELECTRONICS PART. VERY INTERESTING COURSE BY NRI.

SEVERAL FOLKS HAVE ASKED ME, WHICH PC I FELT TO BE THE BEST BUY? OF THE SEVERAL I HAVE WORKED, I LIKE THE COMMODORE 64 THE BEST. I FOUND IT TO BE THE EASIEST TO LEARN AND USE AND VERY VERSATILE. IT HAS 64K OR ROM (READ ONLY MEMORY) AND RAM (RANDOM ACCESS MEMORY) TOTAL, COLOR AND SOUND AND DEPENDING ON HOW HARD YOU SHOP, AROUND $200.00. ONE COULD PURCHASE THE C-64 AND ONE DISK DRIVE FOR ABOUT $450.00 AND FOR $100.00 TO $200.00 MORE, USE IT FOR RTTY AND/OR CW. LOTS OF SOFTWARE AROUND FOR THE C-64 (PROGRAMS), BOTH TAPE AND DISK.

LOTS OF NEW, EXPANDED MEMORY COMPUTERS SOON TO HIT THE MARKET. I HEARD IBM IS PLANNING ON INTRODUCING A 128K, SINGLE DISK UNIT FOR LESS THAN $500.00. WILL BE WATCHING AND LET YOU KNOW!

ONE PROGRAM THAT I CAME UP WITH FOR LOGGING IS LISTED HERE. THIS PROGRAM IS FOR USE WITH A DISK DRIVE BUT COULD BE MODIFIED FOR CASSETTE.

ESTELLA B. MITCHELL

WB7EZP

ESTELLA MITCHELL, XYL OF HUNT MITCHELL WA7AKW, PASSED AWAY OCTOBER 25 AFTER AN EXTENDED ILLNESS. ESTELLA WAS BORN SEPTEMBER 6, 1909 IN CHICAGO ILLINOIS AND SPENT MOST OF HER LIFE THERE.

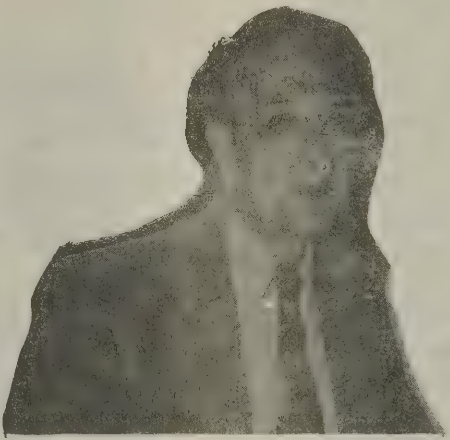
SHE MOVED TO THE TACOMA AREA 16 YEARS AGO. SHE JOINED THE RADIO CLUB OF TACOMA, MARCH 1977 (RCT #801).

ESTELLA WAS A MEMBER OF THE TACOMA CHAPTER ORDER OF EASTERN STAR AND TOOK AN ACTIVE PART IN ITS CEREMONIES AND WAS AN ACCOMPLISHED MUSICIAN. SHE WAS ALSO A MEMBER OF THE SCOTTISH RITE AUXILIARY AND A MEMBER OF THE FIRST CHRISTIAN CHURCH, WHOSE PASTERS ROGER DAVIDSON AND CHESTER NORTHRUP OFFICIATED AT THE FUNER SERVICE. THE OFFICERS OF THE ORDER OF THE EASTERN STAR PROVIDED THE GRAVE SIDE SERVICE.

SURVIVING, BESIDES HER HUSBAND HUNT, ARE A STEP DAUGHTER, MRS. PAUL MARGELLI OF TACOMA AND THREE GAND SONS, CHIP MARGELLI K7JA, TAD AND DAVID MARGELLI.

ALL OF THE OFFICERS, MEMBERS AND THE LADIES AUXILIARY OF THE RADIO CLUB OF TACOMA EXTEND OUR SYMPATHIES TO HUNT AND CHIP....73 DOC, W7OS

In Remembrance



FRANCIS (FRANK) B. HODGDON
N7CZV

ONE BEAUTIFUL SUMMER DAY IN 1981, I WAS SITTING AT MY RADIO DOING SOME GOOD OLE BRASS POUNDING, WHI THIS FELLOW CAME TO THE PATIO DOOR AND ASKED ME WHAT BAND I WAS ON? TURNED OUT HE WAS LISTENING MY SIDETONE THROUGH THE OPEN WINDOW AND CAME TO SEE WHAT WAS GOING ON. THIS WAS MY INTRODUCTION FRANK HODGDON, N7CZV.

AFTER RAGCHEWING A BIT, I FOUND OUT HE AND VERA HAD JUST MOVED IN FROM TEXAS AND WERE IN AN APARTMENT JUST A FEW DOORS DOWN FROM US. FRANK WAS A GENERAL CLASS BUT NEVER OWNED A MICROPHONE AND HAD NO DESIRE TO ACQUIRE ONE.

AT THE TIME I MET FRANK, I WAS USING THE RAIN GUTTER FOR AN ANTENNA. FRANK WAS QUITE INTRIGUED WITH THE IDEA BUT HAD NO WAY TO TAP THE ONE ON HIS BUILDING. SO WHAT TO DO? BEING A MAN OF GREAT RESOURCEFULNESS, HE SET HIS LITTLE DX60A IN THE BEDROOM CLOSET AND BUILT A "DIPOE" USING A PORTABLE WINDOW ANTENNA FOR ONE HALF AND A WIRE ACROSS THE BEDROOM CEILING FOR THE OTHER HALF. SWR? 2:1. NO PROBLEM. DX CITY, HERE COMES FRANK. THAT GUY WORKED AS MUCH CROSS COUNTRY AND DX AS MOST PEOPLE WITH TEN TIMES AS MUCH.

FRANK LIKED TO WORK THE NOVICE BANDS; FELT IT GAVE THEM ONE MORE CONTACT AND A LITTLE MORE EXPERIENCE. WHEN 15 METERS WAS OPEN, YOU COULD HEAR FRANK IN THERE EVERY AFTERNOON, POUNDING AWAY. USING A HAND KEY, HE HAD THE FIST OF A TRUE PROFESSIONAL. WHILE HE COULD COPY AT OVER 20 wpm, HE USUALLY WOULD SEND TO THEM AT A SLOW, CLEAN AND EASY 10 wpm. VERY FEW AROUND THAT COULDN'T KEEP UP WITH HIM.

AFTER ABOUT 6 MONTHS, I MOVED MY FAMILY INTO THE TOWNHOUSE NEXT DOOR TO FRANK AND VERA. TALK ABOUT RECEIVER OVERLOAD; WOW! BUT NO PROBLEM. FRANK WAS ALWAYS COURTEOUS ABOUT GIVING ME PLENTY OF TIME TO OPERATE WITHOUT INTERFERENCE. I LEARNED TO RESPECT FRANK AS A MODEL OPERATOR.

AS A MEMBER OF OUR CLUB, FRANK WAS RESPONSIBLE FOR THIS THE SUM THOTS COLUMN. NEVER A DULL OR DISCOURAGING WORD; ALWAYS INFORMATIVE AND INTERESTING, AS I'M SURE YOU'LL AGREE.

ON OCTOBER 11TH, AT AGE 78, FRANK BECAME A "SILENT KEY". WE WILL ALL MISS HIM AND I HOPE YOU'LL JOIN ME IN KEEPING HIS MEMORY ALIVE AND SAYING, GOD BLESS YOU AND BE WITH YOU ALWAYS. 73 FRANK.

..........JOHN KA7KZO

FRANK WAS BORN IN CAMBRIDGE MASS. DECEMBER 28, 1904. WHILE VERY YOUNG, HE SUFFERED A BOUT WITH RHUEMATIC FEVER WHICH WEAKENED HIS HEART AND ULTIMATELY CAUSED HIS FATAL HEART ATTACK AT THE AGE OF 78. AT THE TIME OF HIS PASSING HE WAS RETIRED, HAVING WORKED FOR 20 YEARS AS AN ELECTRIC TECHNICIAN WITH GENERAL RADIO, WORKING IN THE SATTELITE AND SPACE PROGRAM.

FRANK WAS FIRST LICENSED AS WB5ERI IN SAN ANTONIO TEXAS. HE MOVED TO TACOMA 2 YEARS AGO AND OBTAINED HIS PRESENT CALL. HE JOINED THE RADIO CLUB OF TACOMA AUGUST 5, 1981 (MEMBER #1016). HIS MONTHLY ARTICLE "SUM THOTS" COULD BE FOUND IN THE LOGGERS BARK EACH MONTH.

THE OFFICERS AND MEMBERS OF THE RCT EXTEND OUR SYMPATHY TO HIS WIFE VERA AND ALL HER FAMILY.

(EDITOR NOTE)

THE ABOVE COLUMN WAS RECEIVED FROM DOC SPIKE JUST A FEW DAYS BEFORE HIS SUDDEN ILLNESS. DOC SUFFERED A STROKE ON NOVEMBER THE 28TH AND WAS ENTERED INTO TACOMA GENERAL HOSPITAL THAT MORNING. THE STROKE HAS AFFECTED HIS RIGHT SIDE AND HE IS STILL IN TACOMA GENERAL HOSPITAL AT MAILING TIME, RECOOPERATING. HE NOW HAS HAD VISITS FROM SOME OF THE CLUB MEMBERS AND THE CARDS HAVING BEEN POURING IN. ALL CLUB MEMBERS AND THE MULTITUDE OF FRIENDS ARE PULLING FOR HIM IN HIS TIME OF NEED..............BARK STAFF

AS THIS ISSUE IS POSTED COMPLETING THE FINAL ISSUE OF THE 20TH YEAR OF PUBLICATION, WE OF THE STAFF OF THE LOGGERS BARK WANT TO WISH ALL OUR READERS A VERY MERRY CHRISTMAS AND THE BEST FOR THE NEW YEAR.

NEWS FROM ARRL & HR REPORT

by W7BUN

ARRL STAFF MET WITH THE NATIONAL CABLE TELEVISION ASSOCIATION STAFF TO ATTEMPT TO FIND A SOLUTION TO CABLE/AMATEUR COEXISTENCE. WHILE THERE ARE STILL MAJOR DIFFERENCES IN PHILOSOPHY BETWEEN THE TWO GROUPS, TWO JOINT COMMITTEES WERE ESTABLISHED, ONE HANDLING COMPLAINTS FROM THE FIELD, THE OTHER LOOKING FOR LONG-TERM TECHNICAL SOLUTIONS.

EFFECTIVE JANUARY 1, NEW ZEALAND WILL OBSERVE THE FOLLOWING CALLSIGN STRUCTURE:

ZL1-ZL4	NEW ZEALAND
ZL5	N.Z. ANTARCTIC BASES
ZL6	INTRUDER WATCH AND EMERGENCY
ZL7	CHATHAM ISLAND
ZL8	KERMEDEC
ZL9	AUKLAND/CAMPBELL ISLANDS
ZL0	VISITORS TO N.A.
ZK1	N/S COOK ISLANDS
ZK2	NIUE ISLANDS
ZK3	TOKELAU ISLANDS

FCC RELEASED THE 1984 EXAMINATION SCHEDULE AND IT HAS BAD NEWS FOR HAMS WHO PLAN TO UPGRADE IN THE COMING YEAR. FIELD OFFICE EXAMS WILL ONLY BE HELD QUARTERLY: FEBRUARY 6-10, MAY 7-11, AUGUST 6-10 AND NOVEMBER 5-9. THIS SCHEDULE INCLUDES GENERAL RADIOTELEPHONE COMMERCIAL EXAMS, AS WELL AS AMATEUR. APPLICANTS WILL HAVE TO BE PRE-REGISTERD ABOUT ONE MONTH PRIOR TO THE SCHEDULED TESTING, BY SUBMITTING BY MAIL THEIR COMPLETED FORM 610, A COPY OF THEIR CURRENT AMATEUR LICENSE AND ANY INTERIM PERMITS OR CODE CREDITS. FCC WILL BE SEEKING OUT RENTED SPACE TO CONDUCT EWXAMS, RATHER THAN USING COMMISSION FACILITIES.

FCC HAS RELEASED A 500-QUESTION POOL TO BE USED BY THE VOLUNTEER EXAM COORDINATORS (VECs) IN ADMINISTERING AMATEUR EXAMS. THE QUESTIONS LACK UNIFORMITY IN THAT SOME HAVE YES/NO ANSWERS, SOME SINGLE-WORD ANSWERS, SOME SHORT ANSWERS, ETC.. THE COMMISSION INSISTS ON FLEXIBILITY IN THE TEST FORMAT BUT SOME OF THE ARRL STAFF ARE CONCERNED ABOUT THE LACK OF UNIFORMITY, QUALITY AND DIFFICULTY WHICH COULD LEAD TO A NON-STANDARD PROGRAM.

FCC HAS RELEASED AN ORDER DENYING ADDITIONAL FREQUENCIES FOR 10-METER REPEATERS (P.R.DOCKET 83-483). THE COMMISSION WAS CONCERNED ABOUT ANY POSSIBLE ADVERSE IMPACT ON AMATEUR SATELLITE AND OTHER 10-METER OPERATIONS.

IF YOU HEAR A NET ON 10-METERS ON 28.200MHz SSB, IT IS PROBABLY THE "TAKE 10 NET" OPERATED BY ILLEGAL CBers WHO HAVE MOVED INTO THE HAMS BAND TO AVOID QRM FROM OTHER PIRATE STATIONS. THE NET ORGANIZES DX ACTIVITIES AND THE PARTICIPANTS USE "HAM-SOUNDING" CALL SIGNS. REMEMBER, IT IS AGAINST FCC RULES TO COMMUNICATE WITH AN UNLICENSED STATION!

(cont. next col.)

FCC HAS PRE-EMPTED ALL LOCAL JURISDICTION ON SATELLITE MASTER ANTENNA SYSTEMS. THE COMMISSION ANNOUNCED NOVEMBER 8TH THAT IT HOLDS EXCLUSIVE CONTROL OVER ALL COMMUNICATIONS UTILIZING THESE STRUCTURES AND THAT NO MUNICIPALITY COULD ENACT LAWS OR RESTRICTIONS ON THEIR CONSTRUCTION OR USE. WHILE THIS APPLIES ONLY TO TVRO SITES, IT PROVIDES A LEGAL BASIS FOR FURTHER FCC PREEMPTION OVER ALL FORMS OF ANTENNAS, STRUCTURES AND TRANSMISSION EQUIPMENT, INCLUDING AMATEUR RADIO.

BASED ON COMPLAINTS RECEIVED BY SEATTLE AREA HAMS, FCC HAS BEGUN CRACKING DOWN ON THE ILLEGAL USE OF 2-METERS BY PUGET SOUND FISHERMEN. ALREADY, ONE OF THE ILLEGAL OPERATORS HAS SURRENDERED HIS UNLICENSED HAM EQUIPMENT RATHER THAN HAVING TO PAY A $750 FINE LEVIED AGAINST HIM.

INDUSTRY NEWS:

ICOM - WILL SHORTLY INTRODUCE A FULLY SYNTHESIZED FM MOBILE TRANSCEIVER FOR 220MHz, THE IC-37, WHICH WILL BE SIMILAR IN APPEARANCE AND OPERATION TO THE POPULAR IC-25 AND IC-45 RIGS.

"RUN" IS A NEW COMPUTER MAGAZINE DEDICATED TO COMMODORE 64 AND VIC 20 SYSTEMS. ANNUAL SUBSCRIPTION RATE IS $19.97 TO: RUN, BOX 954, FARMINGDALE, NY 11737.
